Vol. 30, p. 597.

CHAP. 548. An Act Making appropriations for sundry civil expenses of the Government for the fiscal year ending June thirtieth, eighteen hundred and ninety-nine, and for other purposes.

Appropri-
ations for sundry
civil expenses.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled. That the following sums be, and the same are hereby, appropriated, for the objects hereinafter expressed, for the fiscal year ending June thirtieth, eighteen hundred and ninety-nine, namely:

* * * * *

UNDER THE DEPARTMENT OF THE INTERIOR.

* * * * *

MISCELLANEOUS OBJECTS.

* * * * *

INDIAN AFFAIRS: To enable the Secretary of the Interior to cause an examination and investigation to be made of outrages and injuries alleged to have been perpetrated on individual Indians belonging to the Seminole tribe by an armed mob or band of lawless persons who invaded the Seminole country during the months of December, eighteen hundred and ninety-seven, and January, eighteen hundred and ninety-eight, and if, upon such examination and investigation, it shall appear that outrages and injuries have been so perpetrated, and that the United States is under treaty obligations to pay for such outrages and injuries, he shall ascertain the amount which should be properly paid said Indian or Indians, or their legal heirs or representatives, and pay such sum or sums as he may deem just and reasonable, and for such purpose a sum not exceeding twenty thousand dollars is hereby appropriated.

Vol. 30, p. 625.
Investigation of alleged injuries of Seminole Indians.

Vol. 11, p. 704.

Approved, July 1, 1898.

CHAP. 574. An Act To amend an Act entitled "An Act to amend an Act to grant to the Gainesville, McAlester and Saint Louis Railway Company a right of way through the Indian Territory."

July 7, 1898.

Vol. 30, p. 715.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section four of the Act entitled "An Act to amend an Act entitled an 'An Act to grant to the Gainesville, McAlester and Saint Louis Railway Company a right of way through the Indian Territory,'" approved March fourth, eighteen hundred and ninety-six, be, and the same is hereby, amended to read as follows:

Right of way of Gainesville, McAlester and St. Louis Railway through Indian Territory.

Vol. 29, p. 44,

"Sec. 4. That the Gainesville, McAlester and Saint Louis Railway Company shall have the right to begin the construction of its line of road as soon as a map of definite location of the route of said road from Red River through the Indian Territory to or near South McAlester is filed with the Secretary of the Interior and approved by him: *Provided,* That a map of definite location of said road from South McAlester to Fort Smith shall be filed and approved before construction work shall be begun between McAlester and Fort Smith."

Construction to begin on approval of map of location from Red River to South McAlester, etc.

Proviso.

Construction between McAlester and Fort Smith.

Approved, July 7, 1898.

RESOLUTIONS.

[No. 40.] Joint Resolution Declaring the lands within the former Mille Lac Indian Reservation, in Minnesota, to be subject to entry under the land laws of the United States.

May 27, 1898.

Vol. 30, p. 745.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That all public lands formerly within the Mille Lac Indian Reservation, in the State of Minnesota, be, and the same are hereby, declared to be subject to entry by any bona fide qualified settler under the public land laws of the United States; and all preemption filings heretofore made prior to the repeal of the preemption law by the Act of March third, eighteen hundred and ninety-one, and all homestead entries or applications to make entry under the homestead laws, shall be received and treated in all respects as if made upon any of the public lands of the United States subject to preemption or homestead entry: *Provided,* That lot four in section twenty-eight, and lots one and two in section thirty-three, township forty-three north, of range twenty-seven west of the fourth principal meridian, be, and the same are hereby, perpetually reserved as a burial place for the Mille Lac Indians, with the right to remove and reinter thereon the bodies of those buried on other portions of said former reservation.

Public lands. Lands in Mille Lac Indian Reservation, Minn., open to entry.

Vol. 26, p. 1097.

Proviso.
Reservation of Indian burial place.

Approved, May 27, 1898.

DECISIONS OF COURTS IN CITIZENSHIP CASES IN FIVE CIVILIZED TRIBES.

CHOCTAW NATION.

OPINION OF WILLIAM H. H. CLAYTON, JUDGE CENTRAL DISTRICT OF INDIAN TERRITORY.

There are upon the docket of this court, appealed from the commission to negotiate with the Five Civilized Tribes, known as the Dawes Commission, 241 cases, involving the right of citizenship in the Choctaw Nation of about 2,500 applicants.

All of these cases have been by my predecessor, Judge Lewis, placed on the equity side of the docket, and in the case of Mary A. Sanders, No. 63, a motion to transfer to the law side of the docket was filed and argued and by him overruled. It is not my purpose in these cases to disturb or to go back and open up questions already decided, but to adopt the past rulings of the court and to proceed as rapidly as possible to a final disposition of them. In passing I will remark, however, that it seems to me that the peculiarity of these cases, the many suits brought by persons having a common interest and a common purpose against the same defendant, the difficulties of enforcing the rights by judgments at law, and the many equities claimed by both parties to these suits make them proper cases for a court of equity.

The question of the jurisdiction of this court to hear and determine these cases has been raised by the pleadings. The counsel on neither side, however, have seen fit to press this question or to point out, either by brief or oral argument, the reasons for this contention. The statute giving the court jurisdiction is plain, and I know of no constitutional objections. It has been said, however, that Congress does not possess the power, under the Constitution, to give to the courts of the United States appellate jurisdiction over the final orders and awards of commissions and other such tribunals. This very question was raised in the case of *The United States v. Ritche*, decided by the Supreme Court of the United States, and reported in volume 58, United States Supreme Court Reports, page 524. In that case the proceedings were originally commenced before a board of commissioners to settle private land claims in California, under an act of Congress of March 3, 1851. Provisions were made by the act, at the suit of the losing party, for an appeal to the United States district court for the northern district of California. The board decided the case in favor of the claimant and against the Government. The United States appealed, in accordance with the provisions of the statute, to the aforesaid district court, where it was again tried *de novo* and an appeal regularly taken to the United States Supreme Court. In that court the question of the jurisdiction of the district court to try the case was raised. The contention is stated in the opinion. In deciding the case the court say:

It is also objected that the law prescribing an appeal to the district court from the decision of the board of commissioners is unconstitutional, as this board, as organized, is not a court under the Constitution and can not, therefore, be vested with any of the judicial powers conferred upon the General Government.

But the answer to this objection is that the suit in the district court is to be regarded as an original proceeding, the removal of the transcript, papers, and evidence into it from the board of commissioners being but a mode of providing for the institution of the suit in that court. The transfer, it is true, is called an appeal; but we must not, however, be misled by a name, but look to the substance and intent of the proceedings. The district court is not confined to a mere reexamination of the case as heard and decided by the board of commissioners, but hears the case *de novo*, upon the papers and testimony which had been used before the board, they being made evidence in the district court, and also upon such further evidence as either party may see fit to produce.

Following this decision, I will in these cases proceed as if they were originally brought in this court, try them *de novo*, and give to all of the parties all of the advantages of an original suit—that is, all cases brought here in conformity with the statute.

It is therefore ordered by the court that the claimants to the right of citizenship in these cases may have fifteen days from this date—that is, until the — day of July, 1897—in which to take and file further proof, and that the Choctaw Nation may have immediately thereafter fifteen days in which to take and file further rebuttal proof—that is, from the said — day of July, —, until the — day of July, 1897—and that all legal testimony heretofore taken and filed with the so-called Dawes Commission shall be considered as competent proof on the trial of these cases.

And that the trial of all of these cases, except such as may be disposed of otherwise, are hereby set for trial on Tuesday, the — day of —, 1897.

These cases naturally divide themselves into six heads or classes, to wit:

1. As to the right of citizenship of those Choctaws who, under the treaty of 1830, decided to remain in the State of Mississippi, called "Mississippi Choctaws," and have not since removed into the present Choctaw Nation.

2. As to the right to citizenship of those Mississippi Choctaws who have since the treaty of 1830 removed into the present Choctaw Nation.

3. As to the right to citizenship of others who are not Mississippi Choctaws who have removed from the Choctaw Nation into the States and are now residing there.

4. As to the right to citizenship of white men having married Indian women in violation of the marriage laws of the Choctaw Nation.

5. As to the right of white men to citizenship, by virtue of a legal marriage to Choctaw women and residence in the Choctaw Nation who had become lawful citizens, but, their Indian wives having afterwards died, they married for their second wives white women.

6. As to the right to citizenship of white men who, having married Choctaw women in violation of the Choctaw laws, afterwards remarry the same women in conformity with their laws.

There are submitted to the court for final hearing on the proof already taken cases involving all of the above questions which I will now proceed to decide in the order following:

I.

[No. 153.]

Jack Amos et al. v. The Choctaw Nation.

In this case the proof shows that the claimants are Choctaw Indians by blood now living in the State of Mississippi; that neither they nor their ancestors have ever removed into the present Choctaw Nation.

The claimants base their right to be enrolled as Choctaw citizens upon the terms of the second and fourteenth articles of the treaty negotiated at Dancing Rabbit Creek on September 27, 1830, and of the conditions of the patent to the lands of the Choctaw Nation executed by President Tyler in the year 1842. (Durant Ed. Choctaw Laws, p. 31.)

Articles 2 and 14 of the treaty of 1830 are as follows:

ARTICLE 2. The United States, under a grant specially to be made by the President of the United States, shall cause to be conveyed to the Choctaw Nation a tract of country west of the Mississippi River in fee simple to them and their descendants, to inure to them while they shall exist as a nation and live on it, beginning near Fort Smith, where the Arkansas boundary crosses the Arkansas River, running thence to the source of the Canadian Fork, if in the limits of the United States, or to those limits; thence due south to Red River and down Red River to the west boundary of the Territory of Arkansas; thence north along that line to the beginning. The boundary of the same to be agreeably to the treaty made and concluded at Washington City in the year 1825. The grant to be executed so soon as the present treaty shall be ratified.

ARTICLE 14. Each Choctaw head of a family being desirous to remain and become a citizen of the States shall be permitted to do so by signifying his intention to the agent within six months from the ratification of this treaty, and he or she shall thereupon be entitled to a reservation of one section of six hundred and forty acres of land, to be bounded by sectional lines of survey; in like manner shall be entitled to one-half of that quantity for each unmarried child which is living with him over ten years of age, and a quarter section to such child as may be under ten years of age, to adjoin the location of the parent. If they reside upon said lands, intending to become citizens of the States for five years after the ratification of this treaty, in that case a grant in fee simple shall issue. Said reservation shall include the present improvements of the head of the family, or a portion of it. Persons who claim under this article shall not lose the privilege of a Choctaw citizen, but, if they ever remove, are not to be entitled to any portion of the Choctaw annuity.

The conditions of article 2 of the treaty, that the land should be conveyed "to the Choctaw Nation in fee simple to them and their descendants, to inure to them while they shall exist as a nation and live on it," are carried into the patent, and are the only portions of that instrument which shed any light on the question now being considered, and therefore article 2 and the conditions of the patent may be considered together.

The whole object of the treaty of 1830 was to procure the removal, as far as practicable, of the Choctaw people to the lands west of the Mississippi which they now occupy. The Supreme Court of the United States, in the case of the Choctaw Nation *v.* United States (119 U. S., 36), after reviewing the treaties of 1820 and 1825, says:

In the meantime, however, under the pressure of the demand for settlement of the unoccupied lands of the State of Mississippi by emigrants from other States, the policy of the United States in respect to the Indian tribes still dwelling within its borders underwent a change, and it became desirable, by a new treaty, to effect, as far as practicable, the removal of the whole body of the Choctaw Nation, as a tribe, from the limits of the State to the lands which had been ceded to them west of the Mississippi River. To carry out that policy the treaty of 1830 was negotiated.

Again, in the case, page 27, the court says:

It is notorious as a historical fact, as it abundantly appears from the records of this case, that great pressure had to be brought to bear upon the Indians to effect their removal, and the whole treaty was evidently and purposely executed not so much to secure to the Indians the rights for which they had stipulated, as to effectuate the policy of the United States in regard to their removal.

Article 3 of the treaty of 1830 stipulates that the Choctaws agree to remove all of their people during the years 1831, 1832, and 1833 to those lands. (7 Stat. L., 333.)

Article 14 of the treaty, however, provides for certain privileges and rights for those who might choose to remain in Mississippi with a view of becoming citizens of that State. They and their descendants were to receive certain lands and, after living on them for five years, intending to become citizens of the State, those lands were to be granted to them in fee simple. Then follows this very peculiar clause:

Persons who claim under this article shall not lose the privilege of a Choctaw citizen, but if they ever remove are not to be entitled to any portion of the Choctaw annuity.

The difficulty in construing this clause of the treaty is to ascertain the meaning of the word "remove." To what does it relate and how shall we give it meaning? It certainly does not purpose to impose a penalty on the Choctaw who may choose to remove for removing, and for that reason forfeit his right to the annuity, because so long as he remained in Mississippi he was not entitled to any annuity, and therefore by removing he could not forfeit that which he did not have. If he removed he was to have no annuity, and if he remained he was to have no annuity. It is evident, therefore, that the word was not used for the purpose of forfeiting the annuity in case of removal. Then what are its uses? The very object of the treaty was to procure a removal of these people. The whole of the Choctaw Nation, with all of its sovereignty, its powers, and its duties, was to be transferred beyond the Mississippi. It was to exercise its powers, confer its privileges, and maintain the citizenship of its people in another place. Those who were left behind were to retain, not this Choctaw citizenship, but only the "privileges of a Choctaw citizen;" that is, that when they put themselves into a position that these privileges could be conferred upon them they were to have them and under the conditions and purposes of this treaty how would it be possible for them to put themselves in such a position without first removing within the territorial jurisdiction of the Choctaw Nation and within the sphere of its powers? What privilege would it be possible for the Choctaw Nation to confer on a Mississippi Choctaw to receive so long as he remained in Mississippi and out of the limits of the Choctaw Nation? By the very terms of the treaty they were to become citizens of another State, owing allegiance to and receiving protection from another sovereignty. If one Mississippi Choctaw were to commit a wrong against the person or property of another, the right would be enforced and the wrong redressed under the laws of Mississippi. The Choctaw Nation would be powerless to act in such a case. The Choctaws in that State can not vote, sit as jurors, or hold office as a Choctaw citizen or receive any other benefit or privilege as such. They can not participate in the rents and profits of the lands of the Choctaw Nation, because by the very terms of the grant the Choctaw people and their descendants must live upon them. If they do not, it is an act of forfeiture, made so by the provisions of article 2 of the treaty of 1830 and also of those of the patent to their lands afterwards executed.

The title of the Choctaw people to their lands is a conditional one, and one of the conditions of the grant, expressed in both the second article of the treaty of 1830 and the patent, is that the grantee shall live upon them. And who are the grantees? Who are these people who are to live upon the land? Unquestionably the Choctaw people and their descendants; for, while the grant is to the Choctaw Nation, the people seem to be included, both as grantees and beneficiaries. The language of the treaty is, and it is carried into the patent:

The President of the United States shall cause to be conveyed to the Choctaw Nation a tract of country west of the Mississippi River, in fee simple, to them and their descendants, to inure to them while they shall exist as a nation and live on it.

The Choctaw Nation is not "them" and can not have "descendants." And while it may exercise its sovereignty and its national powers within certain defined territorial limits, it can not "live on land." Those provisions of the grant which are expressed in the plural and attach to "descendants" and which require as a condition that the land shall be lived on beyond doubt refer to the Choctaw people and their descendants. Whatever effect upon the title the limitation upon the right of alienation expressed in the patent, so that the lands can not be sold except to the grantor or by its consent, may have, there can be no question but that the second article of the treaty of 1830, negotiated twelve years before the execution of the patent, and in which no limitation on the right of alienation is expressed, was intended to convey a fee-simple title, burdened by two conditions subsequent, the one that the grantees should continue the corporate existence of their nation, and the other that the people of that nation and their descendants should forever live upon the land. A failure of either would work a forfeiture of the title to the grantor.

Now, why was it that this fee-simple title was to be burdened by the condition that the grantee must live on the land? In the light of the knowledge of the conditions that then existed the answer is plain. The policy of the Federal Government at that time, relating to the Indian tribes, was to move them upon a reservation and keep them there; and if the Indian, either singly or in numbers, should stray off, soldiers with guns and bayonets were used to drive them back. This very treaty was negotiated with the Choctaws for that very purpose. Hence the condition in the grant that they should live on the land or it should be subject to forfeiture to the United States. This condition was inserted for two reasons: First, to compel the grantees to remove upon the lands, and second, to compel them to remain on them after removal. It was not intended that some should go and locate on the lands and hold the title for themselves and also for the others who should choose to remain. This would defeat the very object of the condition. These lands were conveyed to the Choctaw people to be held by them as tenants in common. This intention of the second article of the treaty of 1830 is expressed by the use of the words "them and their descendants" and of the clause that they were to "live on the land." Both of these clauses are expressed in the plural and evidently do not relate to the nation as a corporate body. That a tenancy in common was intended is made clear by a consideration of section 3 of an act of Congress entitled "An act to provide for an exchange of lands with the Indians residing in any of the States or Territories, and for their removal west of the Mississippi River," approved May 28, 1830 (4 U. S. Stat. L., 412). The section reads as follows:

And be it further enacted, That in the making of any such exchange or exchanges it shall and may be lawful for the President solemnly to assure the tribe or nation with which the exchange is made that the United States will forever secure and guarantee to them and their heirs or successors the country so exchanged with them; and, if they prefer it, that the United States will cause a patent or grant to be made and executed to them for the same: *Provided always*, That such lands shall revert to the United States if the Indians become extinct or abandon the same.

At the time the treaty of 1830 was negotiated (September 29, 1830) this act had been on the statute books of the United States for four months, and as a matter of course the commissioners to negotiate the treaty were familiar with it. But the language used in this act to limit the estate is "to them, their heirs, or successors." The language used in the treaty to limit the estate therein granted is "in fee simple to them and their descendants," and then conditions are attached not named in the statute. Why the word "successors" was left out of the treaty is plain. But why the word "heirs" was changed to the word "descendants," unless it was that a word should be used within the comprehension of those untutored Indians, who knew nothing of the technical phrases of the common law used in the conveyance of real estate, is not easy to determine. The word "successors" was omitted from the treaty because by its terms the Choctaw Nation was to have no successors. They were to live on the land forever, or it should be forfeited to the grantor. When the technical words "successors" and "heirs" were dropped and the common word "descendants" was used, these Indians could understand it. They knew what they and their offspring were. It was to them—the people and their children—that the land was sold; and when the condition was added that the grant was to be made to them and their descendants only in the event that they should live upon the lands, they could not but understand that this implied a removal to and a continual residence upon them.

As a further evidence that the parties understood that by this transaction the land was to be held in common by the people, the treaty of 1833, article 1, provides, after describing the lands, as follows:

And pursuant to an act of Congress approved May 28, 1830, the United States do hereby forever secure and guarantee the lands embraced within the said limits to the members of the Choctaw

and Chickasaw tribes, their heirs and successors, to be held in common, so that each and every member of either tribe shall have an equal undivided interest in the whole: *Provided, however*, No part thereof shall ever be sold without the consent of both tribes and that said land shall revert to the United States if said Indians and their heirs become extinct or abandon the same. (4 U. S. Stat. L., 276.)

If this be true, there is no holding in trust by the corporate body of the Choctaw Nation for the benefit of the people, but the people themselves have the title and hold it in common.

A tenancy in common is a joint estate in which there is unity of possession, but separate and distinct title. The tenants have separate and independent freeholds or leaseholds in their respective share, which they manage and dispose of as freely as if the estate was one in severalty. * * * The interest of one tenant in common is so independent of that of his cotenant that in a joint conveyance of the estate it would be treated as a grant to each of his own share of the estate. (Tiedeman on Real Property, 235.)

And therefore any condition of the grant would be as binding on each of the tenants in common as if the estate was in severalty and vested in the individual tenant. And therefore the condition named in the second article of the treaty of 1830 and in the patent, that "they shall live on the land," is binding individually upon each and upon all of the grantees.

In the third article of the treaty the Choctaws agreed to move all of their people within three years, and the United States intended that they should go. But, by the fourteenth article of the treaty, provisions were made whereby those who should decide to remain and become citizens of the State of Mississippi, in the event that, because of the intolerance and persecutions of the whites, which they themselves had so bitterly experienced, or for any other cause, they might become dissatisfied with their altered conditions and their new citizenship and desire to follow them to their new homes, and thereafter exercise with them in their own country the privileges of citizenship, they could do so, except that they were not to participate with them in their annuities, the lands which they were to receive in Mississippi being deemed a compensation for that.

When the fourteenth article of the treaty was framed, the negotiating parties understood that the policy of the United States was that the Choctaws were to be removed. The Choctaws, in article 3, had just agreed that they should all go. The ink was not yet dry in article 2, whereby the condition was placed in this grant to the lands that they were to live upon them or they should be forfeited, and that no privilege of citizenship could be conferred or enjoyed outside of the territorial jurisdiction of their newly located nation. Understanding these conditions, the latter clause of article 14 was penned:

Persons who claim under this article shall not lose the privilege of a Choctaw citizen, but, if they ever remove (that is, if they ever place themselves on the land and within the jurisdiction of the nation whereby those privileges may become operative), are not to be entitled to any portion of the Choctaw annuity.

In other words, if they ever remove, they are to enjoy all of the privileges of a Choctaw citizen except that of participating in their annuities. If this be not the meaning to be attached to the word "remove" as used in the clause of the treaty under consideration, it must be meaningless. But in the interpretation of statutes it is the duty of the court to so interpret them as to give to every word a meaning, and in doing so it must take into consideration the whole statute, its objects and purposes, the rights which are intended to be enforced and the evils intended to be remedied; it may go to the history of the transaction about which the legislation is had and call to its aid all legitimate facts proven or of which the courts will take judicial notice in order to find the true meaning of the word as used in the statute. Of course the same rule of interpretation applies to treaties. Adopting these rules in the interpretation of article 14 of the treaty of 1830, I arrive at the conclusion that the "privilege of a Choctaw citizen" therein reserved to those Choctaws who shall remain, thereby separating themselves, it may be forever, from their brethren and their nation, becoming citizens of another sovereignty and aliens of their own, situated so that it would be impossible, while in Mississippi, to receive or enjoy any of the rights of Choctaw citizenship, was the right to renounce his allegiance to the Commonwealth of Mississippi, move upon the lands conveyed to him and his people, and there, the only spot on earth where he could do so, renew his relations with his people and enjoy all of the privileges of a Choctaw citizen except to participate in the annuities.

As an evidence that the Choctaw people themselves took this view of the question, attention is called to the fact that their council has passed many acts and resolutions inviting these absent Choctaws to move into their country, and on one occasion appropriated a considerable sum of money to assist them on their journey; and, until the past two or three years, have always promptly placed those who did return on the rolls of citizenship, but never enrolled an absent Choctaw as a citizen.

On December 24, 1889, the general council of the Choctaw Nation passed the following resolution:

Whereas there are large numbers of Choctaws yet in the States of Mississippi and Louisiana who are entitled to all the rights and privileges of citizenship in the Choctaw Nation; and

Whereas they are denied all rights of citizenship in said States; and

Whereas they are too poor to immigrate themselves into the Choctaw Nation: Therefore

Be it resolved by the general council of the Choctaw Nation assembled, That the United States Government is hereby requested to make provisions for the emigration of said Choctaws from said States to the Choctaw Nation," etc.

The language is, not that they are entitled to the rights and privileges of Choctaw citizenship in the States named, but "who are entitled to all the rights and privileges of citizenship in the Choctaw Nation," and the prayer is that because of the fact that they are denied the rights of citizenship in the State that the United States will remove them to a place—their own country—where the rights of Choctaw citizenship may be enjoyed by them.

As a further evidence of the fact that all of the parties to the treaty, the United States, the Choctaw Nation, and the Mississippi Indians themselves, have always understood that the Mississippi Choctaws were entitled to none of the rights of a Choctaw citizen so long as they remained in that State, attention is called to the fact that the lands in Mississippi which were ceded to the United States by the Choctaw Nation by virtue of the treaty of 1830 were, under the laws of the United States, sold. The Choctaw Nation claimed that they had never been paid any consideration for them, and that the United States justly owed them the net proceeds arising out of the sale. For many years this contention was carried on before the departments of the Government, commissions, and other tribunals. Finally, by treaty, it was submitted to the Senate of the United States for decision. That body found in favor of the Choctaw Nation. The case then went to the Court of Claims, and from there to the United States Supreme Court, in which court judgment was finally rendered for nearly \$3,000,000. This judgment was rendered in November, 1886. The money was turned over to the Choctaws by the United States, and by them, with the knowledge and consent of the United States, divided among their own people who lived in the nation. Not one farthing of it was ever paid to an absent Mississippi Choctaw, and no portion of it was ever claimed by them. During this whole litigation, running through many years, no effort was made to make themselves parties to the suit. And when the money was finally paid to the Choctaw authorities, to be divided among the people, they made no claim for any part of it and entered no protest to its being paid to the resident Choctaws, nor have they brought suit for their share since. The other party to the treaty, the United States Government, the guardian of these Indians, paid the money over without making any provision for the Mississippi Choctaws to get their share, or intimating that anything was due them. When it is remembered that this money was the proceeds of the sale of the lands in Mississippi belonging to the united Choctaw people while they lived in that State, and that the great bulk of the Mississippi Choctaws had never received one farthing for their share in the lands, if they, living in Mississippi, are entitled there to the rights of a Choctaw citizen, it is remarkable that they did not assert their rights.

Again, a few years ago, the interest of the Choctaws to lands lying west of their present boundaries was sold by them to the United States for a considerable sum of money. This, like the other, was promptly divided among the resident Choctaws with the knowledge and consent of the United States, and without protest or claim of the Mississippi Choctaws. If they are entitled to the privilege of Choctaw citizens without removing into the boundaries of the nation, they are and were entitled to their pro rata share of this money. If they do not understand that they have no claim to the rights of citizenship without moving into the country, why have they, for the past sixty-five years, silently stood by and permitted these kinds of transactions to be had without claim, protest, or suit?

The Eastern Band of Cherokees, now residing in North Carolina, sustained a relationship to the Cherokee Nation almost identical to that sustained by the Mississippi Choctaws to the Choctaw Nation. Like the Mississippi Choctaws, there were some among them who were averse to moving to their new country, west of the Mississippi River. Provisions were made for them by the treaty of New Echota (the treaty of 1835), between the Cherokee Nation and the United States, similar to those with the Choctaws by the treaty of 1830. When the Cherokee people moved to the present home of the Cherokees, these remained behind in North Carolina, where they have ever since resided. Like the Choctaw treaty of 1830, the treaty of New Echota provided that their lands should be ceded to them and their descendants, etc. The Cherokee Nation, by virtue of a treaty with the United States, afterwards sold some of these lands. The Eastern Band of Cherokees, in North Carolina, unlike their Mississippi Choctaw brethren, promptly

demanding their pro rata of the proceeds of this sale, and, upon being denied, at once sought and obtained permission of the United States to sue the Cherokee Nation in the Court of Claims for this money, and also, in the same suit, to sue for another fund which was created by the treaty of New Echota, consisting of certain annuities in the sum of \$214,000, of which the Eastern Band of Cherokees claimed a pro rata share. The suit was brought, and the Court of Claims, in a very elaborate and learned decision, decided against the right of the Eastern Band of Cherokees to recover, upon the ground that those Cherokees, by the act of remaining in North Carolina, had alienated themselves from the Cherokee Nation to such an extent that they could not claim any of the rights of a Cherokee citizen without moving into the Cherokee Nation and there being readmitted in accordance with the constitution and laws of that nation. The case was appealed to the Supreme Court of the United States, and there the decision of the Court of Claims was affirmed. (*Eastern Band of Cherokees v. United States*, 117 U. S., 288.) In that case the Supreme Court, after reviewing all of the treaties and statutes relating to the matter, concluded by saying:

If Indians in that State (North Carolina) or in any other State east of the Mississippi wish to enjoy the benefits of the common property of the Cherokee Nation, in whatever form it may exist, they must, as held by the Court of Claims, comply with the constitution and laws of the Cherokee Nation, and be readmitted to citizenship as there provided. They can not live out of its territory, evade the obligations and burdens of citizenship, and at the same time enjoy the benefits of the funds and common property of the nation. Those funds and that property were dedicated by the constitution of the Cherokees and were intended by the treaties with the United States for the benefit of the united nation, and not in any respect for those who had separated from it and become aliens to their nation. We can see no just ground on which the claim of the petitioners can rest in either of the funds held by the United States in trust for the Cherokee Nation.

It seems to me that this decision of the Supreme Court, founded on a case so nearly similar to the one at hearing, conclusively settles the contention in favor of the Choctaw Nation. Indeed, in that case, the Supreme Court expresses a very strong intimation that those provisions of the treaty of New Echota relating to and providing for those Cherokees who should refuse to remove West were confined in their operation to that class of Cherokees then in esse, and the rights conferred by those provisions of the treaty did not descend to their offspring; that the descendants of those Cherokees did not succeed to the rights of their ancestors under the treaty. The language of the Supreme Court is:

Nor is the band (Eastern Band of Cherokees), organized as it now is, the successor of any organization recognized by any treaty or law of the United States. Individual Indians who refused to remove West and preferred to remain and become citizens of the States in which they resided were promised certain moneys, but there is no evidence that the petitioners have succeeded to any of these rights. The original claimants have probably all died, for fifty years have elapsed since the treaty of 1835 was made, and no transfer from them to their legal representatives is shown. (*Id.*, 310.)

The court proceeds, however, to decide this case, as heretofore shown, on the ground that the Indians composing the Eastern Band of Cherokees had not removed into the Cherokee Nation and reassumed their citizenship under the constitution and laws of that nation.

I am disposed to the opinion, however, and will so hold, that the descendants of the Mississippi Choctaws, by virtue of the fourteenth article of the treaty of 1830, are entitled to all of the rights of Choctaw citizenship, with all of the privileges and property rights incident thereto, provided they have renounced their allegiance to the sovereignty of Mississippi by moving into the Choctaw Nation in good faith to live upon their lands, renewing their allegiance to that nation, and putting themselves in an attitude whereby they will be able to share in the burdens of their government. The reason for this conclusion is, to my mind, made morally certain when it is remembered that ever since the treaty of 1830, now for the period of nearly sixty-seven years, with the exception of the past two or three years, the Choctaw Nation, by its legislative enactments, and by its acts so long continued that by custom they have become crystallized into law, have universally admitted all who should remove to this country and rehabilitate them in all of the rights and privileges of citizenship enjoyed by themselves.

The counsel for the claimants lay considerable stress on the effect of the provisions of article 13 of the treaty of 1866 between the United States and the Choctaw Nation. (14 Stat. —).

By the eleventh and twelfth articles of that treaty a scheme was devised by which the lands of the Choctaw and Chickasaw nations were to be surveyed and divided and allotted to the individual Indians, provided the councils of the respective nations should agree to it, which, however, they have refused to do. A land office was to be established at Boggy Depot, in the Choctaw Nation. When all of the surveys were completed, maps thereof were to be filed in the said land office, subject to the inspection of all parties interested, and immediately there-

after notice of such filing was to be given for ninety days, calling upon all parties interested to examine said maps, to the end that errors in the location of occupancies, which were to be noted on the maps, might be corrected. Then followed article 13 of the treaty, which is as follows:

ARTICLE 13. The notice required in the above article shall be given, not only in the Choctaw and Chickasaw nations, but by publication in newspapers printed in the States of Mississippi and Tennessee, Louisiana, Texas, Arkansas, and Alabama, to the end that such Choctaws and Chickasaws as yet remain outside of the Choctaw and Chickasaw nations may be informed and have opportunity to exercise the rights hereby given to resident Choctaws and Chickasaws: *Provided*, That before any such absent Choctaw or Chickasaw shall be permitted to select for him or herself, or others, as hereinafter provided, he or she shall satisfy the register of the land office of his or her intention, or the intention of the party for whom the selection is to be made, to become bona fide resident in the said nation within five years from the time of selection; and should the said absentee fail to remove into said nation and occupy and commence an improvement on the land selected within the time aforesaid the said selection shall be canceled, and the land shall thereafter be discharged from all claim on account thereof.

From an examination of this article of the treaty it will be seen that the Choctaws and Chickasaws recognized the right of absent members of their nation to participate in the allotment and the subsequent ownership of their lands to the same extent as they themselves enjoyed, but on conditions, however: First, that they should satisfy the register of the land office of their intention to become bona fide residents in the said nation within five years from the time of said selection; and second, that within the said five years they should actually remove into the said nation (here is a statute of limitation), and third, that within the said five years they should occupy and commence an improvement upon the selected lands.

It will be observed that this latter clause imposes a condition on absent Indians nowhere required of the resident ones by any clause of the treaty. They were required to move into the country and show their good faith and their intention to remain bona fide citizens of the nation by actual occupancy of the land and an expenditure of money in its improvement. The notice was to be given them in order that they might have an opportunity of removing into the nation and there residing and resuming their rights as citizens; but care was to be taken, and safeguards provided by which their removal was to be actually had, and that it was to be done in good faith. First, the register of the land office was to be convinced, by such proof as might satisfy him, of the intention of the absent Indian to become a bona fide resident of the nation before he was allowed to make a selection; and, second, that was to be followed by an actual occupancy and improvement of the land; and if he failed in this, it worked a forfeiture of his rights. Nowhere within the whole treaty is any right recognized or conferred on an absent Indian except on the condition that he shall remove into the nation, and the right is not to be consummated or enjoyed until after actual removal. No treaty or act of the Choctaw council, or of any officer of the Choctaw Nation, since the treaty of 1830, can be cited, or at least I have not found them, whereby any right or privilege has been conferred, granted, or recognized in or to a Mississippi Choctaw, so long as he shall remain away from his people, but there are an infinitude of such acts and conduct granting and recognizing such rights and privileges to him after he shall have removed.

The provisions of the treaty of 1866, so far from being an authority in favor of the contention of claimants, seems to me to be strongly against them.

To permit men with, perchance, but a strain of Choctaw blood in their veins, who, sixty-five years ago, broke away from their kindred and their nation, and during that time, or the most of it, have been exercising the rights of citizenship and doing homage to the sovereignty of another nation, who have borne none of the burdens of this nation, and have become strangers to the people, to reach forth their hands from their distant and alien home and lay hold of a part of the public domain, the common property of the people, and appropriate to their own use, would be unjust and inequitable.

It is, therefore, the opinion of the court that absent Mississippi Choctaws are not entitled to be enrolled as citizens of the Choctaw Nation.

The action of the Dawes Commission is, therefore, affirmed, and a decree will be entered for the Choctaw Nation.

II.

[No. 11.]

E. J. Horne v. The Choctaw Nation.

In this case the pleadings and proof show that the claimant is a Mississippi Choctaw, and that prior to his application to be enrolled he had, in good faith, moved into the Choctaw Nation, and on the 9th day of September, 1896, filed with

the Dawes Commission his application to be enrolled as a Choctaw citizen. That he is a Choctaw by blood.

The act conferring jurisdiction on the commission to negotiate with the Five Civilized Tribes, called the "Dawes Commission," entitled "An act making appropriation for current and contingent expenses of the Indian Department," etc., approved June 10, 1896 (Stat. L., 1895-96, p. 339), among other things provides that "every application for citizenship must be made to the commission within three months after the passage of the aforesaid act." And, therefore, the claimant in this case, having complied with that provision of the statute, and being a "Mississippi Choctaw," and having returned to the Choctaw Nation in good faith, under the rule laid down in the decision just rendered, in the case of Jack Amos et al. v. Choctaw Nation, he is entitled to be enrolled as a Choctaw citizen, unless the fact that he is a Choctaw of less than one-eighth blood shall deprive him of that right.

On November 5, 1886, the following act of the Choctaw council was approved and went in force:

AN ACT entitled "An act defining the quantity of blood necessary for citizenship."

SEC. 1. *Be it enacted by the general council of the Choctaw Nation assembled*, That hereafter all persons noncitizens of the Choctaw Nation making or presenting to the general council petition for rights of Choctaws in this nation, shall be required to have one-eighth Choctaw blood, and shall be required to prove the same by competent testimony.

SEC. 2. *Be it further enacted*, That all applicants for rights in this nation shall prove their mixture of blood to be white and Indian.

SEC. 3. *Be it further enacted*, That no person convicted of any felony or high crime shall be admitted to the rights of citizenship within this nation.

SEC. 4. *Be it further enacted*, That this act shall not be construed to affect persons within the limits of the Choctaw Nation now enjoying the rights of citizenship.

SEC. 5. *Be it further enacted*, That this act shall take effect and be in force from and after its passage. (Durant Digest, p. 286.)

By the fourteenth article of the treaty between the United States and the Choctaw Nation, negotiated on the 27th day of September, 1830, as interpreted by this court in the aforesaid case of Jack Amos et al. v. The Choctaw Nation, all Mississippi Choctaws and their descendants were entitled, upon their removal to the Choctaw Nation, to all the privileges of a Choctaw citizen, except to the right to participate in their annuities. This right of citizenship being conferred by the treaty, no law afterwards enacted by the Choctaw council can deprive them of that right, because it would be in conflict with the treaty, which confers that right to them and their descendants, without reference to the quantity of Indian blood. If they are descendants of Choctaw ancestors, it is sufficient. As to them, therefore, the law does not apply.

In this case the claimant is entitled to be enrolled as a Choctaw citizen. The decision of the Dawes Commission is ——— and judgment will be entered for the claimant.

III.

[No. 109.]

Sidney J. Cundiff v. The Choctaw Nation.

The proof in this case shows that the claimant is a Choctaw Indian by blood; that on the 1st day of January, 1887, he moved from the Choctaw Nation into the State of Texas, where he has ever since resided, and still resides. On the 7th day of September, 1896, he filed his application for citizenship with the Dawes Commission, and was ———. The case is regularly appealed to this court.

The question in this case is, Can a Choctaw Indian who has moved off of the Choctaw lands, and into one of the States, where he now resides, be placed upon the rolls of Choctaw citizenship without first removing into the Choctaw Nation and upon their lands?

The very object of the treaty of 1830 between the Choctaws and the United States (7 Stat. L., p. 333) was to secure the removal of the Choctaw people to the lands they now possess west of the Mississippi River. (So held by the Supreme Court of the United States in the case of the Choctaw Nation v. The United States, 119 U. S., 36, 37.) By the second article of that treaty, granting the lands now held by the Choctaw Nation to them, as well as by the terms of the patent afterwards executed by the United States, two conditions subsequent were attached to the grant; one, that the Choctaw people shall thereafter continue to exist as a nation, and the other, that they shall live upon the land.

In the case of Jack Amos et al. v. The Choctaw Nation, decided at the present term, it was held that the condition that they should live on the land applied to the Choctaw people individually as well as collectively. It was attempted to be

shown in that case, and I think successfully, that the object of this condition was to prevent these Indians from straying away from their lands, by imposing a forfeiture of the title as to all who should do so; that the individual Indian must himself live on the land; that one of the effects of this condition is to prevent the holding of the lands by an Indian in actual possession for others out of possession, as can be done in ordinary tenancy in common, when there are no conditions attached to the grant; that the Choctaw people, being tenants in common of the land, as declared by the eleventh article of the treaty of 1866 between the United States and the Choctaw Nation (14 Stat. L., —), any conditions of the grant would be binding on each of the tenants individually. And, therefore, if any Choctaw, after having once moved on the land, should afterwards abandon it or move off of it and live elsewhere, this would be a breach of the condition, such a one as would work a forfeiture to the title.

But there is another condition to the grant, set out both in the second article of the treaty of 1830 and of the patent. It is that these grantees, these tenants in common, shall not only live on the land, but they shall exist as a nation, or their title shall be forfeited. Now, each one of these tenants in common possesses all of the rights, and is entitled to all of the privileges, and is required to perform all of the duties relating to the land that each of the others is entitled to and must perform; and, therefore, if none shall be allowed to abandon the land, or cease to live on it, each and all of the others may do the same thing, and if they should exercise the same right, and move off of the land and out of the nation, what would become of its existence? The individual Choctaw who moves away from his people, abandons their lands and separates himself from the sphere of their political organization as a nation, is not performing his part of the condition that these people shall "exist as a nation." He is also violating the very object of the treaty, and the policy of the Federal Government as well as of his own.

In my opinion, as long as he remains away from the nation and the lands, under these circumstances, he forfeits his right to that citizenship which he has abandoned, and which carries with it the right to the land; that the Choctaw Nation, in the exercise of its sovereign power, has the right to refuse to place him on its rolls of citizenship.

In the language of the Supreme Court of the United States in the case of the Eastern Band of Cherokees v. United States (117 U. S., 331)—

They [the Indians] can not live out of its [the nation's] territory, evade the obligations and burdens of citizenship, and at the same time enjoy the benefits of the fund and common property of the nation.

It can not be disguised that these Indians who are living away from the nation in the States, and are now seeking to be enrolled without removing upon their lands, are doing so for the purpose alone of sharing with those who, true to their treaty obligations, have remained on the land in this nation which they expect soon to be allotted. And it is possibly true that the object of the Government in causing these rolls to be made is that they shall be used as a basis of allotment. To allow these Indians who have abandoned their lands and their people, who have and do refuse to perform the duties of Choctaw citizenship, without any intention on their part to resume their relations with their people, to remain away, in violation of every duty of citizenship, and against the very terms of the deed to the lands which they now seek to possess themselves of, without performing the conditions, is not just, and it is not the law.

As to all such Indians who may have in good faith returned to the Choctaw Nation with the intention of resuming their relations of citizenship, I think they are entitled to do so, unless the Choctaw statute of November 6, 1886 (Durant's Dig., 266), has the effect of disqualifying from that date all of those who may have less than one-eighth Choctaw blood. This question I do not now decide.

The court is, therefore, of the opinion that the claimant in this case is not entitled to enrollment, and the action of the Dawes Commission is affirmed, and judgment for the Choctaw Nation.

IV.

[No. 234.]

W. R. Senter v. The Choctaw Nation.

The facts of this case, as found by the master in chancery, and not excepted to, are as follows:

That claimant, a white man, was married December 25, 1889, in the State of Texas, according to the laws of that State, to a registered Choctaw woman by

blood, and that he is a resident of the Choctaw Nation, but that he was not married in conformity with the Choctaw laws relating to marriage.

The question in this case is, Is this marriage to this Indian woman, followed by a residence in the nation, so far valid as to confer upon the white husband the rights of citizenship in the Choctaw Nation?

Article 38 of the treaty of 1866 (14 Stat. L., —) is as follows:

Every white person who, having married a Choctaw or Chickasaw, resides in said Choctaw or Chickasaw Nation, or who has been adopted by the legislative authorities, is to be deemed a member of said nation and shall be subject to the laws of the Choctaw and Chickasaw nations, according to his domicile, and to prosecution and trial before their tribunals and to punishment according to their laws, in all respects as though he was a native Choctaw or Chickasaw.

At the time of the negotiation and ratification of the treaty of 1866 the following act of the Choctaw Nation, approved October, 1840, was in force in that nation, to wit:

AN ACT in relation to white men marrying in the nation, etc.

SEC. 4. *Be it enacted by the general council of the Choctaw Nation assembled*, That no white man shall be allowed to marry in this nation, unless he has been a citizen [evidently meaning a resident] of this nation for two years.

And be it further enacted, That he shall be required to procure a license from some judge or the district clerk and be lawfully married by a minister of the gospel, or some other authorized person, before he shall be entitled and admitted to the privileges of citizenship.

And be it further enacted, [That] should any officer or minister of the gospel who are authorized by law to marry in this nation perform such marriage ceremony not agreeable to this act, [he] shall be made to pay a fine of one hundred dollars for each offense, and the money shall be put into the district treasury in which said marriage ceremony may have taken place.

And be it further enacted, That no white man who shall marry a Choctaw woman shall have the disposal of her property without her consent, and any white man parting from his wife without just provocation shall forfeit and pay over to his wife such sum or sums as may be adjudged to her by the district court for said breach of the marriage contract, and be deprived of citizenship.

Of the four clauses in the above act, the last is the only one that is in conflict with the provisions of the treaty above cited. The treaty provides that the marriage and residence in the Choctaw Nation shall place the married man in every respect as if he were a native Choctaw. The last clause of the act puts him in a different attitude than that of the Indian. There was no law of the Choctaw Nation at that time providing that the penalty therein mentioned should be imposed on an Indian by blood for deserting his wife, and, therefore, if the act should stand, the white married man would not be situated in all respects as a native Choctaw. Hence there is a conflict between the treaty and the act, and of course the provisions of the treaty must prevail, and, therefore, so much of the act as is contained in this last clause must be considered as having been repealed by the treaty. But I observe no reason why the other three clauses of the act should not stand unrepealed as the law in force in the Choctaw Nation until some other act of the council or treaty shall have repealed it.

There was another act of the Choctaw council relating to white men marrying Indian women in force at the time of the ratification of the treaty of 1866, to wit:

SEC. 15. *Be it enacted by the general council of the Choctaw Nation assembled*, That every white man who is living with [an] Indian woman in this nation without being lawfully married to her shall be required to marry her lawfully or be compelled to leave the nation.

Be it further enacted, That no white man who is under a bad character will be allowed to be united to an Indian woman in marriage in this nation under any circumstances whatever. (Approved Oct., 1849.)

Surely, this most salutary act was not in conflict with the treaty. It required, as does the act now in force, to be presently cited, that the white man should be of good character before he could marry one of their Indian women and thereby secure the right of citizenship in their nation.

After the ratification of the treaty of 1866, on the — day of —, 1875, the following act was passed by the Choctaw council and approved by the governor:

1. *Be it enacted by the general council of the Choctaw Nation assembled*, Any white man, or citizen of the United States or of any foreign government, desiring to marry a Choctaw woman, citizen of the Choctaw Nation, shall be, and is hereby, required to obtain a license for the same from one of the circuit clerks or judges of a court of record, and make oath or satisfactory showing to such clerk or judge that he has not a surviving wife from whom he has not been lawfully divorced; and unless such information be freely furnished, to the satisfaction of the clerk or judge, no license shall issue; and every white man or person applying for a license as herein provided shall, before obtaining the same, be required to present to the said clerk or judge a certificate of good moral character signed by at least ten respectable Choctaw citizens by blood, who shall have been acquainted with him at least twelve months immediately preceding the signing of such certificate; and before any license, as herein provided, shall be issued, the person applying shall be, and is hereby, required to pay to the clerk or judge the sum of twenty-five dollars, and be also required to take the following oath: "I do solemnly swear that I will honor, defend, and submit to the constitution and laws of the Choctaw Nation, and will neither claim nor seek from the United States Government or from the judicial tribunals thereof any protection, privilege, or redress incompatible with the same as guaranteed to the Choctaw Nation by the treaty stipulations entered into between them, so help me God."

2. Marriages contracted under the provisions of this act shall be solemnized as provided by the laws of this nation, or otherwise shall be void.

3. No marriage between a citizen of the United States, or of any foreign nation, and a female citizen of this nation, entered into within the limits of this nation, except as hereinbefore authorized and provided, shall be legal, and every person who shall engage and assist in solemnizing such marriage shall, upon conviction, be fined fifty dollars, and it shall be the duty of the district attorney in whose district such person resides to prosecute such person before the circuit court, and one-half of all fines arising under this act shall be equally divided between the sheriff and the district attorney.

4. Every person performing the marriage ceremony under the authority of a license, provided for herein, shall be required to attach a certificate of marriage to the back of the license and return it to the person in whose behalf it was issued, who shall, within thirty days therefrom, place the same in the hands of the circuit clerk, whose duty it shall be to record the same and return it to the owner.

5. Should any man or woman, a citizen of the United States or of any foreign country, become a citizen of the Choctaw Nation by intermarriage, as herein provided, and be left a widow or widower, he or she shall continue to enjoy the rights of citizenship, unless he or she shall marry a white man or woman or person, as the case may be, having no rights of Choctaw citizenship by blood. In that case all his or her rights acquired under the provisions of this act shall cease.

6. Every person who shall lawfully marry under the provisions of this act and afterwards abandon his wife or her husband shall forfeit every right of citizenship, and shall be considered an intruder and removed from this nation by order of the principal chief.

It is contended that this act is in violation of the treaty, because no forms or ceremonies of marriage or conditions are in the treaty prescribed, and hence any marriage to a Choctaw, if legal where made, must be held to be a legal marriage in the Choctaw Nation, and therefore must carry with it the right to Choctaw citizenship; that is, a marriage in Texas, solemnized as provided by its laws, being a legal marriage there, is by the law a legal marriage everywhere, and therefore a legal one in the Choctaw Nation which, by the terms of the treaty, carries with it Choctaw citizenship. Is this contention correct?

The fifth and sixth sections of the act relate to conditions that may arise after the marriage, and therefore have nothing to do with the question now being considered, and for the purposes of this case may be discarded.

The first section of the act provides that a white man, before he will be permitted to marry an Indian woman, must procure from the proper officer a marriage license, and before obtaining the license he must show, by his own oath or other satisfactory proof, that he has not a surviving wife from whom he has not been lawfully divorced. He shall further be required to present to the officer a certificate of good moral character signed by at least ten respectable Choctaw citizens by blood, who shall have been acquainted with him at least twelve months; he is further required to pay a fee of \$25 (afterwards changed to \$100 by act of council approved November 10, 1887), and, finally, he is required to take an oath of allegiance to the Choctaw Nation. The above-cited provisions are all of the requirements of the act, so far as the white man is concerned, relating to the marriage. The ceremony of the marriage may be performed by any person and in any manner known to the law. All that is required is:

1. That no white man having a living wife shall impose himself upon their women and live a bigamous life with them;

2. That they shall be of good moral character;

3. That they shall pay the fee for the license, and

4. That they shall, before being naturalized, take the oath of allegiance.

There is not a provision in it that is not required by every civilized nation on earth, under similar circumstances, both as relating to the marriage and to the naturalization. Is it possible that by mere inference, because the treaty is silent as to the ceremonies or as to the place of the marriage, that a tribe of Indians is to be deprived of the right to inquire into the character of strangers and aliens who seek to marry their daughters, and through this method to become their fellow-citizens and equally share with them their lands and property? Are they to be deprived of the right to require of these aliens the poor pittance of an oath binding them to their allegiance? If this is true, what becomes of the sovereignty of the Choctaw Nation? Every sovereign power has the right to pass upon the qualifications of its own citizens and to prescribe terms for those who seek citizenship with them. It is said that the Choctaw Nation is a limited and a dependent sovereignty; but it is only limited and dependent in so far as its powers are circumscribed by the Constitution, laws, and treaties of the United States.

By the seventh article of the treaty of 1855, which is still in force, it is provided that—

So far as may be compatible with the Constitution of the United States and the laws made in pursuance thereof regulating trade and intercourse with the Indian tribes, the Choctaws and Chickasaws shall be secured in the unrestricted right of self-government and the full jurisdiction over persons and property within their respective limits, excepting, however, all persons, with their property, who are not, by birth, adoption, or otherwise, citizens or members of either the Choctaw or Chickasaw tribe.

This provision of the treaty seems to give to the Choctaws and Chickasaws the right to regulate marriage and prescribe all reasonable rules relating to the naturalization of white men in this country. These are the most simple and common, as well as the most necessary, attributes of sovereignty, and so essential to the virtue and welfare of the commonwealth that they ought not to be construed away from this Indian tribe except upon the most positive and certain terms of the law.

If a white man about to marry a Choctaw woman in good faith intends to become a citizen of the nation, why should he object to conforming to the requirements of this statute, which in its demands are so simple, so just, and so easily performed? Is it because he is unable to make oath or to otherwise prove that he has not a living wife; or that he is unable to prove his good character; or that he is too poor to pay a license fee which is to procure for him a wife and purchase for him an undivided share in all of the lands of the Choctaw Nation equal to that of any Choctaw in it? Or is it because he does not care to take the oath and make himself a Choctaw citizen, that he may, by the laws and customs of the Choctaw Nation, live on and enjoy their lands in the home of his Choctaw wife and children without submitting himself to their laws: that he may have all of the benefits of the usufruct of the Indian lands and United States citizenship combined?

When it is remembered that this law has been a public statute for twenty-two years past, and during all of that time the decision of every court having jurisdiction over this country has constantly and persistently been that the Choctaw statute was valid and not in conflict with the treaty, and that the law in this jurisdiction for all of that time has been enforced by the courts upon that theory, the people, by public statute and by the judgment of the courts, have had full notice of the condition, it would seem strange, indeed, that any man, under these circumstances, whose purpose it was by this method to become an Indian, who intended to abandon his United States citizenship and become a Choctaw, would refuse to follow the statute and do those things so simple and so plain which the courts were proclaiming he must do. A marriage of a white man to a Choctaw Indian, under these circumstances, without conforming to the requirements of the Choctaw statute, is the very strongest evidence of the fact that the man did not intend to become a Choctaw citizen, but that he did intend to retain that of his own country and race. As the laws were all along being administered, that was the effect of such a marriage. It will not do to say that the common people upon the subject of the law were wiser than the courts; that these men who were marrying Choctaw women knew all the time that the statute was void and that the courts were in error, and they would marry in accordance with their own superior views and wait until some wiser judge should take the bench and give a more proper exposition of the law. Of course, by these unlawful marriages they did not intend to become Choctaw citizens; the very object in marrying in this way was to avoid that very thing. I am not criticising them for marrying thus. The marriage was good so far as the marriage relations between them and their wives and the legitimacy of their children were concerned, but it did not change their citizenship. They did not want it to make them Choctaws; this was the thing they were trying to avoid, and can it be said that without any intention to become a citizen, without any renunciation of his allegiance to his old sovereignty or any oath of fidelity to the new, and against his will at the time it was solemnized, this marriage shall make him a Choctaw citizen?

Not only have the courts at Paris, Tex., and at Fort Smith, Ark., which, so far as the United States was concerned, for so long a time exercised exclusive jurisdiction over the Choctaw and Chickasaw nations, decided the law in accordance with this view, but the statutory law of the United States recognizes the validity of these Indian statutes relating to marriage. The act of May 2, 1890, extending and enlarging the jurisdiction of the United States court for the Indian Territory (Sup. Rev. Stat., vol. 1, p. 737, sec. 38), after granting to the clerk and deputy clerks of the said court the right to issue marriage licenses and certificates, and to solemnize marriages in the Indian country, and extending the marriage laws of Arkansas over the said country, provides:

That said chapter 103 of said laws of Arkansas (the marriage law) shall not be construed so as to interfere with the operation of the laws governing marriage, enacted by any of the civilized tribes, nor to confer any authority upon any officer of said court to unite a citizen of the United States in marriage to a member of any of the civilized nations until the preliminaries to such marriage shall have first been arranged according to the laws of the nation of which said Indian is a member: *And provided further*, That when such marriage is required by law of an Indian nation to be of record, the certificate of such marriage shall be sent for record to the proper officer, as provided in such law enacted by the Indian nation.

Here is a direct recognition of the validity of the Choctaw statute by the United States through its laws enacted by Congress. Surely the reason why the clerk of

this court is not allowed by law to marry a white man to a Choctaw woman without it shall be in accordance with Choctaw law is because, in the judgment of Congress, it was necessary to the validity of the marriage, so far as to confer on the man citizenship in the Choctaw Nation. It is a statutory recognition of the sovereignty of these civilized nations to the extent that they may control their own marriage and naturalization laws, as they should do.

In the case of *Nofire v. United States* (116 U. S., 657) this question is inferentially, if not fairly, decided in favor of the validity of these Indian marriage statutes. The Cherokee statute is similar to the one under consideration. The case went up to the Supreme Court of the United States from the United States circuit court at Fort Smith, Ark. Judge Parker decided that because the party claimed to have been murdered by Nofire had not married his wife, a Cherokee Indian, in accordance with the Cherokee law, he was not a citizen of the Cherokee Nation, he being a white man. Judge Parker had held that because the license to marry had been issued by a son of the clerk, who was not a deputy clerk, but was performing the duties of one, the license was issued without authority, and that therefore the marriage was void. But the Supreme Court differed with the judge of the circuit court and held that the son of the clerk, acting as he did as to those who dealt with him, was de facto clerk, and as to them his acts were valid, and therefore the man had been married in accordance with the Cherokee laws, which made him a Cherokee, and ousted the jurisdiction of the United States courts over him. While it is true that in that case the question was not directly raised before the court, yet the whole opinion concedes, and the argument is made on the theory, that marriage in accordance with the Indian statute was necessary to confer citizenship.

It is argued that if a white man marry an Indian woman in one of the States, in accordance with the law of that State, that it is a valid marriage there, and by the well-known principle of the law that a marriage valid where contracted is valid everywhere, it must be valid in the Choctaw Nation.

The principle is conceded. But the effect of such a marriage in the State is only to create the relation of man and wife, legitimize the offspring, and give to him such control over the wife's property as the law of the States prescribes. Such rights he carries with him wherever he may go, because they are personal; they affect nobody but the man and his wife; he can carry them with him; they do not attempt to interfere with the political, civil, or property rights of others. But if the effect of such a marriage is to be given to it as is claimed here it would decitizenize a citizen of the United States, making of him a citizen of a foreign country and a tenant in common with each and all of the people of that nation to every foot of land they own, and this, too, over the protest and against the laws of the foreign nation. No investigation into the character and fitness of the man to become a citizen is had, nor is any oath, binding him to his allegiance, administered. He may be the veriest vagabond that treads the earth and can turn traitor to his adopted country without violating any promise of allegiance made by him. Surely such unusual and important incidents connected with the marriage, affecting, as they do, the political, civil, and property rights of others, can not be said to be a part of such marriage. He carries with him into other countries only such marital rights as are conferred on him by the laws of the State where married, and as are recognized by the civilized world as pertaining to the marital relation, and such as affect only the parties to the marriage and their issue, and such rights, and such rights only, a white man who may marry a Choctaw woman in one of the States, in violation of the Choctaw laws, carries with him to the nation when he goes into it with his Indian wife, and such rights the Choctaws have always recognized; they allow the woman to retain her citizenship; the issue of the marriage is held to be legitimate, and the husband may live upon and cultivate their lands by virtue of the title of his wife and children, and enjoy all of the marital rights to the full extent that they could have been enjoyed in the State where he was married, as elsewhere in the civilized world. The rule of the law that "A marriage valid where consummated is valid everywhere" is not violated by holding that the marriage of an Indian woman by a white man, in violation of the Indian laws, in one of the States, does not confer upon him those rights of citizenship and of becoming vested to a title as tenant in common of the lands of the nation which a valid marriage, under the Choctaw laws, would confer.

The court is of the opinion, therefore, that in order to confer the right of citizenship by marriage in the Choctaw Nation, the marriage must be a valid one, under the provisions of the Choctaw laws.

Hence, in this case, the claimant is not entitled to be enrolled as a citizen of that nation. The action of the Dawes Commission, in placing him on the said rolls, is reversed, and the Choctaw Nation may have judgment.

V.

F. R. Robinson v. The Choctaw Nation.

The facts of this case are, that the claimant, F. R. Robinson, is a white man; that on the 21st day of September, 1873, in the Choctaw Nation and according to their laws, he married a Choctaw woman by blood, a recognized citizen of the Choctaw Nation; that the said Indian wife died on the 21st day of April, 1884, and on August 10, 1884, claimant married a white woman, not a citizen of the Choctaw Nation.

By the fifth section of the act of the Choctaw council, approved November 9, 1875 (Durant Dig., 226), it is enacted:

Should any man or woman, a citizen of the United States or of any foreign country, become a citizen of the Choctaw Nation by intermarriage as herein provided, and be left a widow or widower, he or she shall continue to enjoy the rights of citizenship; unless he or she shall marry a white man or woman or person as the case may be having no rights of Choctaw citizenship by blood. In that case all his or her rights acquired under the provisions of this act shall cease.

The twenty-eighth article of the treaty of 1866 (14 Stat. L. —) provides:

ARTICLE 28. Every white person who, having married a Choctaw or Chickasaw, resides in the said Choctaw or Chickasaw Nation, or who has been adopted by the legislative authorities, is to be deemed a member of said nation, and shall be subject to the laws of the Choctaw and Chickasaw nations, according to his domicile, and to prosecution and trial before their tribunals, and to punishment according to their laws, in all respects as though he was a native Choctaw or Chickasaw.

The question is, "Do the Choctaw statute and the treaty conflict?" If so, the statute must yield to the treaty, and the marriage is legal. If not, they both must stand and the marriage, being in violation of the statute, is void.

At the hearing the question was argued that the first marriage having been solemnized before the enactment of the statutes the rights of the claimant became vested by that act, and therefore it was contended that although the second marriage was after the statute became a law it could not divest the claimant of those rights which had been conferred upon him before the passage of that act. But the view to take of the legality of this statute relieves me of the necessity of deciding this point.

The treaty makes every white man who may marry a Choctaw or Chickasaw woman a citizen, to use the language of the last words of article 28, above set out, "in all respects as though he was a native Choctaw or Chickasaw." By this provision of the treaty there is to be no difference between a citizen by virtue of his marriage and a native Choctaw. They are to enjoy equally and alike all of the benefits of Choctaw citizenship, as well as share the burdens. Any act, therefore, of the Choctaw council passed after the ratification of the treaty which makes a distinction between them, granting to one greater privileges or rights, or imposing on him more burdens than the other, or which shall undertake to enlarge or curtail the rights and privileges which flow from citizenship as to the one and not as to the other, would be in violation of this provision of the treaty and therefore void. An act which puts the white man in any respect in a different attitude or condition than the Indian is void.

The Choctaw statute undertakes to deprive the white man who shall lose his Indian wife and afterwards marry a white woman of all the rights of citizenship. The marriage had vested a title to the lands in him. This is to be divested from him and he is thereafter to be considered an intruder, subject to be removed from the country under the intercourse laws of the United States. This, too, notwithstanding the fact that his children, the issue of his Indian marriage, are Indians by blood and entitled to remain.

Now, unless a marriage of a native Indian to a white woman, after his Indian wife shall have died, has the same effect on him—that is, decitizenizes him, divests him of all title to the Choctaw lands, and deprives him of the right to live in the country—the statute works an inequality, and the white man does not enjoy the same privileges as the native Indian. The citizenship is different, and the rights flowing therefrom are not the same. The one may do an act that the other can not do; the one has a privilege, that of marrying a white woman, that the other does not enjoy. The important right of unrestricted selection of a wife enjoyed by the native Indian is denied the white citizen by marriage; and therefore, the provisions of the statute being in conflict with the treaty, are absolutely void; and it makes no difference whether the first marriage was before or after the enactment of the statute. Of course the latter marriage must be in accordance with the laws of the Choctaw Nation.

I therefore find that the claimant is entitled to be enrolled. I hold also that the offspring of such a marriage would be entitled to be enrolled; the father being a

lawful citizen, his children would follow his citizenship, and by inheritance take any property rights he may have acquired thereby; but I do not think that the commissioners who negotiated the treaty ever contemplated that it should extend further and enable a white man, whose Indian wife should have died, to be in a condition that by his second marriage to a white woman he could, by virtue of such marriage, confer on his white wife citizenship so far that in case of his death she might remarry and confer on her white husband and her children by her second marriage the rights of Choctaw citizenship.

The action of the Dawes commission in enrolling the claimant is affirmed. Judgment for claimant.

VI.

Wm. N. Tucker v. Choctaw Nation.

The facts of this case are, that the claimant, on the 16th day of February, 1893, at South McAlester, in the Choctaw Nation, under a license of the clerk of the United States court for the Indian Territory, at that place, married a Choctaw woman; that in the solemnization of the said marriage he in nowise conformed with the provisions of the Choctaw statute relating to marriage between white persons and Indians. Afterwards, learning that said marriage did not confer on him the right to become a citizen of the Choctaw Nation, he remarried the same woman in accordance with the provisions of their laws.

The question is, under the circumstances, was the second marriage lawful, in so far as to confer on the claimant the right of Choctaw citizenship? The second section of the Choctaw statute relating to intermarriage (Durant Dig., 226) provides as follows:

Marriages contracted under the provisions of this act shall be solemnized as provided by the law of this nation, or otherwise null and void.

Section 3 of the same act provides that:

No marriage between a citizen of the United States or any foreign nation and a female citizen of this nation, entered into within the limits of this nation, except as hereinafter authorized and provided, shall be legal.

Then follows a provision making it a misdemeanor and imposing a penalty upon all persons, their aiders and abettors, who shall violate the act.

Under the provisions of this statute there can be no question but that, so far as the Choctaw Nation is concerned, the first marriage of the claimant was absolutely void: that is, it was as if it had never been solemnized, leaving the parties in the legal condition as if they had not been married at all. This being true as to them, how can they now say that the second marriage is void on the ground that the first was valid? Having declared by statute that the first was void, they are now estopped from contending that the second is void because the first was valid. As far as the Choctaw Nation is concerned, and it is the only party to this suit who can be heard to object, the second marriage is valid because the first was void, giving the parties the right to remarry as if the first had not occurred. It can not be said that there was anything fraudulent in the second marriage. It simply had the effect of naturalizing the party. It gave the Choctaw Nation the opportunity of inquiring into his character, which was proven good. He paid the license fee and took the oath. The whole object of the Choctaw law was accomplished in good faith, and the mistake made by him in the forms of his first marriage was corrected by the second.

As an evidence of the fact that this ruling is just, since the appeal in this case was taken it has been proven that the claimant has been duly and regularly enrolled by the Choctaw Nation. The action of the said commission in enrolling the said claimant is affirmed and judgment for claimant.

SUMMARY.

1. Absent Mississippi Choctaws are not entitled to enrollment.
2. All Mississippi Choctaws who may have removed into the Choctaw Nation are entitled to enrollment, without respect to the quantum of blood.
3. All absent Choctaws who have permanently moved away from the nation and have not returned are not entitled to enrollment.
4. All white persons married to Choctaws in accordance with their laws are entitled to be enrolled.
5. White persons married to Choctaws in violation of the Choctaw statute are not entitled to be enrolled.

6. White men who have married Choctaws in accordance with their statutes, and the wife dies and the widower afterwards marries a white woman, are, with the children by such marriage, entitled to enrollment, but do not, in case of their death, confer on the white wife citizenship to such an extent that she may confer it on a second white husband and the children by such marriage.

7. A white man, having married a Choctaw woman not in accordance with the Choctaw laws, and afterwards marries her in accordance with such laws, is entitled to enrollment.

UNITED STATES OF AMERICA,

Indian Territory, Central District:

I hereby certify that the above and foregoing are true copies of opinions handed down by me in the cases therein named, and which cases were actually tried before me.

WM. H. H. CLAYTON,

Judge United States Court for the Central District of the Indian Territory.

CHOCTAW AND CHICKASAW NATIONS.

OPINION OF HOSEA TOWNSEND, JUDGE.

In the southern district, Indian Territory.

In re Indian citizenship cases.

TOWNSEND, J.:

I have examined with some care the treaties between the United States Government and the Choctaws and Chickasaws in order that I might become familiar with all the negotiations. The first treaties were made in 1786, separately with each tribe or nation as they were called. Not, however, until 1820 was the subject mentioned of taking any land west of the Mississippi River. On October 18, 1820, near Doak's Stand, on the Natchez road, a treaty was entered into between the Choctaws and the Government of the United States, in which it was stated in the preamble the purpose was—

to promote the civilization of the Choctaw Indians by the establishment of schools amongst them, and to perpetuate them as a nation by exchanging for a small part of their land here a country beyond the Mississippi River where all who live by hunting and will not work may be collected and settled together.

Whereupon, in part consideration of the ceding of a part of their reservation then existing, the Government ceded "a tract of country west of the Mississippi River, situate between the Arkansas and Red rivers," and by its boundaries being substantially the country now embraced in the Choctaw and Chickasaw nations. In 1825 another treaty was entered into between the Choctaw Nation and the Government, by which the Choctaws ceded to the Government all the land ceded to them in 1820 "lying east of a line beginning on the Arkansas one hundred paces east of Fort Smith and running thence due south to Red River," in consideration for which the Government undertook to remove certain settlers, citizens of the United States, from the west to the east side of said line, and to pay certain money consideration for a series of years and certain other provisions not material for consideration in this connection.

On September 27, 1830, another treaty was entered into between the Choctaws and the Government, in the preamble to which it is recited that—

the State of Mississippi has extended the laws of said State to persons and property within the chartered limits of the same, and the President of the United States has said that he cannot protect the Choctaw people from the operation of these laws. Now, therefore, that the Choctaws may live under their own laws in peace with the United States and the State of Mississippi they have determined to sell their lands east of the Mississippi.

It is provided that, in consideration that the United States "shall cause to be conveyed to the Choctaw Nation a tract of country west of the Mississippi River in fee simple to them and their descendants, to inure to them while they shall exist as a nation and live on it," they "cede to the United States the entire country they own and possess east of the Mississippi River, and they agree to remove beyond the Mississippi River."

Under the fourteenth article it is provided that each head of a family who desires to remain shall have a reservation, and then states that persons who claim under this article shall not lose the privilege of a Choctaw citizen, but if they ever remove are not to be entitled to any portion of the Choctaw annuity.

On the 22d day of June, 1855, a treaty was entered into between the Choctaws, Chickasaws, and the Government, and this was the first treaty at which all three were represented. Its purpose was declared to be "a readjustment of their relations to each other and to the United States," and for a relinquishment by the Choctaws of "all claim to any territory west of one hundredth degree of west longitude." In the first article of said treaty it is provided that—

pursuant to act of Congress, approved May 28th, 1830, the United States do hereby forever secure and guarantee the lands embraced within the said limits to the members of the Choctaw and Chickasaw tribes, their heirs and successors, to be held in common.

On the 28th of April, 1866, another treaty was entered into between the Choctaws, Chickasaws, and the United States. This treaty seems to have been necessitated by the changed condition of affairs that resulted from the war of the rebellion

and attempts to arrange civil government for the Choctaws and Chickasaws and an allotment of their lands in severalty. It provides for the survey and platting of the lands, and that when completed the maps, plats, etc., shall be returned to a land office that was to be established at Boggy Depot for inspection by all parties interested, and that a notice shall be given for a period of ninety days of such return by the legislative authorities of said nations, or, upon their failure, by the register of the land office; and in article 13 it is provided that the notice shall be given not only in the Choctaw and Chickasaw nations—

but by publication in newspapers printed in the States of Mississippi and Tennessee, Louisiana, Texas, Arkansas, and Alabama, to the end that such Choctaws and Chickasaws as yet remain outside of the Choctaw and Chickasaw nations may be informed and have opportunity to exercise the rights hereby given to resident Choctaws and Chickasaws: *Provided*, That before any such absent Choctaw or Chickasaw shall be permitted to select for him or her self or others, as hereinafter provided, he or she shall satisfy the register of the land office of his or her intention or the intention of the party for whom the selection is to be made to become bona fide residents in the said nation within five years from the time of the selection; and should the said absentee fail to remove into said nation and occupy and commence an improvement on the land selected within the time aforesaid, the said selection shall be canceled and the land thereafter shall be discharged from all claims on account thereof.

This is the last treaty entered into between the Choctaws and the Chickasaws and the United States. But as late as December 24, 1889, the council of the Choctaw Nation passed a resolution calling upon Congress to defray the expense of moving the Choctaws in Mississippi and Louisiana to the Choctaw Nation.

It was not until 1832 that the Chickasaws took any steps by treaty to move West. On October 20, 1832, a treaty was entered into between the Chickasaws and the United States. In the preamble it is set forth that—

Being ignorant of the language and laws of the white man, they can not understand or obey them. Rather than submit to this great evil, they prefer to seek a home in the West, where they may live and be governed by their own laws.

In the first article of said treaty it is provided that—

The Chickasaw Nation do hereby cede to the United States all the land which they own on the east side of the Mississippi River, including all the country where they at present live and occupy.

It is provided by said treaty that their lands shall be surveyed and sold and the proceeds held for their benefit, and they would hunt for a country west of the Mississippi River. And in the fourth article it is provided:

But should they fail to procure such a country to remove to and settle on previous to the first public sale of their country here, then and in that event they are to select out of the surveys a comfortable settlement for every family in the Chickasaw Nation, to include their present improvements.

And in the supplementary articles entered into October 22, 1832, it is provided:

That whenever the nation shall determine to remove from their present country, that every tract of land so reserved in the nation shall be given up and sold for the benefit of the nation.

On May 24, 1834, another treaty was entered into between the Chickasaws and the United States, making some different provisions about the sale of their lands, but no change in the general purpose.

On January 17, 1837, a convention and agreement was entered into between the Chickasaws and the Choctaws, subject to the approval of the President of the United States, by the terms of which the Chickasaws agree to pay the Choctaws the sum of \$530,000 for the territory that they now occupy. Excepting a treaty between the Chickasaws and the United States, adopted June 22, 1852, in regard to the disposition of their lands east of the Mississippi River, we are brought down in the history of the treaties of the Chickasaws to the treaty of 1855, heretofore mentioned, between the Choctaws, Chickasaws, and the United States.

In all these various treaties, solemnly entered into, there is not one line or one word to indicate that the Choctaws and Chickasaws who did not remove to the Western country were not Choctaw or Chickasaw citizens and members of their respective tribes. On the other hand, in the treaty of 1830 between the Choctaws and the United States it is expressly provided that those who remained should "not lose the privilege of a Choctaw citizen," but, if they ever remove, "are not to be entitled to any portion of the Choctaw annuity."

When it was supposed that the lands would be allotted in severalty under the treaty of 1866, it was expressly provided that notice should be published in the papers of several States that absent Choctaws and Chickasaws might come in and obtain the benefits of the allotment, and absentees were to be allowed five years to occupy and commence improvements, and all that was necessary was to satisfy the register of the land office that that was their intention. The allotment did not take place, but if they had not come in, they were only to lose their allotment

of land; it did not make them any the less Choctaws or Chickasaws or members of the Choctaw or Chickasaw tribes.

It has been said that they could not be put upon the roll as citizens and members of those tribes unless they lived upon the land within the Choctaw or Chickasaw Nation. I submit that the action of the Choctaw and Chickasaw nations themselves when making the treaty of 1866 does not bear out the view, and if they were Choctaws and Chickasaws in 1866, what has occurred to change their relations to those tribes? I have heard of nothing whatever.

It is said the land was held in common, and certainly some of the tenants in common in possession could hold the possession for all their cotenants in common. The bulk of the nation living in the territory ceded and maintaining the tribal government or nation certainly met every requirement of residence and was a compliance in all respects with the treaty stipulations of living on the land.

I shall hold that nonresident Choctaws and Chickasaws who have properly filed their application and established their membership of the tribes shall be admitted to the roll as citizens.

Who is an intermarried citizen and who is an adopted citizen of the Choctaw and Chickasaw nations?

Article 38 of the treaty of 1866 is as follows:

ART. 38. Every white person who, having married a Choctaw or Chickasaw, resides in the said Choctaw or Chickasaw nations, or who has been adopted by the legislative authorities, is to be deemed a member of said nation, and shall be subject to the laws of the Choctaw and Chickasaw nations according to his domicile, and to prosecution and trial before their tribunals, and to punishment according to their laws in all respects as though he was a native Choctaw or Chickasaw.

Does this article apply to future marriages and adoptions or only to those prior to its adoption? By article 26 of said treaty it is provided in regard to the rights to take land in severalty as follows:

ART. 26. The right here given to Choctaws and Chickasaws, respectively, shall extend to all persons who have become citizens by adoption or intermarriage of either of said nations or who may hereafter become such.

Under section 7 of the general provisions of the Chickasaw constitution, adopted August 16, 1867, both as originally adopted and as amended, said sections can have but one construction and that that they regarded the said thirty-eighth article as binding on their future action; and if this is so, it would not be within the power of either the Choctaw or Chickasaw nations to pass or adopt any constitution or law in violation of said article or that would take away the rights, privileges, or immunities that have attached to any white person under and by virtue of its provisions.

Under the constitution of the Chickasaws above referred to, section 10 of the general provisions gives the legislature power to admit or adopt as citizens of said nations "such persons as may be acceptable to the people at large."

This authority had been exercised frequently by the legislature of both nations, as I am informed, prior to the adoption of said treaty, as well as subsequent to its adoption.

On October 19, 1876, the legislature of the Chickasaws passed an act in relation to marriage between citizens of the United States and a member of the Chickasaw tribe or nation of Indians. The second section, among other things, provides:

Hereafter no marriage between a citizen of the United States and a member of the Chickasaw Nation shall confer any right of citizenship, or any right to improve or select lands within the Chickasaw Nation, unless such marriage shall have been solemnized in accordance with the laws of the Chickasaw Nation.

This act was amended September 24, 1887, in some particulars, but the above-quoted provision was retained.

Among all civilized nations it is conceded to be a right that each nation, and in the United States that each State, can exercise and determine by their laws the requirements to be observed in solemnizing marriages, but marriage among civilized nations does not confer citizenship; under the Choctaw and Chickasaw laws it does; besides, it is supposed to carry with it certain property rights. The general rule among civilized nations is that a marriage good where solemnized is good everywhere, but in some States, where marriage is prohibited between certain races of people, they have not been recognized, though they were lawful where solemnized. I think it is within the power of the Chickasaw and Choctaw nations to say by legislation that before a white person shall become one of their citizens, with all the privileges of one, they shall be married according to the forms and requirements of their laws, and that such legislation is not in violation of the thirty-eighth article of the treaty of 1866; but when a white person has married

a Choctaw or Chickasaw according to their laws, and resides in the Choctaw or Chickasaw Nation, he is in all respects "as though he was a native Choctaw or Chickasaw," and his rights under the treaty attaches, and it is not within the power of the Choctaw or Chickasaw Nation to take the same away by legislation or otherwise. It has been said that when adoption takes place by an act of their legislature, the same power that granted can take away. I doubt this proposition, if by the adoption treaty rights have attached, and I am firmly of the opinion that property rights that have attached under the treaty can not be taken away and that only political rights could thus be abrogated.

Along the lines herein indicated the citizenship cases pending in this court will be disposed of.

UNITED STATES OF AMERICA,

Indian Territory, Southern District, ss:

I, C. M. Campbell, clerk of the United States court within and for the southern district of the Indian Territory, do hereby certify that the annexed and foregoing is a true, perfect, and literal copy of the general opinion of the Hon. Hosea Townsend, judge of the United States court of the southern district of the Indian Territory, filed in my office.

In testimony whereof witness my hand as clerk of said court and my official seal at my office at Ardmore, in said southern district, this 1st day of February, A. D. 1898.

[SEAL.]

C. M. CAMPBELL, *Clerk.*

CHEROKEE NATION.

OPINION OF WILLIAM M. SPRINGER, JUDGE.

In the northern district of the Indian Territory, sitting at Muscogee.

In the matter of the application of certain persons to be enrolled as citizens of the Cherokee Nation.

JURISDICTION OF THE COURT.

The subject of citizenship in the Cherokee Nation has occupied a large share of public attention in that nation during the past twenty-six years. It has been the cause of numerous acts of legislation by the nation and by Congress, and also has entered largely into the administration of the Interior Department of the Government.

One of the learned counsel for claimants to citizenship in the Cherokee Nation refers, in the opening of his argument, to the importance of the subject as follows:

Of all the new questions and vexing problems that have come before and called for the judgment of this court, no one has been of such momentous consequence and so fraught with vexation as those this court must entertain and determine in the case of claimants to Cherokee citizenship which are now pending. (G. B. Denison's brief, p. 1.)

The number of persons interested in cases now pending before this court on appeal from the United States commission is believed to be in excess of 5,000, and that about 4,000 of these persons are applicants for citizenship in the Cherokee Nation. The property rights involved will aggregate many millions of dollars, to say nothing of the social and political conditions which are affected. This court approaches the subject with a conviction of inability to do justice to all who are concerned. No pains have been spared, however, for a thorough and exhaustive consideration of all the laws, decisions of the courts, and treaties which bear upon the question.

All persons whose interests are involved have had a fair and impartial hearing. The court is not responsible for the laws; it is only responsible for their application to pending cases. If injustice has been done to anyone, the court regrets it exceedingly. An honest purpose has actuated the court in all cases, and it asks that the consequences for any seeming injustice may be attributed, in part at least, to the law making power and not to the court, whose duty it is to construe and enforce the law as it may exist.

Congress has made the decision of this court final in these cases. It is possible that those who may be dissatisfied (and there will doubtless be many) will petition Congress for a reopening of their cases and for further judicial investigation and determination. To the granting of such petition this court can have no objection whatever. It only regrets that an appeal was not provided to a higher tribunal, in order that the responsibility could be divided and that a greater concurrence of judicial authority might be procured.

This court submits to all concerned, and especially to the legal profession, the result of its deliberations in these cases, with a conscientious belief that the law has been justly interpreted and impartially applied in all cases, and that its judgments may be approved by all fair-minded men.

On the 10th day of June, 1896, the act making appropriations for the Indian service for the year ending June 30, 1897, was passed. Prior thereto Congress had by act approved March 3, 1893 (27 Stat. L., 645), authorized the appointment of a commission to enter into negotiation with the Five Civilized Tribes, known as the Cherokee, Choctaw, Chickasaw, Muskogee or Creek, and the Seminole nations, for the purpose of extinguishment of tribal titles to the lands within the Indian Territory. This act conferred no powers upon the commission except to negotiate and report. The act of June 10, 1896 (29 Stat. L., 321), for the first time conferred upon the commission powers of an executive and quasi judicial character, besides declaring a policy in regard to the government of the Indian Territory.

After making sundry appropriations for the Indian service, the act of June 10, 1896, authorized the commission to the Five Civilized Tribes to hear and determine the applications of persons who may apply to them for citizenship in any of said

nations and to make up the rolls of citizenship of the several tribes. As the provisions of this act not only define the powers and duties of the commission, but of this court, the text thereof on this subject is quoted at length, and is as follows:

That said commission is further authorized and directed to proceed at once to hear and determine the applications of all persons who may apply to them for citizenship in any of said nations, and after such hearing they shall determine the right of such applicant to be so admitted and enrolled: *Provided, however*, That such application shall be made to such commissioners within three months after the passage of this act. The said commission shall decide all such applications within ninety days after the same shall be made.

That in determining all such applications said commission shall respect all laws of the several nations or tribes, not inconsistent with the laws of the United States, and all treaties with either of said nations or tribes, and shall give due force and effect to the rolls, usages, and customs of each of said nations or tribes: *And provided further*, That the rolls of citizenship of the several tribes as now existing are hereby confirmed, and any person who shall claim to be entitled to be added to said rolls as a citizen of either of said tribes and whose right thereto has either been denied or not acted upon, or any citizen who may within three months from and after the passage of this act desire such citizenship, may apply to the legally constituted court or committee designated by the several tribes for such citizenship, and such court or committee shall determine such application within thirty days from the date thereof.

In the performance of such duties said commission shall have power and authority to administer oaths, to issue process for and compel the attendance of witnesses, and to send for persons and papers and all depositions and affidavits and other evidence in any form whatsoever heretofore taken where the witnesses giving said testimony are dead or now residing beyond the limits of said Territory, and to use every fair and reasonable means within their reach for the purpose of determining the rights of persons claiming such citizenship, or to protect any of said nations from fraud and wrong, and the rolls so prepared by them shall be hereafter held and considered to be the true and correct rolls of persons entitled to the rights of citizenship in said several tribes: *Provided*, That if the tribe or person be aggrieved with the decision of the tribal authorities or the commission provided for in this act, it or he may appeal from such decision to the United States district court: *Provided, however*, That the appeal shall be taken within sixty days, and the judgment of the court shall be final.

Those persons whose rights to citizenship have either been denied or not acted upon, and others mentioned in the first proviso above, may apply to the legally constituted court or committee designated by the several tribes for such citizenship, with right of appeal to the United States court, as appears in the second proviso.

The provisions in the foregoing statute, conferring jurisdiction upon this court, are to the effect that any persons aggrieved with the decision of the tribal authorities or the United States commission may appeal from such decision to the United States court; that the appeal shall be taken within sixty days from the decision of the tribal authorities or the commission, and the judgment of this court shall be final.

There has been some contention as to whether the United States commission was such a judicial body as that appeals could be prosecuted from it to the United States court. It is not necessary to pass upon this question. Whether the cases which have been brought to this court are technically on appeal or whether they are instituted merely through the medium of the commission is immaterial. In either event this court may hear and determine them. By the rules of this court heretofore adopted each appellant or claimant has been practically accorded a trial *de novo*. All the testimony that was considered by the United States commission is before the court. In addition thereto the privilege has been extended to all who have applied therefor to take additional testimony. Every claimant has been accorded the privilege of bringing before this court every fact which he may deem essential to the establishment of his claim to citizenship in the nation. (See decision of the Supreme Court in the case of the United States *v. Ritchie*, 58 U. S. Rep., p. 524.)

A very careful and exhaustive consideration has been given to all the cases, and especially to the laws, treaties, and constitutional provisions, on which rights to citizenship depend.

HISTORICAL REVIEW OF THE CASE OF THE EASTERN BAND OF CHEROKEES AGAINST THE UNITED STATES AND THE CHEROKEE NATION.

In order to thoroughly understand the question of Cherokee citizenship, a historical review of the Cherokee Nation will be of interest. The Supreme Court of the United States, March 1, 1886, decided a very important case, which is known as that of the Eastern Band of Cherokee Indians against the United States and the Cherokee Nation. This case is reported at length in volume 117, United States Reports, pages 288 to 312. It was taken to the Supreme Court on appeal from the Court of Claims, and was by that court decided June 1, 1885 (20th Court of Claims Reports, pp. 449 to 483). The opinion of the court in each case was concurred in by all the judges. The opinion of the Supreme Court was pronounced by Mr. Justice Field, and that of the Court of Claims by Chief Justice Richardson. I have thus specifically mentioned this case on account of its great importance and bearing upon the question of citizenship in the Cherokee Nation. I will adopt the

historical review of the case which is found in the opinion of the Supreme Court of the United States, for the reason that it shows the construction which the Supreme Court put upon the treaties made with the Cherokee Nation. It is as follows:

This case comes before us on appeal from the Court of Claims. It was brought to determine the right of the petitioners, called the Eastern Band of the Cherokee Indians, to a proportionate part of two funds held by the United States in trust for the Cherokee Nation. One of the funds was created by the treaty with the nation made December 29, 1835, at New Echota, in Georgia, commuting certain annuities into the sum of \$214,000. The other arose from sales of certain lands of the nation lying west of the Mississippi River.

The suit by the petitioners was authorized by an act of Congress, and it is brought against the United States and the Cherokee Nation (22 Stat. L., 581, chap. 141); the United States, however, have no interest in the controversy, as they hold the funds merely as trustees. They stand neutral, therefore, in the litigation, although, as a matter of form, they have filed an answer traversing the allegations of the petition.

The general grounds upon which the petitioners proceed and seek a recovery is that the Cherokee Indians, both those residing east and those residing west of the Mississippi, formerly constituted one people and composed the Cherokee Nation; that by various treaty stipulations with the United States they became divided into two branches, known as the Eastern Cherokees and the Western Cherokees; and that the petitioners constitute a portion of the former, and as such are entitled to a proportionate share of the funds which the United States hold in trust for the nation.

This claim is resisted, upon the ground that the two branches, into which it is admitted the nation was once divided, subsequently became reunited, and have ever since constituted one nation, known as the Cherokee Nation; and that as such it possesses all the rights and property previously claimed by both; and that the petitioners have not, since the treaty of New Echota, constituted any portion of the nation.

To determine the merits of the respective claims and pretensions of the parties it will be necessary to give some account of the different treaties between the Cherokees and the United States, and to refer to the several laws passed by Congress to carry the treaties into effect and accomplish the removal of the Indians from their former home east of the Mississippi to their present country west of that river.

When that portion of North America which is now embraced within the limits of the United States east of the Mississippi was discovered, it was occupied by different tribes or bands of Indians. These people were destitute of the primary arts of civilization, and, with a few exceptions, had no permanent buildings, occupying only huts and tents. Their lands were cultivated in small patches, and generally by women. The men were chiefly engaged in hunting and fishing. From the chase came their principal food and the skins of animals were their principal clothing. The different tribes roamed over large tracts and claimed a right to the country as their territory and hunting grounds. Of these tribes the Cherokee Indians constituted one of the largest and most powerful. They claimed the principal part of the country now composing the States of North and South Carolina, Georgia, Alabama, and Tennessee. Their title was treated by the governments established by England and the governments succeeding them as merely usufructuary, affording protection against individual encroachment, but always subject to the control and disposition of those governments, at least so far as to prevent, without their consent, its acquisition by others. Such superior right rested upon the claim asserted by England of prior discovery of the country and was respected by other European nations. There was no nation, therefore, to oppose this assertion of superior right to control the disposition of the lands and to acquire the title of the Indians except the Indians themselves, and by treaties with them from time to time their title and interest were conceded to the United States.

On the 28th of November, 1785, the United States made its first treaty with the Cherokees (7 Stat. L., 18). It was concluded at Hopewell, on the Koowee, between commissioners representing the United States on the one part and the "head men and warriors of all the Cherokees on the other." By it the Indians, for themselves and their respective tribes and towns, acknowledged that all the Cherokees were under the protection of the United States and of no other sovereign. The treaty promised peace to them and the favor and protection of the United States, on the condition of the restoration to liberty of certain prisoners whom they had captured, and of the return of certain property which they had seized. It also prescribed the boundary between them and citizens of the United States of lands allotted to them for their hunting grounds. These lands embraced large tracts within the States mentioned. The ninth article provided that, for the benefit and comfort of the Indians, and for the prevention of injuries or oppressions on the part of the citizens or Indians, the United States should "have the sole and exclusive right of regulating the trade with the Indians and of managing all their affairs in such manner as they think proper." By this treaty the Cherokees were recognized as one people, composing one tribe or nation, but subject, however, to the jurisdiction and authority of the Government of the United States, which could regulate their trade and manage all their affairs.

On the 2d of July, 1791, another treaty was made with the Cherokees, in which they were described as the "Cherokee Nation" (7 Stat. L., 39). Its representatives were designated as the "chiefs and warriors of the Cherokee Nation of Indians," and the first article declared that "There shall be perpetual peace and friendship between all the citizens of the United States of America and all the individuals composing the Cherokee Nation of Indians." And the chiefs and warriors, "for themselves and all parts of the Cherokee Nation," acknowledged themselves and the Cherokee Nation to be under the protection of the United States and of no other sovereign. The treaty also renewed the agreement, on the part of the Cherokees, that the United States should have the sole and exclusive right of regulating their trade, and readjusting the boundary between the citizens of the United States and the "Cherokee Nation," by which the hunting grounds were reduced in quantity; and in consideration of this reduction the United States agreed to deliver certain valuable goods to the chiefs and warriors for the use of the nation and to pay to the nation annually the sum of \$1,000. A further article increased the amount to \$1,500.

The boundaries of the hunting grounds were from time to time changed by subsequent treaties, and by each succeeding one their extent was reduced, in consideration of which a larger quantity of goods was promised to the nation, and the annuity was increased until, in the year of 1805, it amounted to \$10,000 (7 Stat. L., 43, 62, 93). This annuity was regularly paid to the Cherokee Nation, as represented by the Indians occupying territory east of the Mississippi River, until the treaty of July 8, 1817 (7 Stat. L., 156). That treaty originated from a division of opinion among the Cherokees as to their mode of life, which existed when the first treaty with the

United States was made in 1785 and which had from that time increased. There were numerous settlements or towns within the territory allotted to the Indians. Those who occupied the upper towns, which were mostly in the State of North Carolina, desired to engage in the pursuits of agriculture and civilized life, while those who occupied the lower towns in the valley of the Mississippi desired to continue the "hunter life," and owing to the scarcity of game where they lived to remove across the Mississippi River to vacant lands of the United States. As early as 1808 a deputation from the upper and lower towns, authorized by the Cherokee Nation, came to Washington to declare to the President their desires and inform him of the impracticability of uniting the whole nation in the pursuits of civilized life and to request the establishment of a division line between the two classes of towns. The treaty of 1817, which was made with "the chiefs, head men, and warriors of the Cherokee Nation east of the Mississippi River and the chiefs, head men, and warriors of the Cherokees on the Arkansas River," recites the action of this deputation and the reply of the President to the parties made on the 9th of January, 1809, which was, in substance, that the United States were the friends of both parties, and, as far as could be reasonably asked, were willing to satisfy the wishes of both; that those who remained might be assured of their patronage, aid, and good neighborhood; that those who wished to remove would be permitted to send an exploring party to reconnoiter the country on the west of the Arkansas and White rivers and higher up; that when this party should have found a tract of country suiting the emigrants and not claimed by other Indians the United States would arrange with them to exchange it for a just proportion of the country they should leave and to a part of which, according to their numbers, they had a right, and that every aid toward their removal and that would be necessary for them there would then be freely extended to them.

The treaty recites that, relying upon these promises of the President, the Cherokees explored the country on the west side of the Mississippi, and made choice of the country on the Arkansas and White rivers, and settled upon lands of the United States to which no other tribe of Indians had any just claim, and that they had duly notified the President thereof, and of their desire for a full and complete ratification of his promise. To that end, as notified by him, they had sent their agents with full powers to execute a treaty relinquishing to the United States their right, title, and interest to all lands belonging to them as part of the Cherokee Nation which they had left and which they were about to leave, proportioned to their numbers, including with those now on the Arkansas those who were about to remove thither. The treaty then proceeds to recite that, to carry into effect in good faith the promise of the President and to promote a continuation of friendship with their brothers on the Arkansas River, and for that purpose to make an equal distribution of the annuities secured by the United States to the whole Cherokee Nation, its articles were agreed upon. These were, in substance, that the chiefs, headmen, and warriors of the whole Cherokee Nation ceded to the United States certain lands lying east of the Mississippi, and the United States, in exchange for them, bound themselves to give to that branch of the Cherokee Nation on the Arkansas so much land on the river and the White River as they had received or might thereafter receive from the Cherokee Nation east of the Mississippi, "acre for acre, as the just proportion due that part of the nation on the Arkansas, agreeably to their numbers." The United States also agreed to give to each poor warrior who might remove to the western side of the Mississippi a rifle gun, with ammunition and other articles, to pay for all improvements of real value to their lands, and to give of the lands surrendered to the United States to every head of an Indian family residing on the east side of the Mississippi who might wish to become a citizen of the United States 640 acres. It was also agreed that the annuity due to the whole nation for the year 1818 should be divided between the two branches of the nation, according to their respective numbers, to be ascertained by a census to be taken. Previous treaties between the United States and the Cherokee Nation were to continue in force with both of its branches, each to be entitled to all the immunities and privileges which the "old nation" enjoyed under them.

On the 27th of February, 1819, another treaty was made with the Cherokee Nation (7 Stat. L., 195), represented by its chiefs and headmen. By it a further cession of lands was made to the United States, and it was agreed that the annuity to the nation should be paid as follows: Two-thirds to the Cherokees east of the Mississippi, and one-third to the Cherokees west of that river. This apportionment was based upon the estimate that those who had emigrated and those who were enrolled for emigration constituted one-third of the nation, instead of upon a census to be taken, as mentioned in the treaty of 1817. The annuity thus divided was regularly paid as stipulated until commuted by the treaty of December, 1835, of which we shall presently speak.

On the 6th of May, 1828, a treaty was made with the chiefs and headmen of the Cherokee Nation of Indians west of the Mississippi (7 Stat. L., 311). This was the first time that the Cherokees west of the river were recognized, so far as a distinct and separate political body from the Cherokees east of the river as to call for separate treaty negotiations with them. The treaty recited, as among the causes of its being made, that it was the anxious desire of the Government to secure to the Cherokee Nation of Indians, as well those then living within the limits of Arkansas as those of their friends and brothers residing in States east of the Mississippi who might wish to join their brothers west, a permanent home, which should, under the guaranty of the United States, remain forever theirs; and that the present location of the Cherokees in Arkansas was unfavorable to their repose and tended to their degradation and misery. By it the United States agreed to put the Cherokees in possession of, and to guarantee to them forever, 7,000,000 acres of land which were specifically described, and which are situated in what is now known as the Indian Territory, and also to give and guarantee to the Cherokee Nation a perpetual outlet west of these lands, and a free and unmolested use of the country, so far as their sovereignty and right of soil extended. They also agreed to pay for all improvements on the land abandoned; and, in order to encourage the emigration of their brothers remaining in the States, to give to each head of a Cherokee family then residing within any of the States east of the Mississippi, who might desire to remove west, on enrolling himself for emigration, a good rifle and certain other articles, to make just compensation for their property abandoned, to bear the cost of their emigration, and to procure provisions for their comfort, accommodation, and support by the way, and for twelve months after their arrival at the agency. On the other hand, the chiefs and headmen of the Cherokee Nation west ceded to the United States the lands to which they were entitled on the Arkansas under the treaties of July 18, 1817, and of February 27, 1819, and agreed to remove from the same within fourteen months.

From this time until the treaty of New Echota, concluded December 29, 1835 (7 Stat. L., 478), the Cherokees were divided into two branches, so far as constituting distinct political bodies; that the United States had separate negotiations with each; and on the 14th of February, 1833, by a treaty with the chiefs and headmen of the Cherokee Nation west of the Mississippi, the United States renewed their guaranty of the 7,000,000 acres of land, and of the perpetual outlet to the nation west of those lands, and of the free and unmolested use of the country west.

In the meantime (from the treaty of 1828 until the treaty of New Echota) the Cherokees remaining east of the Mississippi were subjected to harassing and vexatious legislation from the States within which they resided. The United States had, as early as 1802, agreed with Georgia, in consideration of her cession of western lands, to extinguish the Indian title to lands within the State. North Carolina claimed that the United States were under a similar obligation to extinguish the Indian title to lands within her limits, in consideration of a like cession of western lands, although there was no positive agreement to that effect. And with the extinguishment of their title it was expected that the Indians themselves would be removed to the territory beyond the bounds of those States. At the time the treaty of 1828 was made, a great deal of impatience had been exhibited by the people of those States at the little progress made in the extinguishment of the Indian title, and at the continued presence of the Indians. Severe and oppressive laws were passed by Georgia, in order to compel them to leave; and, though less severity was practiced in North Carolina toward the Indians in that State, an equally pronounced desire for their departure was expressed. Angry and violent disputes between them and the white people in both States, but more particularly in Georgia, were of frequent occurrence. (See case of *Cherokee Nation v. Georgia*, as reported in a separate volume by Richard Peters in 1831; see 30 U. S. Bk., 8, L. ed. 1; also a document called *The Public Domain*, prepared by the Public Land Commission, and published as Ex. Doc. 47 of H. of R., Forty-sixth Congress, third session, and Doc. No. 71 of H. of R., Twenty-third Congress, first session.)

The treaty of New Echota was made to put an end to those troubles and to secure the reunion of the divided nation. It recites as motives to its negotiation, among other things, that the Cherokees were anxious to make some arrangement with the Government of the United States whereby the difficulties they had experienced from residence within the settled parts of the country under the jurisdiction and laws of the State governments might be determined and adjusted and they be reunited into one body, and be secured a permanent home for themselves and their posterity in the country selected by their forefathers, without the territorial limits of the State sovereignties, and where they could establish and enjoy a government of their choice, and perpetuate such state of society as might be most consonant with their views, habits, and conditions, and as might tend to their individual comfort and their own advancement in civilization. By its stipulations the Cherokees ceded to the United States all the lands owned, claimed, or possessed by them east of the Mississippi River, and all claims for spoliation of every kind, for the sum of \$5,000,000, and agreed to remove to "their new home" west of the Mississippi within two years from its ratification.

The treaty also recited the cession to the Cherokee Nation by previous treaties of the 7,000,000 acres, and the guaranty of a perpetual outlet west of these lands, and a free and unmolested use of all the country so far as the sovereignty of the United States and their right to the soil extended; and also that it was apprehended by the Cherokees that in this cession there was not a sufficient quantity of land for the accommodation of the whole nation, and therefore the United States agreed, in consideration of \$500,000, to convey by patent to the Indians and their descendants an additional tract of 800,000 acres; and that the lands previously ceded, including the outlet, should be embraced in the same patent (article 2). They also agreed to remove the Indians to their new home and to subsist them one year after their arrival there, except that such persons and families as in the opinion of "the emigrating agent" were capable of subsisting and removing themselves should be permitted to do so, and should be allowed for all claims for the same \$20 for each member of their families; and, in lieu of their one year's rations, should be paid the sum of \$33.33 if they preferred it (article 8).

It was also agreed that after deducting the amount which should be actually expended for the payment for improvements, claims for spoliation, removal, subsistence, and debts and claims upon the Cherokee Nation, and for the additional quantity of lands and goods for the poorer class of Cherokees, and the several sums to be invested for the general national funds provided for in the several articles of the treaty, the balance, whatever the same might be, should be equally divided among all the people belonging to the Cherokee Nation east, according to the census completed, and such Cherokees as had removed west after June, 1835; and that those individuals and families that were adverse to removal and were desirous to become citizens of the State wherein they resided, and such as were qualified to take care of themselves and their property, should be entitled to receive their due proportion of all the personal benefits arising under the treaty for their claims, improvements, and their per capita as soon as an appropriation was made to carry out the treaty (articles 12, 15).

By the eleventh article "the Cherokees, believing it would be for the interest of their people to have all their funds and annuities under their own direction and future disposition," agreed to commute their permanent annuity of \$10,000 for the sum of \$214,000, the same to be invested by the President of the United States as part of the general fund of the nation.

In the following year Congress made the requisite appropriation for the commutation and, according to the tenth article of the treaty, the money was invested "for the benefit of the whole Cherokee Nation," which had removed or should subsequently remove to the lands assigned to it west of the Mississippi. This is one of the funds of which the petitioners claim a part, in proportion to their numbers as compared with the citizens of the Cherokee Nation living west of the Mississippi on the territory ceded. The provisions of the treaty as to the investment, custody, and distribution of the income of this fund, and all other funds belonging to the nation, remained in force until the treaty of July 19, 1866. The interest was paid over annually to the agents of the Cherokee Nation authorized to receive the same, and was subject to application by its council to such purposes as they deemed best for the general interest of their people. The treaty of 1866 (article 23, 14 Stat. L., 805) provided that all funds then due the nation, or that might thereafter accrue from the sale of its lands by the United States, as provided for, should be invested in United States registered stocks at their current value, and the interest on said funds should be paid semiannually on the order of the Cherokee Nation, and be applied to the following purposes, to wit: 35 per cent for the support of the common schools of the nation and educational purposes, 15 per cent for the orphan fund, and 50 per cent for general purposes, including reasonable salaries of district officers.

Immediately after the ratification of the treaty of 1835 measures were taken by the Government to secure its execution and commissioners were appointed to adjust claims for improvements and facilitate the emigration of the Indians. But emigration proceeded slowly. Great reluctance to go was manifested by large numbers, and at last it became necessary to make a display of force to compel their removal. Major-General Scott was sent to the country with troops and instructed to remove all the Indians except such as were entitled to remain and become citizens under the twelfth article of the treaty. The number that remained was between 1,100 and 1,200. They were without organization or a collective name. They ceased to be a part of the Cherokee Nation, and henceforth they became citizens of and were subject to the laws of the State in which they resided. The name of the Eastern Cherokees accom-

panied those who emigrated, to distinguish them from those who had preceded them and who were called "old settlers."

After the reunion of the Cherokee people on their lands west of the Mississippi, resulting from the execution of the treaty, and on the 12th of July, 1839, the following act of union between the Eastern and Western Cherokees was adopted:

"Act of union between the Eastern and Western Cherokees."

"Whereas our fathers have existed as a separate and distinct nation, in the possession and exercise of the essential and appropriate attributes of sovereignty, from a period extending into antiquity, beyond the records and memory of men; and whereas these attributes, with the rights and franchises which they involve, remain still in full force and virtue, as do also the national and social relation of the Cherokee people to each other and to the body politic, excepting in those particulars which have grown out of the provisions of the treaties of 1817 and 1819 between the United States and the Cherokee people, under which a portion of our people removed to this country and became a separate community (but the force of circumstances having recently compelled the body of the Eastern Cherokees to remove to this country, thus bringing together again the two branches of the ancient Cherokee family), it has become essential to the general welfare that a union should be formed and a system of government matured adapted to their present condition and providing equally for the protection of each individual in the enjoyment of all his rights:

"Therefore we, the people composing the Eastern and Western Cherokee Nation, in national convention assembled, by virtue of our original unalienable rights, do hereby solemnly and mutually agree to form ourselves into one body politic, under the style and title of the Cherokee Nation.

"In view of the union now formed, and for the purpose of making satisfactory adjustment of all unsettled business which may have arisen before the consummation of this union, we agree that such business shall be settled according to the provisions of the respective laws under which it originated, and the courts of the Cherokee Nation shall be governed in their decisions accordingly. Also, that the delegation authorized by the Eastern Cherokees to make arrangements with Major-General Scott for their removal to this country shall continue in charge of that business, with their present powers, until it shall be finally closed; and, also, that all rights and titles to public Cherokee lands on the east or west of the river Mississippi, with all other public interests which may have vested in either branch of the Cherokee family, whether inherited from our fathers or derived from any other source, shall henceforth vest entire and unimpaired in the Cherokee Nation as constituted by this union.

"Given under our hands at Illinois camp grounds this 12th day of July, 1838.

"By order of the national convention.

"GEORGE LOWRY,

"President of the Eastern Cherokees.

his

"GEORGE X GUESS,

mark

"President of the Western Cherokees."

On the 6th of September following they adopted a constitution of government, in which they recited that the Eastern and Western Cherokees had become reunited in one body politic, under the style and title of the Cherokee Nation. The second clause of its first article is as follows:

"The lands of the Cherokee Nation shall remain common property; but the improvements made thereon, and in possession of the citizens of the nation, are the exclusive and indefeasible property of the citizens respectively who made or may rightfully be in possession of them: *Provided*, That the citizens of the nation possessing exclusive and indefeasible right to their improvements, as expressed in this article, shall possess no right or power to dispose of their improvements in any manner whatever to the United States, individual States, or to individual citizens thereof; and that whenever any citizen shall remove with his effects out of the limits of this nation and become a citizen of any other government all his rights and privileges as a citizen of this nation shall cease: *Provided, nevertheless*, That the national council shall have power to readmit by law to all the rights of citizenship any person or persons who may at any time desire to return to the nation, on memorializing the national council for such readmission."

But notwithstanding this declared reunion of the divided Cherokees, there was much bitter feeling between the old settlers and the newcomers, leading to violent contests and causing, in many instances, great loss of property and life. The newcomers, being the more numerous, claimed to control the government of the country, and endeavored to compel the old settlers to submit to their rule. The old settlers had an organization of their own and complained that the newcomers occupied their lands and overthrew their organization. And among the newcomers also there was bitterness between those who had favored the treaty of removal from the east side of the Mississippi and those who had opposed it. The former sided with the old settlers, but the latter outnumbered both. Violent measures were resorted to on both sides to carry out their purposes and there was little security for person or property. The situation became intolerable, and in 1845 the contending factions—the old settlers, the treaty party, and the anti-treaty party—sent delegates to Washington to lay their grievances before the officials of the United States Government, in the hope that some relief might be afforded them. The old settlers and the treaty party desired the division of the people into two nations and a division of the territory. Demands also were made by each party against the United States under the stipulations of the treaty of New Echota. These circumstances led to the treaty of August 6, 1846. It was negotiated on the part of the Cherokees by delegates appointed by the regularly constituted authorities of the Cherokee Nation and by delegates appointed by and representing that portion of the tribe known and recognized as Western Cherokees, or the old settlers. It recited that serious difficulties had for a considerable time existed between the different parties of the people constituting and recognized as the Cherokee Nation of Indians, which it was desirable should be speedily settled, so that peace and harmony might be restored among them, and that certain claims existed on the part of the Cherokee Nation and portions of the Cherokee people against the United States, and that, with a view to the final and amicable settlement of these difficulties and claims, the parties had agreed to the treaty. (9 Stat. L., 871.)

It declared that all difficulties and differences existing between the several parties of the Cherokee Nation were settled and adjusted, and that they should, as far as possible, be forgotten and forever buried in oblivion; that all party distinctions should cease, except as far as they might be necessary to carry the treaty into effect; that a general amnesty should be proclaimed, and that all offenses and crimes committed by a citizen or citizens of the Cherokee Nation against the nation or an individual were pardoned. It was agreed also that all parties were to unite to enforce laws against future offenders, and that laws should be passed for equal

protection and for security of life, liberty, and property. Thus the personal dissensions were to a great extent healed.

The treaty also declared that the lands occupied by the Cherokee Nation should be secured to the whole Cherokee people for their common use and benefit, and that a patent should be issued for the same, including the 800,000 acres purchased, together with an outlet west, thus recognizing that all the lands ceded by the United States for the benefit of the Cherokees west of the Mississippi belonged to the entire nation, and not to any of the factions into which the nation was divided. The treaty also made provision for the adjustment and payment of the claims of different parties. The ninth article is as follows:

"The United States agree to make a fair and just settlement of all moneys due to the Cherokees and subject to the per capita division under the treaty of the 29th December, 1835, which said settlement shall exhibit all money properly expended under said treaty; shall embrace all sums paid for improvements, ferries, spoiliations, removal and subsistence and commutation therefor, debts and claims upon the Cherokee Nation of Indians for the additional quantity of land ceded to said nation; and the several sums provided in the several articles of the treaty to be invested as the general funds of the nation; and also all sums which may be hereafter properly allowed and paid under the provisions of the treaty of 1835. The aggregate of the said several sums shall be deducted from the sum of \$6,647,067; and the balance thus found to be due shall be paid over per capita in equal amounts to all those individuals, head of families, or their legal representatives, entitled to receive the same under the treaty of 1835 and the supplement of 1836, being all those Cherokees residing east at the date of said treaty and the supplement thereto."

By the treaty of July 19, 1866 (14 Stat. L., 797), provision was made for the settlement of friendly Indians on certain unoccupied lands of the Cherokees west of the Mississippi and for the sale of their interest, and also for the sale of other lands belonging to them in the State of Kansas and the investment of the proceeds in registered stock of the United States for the benefit of the Cherokee Nation. Under it and pursuant to other laws sales were made of the lands mentioned, and also other lands west of the Mississippi ceded to the Cherokees under the different treaties to which we have referred, and the proceeds have been duly invested as required by article 23 of the treaty. The investment constitutes one of the funds of which the petitioners seek a proportionate part. * * *

Chief Justice Richardson, in his opinion in the Court of Claims, also recites at length the history of negotiations and treaties with the Indians which led up to and formed the basis of the case. It will be seen by careful examination of the foregoing treaty stipulations that the Indians who constituted the Eastern Band of Cherokees separated themselves from the Cherokee Nation proper. This separation was provided for in article 12 of the treaty of 1835, which was concluded at New Echota. The article is as follows:

ARTICLE 12 Those individuals and families of the Cherokee Nation that are averse to a removal to the Cherokee country west of the Mississippi and are desirous to become citizens of the States where they reside, and such as are qualified to take care of themselves and their property, shall be entitled to receive their due portion of all the personal benefits accruing under this treaty for their claims, improvements, and per capita as soon as an appropriation is made for this treaty.

The condition of the Eastern Band and their political status are thus described in the opinion in the Court of Claims by Chief Justice Richardson:

The fact that those who remained were Cherokee Indians by blood and race could not be blotted out, and they were so called, but their connection with the Cherokee Nation was completely severed.

They had no further voice in its councils nor in its affairs. They were not subject to its laws and they owed to it no allegiance. The Cherokee Nation, as a body politic, never afterwards recognized them as a part of the nation in any form or manner whatever. The only privilege ever accorded them by the nation was that they might become citizens and subject upon removal within its territorial boundaries, and they accord that to all those who are Cherokee by blood or race, wherever they may come from.

They had expatriated themselves from the Cherokee Nation and had become denizens and subjects, if not citizens, of the States where they resided. Thomas, their agent and attorney, wrote that by the constitution and laws of the State they had the right to vote though they seldom exercised it, lest by identifying themselves with one political party they should give offense to the other (Ex. Doc. No. 298, first session Twenty-ninth Congress, p. 181). Whatever organizations they subsequently affected must have been mere social organizations, with no power, as an independent nation of their own, to make laws or do other national acts. That follows from their relations to the State of North Carolina.

They were never afterwards recognized by the United States as any part of the Cherokee Nation as a body politic.

Congress has passed acts from time to time by which there was paid to every Cherokee Indian in the Eastern Band his proportion of the per capita money, and Congress has funded an amount of money equal to the removal and subsistence allowance of each of said Indians and paid the interest to them regularly, and the principal sum of \$53.50 to each one who subsequently went west until 1852. Chief Justice Richardson, in his opinion, page 478, says:

The claimant relies much upon the language of the first article of the treaty of 1846, securing the lands west to the "whole Cherokee people, for their common use and benefit," as giving the North Carolina Cherokees and the claimant band an interest therein whenever any part should be sold. Even independently of the contemporaneous construction by all parties, which strengthens our views, we have no doubt that the "whole Cherokee people" there referred to were the three parties into which the Cherokee Nation was then divided by dissensions, and not by locality, first, the "Eastern Cherokees," meaning those who removed west after the treaty of 1835-36, and who constituted the governing party, or, as their delegates signed themselves, the "government party;" second, the "treaty party," and third, the "old settlers," all mentioned in that treaty.

If, however, the "whole Cherokee people" there mentioned included the North Carolina Cherokees, the very language repels the idea of any partition between them. To enjoy the

benefit of the common lands they must go and enjoy the same with their brethren, according to the customs, laws, and usages of the nation. There is not a single word in either of the treaties that implies a partition of land or a division of the funds of the Cherokee Nation. All is distinctly either declared or implied to be "in common." In clear violation of the idea of common property, the present claimant is seeking a division of it.

The concluding portion of the decision of the Court of Claims is as follows:

The demands of the present Eastern Band of Cherokees and its members are in conflict with these express provisions of the constitution and laws of the Cherokee Nation, to which they are claiming to belong. They are demanding a division of trust funds which the United States holds as the common property, and that, too, while they are living without the limits of the nation and are to all intents and purposes citizens of another government, in utter disregard of the traditions, constitution, and laws of the Cherokee people.

Throughout this opinion we have treated the proceeds of the sale of the common lands as the common property of the nation, precisely as were the lands before such sale. Those proceeds have been invested, and the income of the investments is paid out, in accordance with the terms of the treaty of 1866 (14 Stat. L., 806), for the benefit of the Cherokee Nation as a body politic.

If the Indians east of the Mississippi River wish to enjoy the common benefits of the common property of the nation, in whatever form it may be, whether in permanent fund or in the proceeds of the sale of common lands, they must comply with the constitution and laws and become readmitted to citizenship as therein provided. They can not have a divided share of the common property of the nation, and thus gain rights and privileges not accorded to any other Cherokee Indians—the living out of the national territory, avoiding subjecting themselves to the laws of the nation, dividing its common fund and common property, and managing their affairs wholly independent of national authority. Such an admission of right might break the nation into innumerable bands and scatter into fractions funds which, by treaties with the United States and by the constitutions and laws of the Indians themselves, have been dedicated as common funds to the common and not divided benefit of the nation.

In our opinion the Eastern Band of Cherokee Indians, claimants in this case, have no rights in law or in equity in and to the moneys, stocks, and bonds held by the United States in trust for the Cherokees, arising out of the sales of lands lying west of the Mississippi River, nor in and to a certain other fund, commonly called the permanent-annuity fund, mentioned in the act of March 3, 1883 (22 Stat. L., 585), referring the case to this court; and a decree will be entered to that effect.

The opinion of the Supreme Court of the United States in this case concludes as follows:

Their claim (Eastern Band of Cherokees), however, rests upon no solid foundation. The lands from the sales of which the proceeds were derived belonged to the Cherokee Nation as a political body, and not to its individual members. They were held, it is true, for the common benefit of all the Cherokees, but that does not mean that each member had such an interest as a tenant in common that he could claim a pro rata share of the proceeds of the sale made of any part of them. He had a right to use parcels of the land thus held by the nation, subject to such rules as its governing authority might prescribe; but that right neither prevented nor qualified the legal power of that authority to cede the lands and the title of the nation to the United States. Our Government, by its treaties with the Cherokees, recognized them as a distinct political community and so far independent as to justify and require negotiations with them in that character. Their treaties of cession must, therefore, be held not only to convey the common property of the nation, but to divest the interest therein of each of its members. Such was substantially the language and such the decision of the Attorney-General of the United States in a communication made to the President in 1845 with reference to the treaty of New Echota. "The Executive of the United States," he said, "must, therefore, regard the treaty of New Echota as binding on the whole Cherokee tribe; and the Indians, whether in Georgia, Alabama, Tennessee, or North Carolina, are bound by its provisions. As a necessary consequence, they are entitled to its advantages. The North Carolina Indians, in asking the benefit of the removal and subsistence commutation, necessarily admit the binding influence of the treaty on them and their rights. They can not take its benefits without submitting to its burdens. The Executive must regard the treaty as the supreme law, and as a law construe its provisions." (4 Ops. Attys. Gen., 437.)

Whatever rights, therefore, the Cherokees in North Carolina, who refused to join their countrymen in the removal to the lands ceded to them west of the Mississippi, can claim in the funds arising from the sales of portions of such lands, or in the fund created by a commutation of the annuities granted upon cessions of the lands of the Cherokee Nation, must depend entirely upon the treaties out of which those funds originated. They have as yet received nothing from either of them, and they can claim nothing by virtue of the fact that the lands of the nation, which its authorities ceded to the United States, were held for the common benefit of all the Cherokees. All public property of a nation is supposed to be held for the common benefit of its people; their individual interest is not separable from that of the nation.

The Cherokees in North Carolina dissolved their connection with their nation when they refused to accompany the body of it on its removal, and they have had no separate political organization since. Whatever union they have had among themselves has been merely a social or business one. It was formed in 1868, at the suggestion of an officer of the Indian Office, for the purpose of enabling them to transact business with the Government with greater convenience. Although its articles are drawn in the form of a constitution for a separate civil government, they have never been recognized as a separate nation by the United States; no treaty has been made with them; they can pass no laws; they are citizens of that State and bound by its laws. As well observed by the Court of Claims in its exhaustive opinion, they have been in some matters fostered and encouraged by the United States, but never recognized as a nation in whole or in part. (20 C. Cls.)

Nor is the band, organized as it now is, the successor of any organization recognized by any treaty or law of the United States. Individual Indians who refused to remove west and preferred to remain and become citizens of the States in which they resided were promised certain moneys, but there is no evidence that the petitioners have succeeded to any of their rights. The original claimants have probably all died, for fifty years have elapsed since the treaty of 1835 was made, and no transfer from them or their legal representatives is shown. But assuming that the petitioners probably represent all rightful demands of the Cherokees living in North Carolina when the treaty was made, what were those demands? As designated by articles 12 and 15 of the treaty, those Cherokees were to receive "their due portion of all the personal benefits

accruing under the treaty for their claims, improvements, and per capita." The term "claims" had reference to demands for spoiliations of their property, which existed prior to the treaty. The improvements were those made on the property ceded. By per capita was meant the apportionate amount, given to each Cherokee east not choosing to emigrate, of the money received on the cession of the lands east of the Mississippi, after deducting certain expenditures mentioned in article 15. Whatever may have remained for the per capita distribution of the \$5,000,000 received for the lands after the deductions mentioned, it is plain that it constituted no portion of the moneys that formed the fund of which the petitioners seek by this suit a proportionate part. By the treaty of 1846 certain sums were allowed in addition to the \$5,000,000 specified in the treaty of 1835, and from the whole amount certain items, other than those three designated, were to be deducted, and the balance was to be paid over per capita in equal amounts to all the individuals heads of families or their legal representatives, entitled to receive it under that treaty. But this change in no respect affects the case.

While the treaty of 1846 was under negotiation one William H. Thomas appeared in Washington as the representative of Cherokees in North Carolina and urged a recognition of their demands for the per capita money and the removal and subsistence money under articles 8 and 12 of the treaty of 1835. He had obtained a statement from one of the commissioners who negotiated that treaty on the part of the United States, from several respectable persons who were privy to the negotiations, and from some of the Cherokees who signed the treaty as to the meaning which should be given to certain terms used in it, and we are referred to these documents as though they should have some influence upon the construction of those terms. But it is too plain for controversy that they can not be used to control the language of the treaty or guide in its construction.

The per capita money and the removal and subsistence money had not been paid when the treaty of 1846 was made, but the Court of Claims finds that since then they have been paid. The claim now presented by the Cherokees of North Carolina to a share of the commuted annuity fund of \$214,000, and of the fund created by the sales of lands west of the Mississippi ceded to the Cherokee Nation, resting, as it does, upon the designation in the treaty of the lands originally possessed by the Cherokees and ceded to the United States, or subsequently acquired by them from the United States, as "the common property of the nation," or as held for the common use and benefit "of the Cherokee people," has no substantial foundation. If Indians in that State or in any other State east of the Mississippi wish to enjoy the benefits of the common property of the Cherokee Nation, in whatever form it may exist, they must, as held by the Court of Claims, comply with the constitution and laws of the Cherokee Nation and be readmitted to citizenship as there provided. They can not live out of its territory, evade the obligations and burdens of citizenship, and at the same time enjoy the benefits of the funds and common property of the nation. Those funds and that property were dedicated by the constitution of the Cherokees, and were intended by the treaties with the United States, for the benefit of the united nation, and not in any respect for those who have parted from it and become aliens to their nation.

We see no just ground on which the claim of the petitioners can rest to share in either of the funds held by the United States in trust for the Cherokee Nation; and the decree of the Court of Claims must, therefore, be affirmed; and it is so ordered.

We have quoted thus extensively from the important case for the reason that the historical review given in the opinions in this case and the legal principles involved are of the utmost importance in determining the rights of many persons to citizenship in the Cherokee Nation at this time. In some of the briefs of attorneys for claimants it is contended that the opinion of the Supreme Court and the Court of Claims in the case of the Eastern Band of Cherokees are mere dicta and not applicable to the cases now pending in this court. It will be seen, however, in the further consideration of the case now pending, that the opinions in the case of the Eastern Band of Cherokees are very important and controlling upon many features which may be presented.

It is true that the parties now applying for citizenship in the Cherokee Nation were not all parties to the treaty concluded at New Echota, and were not interested in the suit decided by the Court of Claims and affirmed by the Supreme Court. But many of the applicants for citizenship now before this court claim to be the descendants of the North Carolina or Eastern Band of Cherokee Indians, and in so far as the rights of the Indians belonging to that band were determined by the Supreme Court the decision would be applicable and decisive as to all claiming through them.

LEGAL PROPOSITIONS ESTABLISHED.

In the opinion of this court the following propositions are clearly established by the decision of the Supreme Court of the United States and the United States Court of Claims in the case of the Eastern Band of Cherokees against The Cherokee Nation and The United States, viz:

First. That the lands and other property of the Cherokee Nation belong to it as a political body and not to its individual members. The lands are held as communal property, not vested in the Cherokees as individuals, either as tenants in common or joint tenants. (See also opinion by Chief Justice Fuller, of the Supreme Court, in the case of the United States against The Old Settlers, 148 U. S., 427).

Second. That the North Carolina Cherokees, who are now known as the Eastern Band, who refused to join their countrymen in the removal to the lands ceded to the Cherokee Nation west of the Mississippi River, thereby dissolved their connection with what is now known as the Cherokee Nation. They became citizens of the States and subject to the laws of the States in which they resided, and have

no right, title, or interest in the lands or other property of the Cherokee Nation as now constituted. They have received their due proportion of all the personal benefits accruing under the treaty of 1835-36 for their claims, improvements, and per capita. Since their separation from the Cherokee Nation they have had no right to any portion of the lands or common property of the nation, or to any lands or property held for the common use and benefit of the Cherokee people who constitute said nation.

Third. That the phrase "the whole Cherokee people," used in the treaty of 1846, refers to those Cherokees only whose representatives participated in the making and ratification of the treaty, viz, the Cherokee Nation proper, the treaty party, and the Old Settlers, or Western Cherokees. Those Cherokees only were the recognized citizens of the united Cherokee Nation, and no other Cherokees were entitled to the rights and privileges of citizens of the Cherokee Nation as now constituted.

Fourth. If the Eastern Band of Cherokees, or the Cherokees in all the States of the Union, wish to enjoy the benefits of the common property of the Cherokee Nation, in whatever form it may exist, they must, as held by the Supreme Court and by the Court of Claims, comply with the constitution and laws of the Cherokee Nation and be readmitted to citizenship as therein provided. They can not live out of its territory, evade the obligations and burdens of citizenship, and at the same time enjoy the benefits of the lands, funds, and common property of the nation. These lands, funds, and property were dedicated by the Cherokee constitution, and were intended by the treaties with the United States for the use and benefit of the United States, and not in any respect for the use and benefit of those who have separated themselves from it and become aliens to the nation.

THE LAND TENURE.

The constitution of the Cherokee Nation, article 1, section 2, provides that the lands of the Cherokee Nation shall remain common property, but the improvements made thereon and in possession of the citizens of the nation are the exclusive and inalienable property of the citizens, respectively, who made or may be rightfully in possession of them.

The patent of the United States to the Cherokee Nation, issued on the 31st day of December, 1838, provides as follows:

Therefore, in the execution of the agreements and stipulations contained in the said several treaties, the United States have given and granted unto the said Cherokee Nation the two tracts of land so surveyed and hereinbefore described, containing in the whole 14,374.135 and $\frac{1}{100}$ of an acre, to have and to hold the same, together with all the rights, privileges, and appurtenances thereto belonging, to the said Cherokee Nation forever; subject, however, to the right of the United States to permit other tribes of red men to get salt on the salt plains of the Western Prairie, referred to in the second article of the treaty of the 29th of December, 1835, &c.

And subject, among other things, to the further condition "that the lands hereby granted shall revert to the United States if the said Cherokee Nation becomes extinct or abandons the same."

It will be seen from the text of the patent by which the Cherokee Nation holds the lands belonging to it that the title is in fee simple with certain conditions, called a base or qualified fee. The citizens who occupy the lands of the Cherokee Nation have no title to the soil, but merely a right to occupy such portions of the soil as they may cultivate, under the laws of the nation. The citizen occupant not having any title to the land, but owning the improvements only, can not be said to be either a tenant in common or a joint tenant with any other citizen of the nation, because such tenure implies title of some kind in the tenant. Tenants in common have a unity of possession, because no man can tell which part is his own. (Browne's Blackstone's Commentaries, p. 263.)

Hence the possession of one citizen of a portion of the land of the nation is in no sense a tenancy in common; nor are the citizens of the nation joint tenants, for joint tenants of the land hold in fee simple or otherwise, and there must be a unity of interest, a unity of title, a unity of time, and a unity of possession. In other words, the joint tenants have one and the same interest secured by one and the same conveyance, commencing at one and the same time, and held as one individual possession. (Ib., 256.)

These definitions, therefore, do not apply to any condition existing in the Cherokee Nation as to land tenure and occupancy. A citizen of the Cherokee Nation has the exclusive right to the occupancy of the land upon which he has made improvements or of which he is rightfully in possession. No other citizen of the nation has a right to occupy the particular tract occupied by another citizen; therefore, the citizens of the nation are neither joint tenants with other citizens of the nation nor tenants in common. They occupy the land in severalty, each holding the

possession in his own right only, without any other person being joint or connected with him in point of interest during his occupancy. They are merely occupants in severalty.

THE UNITED NATION.

The Indians who, by the treaty of 1835, agreed with the United States to emigrate west of the Mississippi River were finally located in what is known as the Cherokee Nation. The Western Cherokees, known as the Old Settlers, had preceded them to this country. A new nation was formed to consist of the Eastern and Western Cherokees. This act of union between the Eastern and Western Cherokees was agreed to on the 12th of July, 1838. In September following, as heretofore set forth in the opinion of the Supreme Court, a constitution of government was adopted in which it was recited that the Eastern and Western Cherokees had become united in one body politic under the style and title of the Cherokee Nation. Notwithstanding the formation of this union and the establishment of a new constitution and a new nation, all was not peace and harmony. Dissension arose which led to the formation of the treaty of 1846. This treaty was made and concluded between the following parties:

First. The United States.

Second. The Cherokee Nation.

Third. The treaty party, which was a faction of the Cherokee tribe of Indians at that time.

Fourth. By the Old Settlers, or Western Cherokees.

This treaty recites the fact that serious difficulties, for a considerable time past, had existed between the different portions of the people constituting and recognized as the Cherokee Nation of Indians, which it was desirable should be speedily settled, so that peace and harmony might be restored among them. With a view to final and amicable settlement of these difficulties, that treaty was agreed to.

The first article provides, among other things, that "the lands now occupied by the Cherokee Nation shall be secured to the whole people for their common use and benefit."

The words "the whole Cherokee people" mentioned in this article evidently refer to the parties who participated in the formation of the treaty, and, as Chief Justice Richardson held in his opinion to which reference is made, these words did not embrace what is known as the Eastern Band of Cherokees. Nor do they embrace the Cherokees who have separated themselves from the tribe and taken up their residence in the States.

THREE CLASSES OF CHEROKEES.

From these treaties and from provisions in the Cherokee constitutions it will be seen that there were, and have been since the establishment of the present Cherokee Nation west of the Mississippi River, three classes of Cherokee Indians.

First. Those who are citizens of the united Cherokee Nation, the nation as now constituted, and which occupies the lands ceded to the nation west of the Mississippi River;

Second. The Eastern Band of Cherokees, which constitute all those individuals and families of the old Cherokee Nation who were averse to the removal to the Cherokee country west of the Mississippi River, and who were desirous to become citizens of the States in which they lived and where they then resided; and

Third. Those Cherokees mentioned in the constitution of the united Cherokee Nation, and also in the constitution of the old Cherokee Nation, who were described as follows: "Citizens who shall remove, with their effects, out of the limits of this nation and become citizens of another government." Such Indians were declared by the Cherokee constitution to have forfeited all their rights and privileges as citizens of the nation. It was provided, however, with reference to this latter or third class, "that the national council shall have power to readmit by law to all the rights of citizenship any such person or persons who may at any time desire to return to the nation on their memorializing the national council for such readmission."

Those who are now claiming the right to be enrolled as citizens of the Cherokee Nation come within one or the other of the last two classes mentioned.

WHO MAY BE ADMITTED TO CITIZENSHIP.

This court has no jurisdiction or power under the acts of Congress by means of which the pending cases are being considered to exercise any discretion as to who should or who should not be enrolled as citizens of the Cherokee Nation. It has

the power simply to determine who are legally citizens thereof, and who ought to be so regarded, but who are now denied the rights and privileges of citizenship by said nation. The law of Congress conferring jurisdiction on this court to consider these cases provides that the United States commission—

shall respect all laws of the several nations or tribes not inconsistent with the laws of the United States, and all treaties with either of said nations or tribes, and shall give due force and effect to the rolls, usages, and customs of each of said nations or tribes.

While no rule or decision is laid down in the act of Congress for this court, it will be assumed that the same provisions of law apply to this court that were made applicable to the United States commission. The direction is to "respect" all laws of the several nations. What is meant by the word "respect" as used in this connection? There can be but one meaning, and that is that the court and the United States commission should give effect to all such laws. The next phrase in the statute is as follows: "And all treaties with either of said nation or tribes." The word "respect," therefore, applies equally to the treaties as to the law. The next phrase is as follows: "And shall give due force and effect to the rolls, usages, and customs of each of said nations or tribes."

This court must, therefore, respect or give effect to all laws of the several nations not inconsistent with the laws of the United States, and must give effect to all treaties with either of said nations, and must give due force and effect to the rolls, usages, and customs, of each of said nations or tribes. In this last provision Congress has recognized the fact that the Cherokee Nation has a right to determine who shall be and who shall not be citizens of the nation. The national council may, in its discretion, confer citizenship upon any person, or it may establish courts or commissions to hear and determine applications for citizenship in the nation. In determining, therefore, who among those now claiming citizenship should be enrolled as citizens of the Cherokee Nation, this court will look to the laws of the nation and consider whether those laws are in conflict with the laws of the United States. It will also ascertain who have been lawfully adjudged to be citizens by tribunals or commissions duly authorized to pass upon their applications. And it will consider the treaties that have been made between the United States and the nation, and it will give due force and effect to the rolls, usages, and customs of the nation in dealing with citizenship cases.

In order to determine what is the law of the Cherokee Nation, the same rules of construction must be applied as would be applied to the laws of Congress or of any State in this Union. If the law should be found to be in conflict with the constitution of the Cherokee Nation it would be null and void, just as the law of Congress in conflict with the Constitution of the United States would be null and void.

In considering the treaties which have been made between the nation and the United States they must be carried into effect and the true intent and meaning of them must govern. If it should appear that any of the treaties had been abrogated by Congress, such treaties would no longer be in force.

In order to give due force and effect to the rolls, usage, and customs of the nation, this court will inquire into such rolls, usages, and customs. Congress has already defined what is meant in the act of June 10, 1896, by the words "rolls of citizenship." The rolls of citizenship as defined by Congress have been confirmed. The amendment act, which is found in the Indian appropriation bill passed June 7, 1897, is as follows:

Provided that the words "rolls of citizenship," as used in the act of June tenth, eighteen hundred and ninety-six, making appropriations for current and contingent expenses of the Indian Department and fulfilling treaty stipulations with various Indian tribes for the fiscal year ending June thirtieth, eighteen hundred and ninety-seven, shall be construed to mean the last authenticated rolls of each tribe which have been approved by the council of the nation, and the descendants of those appearing on such rolls, and such additional names and their descendants as have been subsequently added, either by the council of such nation, the duly authorized courts thereof, or the commission under the act of June tenth, eighteen hundred and ninety-six. And all other names appearing upon such rolls shall be open to investigation by such commission for a period of six months after the passage of this act. And any name appearing on such rolls and not confirmed by the act of June tenth, eighteen hundred and ninety-six, as herein construed, may be stricken therefrom by such commission where the party affected shall have ten days' previous notice that said commission will investigate and determine the right of such party to remain upon such roll as a citizen of such nation: *Provided, also*, That anyone whose name shall be stricken from the roll by such commission shall have the right of appeal, as provided in the act of June tenth, eighteen hundred and ninety-six.

This provision, of course, will take effect from the date of its passage, and this court will give such construction to the words "rolls of citizenship," used in the act of June 10, 1896, as is provided for in this amendment.

It is competent for Congress by subsequent acts to declare the meaning which should be given to acts previously passed, and this court will carry into effect the meaning which Congress subsequently provided should be given.

SUMMARY OF CITIZENSHIP ACT.

The Cherokee Nation has from time to time passed laws for the purpose of ascertaining who were entitled to citizenship in the nation. It is contended by counsel for the Cherokee Nation that some of the acts of the Cherokee council in reference to citizenship are in conflict with the constitution of the nation. None of these citizenship acts, so far as this court is advised, have been declared unconstitutional by the courts of the Cherokee Nation. They have been recognized as binding upon that nation. The constitution of the nation, section 14, article 2, reads as follows:

The national council shall have power to make all laws and regulations which they shall deem proper for the good of the nation, which shall not be contrary to the constitution.

Congress has always conceded to the nation the right to enact all laws which are not in conflict with the Constitution or laws of the United States or with the treaties made with the nation.

The following tribunals and commissions have been created by the acts of the Cherokee council for the purpose of considering citizenship cases:

First. The supreme court of the nation was authorized by an act of December 3, 1869, to consider the claims of all persons whose citizenship was doubtful. Such persons were required to appear before the supreme court on the first Monday of December, 1870, to establish their rights. The decision of the court was made final and conclusive.

Second. By an act of council November 18, 1878, North Carolina Cherokees were authorized to enroll themselves before the chief justice of the supreme court within two months after their arrival and make satisfactory showing of being Cherokees. This act was in force one year and twenty days. During this time the chief justice was authorized to place on the rolls such of those Cherokees as he should find entitled to citizenship. By act of December 7, 1871, the act was amended so as to limit the power of the chief justice to merely receive and hear petition of all persons claiming the rights of Cherokee citizenship, and to transmit all evidence to the national council at each regular session for final action. This act was repealed December 5, 1876, and was in force five years.

Third. By act of the council December 5, 1877, a commission on citizenship was created, which was authorized to take cognizance of and exercise complete jurisdiction over all cases arising under the constitution and laws of the Cherokee Nation involving the right of citizenship in said nation as specified in said act. By act of December 5, 1878, the act authorizing this commission was amended so as to extend its jurisdiction to the cases of all claimants to the rights of citizenship who may be at the time of the passage of the act actually residing within the limits of the nation, and whose cases have not been determined adversely to the claimants by the commission. The commission expired by limitation of law on the 30th day of June, 1879, and was in force one year and six months.

Fourth. By act of council of November 20, 1879, another commission was created to have cognizance of all cases arising under the constitution and laws of the Cherokee Nation involving the right to citizenship as therein specified. This act was repealed November 26, 1884, and was in effect five years.

Fifth. By act of the council December 8, 1886, a third commission was created. This commission was authorized to hear all persons applying for citizenship in the Cherokee Nation upon the ground of Cherokee blood or descent, but such applicants must be of the lineal descent of persons whose names appear upon the census rolls taken by the United States after the treaty of 1835, and the roll of 1848, known as the Mullay rolls, and the roll known as the Sila roll and the census rolls taken by the United States in 1852, known as the Chapman rolls.

The commission was required to decide these cases in accordance with the constitution of the Cherokee Nation, conferring upon the national council the power to readmit persons to citizenship, and with the decision of the Supreme Court of the United States in the case of the Eastern Band of Cherokees against the Cherokee Nation. This jurisdiction embraced all classes of Cherokees by blood, except the Old Settlers, who were provided for by an amendment of the council passed May 23, 1887. This commission expired on the second Monday of November, 1889, and was in existence three years.

Numerous other acts in reference to citizenship were from time to time passed by the national council.

By an act of council October 12, 1846, the time within which persons might appear before the council was extended until November, 1846. On October 15, 1841, the Cherokee council passed the following act:

AN ACT relating to persons returning to the nation.

Be it enacted by the national council, That all Cherokees, and other persons having Cherokee privileges, who may have been residing out of the limits of the nation previously to the adoption

of the constitution are hereby exempted from being required to memorialize the national council for admission to the rights and privileges of citizenship. It is considered that they have the right of returning without the action of the council.
Tahlequah, October 15, 1841.

By act of council November 20, 1868, the foregoing act was repealed, the repeal act being as follows:

AN ACT repealing an act authorizing persons to move into the Cherokee Nation, etc.

Be it enacted by the national council, That the act passed on the 15th of October, 1841, authorizing certain classes of persons to move into the Cherokee Nation without memorializing the national council, be, and the same is hereby, repealed.
Approved, November 20, 1868.

The following provision will be found in the Cherokee constitution of 1839, viz:

The descendants of Cherokee men by all free women, except the African race, whose parents may have been living together as man and wife, according to the customs and laws of this nation, shall be entitled to all the rights and privileges of this nation, as well as the posterity of Cherokee women by all free men. No person who is of negro or mulatto parentage, either by the father's or mother's side, shall be eligible to hold any office of profit, honor, or trust under this government.

The following amendment thereto was adopted in 1866, and is now in force:

SEC. 5. * * * All native-born Cherokees, all Indians, and whites legally members of the nation by adoption, and all freedmen who have been liberated by voluntary act of their former owners or by law, as well as free colored persons who were in the country at the commencement of the rebellion and are now residents therein or who may return within six months from the 19th day of July, 1866, and their descendants, who reside within the limits of the Cherokee Nation, shall be taken and deemed to be citizens of the Cherokee Nation.

It will thus be seen that from October 15, 1841, until November 20, 1868, a period of twenty-seven years, a general invitation was extended by the Cherokee Nation to all Cherokees who may have been residing out of the limits of the nation previous to the adoption of the constitution to return to the nation and enjoy the rights and privileges of citizenship without being required to memorialize the national council for admission.

TEXT OF CITIZENSHIP ACTS.

In view of the fact that the jurisdiction of the tribunals which have been created to pass upon citizenship cases in the Cherokee Nation has been called in question in some cases, the text of the acts creating such tribunals will be set forth in full in this opinion. These acts are as follows:

The act conferring jurisdiction upon the supreme court is as follows:

That all persons whose rights to citizenship in the Cherokee Nation shall be called in question, and who shall be reported by the persons authorized by this act to take a census of the Cherokee people, or a list of doubtful persons, shall be required to appear before the supreme court of the Cherokee Nation, at Tahlequah, on the first Monday in December, 1870, then and there to establish their right to citizenship in the nation, and the said supreme court is hereby specially empowered to act as a court of commissioners on behalf of the nation for the hearing and determination of all cases of doubtful citizenship which shall be reported to them by the census takers or by the solicitors of the several districts. And the decision of the said court shall be deemed final and conclusive in the premises as to the rights of said persons to citizenship in the Cherokee Nation. And the said court shall cause a correct list of the names and ages of all persons whose rights they may confirm, and one of all those whose rights they may reject, to be placed on record in their office, and a copy of the same to be furnished to the principal chief for the use of the executive department.

Approved, December 3, 1869, the date of presentation.

Counsel for the Cherokee Nation contend that by this act the supreme court was not empowered to readmit persons to citizenship in the Cherokee Nation, but to determine whether such persons residing in the Cherokee Nation and claiming to be citizens were in fact such, and that if such court went outside of this and admitted persons to citizenship who had come from the adjoining States and had at no time been citizens of the nation it exceeded its jurisdiction. This court does not agree with this contention. The authority conferred upon the supreme court was to hear and determine the cases of all persons whose rights to citizenship in the Cherokee Nation should be called in question, and who would be reported to the court by the census takers, or, as expressed in another part of the act, "to hear and determine all cases of doubtful citizenship which shall be reported to them by the census takers." The decision of the court, as will be seen, was made final and conclusive in the premises as to the rights of such persons to citizenship in the Cherokee Nation.

The act conferring jurisdiction upon the chief justice of the supreme court is as follows:

Whereas the national council, under a joint resolution approved December 10, 1869, entitled "A joint resolution of the national council in regard to the North Carolina Cherokees," has

invited the said North Carolina Cherokees to emigrate West and become identified with the Cherokee Nation as citizens thereof: Therefore,

Be it enacted by the national council, That all such Cherokees as may hereafter remove into the Cherokee Nation and permanently locate therein as citizens thereof shall be deemed as Cherokee citizens, provided said Cherokees shall enroll themselves before the chief justice of the supreme court within two months after their arrival in the Cherokee Nation and make satisfactory showing to him of their being Cherokees. And the said chief justice is hereby required to report the number, names, ages, and sex of all persons admitted by him to be entitled to Cherokee citizenship, and also the number, names, ages, and sex of the persons denied the right of citizenship, to the annual session of the national council in each year.

Tablequah, C. N., November 18, 1870. Approved.

The joint resolution to which reference is made is as follows:

JOINT RESOLUTION of the national council in regard to North Carolina Cherokees.

Whereas sundry petitions have been transmitted to the national council by the North Carolina Cherokees, from which it appears that the said Cherokees (or a portion of them) are desirous of removing and becoming members of the Cherokee Nation;

And whereas the principal chief has transmitted a communication to the national council, inclosing one from the Commissioner of Indian Affairs, from which it appears that the honorable Commissioner desires to know of the wishes of the Cherokee Nation in reference to the removal of the said North Carolina Indians; Therefore,

Be it resolved by the national council, That the principal chief be, and he is hereby, authorized to inform the honorable Commissioner of Indian Affairs of the willingness of the Cherokee Nation to receive the said "North Carolina Cherokees" into the Cherokee Nation: *Provided,* That they remove without any expense to the treasury of the Cherokee Nation: *And provided further,* That these resolutions shall not be so construed as to admit any Cherokee rights or benefits until they shall have removed West and been identified as citizens of the Cherokee Nation.

Be it further resolved, That the principal chief be, and he is hereby, authorized to notify the said "North Carolina Cherokees" of the willingness of the Cherokee Nation to receive them as citizens of the Cherokee Nation, upon the terms hereinbefore expressed.

Tablequah, C. N., December 10, 1869.

This court has endeavored to secure a copy of the letter of the Commissioner of Indian Affairs referred to in this act, but has been unable so far to do so. It appears, however, from the two acts mentioned, that they relate to what is known as the "North Carolina Cherokees"—those Cherokees who are denominated "the Eastern Band of Cherokees" in the decision of the Supreme Court reported in 117 United States, page 288.

All such Cherokees who might thereafter remove into the Cherokee Nation and permanently locate therein as citizens thereof were declared to be Cherokee citizens, provided they should enroll themselves before the chief justice of the supreme court within two months after their arrival in the Cherokee Nation and make satisfactory showing to him of their being Cherokees.

It is the opinion of this court that no jurisdiction was conferred upon the chief justice of the supreme court of the Cherokee Nation except to enroll North Carolina Cherokees, and if it should appear that he enrolled Cherokees not within this designation he would be acting without jurisdiction.

The jurisdiction conferred upon the chief justice by the act of December 7, 1871, was merely to take evidence with regard to persons applying for citizenship and transmit the petitions to the council for its final action. The act is not deemed important in this connection and it will not be quoted. The power of the council to admit persons to citizenship has never been questioned. It is, however, of interest, in order to determine the construction to be given to the act conferring jurisdiction upon the chief justice, to refer to a portion of the text of the amendatory act. The amendatory act recites that the act relative to the North Carolina Cherokees, approved November 17, 1870, "is hereby so amended as to require the chief justice of the Cherokee Nation to receive and hear the petitions of all persons claiming the right to Cherokee citizenship."

Attention is called to the persons covered by each act. By the first act North Carolina Cherokees are mentioned. By the second act all persons claiming the rights to Cherokee citizenship are referred to, clearly indicating that the two acts had reference to different classes of persons; that the first act had reference to North Carolina Cherokees only, while the latter or amendatory act had reference to all persons claiming the rights of Cherokee citizenship.

The act creating the first commission of citizenship, passed December 5, 1877, is as follows:

The commission on citizenship shall have cognizance of and exercise complete jurisdiction over all cases arising under the constitution and laws of the Cherokee Nation involving the right of citizenship of said nation as hereinafter specified.

First. Of all cases wherein claimant to citizenship has applied to the supreme court or to the national council and wherein the court or council has failed to adjudicate the same, whether it originated in the national council or was transmitted thereto for review from the supreme court.

Second. Of all cases where the national council had adjudicated the same by a decision adverse to claimants and where such rejected claimants have appealed from the jurisdiction of the Cherokee Nation to that of the United States subsequent to the date of the Cherokee treaty of

July 10, 1866, and whose cases have been reported by the United States agent under instructions from the Department of the Interior to the principal chief and are now on file in his office.

Third. Of all cases where the claimants have ignored the authorities of the Cherokee Nation and appealed to those of the United States.

Fourth. Of all cases where citizenship has been granted and there is presumptive evidence of fraud having been perpetrated to secure the same; or where citizens of the United States have married into this nation in violation of the law prohibiting the marriage of persons previously married without having obtained a divorce.

Fifth. Of all cases of persons of African descent arising under the Cherokee treaty of July 19, 1866, where the applicant claims to have complied with the requirements of the treaty, but has failed to receive recognition as a citizen by competent authority.

In decreeing the right of citizenship in the Cherokee Nation the commission shall be governed by the provisions contained in the fifth section, amendments to article 3 of the constitution, to wit: "All native-born Cherokees, all Indians and whites legally members of the nation by adoption, and all freemen who have been liberated by voluntary act of their former owners or by law, as well as free colored persons who were in the country at the commencement of the rebellion and are now resident therein, or who may return within six months from the 19th day of July, 1866, and their descendants who reside within the limits of the Cherokee Nation, shall be taken and deemed to be citizens of the Cherokee Nation," and in addition thereto shall include all applicants bona fide residents, and who are of Cherokee parentage, and who may be of not less than the half blood. The recognition of the right of citizenship in the Cherokee Nation by virtue of the foregoing provisions shall not be deemed as conferring the like right upon any persons not an Indian who may be connected by such person by blood or affinity unless such person shall comply with the provisions of article 15, chapter 10, New Code, relating to inter-marriages.

The commissioners on citizenship may admit as evidence in any of the cases named herein the oral testimony of witnesses under oath, the decisions, records, or other papers, or the certified copies thereof, in the clerk's office of the national council, or of the supreme court of the Cherokee Nation, or by other affidavits taken before any court of record in the United States, duly authenticated, pertaining to any case brought before it under this act, and shall give such weight to the credibility of such evidence in making up their judgment thereon as they may deem it entitled to. They may in their discretion limit the number of witnesses that may be introduced to establish the same fact in any one case, and fix the period of hearing and determining the same.

Approved December 5, 1877.

This act was amended December 5, 1878, as follows:

Be it enacted by the national council, That an act approved December 5, 1877, entitled "An act creating a commission on citizenship to try and settle claims to citizenship," be, and the same is hereby, amended so as to extend the jurisdiction of the commission on citizenship to embrace and extend to the cases of all claimants to the rights of citizenship who may at the passage of the act be actually residing within the limits of the nation and whose cases have not heretofore been determined adversely to the claimants by the present commission.

Sec. 2. Be it further enacted, That the principal chief be authorized and requested to direct the solicitors of the several districts to report, by the 1st day of January, 1879, or as soon thereafter as practicable, to the commission on citizenship, the names of all persons who allege that they have claims to Cherokee citizenship and who are now residing within their respective districts.

Sec. 3. Be it further enacted, That the commission on citizenship shall expire on the 30th day of June, 1879, and shall then report their proceedings to the principal chief, for the information of the national council, and shall turn over to the executive department all their records.

Approved December 5, 1878.

It will be seen that this act embraced all claimants who at the passage of the act actually resided within the limits of the nation, and whose cases had been theretofore determined adversely by said commission.

The act creating a second commission on citizenship was passed November 20, 1879, and is as follows:

They shall also have the right to command the presence and services of the sheriff of Tahlequah district, or his deputy, during their sessions, who shall be allowed one dollar per day while attending the sessions of the commission on citizenship, separate from his salary. The said sheriff shall have authority to send summons to the several sheriffs of the several districts, to be served without delay by them and returned, without any other compensation than that of their salaries.

The commission on citizenship shall have cognizance of and exercise complete jurisdiction over all cases arising under the constitution and laws of the Cherokee Nation involving the right to citizenship of said nation as hereinafter specified.

First. Wherein a claimant to citizenship has applied to the late commission on citizenship and no final action taken, or to the national council since the expiration of the commission on citizenship, or where application for citizenship may be made to the national council prior to the first meeting of the commission on citizenship herein created.

Second. Of all cases where the national council has adjudicated the same by a decision adverse to the claimants, and where such rejected claimants have appealed from the jurisdiction of the Cherokee Nation to that of the United States, subsequent to the date of the Cherokee treaty of July 19, 1866, and whose cases have been reported by the United States agent under instructions from the Department of the Interior to the principal chief, and are now on file in this office, and which have not been investigated and final decision given by the late commission on citizenship.

Third. Of all cases where the claimants have ignored the authorities of the Cherokee Nation and appealed to those of the United States.

Fourth. Of all cases where citizens of the United States have married into this nation in violation of the law prohibiting marriage of persons previously married without having obtained a divorce.

Sixth. Of all cases of claimants petitioning for citizenship not embraced in the foregoing classification of claimants.

Seventh. Of all cases of persons of African descent, arising under the Cherokee treaty of July 19, 1866, where the applicant claims to have complied with the treaty, but has failed to receive recognition as a citizen by competent authority, and who have not had decisions adverse to them by competent authority.

In decreeing the right to citizenship in the Cherokee Nation the commission shall be governed by the provisions contained in the fifth section, amendments to article 3 of the constitution. The recognition of the right of citizenship in the Cherokee Nation by virtue of the foregoing provision shall not be deemed as conferring the like right upon any person not an Indian who may be connected with such person by blood or affinity, unless such person shall comply with the provisions of article 15, chapter 10, New Revised Code, relating to intermarriage.

The third commission, as heretofore stated, was authorized by council, passed December 8, 1886. The jurisdiction conferred upon it was embraced in section 7, which is as follows:

SEC. 7. The commission, when organized, shall give a hearing to any person applying for citizenship in the Cherokee Nation upon the ground of Cherokee blood or descent, but such applicant must be a person, or the lineal descendant of a person, whose name appears upon the census rolls of the Cherokees taken by the United States after the treaty of 1835, and known as the rolls of 1835, and the rolls of 1848, known as the "Mullay rolls," and the census rolls of the Cherokees taken by the United States in 1851, and known as the "Sila roll," and the census rolls of the Cherokees taken by the United States in 1852, known as the "Chapman rolls;" and the commission shall decide in accordance with the constitution of the Cherokee Nation, conferring upon the national council the power to readmit persons to citizenship, and with the decision of the Supreme Court of the United States, delivered March 1, 1885, in the case of the North Carolina Cherokees v. The Cherokee Nation.

This act was amended May 23, 1887, as follows:

AN ACT to amend an act entitled "An act for the appointment of a commission to try and determine applications for Cherokee citizenship."

Be it enacted by the national council, That section seven (7) of an act of the national council, approved December 8, 1886, and entitled "An act for the providing for the appointment of a commission to try and determine applications for Cherokee citizenship," shall be so amended that the commission shall be authorized to try and determine all claims to Cherokee citizenship wherein the claimant claims by virtue of Cherokee descent, who left or emigrated from the Cherokee Nation prior to the year 1835.

This amendment conferred jurisdiction to hear and determine the claims of those who emigrated from the old Cherokee Nation prior to the year 1835. Such persons were known as Old Settlers or Western Cherokees. As before stated, this commission expired in 1889. Since that time no commission or tribunal of the Cherokee Nation has been authorized to pass upon citizenship cases. All persons admitted to citizenship in the Cherokee Nation since that time have been admitted by act of the Cherokee Council. An act of the Cherokee Council of December 5, 1888, passed during the existence of this commission, provided that all persons admitted by the commission should become bona fide residents of the nation within one year from the date of their admission. The last act of the Cherokee Council of general legislation in regard to citizenship is as follows:

Be it enacted by the national council, That all persons who have been or may hereafter be readmitted to citizenship in the Cherokee Nation are hereby required to permanently locate within the limits of the Cherokee Nation within six months from the passage of this act, or from the date of readmission of persons hereafter readmitted, or no rights whatever shall accrue to such persons by reason of such readmission: *Provided,* That nothing in this act shall bar minors and orphans.

Approved December 4, 1894.

ADJUDICATIONS IN CITIZENSHIP CASES.

In all cases wherein it appears that applicants for citizenship in the Cherokee Nation filed their claims before the proper tribunal or commission, and in all cases where the tribunal or commission acted within the scope of its jurisdiction, as prescribed by the law of the Cherokee Nation, and admitted such persons to citizenship, this court will regard such cases as adjudicated; and in all cases where such applicants were rejected, the same rule will be applied. In order to set aside such adjudications, whether in favor of or against such applicants, it must be made to appear to this court, either that the tribunal or commission acted without jurisdiction, or that the decision of the commission was procured by fraud.

A judgment by which the court exercised a power not conferred upon it by the statute under which it assumed to act is a nullity, and will be so treated when it comes in question, either directly or by an appeal or collaterally. (*Allison v. T. A. Snider Preserve Co.*, Sup. Ct., App. Term, 20 Misc., 367; 45 N. Y. Supp., 925; *Risley v. Bank*, 83 N. Y., 318.)

In order that the adjudication of the tribunal or commission should be set aside for fraud, it must clearly and affirmatively appear that the case was fictitious; that the judgment of the tribunal was procured by the beneficiaries thereof by bribery or other corrupt means, and that the judgment should not in equity and good conscience be regarded as a valid judgment.

Justice requires that every case, having been once fairly and impartially tried, should be forever closed, and public tranquillity demands that all litigations of that kind between those parties should cease. A judgment entitled to this consideration must, however, be the judgment of the tribunal.

The rule is well settled that a judgment or decree of any court will be set aside in a court of equity if it be made to appear that it was procured by fraud. This rule needs no citation of

authorities to support it, because it is too well established and known to need such citation. But the proof of the fraud and the facts evidencing it must be clear and satisfactory to the court before it will act. It will not proceed upon doubtful inferences. (*Davis v. Jackson*, 39 S. W. Rep., p. 1076—Sup. Ct. of Tenn., March 13, 1897.)

It is not enough to allege and prove that the tribunal erred in this decision, or that perjured testimony was introduced and considered, unless such perjured testimony was given by the beneficiaries of the judgment, or by their procurement. (*Black on Judgment*, vol. 1, sec. 323.)

It will be taken for granted that the court or tribunal fairly weighed and considered such testimony and disregarded it. The judgment itself must be corrupt, or procured by corrupt means, or the court must have acted without jurisdiction, in order to render it a nullity.

In all cases where claimants have appeared before tribunals or commissions, established by the Cherokee Nation, and have had their cases considered fairly and honestly, this court will not disturb the judgment. The burden of proof will be upon those who allege a fraudulent judgment to prove it. The law presumes not only that the acts of courts but the transactions of individuals are honest. Those who allege fraud are required to establish it conclusively. (*Black on Judgments*, vol. 1, sec. 321, and authorities there cited, namely, *Jones v. Britton*, 1 Woods, 667; *Caldwell v. Fifield*, 24 N. J. Law, 150.)

In all cases where a tribunal or commission having jurisdiction of the case has passed upon it the decision will be binding upon this court, unless it clearly appears from the evidence in the case that the judgment is so fraudulent that a court of competent jurisdiction should set it aside and declare it a nullity.

INDIANS RESIDING IN THE STATES.

Frequent reference has been made in the briefs and arguments of counsel in citizenship cases to the case of *John Elk v. Charles Wilkins*, decided by the Supreme Court of the United States, and reported in 112 United States Reports, pages 94 to 123. The plaintiff in this case brought suit against the defendant, who was one of the registrars of election of the city of Omaha, Nebr., for refusing to register him as a voter, and for refusing to permit him to vote at an election in that city in April, 1880. The defendant refused to register and to permit plaintiff to vote, on the ground that he was an Indian, and not a citizen of the United States. In that case the Supreme Court of the United States held as follows:

An Indian, born a member of one of the Indian tribes within the United States, which still exists and is recognized as a tribe by the Government of the United States, who has voluntarily separated himself from his tribe, and taken up his residence among the white citizens of a State, but who has not been naturalized or taxed or recognized as a citizen, either by the United States or the State, is not a citizen of the United States within the meaning of the first section of the fourteenth article of the amendment of the Constitution.

It will be seen from this quotation from the syllabus in that case that an Indian who had separated himself from his tribe, but who had not been naturalized or taxed or recognized as a citizen, either by the United States or the State, is not a citizen of the United States. The court further on in its opinion in this case held as follows:

The alien and dependent condition of the members of the Indian tribes could not be put off at their own will without the action or assent of the United States. They were never deemed citizens of the United States, except under explicit provisions of treaty or statute to that effect, either declaring a certain tribe, or such members of it as chose to remain behind on the removal of the tribe westward, to be citizens, or authorized individuals of particular tribes to become citizens on application to a court of the United States for naturalization, and satisfactory proof of fitness for civilized life; for example of which see treaties of 1817 and 1835 with the Cherokees, and in 1820, 1825, and 1830 with the Choctaws.

Reference is had, it will be seen from these quotations from the decision of the Supreme Court, to the treaties with the Cherokees in 1817 and 1835. The treaty with the Cherokees in 1817, article 8, provides as follows:

And to each and every head of any Indian family residing on the east side of the Mississippi River on the lands that are now or may hereafter be surrendered to the United States who may wish to become citizens of the United States, the United States do agree to give a reservation of 640 acres of land, in a square, to include their improvements, which are to be as near the center thereof as practicable, in which they will have a life estate, with reversion in fee simple to their children, reserving to the widow her dower, the registry of whose names is to be filed in the office of the Cherokee agent, which shall be kept open until the census is taken as stipulated in the third article of this treaty: *Provided*, That if any of the heads of families for whom reservation may be made should remove therefrom, then in that case the right to revert to the United States.

The treaty of 1835, referred to in the decision of the Supreme Court, article 12, contains this provision:

Those individuals and families of the Cherokee Nation that are averse to a removal to the Cherokee country west of the Mississippi and are desirous to become citizens of the States where they reside, and such as are qualified to take care of themselves and their property, shall be entitled to receive their due proportion of all the personal benefits accruing under this treaty for their claims, improvements, and per capita as soon as an appropriation is made for this treaty.

There was an additional provision allowing the Indians referred to in that article to have a preemption right to 160 acres of land to be given to those who were desirous to reside within the States of North Carolina, Tennessee, and Alabama. A supplemental treaty to this, proclaimed May 23, 1836, relinquished and declared void the preemption rights and reservation provided for in the treaty of 1835.

These two articles, however, in the treaties of 1817 and 1835, clearly indicate the intention of Congress that such Cherokee Indians as were averse to removal to the country west of the Mississippi might become citizens of the States where they resided.

In the case of the *United States v. Boyd et al.*, decided by the circuit court of the United States for the western district of North Carolina, in June, 1895 (68 Federal Reporter, pp. 577-585), it was held that—

The Indians belonging to the Eastern Band of Cherokees, in the State of North Carolina, have never become citizens of the United States, and the Federal courts have jurisdiction to entertain a suit brought by the United States, as guardian of such Indians, for the protection of their interests.

In the opinion of the circuit court of the United States in this case the court used this language:

By the treaty of New Echota [treaty of 1835], individuals and families who were averse to removal with the nation were suffered to remain in the States in which they were living, if they were qualified to take care of themselves and property, and were desirous of becoming citizens of the United States. Those who exercised these privileges terminated their connection with the Cherokee Nation. (*Eastern Band of Cherokee Indians v. United States*, 117 U. S., 288; 6 Sup. Ct., 718.)

Did this make them citizens of the United States? The circuit court here quotes with approval the decision of the Supreme Court in the case of *Elks v. Wilkins*, supra, and then continues as follows:

There is nothing in the record going to show that these Indians [Eastern Band of Cherokees] were ever naturalized.

Have they been made citizens by treaty? Article 12 of the treaty of 1835 is then quoted by the circuit court, and its opinion continues as follows:

This does not confer on them citizenship. It only authorized them to become citizens when it is recognized that they are qualified or calculated to become useful citizens.

The court then pointed out that they could only become citizens of the United States by naturalization. The court continued as follows:

But it must not be understood that these Cherokee Indians, although not citizens of the United States, and still under pupilage, are independent of the State of North Carolina. They live within her territory. They hold lands under her sovereignty, under her tenure. They are in daily contact with her people. They are not a nation or a tribe. They can enjoy privileges she may grant. They are subject to her criminal laws. None of the laws applicable to Indian reservations apply to them. All that is decided is that the Government of the United States has not yet ceased its guardian care over them nor released them from pupilage.

It was also conceded in this opinion that the North Carolina Cherokees were recognized citizens of the State of North Carolina; that they voted, paid taxes, worked roads, and performed all the duties of citizens of said State. The circuit court, in the case above referred to, in its opinion further states as follows:

The case of the Cherokee Trust Funds (117 U. S., 288; 6 Sup. Ct. 718) does not conflict with these views. That case decides that this Eastern Band of Cherokee Indians is not a part of the nation of Cherokees with which this Government treats, and that they have no recognized separate political existence; and at the same time their distinct unity is recognized and the fostering care of the Government over them as such distinct unit.

It is clearly held in this opinion of the circuit court of North Carolina that the Eastern Band of Cherokees is not a part of the Cherokee Nation as now constituted. And if the Eastern Band of Cherokees, which has preserved a distinct tribal organization under the tutelage of the United States, is not a part of the Cherokee Nation as now constituted, it follows even with greater force that those Indians who removed with their effects out of the old Cherokee Nation before the removal of its citizens west of the Mississippi River, as well as those who have moved from the limits of the nation as now constituted and become citizens of any other government, have forfeited all their rights and privileges as citizens of the Cherokee Nation.

The decision of the Supreme Court in the case of *Elk v. Wilkins*, supra, was handed down November 3, 1884. A little over two years thereafter Congress passed an act February 8, 1887 (24 Stat. L., 388), with the evident purpose to define the status of Indians situated as was Elk, the plaintiff in the case.

This act declares an Indian who has taken up his residence in the United States separate and apart from his tribe, and who has adopted the habits of civilized life, to be a citizen of the United States and entitled to all the rights, privileges, and

immunities of other citizens thereof, and that such citizenship is conferred "without in any manner impairing or otherwise affecting the right of such citizen to tribal or other property." This act of Congress is important in determining the status of Cherokee Indians who have taken up a residence in the States separate and apart from the tribe and have adopted the habits of civilized life. Such Indians were declared February 8, 1887, to be citizens of the United States. And those Indians who have never been recognized as members of the Cherokee Nation, as it is now constituted, have never had any right to tribal property in said nation, and hence they have no rights in the nation which could in any manner be impaired or otherwise affected by being declared citizens of the United States. If such Indians have any tribal rights to be impaired, they were rights in the old Cherokee Nation or in the Eastern Band of the Cherokee Indians now located as a separate tribe in North Carolina. If there are any Cherokees who have ever been recognized as citizens of the Cherokee Nation as now constituted who have separated themselves from the nation and taken up their residence in the States and have removed their effects out of the nation, they would, by the act of Congress of February 8, 1887, be citizens of the United States, and by the constitution and laws of the Cherokee Nation they would have forfeited their rights as citizens of the nation. The Cherokee constitution and laws were not abrogated or repealed by the act of Congress of February 8, 1887, for the reason that the United States has conceded to the Cherokee Nation the right to determine who shall be citizens thereof.

A careful examination of the treaties which have been made with the Cherokee Nation by the United States will clearly establish the fact that nowhere does it appear that Cherokee Indians who have separated themselves from the tribe or taken up their residence in the States are taken into consideration, except the provision in reference to the Eastern Band of Cherokees, and those in reference to Cherokees who accepted reservations of land under article 8 of the treaty of 1817, and those who received their due proportion of all personal benefits accruing under the treaty of 1835, article 12. The treaties in reference to those classes of Cherokee Indians recognized the fact that they had separated themselves from and ceased to constitute a part of the Cherokee Nation. And, as is held by the Supreme Court of the United States in the case of the Eastern Band of Cherokees against the Cherokee Nation, *supra*, these Indians ceased to be a part of the Cherokee Nation, and henceforth they become citizens of, and were subject to the laws of, the States in which they resided. And further, if Cherokee Indians who have separated themselves from the Cherokee Nation and have taken up their residence in any of the States of the Union wish to enjoy the benefits of citizenship in the Cherokee Nation they must comply with the constitution and laws of the Cherokee Nation and be readmitted to citizenship as therein provided. "They can not live out of its territory, evade the obligations and burdens of citizenship, and at the same time enjoy the benefits of the funds and common property of the nation." By the terms of various treaties between the United States and the Cherokee Nation during the time the nation was divided into the Eastern and Western tribes the annuities were divided between the two branches of the nation according to their respective members, to be ascertained by a census to be taken. The annuities thus divided were regularly paid as stipulated until commuted by the treaty of 1835. This clearly shows that the United States regarded those Cherokees only who were citizens of the nation as entitled to annuities and as having any right or interest in Cherokee lands or property.

PURCHASE OF THE CHEROKEE OUTLET.

Counsel for the Cherokee Nation contend that the treaty with the Cherokee Nation for the purchase of what is known as "The Cherokee Outlet" expressly recognized the right of the Cherokee Nation to determine for itself who were entitled to citizenship. It is true that two considerations were expressed in the treaty: One of money, and the other in reference to intruders. Article 1 of the treaty ceded the lands in the Cherokee Outlet to the United States. Article 2 is as follows:

For and in consideration of the above cession and relinquishment the United States agrees:

First. That all persons now residing, or who may hereafter become residents, in the Cherokee Nation, and who are not recognized as citizens of the Cherokee Nation by the constituted authorities thereof, and who are not in the employment of the Cherokee Nation or not in the employment of citizens of the Cherokee Nation, in conformity of the laws thereof, or in the employment of the United States Government, and all citizens of the United States who are not residents of the Cherokee Nation under the provisions of treaty or acts of Congress, shall be deemed and held to be intruders and unauthorized persons within the intent and meaning of section 6 of the treaty of 1835 and sections 26 and 27 of the treaty of July 19, 1866, and shall, together with their personal effects, be removed without delay from the limits of said nation by the United States, as trespassers, upon the demand of the principal chief of the Cherokee Nation.

Counsel for the Cherokee Nation contend that the foregoing provision was deemed a greater consideration to the Cherokees than the money actually paid them, and that the legislation contained in the act of June 10, 1896, conferring upon the United States commission and this court authority to determine who were citizens of the Cherokee Nation is in violation of the letter and spirit of this treaty and impairs the obligation of the contract of purchase; that contracts made by the Government with individuals are binding upon the Government, and that the Government is subject to the same obligations as individuals.

If it should be conceded for the sake of the argument that this position is correct, the conclusion would follow that the contract for the purchase of the Outlet had been impaired by subsequent legislation and that a portion of the consideration of purchase had failed. In that event, if this position be well taken, the Cherokee Nation might demand additional pecuniary consideration for the sale of the Outlet, the amount to depend upon the damages, if any, which the Cherokee Nation had sustained.

It would not follow, in any event, that the United States had no power to enact the legislation conferring authority upon the United States commission to prepare rolls and the jurisdiction upon this court under which citizenship cases are now being heard and determined.

POWER OF CONGRESS OVER INDIANS.

In the first treaty made between the United States and the Cherokee Nation, which was concluded November 22, 1785, at Hopewell, on the Keowee, it was expressly provided in article 3 as follows:

That said Indians, for themselves and their respective tribes and towns, do acknowledge all the Cherokees to be under the protection of the United States of America, and of no other sovereign whomsoever.

And by article 9 of said treaty it was provided as follows:

For the benefit and comfort of the Indians, and for the prevention of injuries and oppressions on the part of the citizens or Indians, the United States in Congress assembled shall have the sole and exclusive right to regulate the trade with the Indians and manage all their affairs in such a manner as they (the United States in Congress assembled) think proper.

These provisions have never been abrogated, and the power has always been preserved in Congress of managing all the affairs of the Cherokees in such manner as Congress should think proper.

During the Revolutionary war the Cherokees had adhered to Great Britain, and this first treaty with them provided for a general exchange of prisoners, and the thirteenth or concluding article was as follows:

The hatchet shall be forever buried, and the peace given by the United States and friendship reestablished between the said States on the one part and all the Cherokees on the other shall be universal.

This evidently explains the reasons which induced the United States to incorporate in this treaty the foregoing provisions.

It is true that for many years the United States pursued a policy of making treaties with the Indian nations and tribes, but that policy did not recognize the Indian tribe or nations as independent sovereignties. Their dependence upon and subjection to the authority of the United States have always been conceded. Congress may, in its discretion, legislate for them and concerning them in such manner as Congress may deem proper, subject only to the Constitution of the United States.

SUMMARY.

This court will now proceed to consider the cases now before it on appeal from the United States commission in reference to citizenship in the Cherokee Nation. A separate opinion will be submitted later on in the term in reference to citizenship in the Creek Nation.

In determining who are citizens of the Cherokee Nation, the following propositions will govern this court:

First. That those Indians who have separated themselves from the present Cherokee Nation, or from the Old Cherokee Nation east of the Mississippi River, and have taken up their residence in the States, and have moved their effects out of the limits of the nation, and the Eastern Band of Cherokee Indians, who remained in the States after the treaty of 1835, have forfeited all their rights and privileges as citizens of the nation, and that such persons can not regain their citizenship unless they comply with the constitution and laws of the Cherokee Nation and be readmitted to citizenship as therein provided.

Second. That this court recognizes the legislation of the Cherokee Nation constituting the supreme court, and thereafter the chief justice of the supreme court, tribunals to pass upon certain classes of citizenship cases, and also the legislation of the Cherokee Nation creating commissions with prescribed powers to pass upon applications for citizenship in the Cherokee Nation, as passed in accordance with the general legislative power of the nation, and will respect such legislation to the extent that it may be in accordance with the Constitution and laws of the United States and the treaties made between the United States and the Cherokee Nation. In construing such legislation the court will apply to it the same general principles of statutory construction which should be applied to the statutes of any of the States of the Union or to the statutes of the United States.

Third. That blood alone is not the test of citizenship in the Cherokee Nation. That those Cherokees, and their descendants, who have separated themselves from the nation, and have removed their effects from it and taken up their residence in any of the States of the Union, have ceased to be citizens of the Cherokee Nation. And further, that bona fide residence in the nation is essential to citizenship.

Fourth. Full faith and credit will be given to the judgments of the tribunals and commissions in citizenship cases, unless it is made to appear that the tribunal or commission acted without jurisdiction, or that its judgment was procured by fraud, as more fully explained in this opinion. The acts of the Cherokee council in the determination of applications for citizenship in the nation will be regarded as judgments of a court, and will be subject to the same tests as to their validity.

OPINION OF WILLIAM M. SPRINGER, JUDGE.

In the northern district of the Indian Territory.

No. 231.

William J. Watts, appellant, v. The Cherokee Nation, appellees.

Appeal from the United States Commission to the Five Civilized Tribes.

SPRINGER, Judge.

Mr. N. A. Gibson, special master, to whom this case was referred, submits the following report:

REPORT OF SPECIAL MASTER.

I, N. A. Gibson, special master herein, respectfully show to the court that under the order of reference herein made by the court, I have examined the pleadings and proof in this cause, which are filed herewith and made a part hereof, and that I find as follows:

I.

That this cause was instituted on September 9, 1896, upon which day application was made to the Commission to the Five Civilized Tribes for enrollment as citizens of the Cherokee Nation. That this application was made to the commission by which the cause was tried and the application denied on November 23, 1896, no reason being given for the decision, and that the claimants appealed therefrom to this court on January 19, 1897.

II.

That this application was made by—

William J. Watts, a son of Malachi Watts, for himself and for his children, Jesse W., Charlie G., Noah V., and Fannie E. Watts, and his grandchildren, Owen J. Watts, the child of Jesse W. Watts, and Eva C. Watts, the wife of said Jesse W. Watts; by Martha L. Payne, a daughter of Malachi Watts, her husband, James L. Payne, and their children, Thomas, Mattie, Charlie, and Willie W. Payne, and Sue L., the wife, and Maudie and William J., the children of said William W. Payne; by James Payne, jr., a son of the said Martha Payne, his wife, Ollie, and their children, Alford L., Mary S., and Bulah Payne; by Alex. G. Payne, a son of Martha L. Payne, his wife, Emma, and their children, Cora and Allie Payne; by Elbert Caswell, a son of Eva Caswell, a deceased, and who was a daughter of Martha Payne; by Queen Walton, a daughter of Malachi Watts, her husband, George G., and their children, William, Robert, and Okla Walton; by Cora and Alma Gleson, children of Laura Gleson, deceased, a daughter of Margaret Norrid; by William H. Norrid, the son of Margaret and Walter Norrid, his wife, Ada, and their children, Ross M. Norrid; by Thomas W. Norrid, a son of Walter and Margaret Norrid, and his

wife, Earle Norrid; by Elizabeth A. Watts, the wife of Solomon Watts, deceased, who was a son of Malachi Watts, and her son, Alford J. Watts, and his children, William H., Thomas J. Watts, and Alice M. Hudleston and Nellie Hudleston, the daughter of the last claimant; by Mattie Johnson, a daughter of Alford J. Watts, her husband, W. L., and their child, William Johnson; by Samuel M. Watts, the son of Solomon Watts, and his children, Watey, Thomas, Annie, and Solomon J. Watts, and by Julia, Loy C., Charlie T., and Rachel Watts, the wife and children of Solomon J. Watts; by Tenney Blackard, a daughter of Solomon Watts, deceased, her husband, Thomas H., and their children, William and Nora; Charles and Vida Blackard; by John T. Blackard, the husband of Mahala Blackard, deceased, who was a daughter of Solomon Watts, his second wife, Permella, and his children, John A., Sarah B., William A., and Cleo Blackard; by Ellie Price, a daughter of Mahala Blackard, and her son, Lee T. Price; by Henry M. Paterson, the husband of Nancy Paterson, deceased, who was a daughter of Solomon Watts, and his children, Mabel, Hurley, David, Roland, and Marion Paterson; by William Paterson, a son of Nancy Paterson, deceased, his wife, Susie, and their child, Austin Paterson; by Matishey Watts, the wife of William Watts, deceased, who was a son of Solomon Watts, and their children, James, Fannie, Lizzie, Will, Tenney, Mollie, and Wilburn Watts; by Susan M. Mabry, a daughter of Malachi Watts, and her son, William H. Mabry; by Hannah Woodward, the daughter of Susan Ann Mabry, her husband, Sell J., and their children, John, Ora, Susie, William, Ira, Wilburn, and Archie Woodward; by Lizzie Wats, a daughter of Hannah Woodward, and her husband, Julius Waltz; by Laura Shermer, the daughter of Susan M. Mabry, her husband, Joseph, and their children, Walter, Marion, Oltey, and Jody Shermer; by Fannie Shermer, daughter of Susan M. Mabry, her husband, Charlie, and their children, Harvey, Ivey, Ensetta E., and Charlie Shermer, jr.; by Jacob J. Mabry, the son of Susan Mabry, his wife, Fannie, and their children, May, Gordon, Gunter, and Lesia Mabry; by Marion H. Mabry, a son of Susan Mabry, his wife, Margaret, and their children, Lena, Ben, and Barney Mabry; by Louie Childres, the daughter of Susan Mabry, her husband, William P., and their children, Leona and Hubbard W. Childres; by J. H. Neal, the husband of Lizzie Neal, deceased, who was a daughter of Delia Bayette, and his children, Ida, Winshall, Ada, Ora, and Eva Neal; by John A. Bayette, the son of Delia Bayette, his wife, Mattie, and their daughters, Emma Bayette, Leslie Bayette, and Lessey Bayette; by Mary L. Day, the daughter of Jane Paterson, who was a daughter of Delia Bayette, her husband, John, and their children, Walter, Harvey, Lillie, Shelby, and Charlie Day; by Amanda Paterson, a daughter of Jane Paterson; by Thomas H. Hope, the husband of Tabitha Hope, deceased, who was a daughter of Delia Bayette, Josie Hope, his second wife, and his children, William, Robert, James, Adda, Jesse, and Ethel Hope; by Fannie Taylor, a daughter of Malachi Watts, her husband, Lam, and her son, William Taylor; by Marion J. Taylor, a son of Fannie Taylor; his wife, Lenora, and their children, Cleo and Marion J. Taylor, jr.; by Mary S. Fields, a daughter of Fannie Taylor, her husband, Isom W., and their children, Dora E. and William J. Fields; by Marion J. Watts, a son of Malachi Watts, his wife, Thenia, and his son, Marion J. Watts, jr.; by Thomas F. Watts, a son of Marion Watts, and his wife, Maggie Watts; by Mildona Shackleford, a daughter of Marion J. Watts, her husband, Lafayette Shackleford, and her children by her first husband, Marinda, Delia, Effie, Beulah, Claud, and Comelia Clayborn; by Nellie Nichols, a daughter of Louisa Taylor, deceased, who was a daughter of Malachi Watts, her husband, George M. Nichols, and their children, Emma, Lizzie, Mattie, and Bertha Nichols; by Minnie Jackson, the daughter of Louisa Taylor, her husband, Jesse, and their child, Nellie Jackson; by Mary L. Eddington, a daughter of Louisa Taylor, her husband, J. T., and their children, Elizabeth, Grover, Frank G., Carrie M., Marion W., Willie A., and Emma L. Eddington; by Fannie Morgan, a daughter of Louisa Taylor, her husband, Jeff L., and their children, Nellie, Ellwood, Maud, Clarrie, L. M., and La Fayette Morgan; by Fannie E. Hendrix, a daughter of Fannie Morgan, her husband, Isaac, and their child, Callie Hendrix; by John Shannon, the husband of Allie Shannon, deceased, who was a granddaughter of Malachi Watts; by Dudley Taylor, a son of Louisa Taylor, his wife, Clarrie, and their children, Willie and William Taylor; by Lou Wallace, the daughter of Louisa Taylor, her husband, William Wallace, and her children by a former marriage, Lee, Mattie, Myrtle, and Clara J. Shannon; by Jennie M. Taylor, a daughter of Malachi Watts, her husband, Jonathan H., and George W. Taylor; by Fannie M. Ward, a daughter of Jennie Taylor, her husband, Augustus M., and their children, William T. and Mary V. Ward; by William T. Taylor, a son of Jennie M. Taylor, his wife, Cora, and their children, Robbie T. and Elmer Taylor; by William D. Blackard, the husband of Matilda Blackard, deceased, who was a daughter of Malachi Watts, and their children, Caswell, Tollie, Mattie, and Annie P. Blackard; by John Hope, a son of Tibitha Hope, who was a daughter of Delia Bayette, his wife, Mary, and their children, Newton and Mary Hope; by Pinkney A., Ola May, Thomas, Pinkney M., Arta, Rachel M., John M., P. A., V. K., E. S., Earl G., Jerman Cherry, Susie J., Effie, and Clinton Duncan, Mary M., Odus, Ellen M., Edwin, Marion G., and Vernon W. Cherry; Endoval S., Jasper V., and Ora G. Robinson, all children and grandchildren of Marion J. Watts, a son of Malachi Watts; by Hettie M. Miller and her five children; by Nancy J. Allen, her husband, Jesse Allen, and their children, Sarah, Thomas R., Claud C., Randolph, John W., Pinkney J., Daniel H., and Nannie Allen; by Martha E. Cousins, her husband, J. W., and their children, Effie and Celia Cousins; by R. B. Jenkins, his wife, Bessie, and their children, Mollie, Eva, Mary, Ada, Ruth, Lola, and Richard B. Jenkins—these last-named claimants being all descendants of Molinda Watts, a sister of Malachi Watts; by John Nail, his wife, Lizzie, and their child, Homer Nail, and by William Nail, they being descendants of Molinda Watts; by Alice Robison, her husband, J. P., and their children, Sam, Dona, and Josie Robison, she being a daughter of William M. Watts; by the said William M. Watts, his wife, Lusinda, and their children, Alice Robison, William J. Watts, Oscar Watts, John Watts, Oliver Watts, and Sarah McGuire; by Eli McGuire, the husband of Sarah McGuire, and their children, Myrtle, Olie, and Robert McGuire; by Robert Watts, a son of Clinton Watts, who was a brother of Malachi Watts, his wife, Bell, and their children, Claud, Cora, and Pearly Watts—these claimants, from Alice Robison down to and including Pearly Watts, all residing in the State of Texas. That the children of Hattie M. Miller, above referred to, who was a granddaughter of Malachi Watts, are James L., Jesse M., Thomas K., William F., Fannie B., Charlie B., and Oscar F. Miller; by Thomas F. Evans, a son of Malachi Evans and grandson of Nancy Evans, who was a full sister of Malachi Watts, and whose husband, Thomas Evans, was the son of Jacky Evans, a Cherokee Indian who lived in the State of Tennessee, and whom the claimants state was enrolled on the Cherokee roll of 1835; by Mary J. Evans, his wife, and their children, Susan E. Brooks, Lee Ellen Tyler; by Jodie D. Evans and John F. Evans, this last family residing in the State of Tennessee; by Endora Heard, a daughter of Jefferson J. Watts, who was a brother of Malachi Watts, and her children, Lizzie P. Griffing and Ayleen Watts Pope, they residing at Wagoner, Ind. T.; by Lela J. Maddux, a sister of the last-named claimant, and her children, Clement T., N. Watts, Erne E., and Ince L. Maddux, residing at Wagoner, Ind. T.; and by Lou O. Maddux, a sister of the last-named claimant, and her children, Neville N., Emery W., Ola D., Thomas W., Albert L., and Maud E. Maddux, residing in the State of Mississippi; by Bell T. Seaton, for herself and for her husband,

John H. Seaton, and her children, Charles H. Seaton, Lula B. Seaton, Oscar B. Seaton, and Grover U. Seaton, and her full brother, David Evans, all residing at Chouteau, Ind. T.; Bell Seaton and David Seaton being the children of Malachi Evans, who was the son of Nancy Watts, who was a full sister to Malachi Watts.

That all of said claimants, with the exceptions above noted, reside in the Cherokee Nation, Ind. T.

That they base their claim to citizenship upon the fact that Malachi Watts and his brothers, from whom they are descended, were Cherokee Indians by blood, with the added ground in the case of those of the claimants who are lineal descendants of Malachi Watts and *that* Malachi Watts and his family were duly admitted to citizenship in the Cherokee Nation in the year 1871, by a legally authorized tribunal of that nation, appointed to pass upon the applications of persons seeking enrollment as members of the tribe.

III.

The claimants introduce in support of their application the affidavits of W. J. Watts, the principal claimants, as to the correct statement of the names and relationship of the applicants, copies of affidavits as to the Cherokee blood of the claimants from Eliza Ross, William Wilson, Laran O. Gibbs, Isaac Couch, David Elliott, W. S. Ward, Jess L. Hibbs, Samuel H. Payne, Lott Langley, Susan M. Watts, Samuel Adair, Jane E. Burton, C. W. Burton, Blaney Harper, Alfred Bethel, Thomas Ragsdale, Stephen A. Donald, W. W. Bunch, John F. Wheeler, Edward Farmer, Joshua Patrick, John Rattigourd, L. C. Hollifield, James Watts; a certificate from Judge John S. Vann, a member of the supreme court of the Cherokee Nation; a letter of Edward F. Smith, Indian Commissioner, to G. W. Ingalls, United States Indian agent at Muskogee, dated January 30, 1875; a letter to the same party, dated July 5, 1875, from Will P. Ross, chief of the Cherokee Nation; an affidavit from William Wilson; a letter to Solomon Watts from S. W. Marston, United States Indian agent at Muskogee, dated September 26, 1877; a letter from the same person to Thomas H. Blackard, dated April 3, 1876; a permit given W. J. Watts and Thomas Blackard, Cherokees, to employ W. D. Long, Norman Smoot, and L. E. Grant, United States citizens, for twelve months from May 1, 1878, signed by S. W. Marston, United States Indian agent; a letter to J. E. Craven, dated October 20, 1879, signed by H. J. Brooks, Acting Commissioner of Indian Affairs; a letter from John Q. Tufts, United States Indian agent at Muskogee, dated January 23, 1888; one from the same person to Charles Fry, dated on the same day, ordering that the property of William Watts be not interfered with; a letter to W. J. Watts, dated January 28, 1880, from C. A. Hays, Commissioner; a letter to W. J. Watts from E. J. Brooks, Acting Commissioner, dated August 6, 1880; one to W. J. and Marion Watts from John Q. Tufts, dated May 4, 1882; one to Martha Jane Gillis, dated June 21, 1886, from Robert L. Owen, United States Indian agent; one to W. J. Watts, dated January 22, 1888, from A. B. Upshaw, Acting Commissioner; a letter to Thomas Marcum from Robert L. Owen, dated July 9, 1888; a letter to J. A. Scales, chief justice of the Cherokee supreme court, dated February 9, 1889, from J. B. Mayes, principal chief of the Cherokee Nation, and asking for his opinion as to the act in regard to North Carolina Cherokees, approved December 18, 1871, and the joint resolution of the Cherokee council referred to in that act, and for such information as he might have in regard to the Watts and other citizenship cases; a copy of the reply to this letter, dated February 19, 1889, stating that the resolution referred to was approved December 10, 1869, and that the act following said resolution was approved November 20, 1870, under which act any North Carolina Cherokees who might remove to the Cherokee Nation should enroll themselves before the chief justice of the supreme court within two months after their arrival in the nation and satisfy him that they were Cherokees, and that the said chief justice was required to report the number, names, ages, and sex of the persons admitted to citizenship and of those denied to the national council in each year; that this act was amended on December 17, 1871, so as to require the chief justice to receive and hear the petitions of all persons claiming the right of Cherokee citizenship, to take evidence in the cases and transmit them, with such remarks as he deemed proper, to the council for final action; that the Watts case was taken up by Judge John S. Vann in 1872 and reported to the council with a recommendation marked "D," and including this statement: "The error that has been fallen into in the Watts case is, that case came under the act of November 20, 1870, instead of the act of December 7, 1871, as these records conclusively show." A copy of an opinion by A. H. Garland, Attorney-General of the United States, dated January 23, 1889, in regard to admission to citizenship in the Cherokee Nation under the act of

1870, and deciding that the chief justice of the Cherokee Nation, under that act, was authorized to admit applicants to citizenship, and that when once passed upon by him it became an adjudicated matter; that the Department of the Interior was under no obligation to respect a decision of the Cherokee authorities to inquire afterwards into the justice of the claim of parties who had been so admitted; a letter to G. W. Parker from R. V. Belt, Acting Commissioner, dated November 6, 1889, in regard to this case and its relation to the law of 1870, and directing him to investigate this matter; a copy of a decision by the Adair commission on citizenship in the Cherokee Nation, dated April 20, 1888, reviewing the history of the Watts case and declaring the claimants herein intruders; the affidavit of T. B. Downing, showing that he had examined the records of the Cherokee senate, of which he was assistant clerk; that on the journal of November 16, 1871, he found this entry: "Evidence in the case of Malachi Watts, accompanied with the report of the chief justice in the matter, submitted to the national council. On motion of W. P. Adair. Referred to the committee on foreign relations," and also that on the record of November 24, 1871, the following appears: "The report of Chief Justice Vann relating to citizenship granted to North Carolina Cherokees ordered filed. The cases of William Goings, J. Goings, and Malachi Watts returned by the chairman of foreign relations, evidence being unfinished;" an abstract of the testimony before George W. Parker, special Indian agent, in an investigation of this case held at Tahlequah in 1890; a lengthy report from George W. Parker to the Commissioner of Indian Affairs in regard to the Watts case, dated March 11, 1890, giving the full history of the case, with an addition dated March 15, 1890; a copy of a letter to W. J. Watts from C. A. Hays, Commissioner, dated January 28, 1880; a letter to R. L. Owen, United States Indian agent, from John H. Oberly, Commissioner, dated February 4, 1889; the report of C. C. Duncan, United States Indian inspector, to the Secretary of the Interior in regard to the Watts case, dated August 8, 1893, and also in the separate applications of various claimants; affidavits from M. J. Watts, Elizabeth Watts, Susan M. Mabry, Lela J. Maddux, Endora Heard, W. J. Watts, Thomas F. Evans, Martha C. Payne, Robert B. Jenkins, Permelia Blalock, S. M. Watts, identifying the various claimants and showing their descent from Malachi Watts and his brother, as stated above.

IV.

The Cherokee Nation introduces in defense in support of its answer copies of various letters, affidavits, and reports, most of which have been filed herein by the claimants as above noted, introduced before various tribunals which have acted upon this case at different times since the year 1871, and which have been specifically noted above; a copy of the decision of the chambers court at Tahlequah, dated August 23, 1878, denying these claimants' application to be admitted to citizenship in the Cherokee Nation, together with the evidence which was introduced before that court, and also copies of receipts from Mathisha Watts, W. D. Blackard, Thomas Y. Hope, John Day, Henry H. Patterson, T. H. Blackard, Thomas F. Watts, John A. Bayette, Alfred J. Watts, Marian J. Watts, Charles Shermer, George M. Nichols, William J. Watts, James Sherman, Jacob H. Neal, dated at various times from the 4th day of October, 1895, and acknowledging receipt from E. E. Starr, treasurer of the Cherokee Nation, of different sums of money "in full payment for improvements in my possession as above numbered, as provided for by the act of Congress approved March 3, 1893, for the appraisalment of places or improvements occupied by persons declared to be intruders in the Cherokee Nation as per act of the national council approved September 20, 1895," and a copy of a letter from E. S. Parker, Commissioner of Indian Affairs, to Lewis Downing, chief of the Cherokee Nation, dated November 13, 1869, asking what might be the wishes of the Cherokee Nation in regard to the reception of Cherokees residing in North Carolina and adjoining States into said nation as citizens.

V.

That these claimants base their contention of a right to be enrolled as citizens of the Cherokee Nation upon the statement that they are descended from Malachi Watts and his brothers, who were the sons of Garrett Watts, who was the son of John Watts, who lived among the Cherokee Indians in Tennessee and Georgia, and who were Cherokee Indians by blood, and also upon the statement that Malachi Watts and his family and descendants were admitted to citizenship in the Cherokee Nation in November, 1871, by Judge John S. Vann, the chief justice of the supreme court of the Cherokee Nation.

VI.

The claimants contend that under the showing made by them that they are the descendants of John Watts, Garrett Watts, and Malachi Watts, who were Cherokee Indians by blood, and for the further reason that they have shown that Malachi Watts and his descendants were admitted to citizenship in the Cherokee Nation by Judge John S. Vann in the year 1871, which rights were afterwards wrongfully taken away from them, they are now entitled to be enrolled as citizens of the Cherokee Nation under the law applicable to this case, while the Cherokee Nation contends that the claimants not having shown that the ancestors through whom they claim are now or have been citizens of the Cherokee Nation since the removal of said nation west to the Indian Territory, or that their names appear on any of the authenticated rolls of said nation, or that they or their ancestors now reside or ever have resided in the Cherokee Nation, Indian Territory, as citizens thereof; and for the further reason that they have been heretofore denied admission to the Cherokee Nation by a legal tribunal, and for the further reason that the most of said claimants have been adjudged intruders and paid for their improvements, they are not entitled to be enrolled as citizens of the Cherokee Nation.

The premises considered, I find that the claimants are all the descendants of John Watts and Garrett Watts, who lived among the Cherokee Indians in the States of Georgia and Tennessee, and who were Cherokee Indians by blood; that these claimants are all Cherokee Indians by blood, with the exception of the intermarried claimants, whose names appear in Section II of this report; that all of said claimants, down to and including Ora G. Robison, in the list of said claimants, are the descendants of Malachi Watts, and reside in the Cherokee Nation, Indian Territory; that the remaining claimants are the descendants of the brothers and sisters of Malachi Watts, residing in various places, as shown by said list; that the said Malachi Watts, with his family, came from the State of Tennessee to Clarksville, Ark., at an early day; that in the year 1871 W. J. Watts, the principal claimant herein, came to the present Cherokee Nation, and in the month of November, 1871, made application to Judge John S. Vann, chief justice of the supreme court of the Cherokee Nation, asking that Malachi Watts and his descendants be readmitted to citizenship in the Cherokee Nation; that Malachi Watts was at that time in Clarksville, Ark., and that the claimants were represented here by W. J. Watts; that on November 12, 1871, Judge Vann, after hearing the evidence in the said application, passed favorably upon the same, and ruled that the claimants should be admitted to citizenship in the Cherokee Nation; that he reported his action to the Cherokee senate, and the report was referred to the committee on foreign relations, and afterwards brought back by that committee, after which no further action seems to have been taken thereupon; that the claimants began to exercise the right of citizenship in the Cherokee Nation, but their rights were denied in a short time, and that on August 23, 1878, the chambers court ruled that the claimants were not entitled to citizenship in the Cherokee Nation, and they were declared intruders; that a large number of the claimants whose names are given above received pay for their improvements in the Cherokee Nation in October, 1895, as intruders; that in November, 1869, the Commissioner of Indian Affairs wrote to the then chief of the Cherokee Nation inquiring about the terms upon which Cherokee Indians from North Carolina and adjoining States would be received into the Cherokee Nation as citizens, following which letter the Cherokee council in December, 1869, after this letter was transmitted by the chief, resolved that the Cherokee Nation was willing to receive the North Carolina Cherokees into the Cherokee Nation provided that they remove without any expenses to said nation, and provided that no rights should be admitted until the said North Carolina Cherokees should remove west and become identified with the Cherokee Nation; following which resolution, on November 18, 1870, the national council passed an act by which all North Carolina Cherokees who might remove into the Cherokee Nation and permanently locate therein as citizens thereof should be deemed Cherokee citizens, provided said Cherokees should enroll themselves before the chief justice of the supreme court within two months after their arrival in said nation and satisfy him that they were Cherokees, he being required to report his action to the national council. This act was in effect in November, 1871, at the time when W. J. Watts applied to Judge Vann, the chief justice, for recognition for himself and his father and his father's descendants as citizens of the Cherokee Nation, and the proof shows that Judge Vann, after hearing this cause, did admit the claimants to citizenship. The said act was amended on December 7, 1871, so as to require the chief justice to hear the petitions of all persons claiming Cherokee citizenship, to take

testimony, and report to the national council for final action, and that he should hold court at Tahlequah and Fort Gibson for that purpose.

I find that the proof shows conclusively that the claimants, or so many of them as are the descendants of Malachi Watts, were admitted to citizenship by Judge Vann on November 12, 1871, and that report of his action was made by him to the Cherokee council on November 16, 1871, which was prior to the passage of the amendment to the act of 1870, which was approved December 7, 1871. As to whether the chief justice transcended his power in admitting the claimants to citizenship I shall express no opinion, deeming this a conclusion of law upon which the court must pass. The proof does not show that the claimants were North Carolina Cherokees, or that they were ever enrolled as citizens of the Cherokee Nation, and hence I leave it for the court to decide as to whether the term "North Carolina Cherokees" would include Cherokee Indians from States other than North Carolina, or whether the term must be construed as applying strictly to Cherokees in that State.

I further find that at the time the application was made to Judge Vann for admission to citizenship in the Cherokee Nation for Malachi Watts and his family W. J. Watts and his brother-in-law, Jacob Mabray, were the only representatives of the family who were in the Cherokee Nation; that they had come into said nation in October, 1871, and made application in November, 1871; that the other members of the family came to the Cherokee Nation at various times during the few years following the said admission, and that the children of the family were admitted to the Cherokee schools for several years; that in 1874, when search was made in the executive office in Tahlequah for the records of this hearing before Judge Vann, all records of the same had disappeared, and that the proof shows that the office in which they had been stored had been used by witnesses, and prisoners under guard, and that the light boxes in which a number of the papers in said office had been kept had been broken and the papers badly scattered.

I further find that the certificate given by Judge Vann in the year 1874, to the effect that the claimants had made application to him at Fort Gibson in April, 1872, and that he had passed upon the case and forwarded it to the Cherokee senate with his recommendation, marked and classified B, is not sustained by the other proof, the records of the senate clearly showing that the said case was reported to the senate by Judge Vann on November 16, 1871, which was prior to the passage of the amended act of 1871; that the certificate was made three years after the case had been passed upon, and that there is proof to show that at the time it was made the date as written by Judge Vann was April, 1871, which is also erroneous, as the proof shows clearly that the application was not made until November, 1871, and also shows that the claimants never applied at Fort Gibson, but that the matter was heard at Tahlequah, where such cases were heard under the act of 1870.

By the COURT:

To the above report of the special master the Cherokee Nation files the following exceptions:

Comes now the appellee by its counsel, William T. Hutchings, esq., and makes and files the following exceptions to the report of the special master in the above-entitled case: So much of said report as is in the following language: "I find that the claimants are all the descendants of John Watts and Garrett Watts, who lived among the Cherokee Indians in the States of Georgia and Tennessee, and who were Cherokee Indians by blood; that these claimants are all Cherokee Indians by blood, with the exception of the intermarried claimants, whose names appear in Section II of this report," is excepted to because the testimony does not bear out said findings, the same failing to show that the ancestors of the appellants ever were recognized as citizens of the Cherokee Nation, or ever were recognized as Indians by the tribes, or ever lived as Indians among the Cherokees, the evidence being solely derived from the statement of the parties themselves, and from witnesses who testified solely as to their personal appearance, their resemblance to Indians, and their being considered Indians by the white people among whom they resided.

Second. Appellee again excepts to so much of said report as follows: "That on November 12, 1871, Judge Vann, after hearing the evidence in said application, passed favorably upon the same and ruled that the claimants should be admitted to citizenship in the Cherokee Nation, and the report was referred to the committee on foreign relations, and afterwards brought back by that committee, after which no further action seems to have been taken thereupon."

The evidence shows conclusively that the Watts application was made subsequent to November 12, 1871, and that the favorable judgment of Judge Vann was awarded long subsequent to that time, made under the amended act of December, 1871: that Watts never claimed he had been admitted until recent years, and always relied upon Vann's simple recommendation to council. Attention is specially called to the evidence sustaining our views set forth in a brief of facts hereto attached. For like reasons appellee excepts to the following language in said report: "I find that the proof shows conclusively that the claimants, or so many of them as are the descendants of Malachi Watts, were admitted to citizenship by Judge Vann on November 12, 1871, and that report of his action was made by him to the Cherokee council on November 16, 1871, which was prior to the passage of the amendment to the act of 1870, which was approved December 7, 1871."

By the COURT:

From this report it appears that this case was submitted to the United States Commission to the Five Civilized Tribes September 9, 1896, and that the application of the claimants to be enrolled as citizens of the Cherokee Nation was denied by that commission, and that an appeal was taken, as provided by law, to this court.

The application is made by the principal claimant, William J. Watts, a son of Malachi Watts, for himself and children and 64 other families, the whole number of persons embraced in the application being in the neighborhood of 300. A portion of the claimants reside in the Cherokee Nation and in the States of Tennessee and Mississippi, but a large majority of them reside in the Cherokee Nation, Indian Territory.

These claimants base their right to be enrolled as citizens of the Cherokee Nation upon the ground that they are descendants of Malachi Watts and his brothers, who were the sons of Garrett Watts, who was the son of John Watts, who lived among the Cherokee Indians in Tennessee and Georgia, and who were Cherokee Indians by blood, and also upon the statement that Malachi Watts and his family and descendants were admitted to citizenship in the Cherokee Nation in November, 1871, by Judge John S. Vann, chief justice of the supreme court of the Cherokee Nation. The master finds that the claimants are all descendants of Garrett and John Watts, who lived among the Cherokee Indians in the States of Tennessee and Georgia, and who were Cherokee Indians by blood, and that these claimants are all Cherokee Indians by blood, with the exception of the intermarried claimants, whose names are set forth in Section II of the report. The master states that Malachi Watts, with his family, came from the State of Tennessee to Clarksville, Ark., "at an early day;" but how early the parties came to Arkansas the master does not find. It appears, however, that in the year 1871 William J. Watts, the principal claimant herein, came to the present Cherokee Nation, and in November, 1871, made application to Judge Vann, chief justice of the supreme court, asking that Malachi Watts and his descendants be readmitted to citizenship in the Cherokee Nation; "that Malachi Watts at that time was in Clarksville, Ark., and that the claimants were represented here by W. J. Watts." It is also stated by the master that on November 12, 1871, Judge Vann, after hearing the evidence in the application, passed favorably upon the same and ruled that the claimants should be admitted to citizenship in the Cherokee Nation; that he reported his action to the Cherokee senate, and that the report was referred to the committee on foreign relations and afterwards brought back by that committee, after which no further action seems to have been taken thereon; that the claimants began to exercise the right of citizenship in the Cherokee Nation, but their rights were denied in a short time, and that on August 23, 1878, the chambers court on citizenship in the Cherokee Nation ruled that the claimants were not entitled to citizenship in the Cherokee Nation, and they were declared intruders; that a large number of the claimants, whose names are given in the master's report, received pay for their improvements in the Cherokee Nation in October, 1895, as intruders.

The counsel for the Cherokee Nation file exceptions to that part of the master's report in which he finds that the claimants are the descendants of John and Garrett Watts, who lived among the Cherokee Indians in the States of Tennessee and Georgia, and that they are Cherokee Indians by blood. Counsel also except to the finding of the master that Judge Vann passed favorably upon the application of the claimants and admitted them to citizenship, and also to that part of the master's report in which he states that the proof shows conclusively that the claimants, or so many of them as are the descendants of Malachi Watts, were admitted to citizenship by Judge Vann on November 12, 1871. Counsel for the Cherokee Nation file in support of their exceptions a brief in which they point out in detail the grounds of their exceptions. The brief of counsel and the report of the special master should be taken into consideration in determining the question as to whether the claimants are Cherokee Indians by blood, and also in determining whether Malachi Watts and his family were admitted to citizenship by Judge Vann upon the 12th day of November, 1871. This court will not pass upon the contention between the special master and the counsel for the Cherokee Nation upon these two points. The case will be disposed of outside of these contentions and upon the facts which are conceded.

It appears that the first of the parties who came to the Indian Territory was the principal claimant, William J. Watts, and that he came to the Cherokee Nation, Indian Territory, in the month of November, 1871, and made application to Judge Vann, asking that Malachi Watts and his descendants be readmitted to citizenship in the Cherokee Nation; that Malachi Watts was at that time in Clarksville,

Ark., and had not yet moved to the Indian Territory. It appears that Malachi Watts was a son of Garrett Watts, who was a son of John Watts, who lived among the Cherokee Indians in Tennessee and Georgia, and that Malachi Watts, with his family, came from the State of Tennessee to Clarksville, Ark., "at an early day." From that "early day," which is not given in the report, up to 1871, when W. J. Watts appeared in the Indian Territory, Malachi Watts resided in the State of Arkansas. Previous to that time he had resided in the State of Tennessee. It does not appear where he was born, but it is certain that prior to 1871 he had never resided in the Cherokee Nation as now constituted, or in the old Cherokee Nation. He could not, therefore, be regarded, prior to that time, as either a member of the Eastern Band of Cherokees, who were known as North Carolina Cherokees, or a member of the Cherokee Nation as now constituted. His status was therefore fixed by the following provision of the constitution of the Cherokee Nation, being a part of section 2 of article 1:

1. Whenever any citizen shall remove, with his effects, out of the limits of this nation and become a citizen of any other government, all of his rights and privileges as a citizen of this nation shall cease: *Provided, nevertheless*, That the national council shall have power to readmit by law to all the rights of citizenship any such person or persons who may at any time desire to return to the nation, on memorializing the national council for such readmission.

Substantially the same provision is found in the constitution of the old Cherokee Nation.

He did not come to the Cherokee Nation prior to November 20, 1868, during the time that there was a statutory invitation to all Cherokees and others having Cherokee privileges, who might have been residing out of the limits of the nation previously to the adoption of the constitution, to return to the nation and be admitted to the rights of citizenship without the action of the council. After November 20, 1868, he could not become a citizen of the Cherokee Nation unless, as held by the Supreme Court of the United States in the case of the Eastern Band of Cherokees against the Cherokee Nation and the United States, he complied with the constitution and laws of the Cherokee Nation and was readmitted to citizenship as therein provided. He had separated himself from the old Cherokee Nation and had become an alien to it, and had never been admitted to citizenship in the new nation.

The principal claimant in this case was born in the State of Arkansas or Tennessee, and he and all other descendants of Malachi Watts were subject to the same disabilities and provisions of law that were applicable to their ancestors. The claimants in this case, who are the descendants of Malachi Watts, base their right to be admitted to citizenship in the Cherokee Nation upon the ground, as they contend, that they were admitted to citizenship by Chief Justice Vann on November 12, 1871. The master finds this, as a matter of fact, to be true, although there is a very grave doubt in the mind of the court upon this point; but assuming, for the sake of this argument, that they were so admitted, it becomes necessary to inquire whether Judge Vann had jurisdiction to hear and determine that application.

The report of the master states that in November, 1869, the Commissioner of Indian Affairs wrote to the chief of the Cherokee Nation inquiring about the terms upon which Cherokee Indians from North Carolina and adjoining States would be received into the Cherokee Nation as citizens. After having received this letter from the Commissioner of Indian Affairs, the Cherokee council passed, December 10, 1869, the following joint resolution:

JOINT RESOLUTION of the national council in regard to North Carolina Cherokees.

Whereas sundry petitions have been transmitted to the national council by the North Carolina Cherokees, from which it appears that the said Cherokees (or a portion of them) are desirous of removing and becoming members of the Cherokee Nation; and

Whereas the principal chief has transmitted a communication to the national council, inclosing one from the Commissioner of Indian Affairs, from which it appears that the honorable Commissioner desires to know of the wishes of the Cherokee Nation in reference to the removal of the said North Carolina Indians: Therefore,

Be it resolved by the national council, That the principal chief be, and he is hereby, authorized to inform the honorable Commissioner of Indian Affairs of the willingness of the Cherokee Nation to receive the said North Carolina Cherokees into the Cherokee Nation: *Provided*, That they remove without any expense to the treasury of the Cherokee Nation: *And provided further*, That these resolutions shall not be so construed as to admit them to any Cherokee rights or benefits until they shall have removed West and been identified as citizens of the Cherokee Nation.

Be it further resolved, That the principal chief be, and he is hereby, authorized to notify the said North Carolina Cherokees of the willingness of the Cherokee Nation to receive them as citizens of the Cherokee Nation upon the terms hereinbefore expressed.

Tahlequah, C. N., December 10, 1869.

The Cherokee council, November 18, 1870, passed the following act:

Whereas the national council, under a joint resolution approved December 10, 1869, entitled "A joint resolution of the national council in regard to the North Carolina Cherokees," has

invited the said North Carolina Cherokees to emigrate West and become identified with the Cherokee Nation as citizens thereof: Therefore,

Be it enacted by the national council, That all such Cherokees as may hereafter remove into the Cherokee Nation and permanently locate therein as citizens thereof shall be deemed as Cherokee citizens: *Provided,* Said Cherokees shall enroll themselves before the chief justice of the supreme court within two months after their arrival in the Cherokee Nation, and make satisfactory showing to him of their being Cherokees. And the said chief justice is hereby required to report the number, names, ages, and sex of all persons admitted by him to be entitled to Cherokee citizenship; and also the number, names, ages, and sex of the persons denied the right of citizenship, to the annual session of the national council in each year.

Tahlequah, C. N., November 18, 1870, approved.

This act was in force from November 18, 1870, until December 7, 1871, when it was repealed or amended. The amendatory act, approved December 7, 1871, provided that the act of November 17, 1870, quoted above, should be so amended as to require the chief justice of the nation to receive and hear the petitions of all persons claiming the rights of Cherokee citizenship, and to take evidence with regard to the same, and to transmit the petitions of such petitioners, with all of the evidence relating thereto, to the national council for final action. The powers of the chief justice thereafter extended no further than to receive the petitions and transmit the testimony to the council.

The conceded facts in this case show that at the time the principal claimant, William J. Watts, made application to Chief Justice Vann, Malachi Watts and the other members of the family had not come to the Cherokee Nation, with one exception, a brother-in-law, whose name is stated in the report of the master as Jacob Mabray. It will be seen that the act conferring jurisdiction upon the chief justice was in reference to all such Cherokees (meaning North Carolina Cherokees) as may hereafter remove into the Cherokee Nation and personally locate therein as citizens. Chief Justice Vann had no authority conferred upon him by law to enroll any person as a citizen of the Cherokee Nation who had not already moved into and permanently located in the Cherokee Nation, nor did he have any authority under the laws of the Cherokee Nation to enroll any person as a citizen of the nation who was not a North Carolina Cherokee. The act and the joint resolution inviting such persons to come to the Territory related solely and exclusively to North Carolina Cherokees. It appears from the letter of the Commissioner of Indian Affairs, which first called forth this resolution and which is referred to in the master's report, that he inquired about the terms upon which the Cherokee Indians from North Carolina and adjoining States would be received into the Cherokee Nation as citizens. That after the receipt of this communication a joint resolution was passed by the council which authorized the principal chief to inform the Commissioner of Indian Affairs of the willingness of the Cherokee Nation to receive said North Carolina Cherokees into the Cherokee Nation, provided they remove without any expense to the treasury of the Cherokee Nation, and provided further, that this invitation was not to be so construed as to admit them to any Cherokee rights or benefits until they shall have removed West and been identified as citizens of the Cherokee Nation. And the principal chief was authorized to notify them that they would be received upon the terms therein expressed. It will be seen that this invitation was confined to North Carolina Cherokees and did not even embrace, as suggested by the Commissioner of Indian Affairs, the Cherokees in the adjoining States to North Carolina. The act of the Cherokee council passed November 18, 1870, which conferred jurisdiction upon the chief justice to enroll North Carolina Cherokees, was confined by its terms to North Carolina Cherokees, and the chief justice had no authority to enroll those Cherokees who had separated themselves from the Eastern Band and had taken up their residence in the States, as had Malachi Watts and his descendants. If, therefore, as is contended by the claimants in this case, Chief Justice Vann did on the 12th day of November, 1871, enroll Malachi Watts and his descendants as citizens of the Cherokee Nation, such enrollment was made without any authority from the Cherokee Nation. He was not clothed with any authority to make it, and his acts in that respect are null and void. If it were true that Malachi Watts and his descendants were North Carolina Cherokees, it is admitted that they were not residents of the Cherokee Nation at the time of their alleged admission by Chief Justice Vann, except the principal claimant, William J. Watts, and Jacob Mabray, his brother-in-law. These two persons, therefore, in any view of the case, were the only ones upon whose application the chief justice could have acted.

It appears from the report of the special master in this case that on August 23, 1878, the chambers court on Cherokee citizenship ruled that the claimants in this case were not entitled to citizenship in the nation, and they were declared intruders. It is stated in the brief of the counsel for the Cherokee Nation that the principal claimant in this case, William J. Watts, himself filed the application before the chambers citizenship commission, which rejected the application of claimants to be enrolled as citizens of the Cherokee Nation.

Counsel for claimants in this case have submitted a brief, in which they insist that the claimants were admitted to citizenship by Chief Justice Vann and that the case is *res adjudicata*. To sustain this position they cite Greenleaf on Evidence, section 522. This authority is to the effect that the interest of the community requires that a limit should be prescribed to litigation; that the same cause of action should not be brought twice to a final determination; that justice requires that every cause be once fairly and impartially tried, but the public tranquillity demands that, having been once so tried, all litigation of that question and between those parties should be closed forever. This authority is supported by Judge Cooley in his work on Constitutional Limitation, page 48. It is also substantially the position assumed by this court in its general opinion on the law applicable to Cherokee citizenship cases. It must be conceded, however, that a court can not act beyond and without the scope of its jurisdiction, and that when it does so act its judgments are null and void. This court is of the opinion that the adjudication of this case as to Malachi Watts and his descendants by Chief Justice Vann was, if any such judgment was made, without jurisdiction, and the alleged judgment is null and void. The court is further of the opinion that the case of these claimants was adjudicated by the chambers court on Cherokee citizenship, and that the judgment of that commission rejecting the application of the claimants in this case is valid and binding upon this court. If it should be contended that said last-named Cherokee commission had no jurisdiction to pass upon the application which was before it and that its judgment was void, the claimants would still be left in a position which would require affirmative action on the part of the Cherokee council to admit them to citizenship in the Cherokee Nation. Their admission would then rest upon the discretion of the Cherokee council, a discretion which has not been committed to this court.

Entertaining these views, it is unnecessary for this court to undertake an investigation as to whether the claimants have established conclusively the fact that they are Cherokee Indians by blood, or whether they were enrolled as citizens by Chief Justice Vann, as alleged in their petition. In view of the conceded facts in the case, and of the law applicable thereto, this court is of the opinion that the judgment of the United States commission rejecting this case should be affirmed, and that the application of the claimants to be enrolled as citizens of the Cherokee Nation should be denied, and it is so ordered.

W. J. Watts et al. v. Cherokee Nation.

Motion for rehearing.

The following motion for rehearing was filed in the United States court for the northern district of the Indian Territory, at Muskogee, January 24, 1898:

Comes the said plaintiffs, W. J. Watts et al., and move the court to set aside the judgment or decree rendered herein on the — day of December, 1897, and grant them a rehearing herein, for the following reasons, to wit:

First. Because the judgment is contrary to the law.

Second. Because the said judgment is contrary to the weight of the evidence and the proofs in the same.

Third. Because said judgment is *res adjudicata* and contrary to the judgment and finding of the Hon. John S. Vann as chief justice of the supreme court of the Cherokee Nation, to whom was delegated the authority of the Cherokee Nation to admit North Carolina Cherokees to citizenship in the Cherokee Nation under certain conditions, and that the said Vann did, in pursuance of and by virtue of the authority so vested in him by the said nation, on the — day of the —, 187—, by his judgment and findings declared the said claimants to be North Carolina Cherokees and subject to such admission as Cherokee citizens, and so admitted them, and that under the law of the Cherokee Nation giving authority and power to said Vann as such chief justice, the kind of Cherokees subject to such admission, namely, North Carolina Cherokees, was a question of fact to be found by said Vann as said chief justice, and he did so find, and such finding was the only material fact to be found by said Vann within the scope of his authority as a condition precedent to the right of admission of claimants as such Cherokee citizens, and Vann having by his judgment so found the facts to be, the judgment of this court aforesaid is *res adjudicata*, and the finding by this court, the fact that said Vann as chief justice did so find, is conclusive of the claimants' right to admission to Cherokee citizenship.

Fourth. Because the court had no jurisdiction of the subject-matter of the controversy herein.

Fifth. Because the law creating the so-called Dawes Commission and giving the right of appeal to this court for final determination is unconstitutional and void.

Sixth. The court committed an error of law prejudicial to the rights of the applicants herein in this, viz, the adoption of a set of rules governing and controlling the manner in which cases should be brought into this court after the division had been made therein by the Commission to the Five Civilized Tribes, which rule deprived parties of the right of an appeal as provided for by the act of Congress entitled "An act making appropriations for current and contingent expenses of the Indian Department and fulfilling treaty stipulations with the various Indian tribes for the fiscal year ending June 30, 1897, and for other purposes," approved June 10, 1897, and compelled them to bring the case into this court on a petition in the nature of a writ of error, thereby depriving these applicants of a trial *de novo* in this court and denying to them their constitutional right of a trial by a jury.

Seventh. The court committed an error of law prejudicial to the applicants herein in this, viz, in making the order under the rules in citizenship cases adopted by the court of referring this case to a special master of chancery, thereby depriving the applicants of their right to a trial according to the course of the common law and by a jury, as by the Constitution of the United States they were entitled to demand and have.

Eighth. Because that portion of the act of Congress approved June 10, 1896, attempting to confer upon the Commission to the Five Civilized Tribes authority to receive, consider, and decide upon applications of persons for the enrollment as citizens of the Five Civilized Tribes is unconstitutional and void in this, viz:

(a) That it provides a mode by which persons may be deprived of their rights and their property without due process of law.

(b) That it deprives the applicants for enrollment of their right to a trial by jury.

(c) That it attempts to deprive these applicants of their right of appeal.

(d) That it is class legislation and deprives them of rights and imposes upon them burdens which others similarly situated are not deprived of and not burdened with.

Ninth. The court committed an error of law prejudicial to the applicants herein in this, viz: In approving the decision of the Commission to the Five Civilized Tribes and in adjudging the applicants not entitled to be enrolled as citizens of the Cherokee Nation.

Tenth. The court erred in determining applicants must trace their right to some roll of citizenship of the Cherokee Nation as now constituted.

Eleventh. Because that portion of the act of Congress approved June 10, 1896, and defined in the later act, what Congress meant by rolls of citizenship in the former act, is unconstitutional and void because an invasion of the province of the courts as fixed by the Constitution of the United States.

Wherefore these applicants ask that the finding, decision, and judgment of the court herein be set aside and held for naught, and that they be granted a rehearing of their cause.

This cause came on for hearing on the motion for rehearing of the case on the 25th day of January, 1898. The opinion of the court overruling the motion for rehearing in this case is as follows:

SPRINGER, Judge:

It is unnecessary to refer to all of the grounds set forth in this motion for rehearing. Many of them have been referred to heretofore, and some of them have been specially in the general opinion of this court on the subject of citizenship in the Cherokee Nation. Reference will only be had, therefore, to such matters as are stated herein as have not been heretofore referred to.

The third ground for a rehearing in this case is to the effect that the judgment of this case of Hon. John S. Vann, as chief justice of the supreme court of the Cherokee Nation, was final and conclusive in favor of the applicants for citizenship in this case, and that said judgment was rendered, as found by the special master, on the 12th day of November, 1871. In view of the insistence of counsel for applicants upon this allegation that applicants were admitted to citizenship in the Cherokee Nation by Chief Justice Vann on November 12, 1871, a further examination of the record in this case has been made for the purpose of ascertaining the evidence upon which the master made this finding. Among the papers in the record in this case will be found an affidavit by the principal claimant, William J. Watts, which was taken before G. W. Parker, special agent of the Interior Department, at Tahlequah, July 17, 1893. In this affidavit of Mr. Watts it is stated in substance as follows: That he is 53 years of age; that he has lived in the Cherokee Nation since October, 1871; that he came from Clarksville, Ark. After his removal to the Cherokee Nation he made application for Malachi Watts to Chief Justice Vann, of the supreme court, for admission. This application was made on the 12th day of November, 1871, at Tahlequah. It was heard on the same day before Judge Vann; he at that time was the chief justice of the supreme court of the Cherokee Nation. Malachi Watts was at that time at Clarksville, Ark. Mr. Watts says:

Chief justice told me that I had introduced enough evidence to satisfy him, and that I could go home. I told him that I wanted to purchase property. He said that I was perfectly justifiable in making the purchase that I then contemplated. I did not at that time receive any writing. I learned later on that Judge Vann had made a report to the council or senate. I never saw the report; made diligent effort to see it. I made effort before the investigation before Judge Parker to see Judge Vann's report. In 1874 I learned that the records in my case were destroyed. On this information I came to Tahlequah, and I went to the place where the record books were kept to make my own examination. I could find nothing pertaining to my case. The papers were open to access to anyone. I learned that there had been some prisoners and guards kept there, and that the boxes in which the papers had been kept were broken into. This information was from some of the authorities of the country. I searched for three days and found nothing. I learned that some person who was hearing of my case had carried the papers to the country, 15 miles. John Taylor, an attorney, told me that my papers were in the bulk. I told him if he would assist me in getting my papers I would pay him for his labor. Thompson then made a search, requesting me to remain in town until he could get out in the country, and in the course of two days he told me that he had found my papers. I found the papers were partly there. He delivered the papers to me, and the council had then convened. Prior to receiving my papers, I met Mr. Vann, and told him the papers were lost, and that the council were going to take some action in the case. He furnished me a certificate, the copy of which is in the documentary evidence. In the investigation before Judge Parker I think the certificate was introduced by the nation—that is, the paper handed me by Vann to furnish the national council. The paper had the appearance of having been changed. The "one" in 1871 was changed to a "2," making it 1872. I was not before the chief justice in 1872; never was before the court at Fort Gibson; don't know of my own knowledge that Judge Vann ever held court at Fort Gibson, though I have heard that he did.

And further, Mr. Watts testified:

At the time of the trial in November, 1871, I was present in the court. Judge Vann told me in open court, and from the bench, that no further evidence was required. At the time the application was made it was made in the name of Malachi Watts and children, naming the children. I explained to the court that there were only two of the family living (in the Cherokee Nation) and I inquired what advice I should give the other members of the family, and when he rendered his decision he told me that I should bring them all in. I then, in December, purchased of a citizen in the Cherokee Nation property, one farm from Sam Guster, sheriff of the Sequoyah district. Our children were admitted into the public schools. The last of December and early in January all the remainder of the family came into the Sequoyah district, and the present claimants are the brothers and sisters, children and grandchildren, and these are the brothers and sisters whose names were furnished to Chief Justice Vann at the trial. When they came in they were permitted to exercise the rights of Cherokee citizens. Jacob Mabray, a brother-in-law, was with me when I made application. Mabray married Susan Watts. Mabray died about 1880, and Judge Vann about 1875.

In the cross-examination of Mr. Watts by Special Agent Parker, he says:

I do not remember whether I made any other written application, except what the court and officers made. I made a verbal application and the court put it down. Mr. Clen Vann was managing the matter for me and I suppose he made it according to law. I was admitted between the 15th and 20th of November, 1871. I was satisfied at that time that I was admitted to citizenship, and considered myself a citizen from that time on. I expect I stated August 4, 1875, before Agent Engles, that I had not been admitted to citizenship. I based that affidavit upon information from George Wilson that my case had been decided against me by the Senate.

In the same investigation by Special Indian Agent Parker there is produced the affidavit of T. B. Downing, who says:

I am assistant clerk of the senate of the Cherokee Nation and have access to the records of that body. I have made a thorough and diligent search of all the transactions of that body from 1870 up to the present time (which was in March, 1890).

The facts appearing upon the senate journal in reference to the Watts case are as follows:

Thursday, November 16, 1871.—The chief justice of the supreme court submitted to the national council for their consideration the following cases (omitting from the first to the sixth): Seventh. Evidence in the case of Malachi Watts, accompanied with the report of the chief justice in the matter. On motion of W. P. Adair, the business submitted from the chief justice referred to the committee on foreign relations.

And again there appears in the record of the proceedings of Friday, November 24, 1871, the following:

The report of Chief Justice Vann relating to citizenship granted to North Carolina Cherokees ordered filed. * * * The case of William Going, J. Going, and Malachi Watts returned by the chairman of foreign relations, evidence being unfinished.

And again in the senate journal of November 17, 1873, the following:

Mr. George Wilson presented the claim of William Watts for citizenship.

Those are all the entries which appear in the proceedings of the Cherokee council in reference to the Watts case. In the same report of Special Agent Parker appears the testimony of Hon. S. Houston Bengé, who states that he was a member of the Cherokee senate in 1871. From his evidence the following extracts were taken:

Question. When the chief justice made a report to the national council of 1871 of the case and evidence of Malachi Watts and six other cases, as read from the senate journal, did the chief justice report the case of Malachi Watts as having been decided by him, or, on the other hand, did he not report the case for the decision of the national council?

Answer. The cases were reported to the national council for their consideration.

And further in his testimony is the following:

I recall something about the facts of the cases of William Going, J. Going, and Malachi Watts being unfinished or insufficient. The committee reported that the evidence was unfinished.

Question. What was the action of the senate had in consequence of the report of the foreign relations committee?

Answer. The applicants, Susan Ware, Malachi Watts, and the Goings, were defeated; subsequently Susan Ware was admitted to citizenship. By the chief justice reporting the cases above-mentioned to the national council for their consideration, I mean that he reported them to the council to be acted or passed upon there.

The foregoing from the testimony of Mr. W. J. Watts and the testimony of Mr. Downing in regard to the senate records and the testimony of Mr. Bengé constitute the whole of the record in this case in reference to the application of Wm. J. Watts to Judge Vann as chief justice and the action of Judge Vann thereon. There are, however, some affidavits in the record attached to the application of the applicants before the United States Commission to the Five Civilized Tribes. These affidavits purport to be the papers which were taken by the applicants and submitted to Judge Vann for the purpose of proving Cherokee blood. These affidavits are quite numerous. They all relate, however, to the question of Cherokee blood. The first one presented was that of Eliza Ross and was sworn to before W. H. Turner, clerk of the supreme court of the Cherokee Nation, November 14, 1871.

This affidavit simply stated that she was acquainted with some of the Watts family and that they were Cherokee Indians by blood. The next affidavit is made by William Wilson, which was sworn to on the 15th day of November, 1871, before W. H. Turner, the clerk of the supreme court of the Cherokee Nation. The next one was by Lorin O. Gibbs, which was sworn to on November 16, 1871; the next, of Isaac Couch, which was sworn to before Mr. Turner on the 18th day of November, 1871. The next was the affidavit of David Elliott, which was sworn to on the 15th day of November, 1871, before Mr. Turner. The next one was made by W. S. Ward, which was sworn to on the 25th of November, 1871, before Mr. Turner. The next one was by Jesse L. Hibbs, and was sworn to before M. J. Watts, justice of the peace, on the 5th day of December, 1871, at Choville, Ark. The next one was by Samuel H. Payne, which was sworn to before the clerk of the United States court for the western district of Arkansas December 7, 1871. The next is the affidavit of Lott Langley, which was sworn to on the 9th day of December, 1871, before John Gunter, clerk of the district court of the Cherokee Nation. There are affidavits following dated in 1872, 1874, 1875, 1877, and subsequent years. Special reference should be made to the affidavits which were sworn to on December 7 and 9 and thereafter. The one on December 7 was signed by Lott Langley, and is as follows:

I have heard of the family all of my life, though never was acquainted with them until about fifteen years ago. I have often heard my father and mother speak of Malachi Watts, who lived east in the old Cherokee Nation, and that he was a Cherokee Indian. My mother and Malachi Watts are first cousins. I also heard them say that he lived in the State of Arkansas since he left the old nation. From what my parents have told me I never doubted the family being Cherokee Indians.

The affidavit of Samuel H. Payne was sworn to on the 7th day of December, 1871, before the clerk of the United States court for the western district of Arkansas, at Fort Smith. Payne states that he is a citizen of the Cherokee Nation and has been acquainted with Malachi Watts and his family for nearly fifteen years; that the said claimant Watts and his family always claimed to be Cherokee Indians by blood, and they were always during the period he knew them recognized as being of Cherokee Indian blood by the people of the State of Arkansas, Johnson County, where they lived.

If it be true, as stated in the report of the special master in this case, that the claimants in this case were admitted to citizenship on the 12th day of November, 1871, why is it that claimants continued to take affidavits to support their right to citizenship from time to time until the 9th day of December, 1871? The affidavit taken on the 9th day of December, 1871, at Fort Smith, was filed, it is said, in the claimants' papers before Judge Vann, and was a part of the papers upon which he acted. On the 7th day of December, 1871, the amendatory act took effect, and from that time forward Judge Vann had no authority to admit to citizenship, but only to take testimony and report the evidence to the council for its action, with his recommendation with reference thereto. The senate records herewith presented show that the application of the Watts claimants was reported to the senate by Judge Vann and that the papers were referred to the committee on foreign relations on the 16th day of November, 1871. This is after the date of the alleged admission of claimants to citizenship by Judge Vann. The testimony of Houston Bengie is to the effect that he was there in the senate when the papers in the Watts case were referred to the senate for its consideration or action, and he states, although the record does not bear him out, that the application of the claimants was rejected. The record, however, is silent as to this. There is nothing, however, in the record that tends to show that the application of the claimants for citizenship was reported to the senate as having been granted by Judge Vann. The certificate of Judge Vann is put in the record in this case, which was referred to in the testimony of Mr. Watts, heretofore set forth. That certificate is as follows:

This certifies that during my sitting as chief justice of the supreme court of the Cherokee Nation to take evidence in case of applications for Cherokee citizenship at Fort Gibson, Cherokee Nation, some time in April, 1872, as a "court of commission" authorized by the national council for the same, one W. J. Watts, son of Malachi Watts, filed his application then and there for Cherokee citizenship, with sufficient proof to entitle him to said right according to the best of my judgment, which I forwarded to the senate with my recommendation, and classed "B."

This November 5, 1874.

JOHN S. VANN, A. J. S. C. C. N.

Mr. Watts in his testimony above quoted explains that there was some change in the body of the certificate as to whether it was in 1871 or 1872. It could not have been 1871. That was error, because Watts had not emigrated to the Cherokee Nation at that time. The date of 1872 is evidently correct. It is possible that there may be error in the month, and there may be error as to Fort Gibson, but this is the only paper in existence signed by Judge Vann in reference to his action in the premises. If it is good for anything, it goes to show that he did not

admit Watts to citizenship when he was authorized to admit North Carolina Cherokees to citizenship in the Cherokee Nation. Therefore, summing up the evidence in the record as to whether the applicants in this case were admitted to citizenship by Judge Vann, we have on the one hand the unsupported affidavit of the claimant W. J. Watts, who states that his application was made orally and taken down by the judge, that he never saw the papers, and that he never received any certificate from Judge Vann to citizenship. The record of the court and council are silent upon the subject as to whether any certificate was ever issued to him; in fact, there is an entire absence of proof of any certificate ever having been issued admitting the applicants to citizenship by Judge Vann when he was authorized to admit North Carolina Cherokees. As against the unsupported affidavit of the claimant W. J. Watts, the record discloses the proceedings of the Cherokee senate and the testimony of Houston Bengé, who was a senator and a well-known and reputable citizen of the Cherokee Nation, who states in the corroboration of the senate minutes as they are set forth in the record that the report in the Watts case by Judge Vann was made to the council for its action and not as a final report admitting them to citizenship.

From these considerations, and in view of this condition of the record, this court is of the opinion that the finding of the special master that the applicants were admitted to citizenship on the 12th day of November, 1871, or at any time before December 7, 1871, is not supported by the evidence in the case. The court has called the attention of the special master, Mr. Gibson, to the foregoing evidence which appears in the record, and he admits that the statement as to the evidence as above set forth is correct, and he is further of the opinion that the affidavits submitted by Mr. Watts, and taken before the clerk of the supreme court, Mr. Turner, at times subsequent to the 12th day of November shows conclusively that the case had not been concluded at that time, but that they corroborate the senate minutes to the effect that the evidence was furnished at that time. He further authorizes the court to say that his findings as to admission on the 12th day of November, 1871, does not seem to be supported in view of these facts to which his attention has recently been called.

The sixth ground for a hearing is to the effect that this court committed an error prejudicial to the rights of the applicants by the adoption of rules governing and controlling the manner in which cases should be brought into this court, and that these rules compelled these claimants to bring the case into this court on a petition in the nature of a writ of error, therefore depriving the applicants of a trial *de novo* in this court and denying to them their constitutional right of trial by jury.

The applicants in this case have never heretofore made any objection or taken any exception to the rules which were adopted by the court to govern the proceedings in citizenship cases. At no place in the proceedings have the applicants asked the court to be permitted to have a trial of their case by a jury. The court has granted to the applicants in this case and to all other applicants the right to a trial *de novo*. All requests to take additional testimony have been granted, and there has been in this case no application for additional testimony. The record is very full, and the only questions of fact that could be submitted to a jury in this case is the question as to whether the parties are Cherokee Indians by blood—a fact upon which this court does not pass, and a fact to which, so far as the decision of this court is concerned, there is no denial. The right of claimants, so far as this court is concerned, does not depend upon the question of Cherokee blood, but questions purely legal and upon which a trial by jury could not have been had under any circumstances. The question upon which this case turns is, Were the claimants admitted to citizenship by Judge Vann? Second. Were they North Carolina Cherokees?—a fact which they have never asserted and which all the evidence shows to the contrary. It was a jurisdictional fact, solely for the consideration of this court in determining whether Judge Vann could have had jurisdiction to try and determine this case under the law under which he was acting. The claimants have not been denied a trial *de novo* in this court, nor have they been denied the right of trial by jury—a right which they never demanded, and which, if they had demanded, would have been upon a fact not material to the case. If the claimants had demanded and secured a jury on the question of Cherokee blood, there is not a particle of testimony in the record that could have gone to a jury on this question. It is all contained in *ex parte* affidavits, and most of this testimony is hearsay.

Further, it is stated in the motion for a new trial that Judge Vann must have found, in order to have given a decision in the case, that the applicants were North Carolina Cherokees. There is no application of the claimants in the record which was submitted to Judge Vann. There is no judgment of his in the record admit-

ting them to citizenship; hence there is nothing upon which counsel can base their assertion that he passed upon the question as to their being North Carolina Cherokees. It is conceded that only two of the applicants resided in the Cherokee Nation at the time the application was made, and to have authorized Judge Vann to have considered their case they must have been residents of the Cherokee Nation at the time of making their application, and they must have made it within two months after they took up their residence in the nation. All the affidavits supporting the claim of Cherokee blood are to the effect that the ancestors of these claimants resided in the States of Arkansas and Tennessee, and there is no suggestion in the record that they ever lived in North Carolina.

After a further and careful examination of the whole record in this case, this court is of the opinion that Chief Justice Vann, of the supreme court of the Cherokee Nation, did not admit the claimants in this case to citizenship in the Cherokee Nation, but all that he did in the case was to refer the testimony to the Cherokee council for its action.

It further appears that the Cherokee commission on citizenship, known as the Chambers commission, passed upon the application of the claimants to be admitted to citizenship in the Cherokee Nation and rejected it. It also appears that the national council of the Cherokee Nation in 1874 passed an act for the removal of intruders and that the claimants in this case were enumerated in said act and declared to be by the Cherokee council intruders in the Cherokee Nation. It also appears that in 1893 Congress passed an act requiring the Cherokee Nation to pay certain parties who had been declared intruders for their improvements in the Cherokee Nation. Under this act several of the claimants to citizenship in this case made application for and received different sums of money in full payment for their improvements in the Cherokee Nation, as provided for by the act of Congress approved March 3, 1893, and their receipts for such payments are found in the record. The application for rehearing is denied.

OPINION OF WILLIAM M. SPRINGER, JUDGE.

In the northern district of the Indian Territory.

No. 257.

Caleb W. Hubbard et al. *v.* The Cherokee Nation.

Mr. N. A. Gibson, special master, to whom this case was referred, submits the following report:

REPORT OF SPECIAL MASTER.

I, N. A. Gibson, special master herein, respectfully show to the court that under the order of reference in this cause I have examined the pleadings and proof herein filed and have taken other proof herein, which is herewith filed and made a part of this report, and that I find as follows:

I.

That this cause was instituted on the 9th day of September, 1896, at which time application was made to the Commission to the Five Civilized Tribes for citizenship by blood in the Cherokee Nation of Indians; that the cause was tried by the said commission and the application denied on the 24th day of November, 1896, no reason being given for the decision, and that the claimants appealed therefrom to this court on the 21st day of January, 1897.

II.

That this application was made by—

Caleb W. Hubbard, for himself and for his children, Martin F. Hubbard, Martha Ellen Baldwin, née Hubbard, Simeon J. Hubbard, James W. Hubbard, Edgar N. Hubbard, and D. Frank Hubbard; for his grandchildren, Barnard E. Hubbard, Hazell W. Hubbard, Raymond Hubbard, and Owen Hubbard; the children of Martin F. Hubbard, Lourana Woodmancy, née Baldwin, Annie Morris, née Baldwin, and Virgil Baldwin; the children of Martha Ellen Baldwin, Edgar C. Hubbard, Stellan Hubbard, and Lyle Hubbard; the children of Simeon Hubbard, Paul H. Hubbard, Minnie E. Hubbard, and Walter P. Hubbard; the children of Edgar N. Hubbard, Myrtle M. Hubbard, and Maud Hubbard; the children of D. Frank Hubbard, and for his great-grandchildren, Ralph Woodmancy, a child of Lourana Woodmancy, and John Morris, the son of Annie Morris, all residing at or near Afton, in the Cherokee Nation, Ind. T., and basing

their claim of a right to be enrolled as citizens of the Cherokee Nation by blood upon the statement that they are the lineal descendants of Phoebe Crews, who is alleged to have been a full-blood Cherokee Indian woman who lived in the State of North Carolina, and Caleb W. Hubbard, being the son of Hardy Hubbard, who was the son of Ann Hubbard, née Crews, who was the daughter of Phoebe Crews, whose maiden name was Goo Chee, Doo Chee, Tuck ee, or Dutch.

2. By Jeremiah Hubbard, for himself and for his children, Henrietta Smith, née Hubbard, Erastus Hubbard, Holton S. Hubbard, Edna H. Quiggan, née Hubbard, and Henry K. Hubbard; for his grandchildren, Charles S. Stith, Cora Stith, Nellie Stith, Bertha Stith, and Ada Stith; the children of Henrietta Stith, Agnes Hubbard and Ray Hubbard; the children of Erastus Hubbard and Winona Hubbard; the children of Holton Hubbard, all residing in Delaware district of the Cherokee Nation; Jeremiah Hubbard being the son of Joseph Hubbard, who was the son of Hardy Hubbard, who was a son of Ann Crews.

3. By William Hubbard, for himself and for his children, Aldred Hubbard, Emily Pyle, née Hubbard, Martha Pitts, née Hubbard, and Frank Hubbard, Thomas Hubbard, and Mary Hubbard, all residing at Fountain City, Ind., William Hubbard's father being Joseph Hubbard, who was a son of Hardy Hubbard, the son of Ann Crews.

4. By S. A. Vance, a granddaughter of the said Hardy Hubbard, residing at Kellogg, Iowa.

5. By Sarah Alice Reynolds, for herself and for her children, Ralph H. Reynolds, Edith E. Reynolds, and Hugh M. Reynolds, all residing at Pasadena, Cal., she being a daughter of Jehiel Hubbard, a daughter of Joseph Hubbard, the son of Hardy Hubbard.

6. By Martha A. Miles, née Hubbard, for herself and for her children, Bessie E. Miles, Blanch A. Miles, and Paul B. Miles, all residing at Bryant, Ind., she being the daughter of Jehiel Hubbard, the son of Joseph Hubbard, and the granddaughter of Hardy Hubbard.

7. By Absilet M. Hubbard, Sarah A. Hubbard, and Joseph H. Hubbard, the children of the said Jehiel Hubbard, all residing at Pasadena, Cal.

8. By Woodson B. Hubbard, for himself and for his children, Joseph W. Hubbard, Frank C. Hubbard, Earnest H. Hubbard, and Ethel I. Hubbard, and Edith M. Hubbard, and his grandchildren, Emma Hubbard and Homer Hubbard, the children of Joseph W. Hubbard, and Ruth Hubbard, the daughter of Earnest H. Hubbard. The principal claimant and his minor children residing at Afton in the Cherokee Nation, and his children, Joseph, Frank C., and Earnest H. Hubbard, and the children of Joseph W. and Earnest H. Hubbard residing in Muskogee, Ind. T., the principal claimant being the son of Joseph Hubbard, the son of Hardy Hubbard.

9. By Henry Hubbard, for himself and for his children, Bailey Hubbard, Kate Smith, née Hubbard, Gurney Hubbard, and Earle Hubbard, these claimants residing at Jasper County, Mo., he being the son of Joseph Hubbard, the son of Hardy Hubbard, the principal claimant having the following grandchildren: Clyde Smith and Guy Smith.

10. By Gamaliel B. Hubbard, for himself and for his children, Grace D. Hubbard, Nellie F. Hubbard, Lizzie G. Hubbard, Annabel Hubbard, and Ralph J. Hubbard, all residing at Siloam Springs, Ark., being the son of Hardy Hubbard, the son of Joseph Hubbard and Ann Crews.

11. By Joseph A. Hubbard, for himself and for his children, Jesse G. Hubbard, Matilda D. Hubbard, William W. Hubbard, Della L. Hubbard, Ladford W. Hubbard, Mildred Hubbard, and Ruby A. Hubbard, all residing near Afton, in the Cherokee Nation, Ind. T., Joseph A. Hubbard being the son of Joseph Hubbard, who was the son of Hardy Hubbard.

12. By Hardy Hubbard Butler, for himself and for his children, Alva R. Butler, Joseph H. Butler, and Harland J. Butler, the principal claimant residing at Miami, Ind. T., and he being the son of Sarah Butler, née Hubbard, who was the daughter of Hardy Hubbard.

13. By H. H. Hubbard, residing at Afton, Ind. T., for himself and for his children, Margaret E. Brown, née Hubbard; Kate B. Jarnagin, née Hubbard, and John J. Hubbard, and George B. Teague, née Hubbard. That Margaret E. Brown lives at Wagoner, Ind. T., and has the following children: Blanch Morton, residing at Atoka, Ind. T.; Mamie Millar, residing at Hillsboro, Tex.; Debora Fulsom, residing at Atoka, Ind. T.; Henry H. Brown, residing at Van Buren, Ark.; Magnolia Fears, residing at Muskogee, Ind. T., and George R. Brown, residing at Wagoner, Ind. T. That Mamie Millar has the following children: Hattie, Margeritte, and Catherine Millar. That Debora Fulsom has the following children: Daphne, Robert, Ethel, Blanch, Hal, and Alice Fulsom. That Magnolia Fears has one child, Margaret Fears.

That Kate D. Jarnagin has the following children: Estelle Jarnagin and Mary Kate Jarnagin, all residing at Mossy Creek, Tenn.

That John J. Hubbard resides at Afton, Ind. T., in the Cherokee Nation, and has the following children: Henry H., Jr., Daisy L., Marjory, and Mary L. Hubbard.

That George B. Teague resides at Mossy Creek, Tenn.

14. By Lizzie Young, a niece of H. H. Hubbard, residing at Chicago, Ill., and her daughter, Madge Woodard, residing at Macon, Ga., Lizzie Young being a daughter of Jacob Hubbard, who was the son of Ann Crews.

15. By George M. Hubbard, a brother of the claimant H. H. Hubbard, for himself and for his son, Jesse F. Hubbard, residing at Indianapolis, Ind.

16. By Anna M. Hart, née Hubbard, a daughter of George Hubbard, who was a brother of claimant H. H. Hubbard, she residing at Afton, Ind. T.

17. By Susan Z. Evans, a daughter of Jacob Hubbard, who was the son of Ann Crews, for himself and for his children, Helen H. Greer, née Evans, Charles F. Evans, and Henry B. Evans, and for her grandson, Ray H. Evans, the son of Charles F. Evans, all residing in Loudon County, Tenn.

18. By Ella M. Hubbard, a sister of H. H. Hubbard, residing at Knightstown, Ind.

19. By W. W. Hubbard, a son of R. W. Hubbard, who was the son of Jacob Hubbard, the son of Ann Crews, for himself and for his child, Edna Earle Hubbard, residing at Inola, Creek Nation, Ind. T.

20. By Thomas McC. Fuller, who is the son of Mariana P. Fuller, née Hubbard, who was the daughter of Jacob Hubbard, for himself and for his children, Anna Fuller, Thomas McC. Fuller, William Fuller, Henry Fuller, and Jane Fuller, residing at Hattiesburg, Miss.

21. By Charles S. Hubbard, who is the son of Richard J. Hubbard, who was the son of Jeremiah Hubbard, the son of Ann Crews, for himself and for his children, Ellen Hubbard and Elizabeth T. Hubbard, residing at Raysville, Ind.

22. By Francis T. Hubbard, a son of the claimant, Charles S. Hubbard, for himself and for his children, Lewis W. Hubbard, Clara A. Hubbard, and Samuel M. Hubbard, residing at Benton Harbor, Mich.

23. By Estelle H. Wilkinson, née Hubbard, a daughter of the claimant Charles S. Hubbard, residing at Raysville, Ind.

24. By Mary Alice Lowder, a daughter of the claimant Charles S. Hubbard, for herself and for her children, Florence Lowder, Martha I. Lowder, Charles F. Lowder, and Leroy S. Lowder, all residing in Humboldt County, Ind.

25. By Carrie Alberta Newby, who is the daughter of Caroline Hubbard, who was the daughter of Richard Hubbard, who was the son of Jeremiah Hubbard, residing in Chicago, Ill.

26. By Henry Newby, a son of Caroline Hubbard, the daughter of Richard Hubbard, the son of Jeremiah Hubbard, he residing at Passadena, Cal.
27. By Luther G. Newby, a brother of the two last-named claimants, residing at Chicago, Ill.
28. By C. W. Ballenger and Edward Ballenger, the sons of Margaret Ballenger, née Hubbard, who was the daughter of Richard Hubbard, the son of Jeremiah Hubbard, both residing at Spiceland, Ind.
29. By Emma G. Seaford, née Ballenger, the sister of the last-named claimants, for herself and for her children, Grace G. Seaford, Gertrude G. Seaford, Howard L. Seaford, Herbert L. Seaford, Mabel E. Seaford, Mary M. Seaford, and Hazel S. Seaford, all residing at Spiceland, Ind.
30. By Martha H. Jones, who is the daughter of Sarah Thomas, née Murrow, who was the daughter of Susan Murrow, née Hubbard, who was the daughter of Ann Crews, for herself and for her son, Walter I. Jones, they residing at Afton, Ind. T., in the Cherokee Nation.
31. By Oliver W. Nixon, a son of Rhoda Nixon, née Hubbard, who was the daughter of Joseph Hubbard and Ann Crews, for himself and for his son, Charles E. Nixon, both residing at Chicago, Ill.
32. By William Penn Nixon, a brother of the last-named claimant, for himself and for his children, Mary Stites Nixon, Bertha Duffield Nixon, and William Penn Nixon, jr., all residing in Chicago, Ill.
33. By William Henry Moore, a son of Ann Moore, née Hubbard, who was the daughter of Joseph Hubbard and his wife, Ann Crews, for himself and for his son, Thomas Franklin Moore, residing near Afton, Ind. T.
34. By Alfred Hadley Hubbard, who is the son of William Hubbard, who was the son of Joseph Hubbard, who was the son of Hardy Hubbard, who was the son of Ann Crews, for himself and for his children, Clara Louise Hubbard, Ann Grace Hubbard, and Walter Whitney Hubbard, all residing at Carthage, Mo.
35. By Joseph Henry Hubbard, a son of Jehiel Hubbard, who was the son of Joseph Hubbard, who was the son of Hardy Hubbard, who was the son of Ann Crews, for himself and for his children, Mildred Abbey Hubbard and Esther May Hubbard, residing at Ventura County, Cal.
36. By Sarah Robbins, William E. Robbins, Pauline Robbins, Ethel Robbins, Edith Robbins, Anna M. Wright, Justus M. Wright, Albert H. Wright, Marks O. Wright, Lena E. Wright, Florence M. Schrier, Eva M. Schrier, and Richard H. Schrier, children and grandchildren of Joseph Hubbard, all of whom reside at Albia, Mo.

III.

That these claimants base their connection of a right to be enrolled as citizens of the Cherokee Nation upon the statement that they are descended from a marriage between Joseph Hubbard and Ann Crews. That this Ann Crews was the daughter of Hardy Crews and his wife, who was known after her marriage as Phœbe Crews, and prior to her marriage as Goo Chee, Doo Chee, Tuch ee, or Dutch. That this woman was a full-blood Cherokee Indian who was born in the old Cherokee Reservation east of the Mississippi River, and lived in the State of North Carolina, in Person County. She had two daughters, Ann and Mary, who married Joseph Hubbard and David Meredith, respectively. That Phœbe Crews died in North Carolina prior to the year 1800; that Mary Meredith died in Stokes County, in the same State, in the year 1823, and that Ann Crews, the direct ancestor of these claimants, died in Person County, in that State, in the year 1812.

IV.

That the claimants filed in support of their claim the affidavits of the following witnesses made upon oath and affirmation, a number of them being Quakers, the witnesses testifying as to the Cherokee blood of the ancestors through whom these claimants trace their descent being of great age and making their statements from actual personal knowledge of the parties of whom they testify: The affidavits of Jemima Whitworth, Elijah Kirk, Robert Reagan (2), Jacob Hill, H. H. Hubbard, Charles S. Hubbard, John E. Stubbs (2), William G. Ciffin, Charles W. Kirk, J. A. Greer, George Brazzleton, James R. Dawson, Joseph H. Alley, William Bush, B. M. Branner, Jemima Whitworth, Jerry Lane, Squire Blair, Addison Ciffin, Milton Starbuck, William G. Coffin, Robert Reagan, David Meredith, Clarkson Thomas, E. E. Kirk, John Anderson, Luna Wright, Addison Coffin, Hezikiah Van Neiys, Helena Painter, Mary McCracken, Almedia Harris, F. W. Williams, J. T. Miles, S. D. Hill, George E. Garland, Ernest Hubbard, Jesse A. Haynes, Joseph W. Hubbard, Sarah J. Hubbard, Robert Reagan (2), Henrietta W. Holton, Robert Reagan and Henrietta W. Holton, jointly, Charles N. Wetherell, Anna I. Stout, Gertrude D. Green, Jemima Whitworth, Alexander Whitworth, W. B. Hubbard, Jeremiah Hubbard, Oliver H. Canaday, Sarah Canaday, Jemima Whitworth, Alexander Whitworth, Thomas Franklin Moore, S. S. Haynes, W. I. Jones, Alexander Whitworth, Jemima Whitworth, J. A. Bodenhamer, William S. Shoecraft, Nathaniel Lawrence, William Bush, B. C. Hobbs, I. D. Stockton, J. O. Reynolds, W. B. Hubbard, Sarah J. Hubbard, Robert Reagan, and William G. Coffin, and the testimony of the following witnesses taken before me, the undersigned special master herein, at the town of Afton, Ind. T., to be used herein: H. H. Butler, Jeremiah Hubbard, William Henry Moore, Woodson B. Hubbard, Caleb W. Hubbard, and L. B. Bell, the last-named witness having been examined at an adjourned hearing of this matter at Vinita, Ind. T., and he having been

the attorney who was employed by the claimants herein in the year 1885 or 1886 to present their application to the proper authorities of the Cherokee Nation to be enrolled as citizens of the nation by blood, together with certain papers attached to the testimony of the several witnesses as exhibits.

V.

That the testimony of these witnesses shows that these claimants are descended, as claimed by them, from Ann Crews, who married Joseph Hubbard, and who was the daughter of Phoebe Crews, who was a full-blood Cherokee Indian, and who lived in the State of North Carolina; that Phoebe Crews died in that State about the year 1800, in Person County, and that Ann Crews, her daughter, died in Stokes County, of the same State, about the year 1812; that the descendants of Ann Crews lived for a number of years in Guilford County, N. C., removing thence to the State of Indiana and to Tennessee, and that those of the claimants that are now residents of the Cherokee Nation, Ind. T., came to the Cherokee Nation about the year 1886, and made an effort to be admitted to citizenship in that nation; that they employed L. B. Bell, of Vinita, Ind. T., a Cherokee Indian by blood and a citizen of the Cherokee Nation, as an attorney to represent them in their application for citizenship; that he, in 1885, in August, sent H. H. Butler, one of the claimants herein, to William Howell, a Cherokee Indian, living near Afton, Ind. T., for assistance in selecting farms for the various claimants who desired to locate in the Cherokee Nation; that Butler and others of these claimants located farms near Afton, purchasing one improvement from William Howell, and that they have accumulated a large amount of property near that place; that on May 23, 1887, there was approved an act passed by the council amending section 7 of the act of council approved December 8, 1886, entitled "An act providing for the appointment of a commissioner to try and determine applications for citizenship," providing as follows:

Shall be so amended that the commission shall be authorized to try and determine all claims to Cherokee citizenship wherein the claimant claims by virtue of Cherokee descent who left or emigrated from the Cherokee Nation prior to the year 1885.

That after the passage of this act, in the summer of 1887, L. B. Bell made application to the Cherokee citizenship commission for the admission of these claimants to citizenship in that nation; that the claimants testify that they never heard of any action having been taken upon this application until the reply of the Cherokee Nation to their application in this cause was filed before the Commission to the Five Civilized Tribes, though the proof introduced herein by the Cherokee Nation shows that the said applications were rejected by the commission at some time in the year 1889, together with the applications made in the Meredith kindred claim; that a large number of the witnesses whose names are given herein were simply employed for purposes of identifying the claimant and their descendants and of connecting them with some of the older or principal claimants herein, and that the leading witnesses upon the actual relationship of the older claimants to Ann Crews are Addison Coffin, William G. Coffin, Alexander Whitworth, Jemima Whitworth, Jerry Lane, and Squire Blair; that a large portion of the testimony of these leading witnesses is devoted to statements concerning Jeremiah Hubbard, one of the children of Ann Crews and Joseph Hubbard, this Jeremiah Hubbard being a full brother of Hardy, Jacob, Joseph, Woodson, Annie, Susana, and Rhoda Hubbard, the direct ancestors from whom the claimants in this application all trace their descent. It appears that this Jeremiah Hubbard was a man of considerable note in his locality, being a minister of the Church of Friends, or Quakers, and being widely known throughout the Eastern States; that he was a man of striking appearance, his features, color, and hair clearly indicating that he was of Indian descent; that he was on intimate terms with John Ross, the chief of the Cherokee Nation in Georgia, and with Lewis Ross, by whom he was visited and with whom he visited Washington during the Administration of President Jackson; that he was always recognized as a Cherokee Indian by blood by both whites and Indians; that there is a great deal of testimony bearing upon the family traditions and the opinion which has been held for the last hundred years by the friends and associates of the Hubbard family, all of which tends to sustain their allegations that they are of Cherokee Indian blood and are the lineal descendants of Ann Crews, above mentioned.

VI.

That the Cherokee Nation introduces in support of its answers the record of the rejection by the Cherokee citizenship commission in 1889 of the application for citizenship of Jeremiah Hubbard, Joseph A. Hubbard, Anna B. Hubbard, Jesse

Hubbard, Joseph A. Hubbard, Henry N. Hubbard, Ella Hubbard, George M. Hubbard, Caleb Hubbard, Edgar Hubbard, and Frank Hubbard, these claimants being all rejected by reason of the fact that they did not show that any ancestor through whom they claimed had ever been enrolled as a citizen of the Cherokee Nation upon any of its authenticated rolls, and for the further reason that they did not prove that they were Cherokees by blood.

VII.

The claimants contend that they have shown by a large number of witnesses that they are the lineal descendants of Phœbe Crews and of her daughter Ann Crews, who married Joseph Hubbard, both of these women having been always known to be Cherokee Indians by blood, the claimants having attempted for a number of years to secure a recognition from the proper authorities of the Cherokee Nation of their right to Cherokee citizenship, and having never heard of any decision in their case prior to the institution of this suit, and they all being Cherokee Indians by blood, they are entitled to recognition and enrollment as citizens of the Cherokee Nation under the law applicable to this case, while the Cherokee Nation contends that the claimants not having shown that Ann Crews, the ancestor through whom they claim to derive their right to citizenship in the Cherokee Nation, is now or has been a citizen of the Cherokee Nation since the removal of said nation west to the Indian Territory as at present located and defined, or that her name appears on any of the authenticated rolls of said nation, or that they or any of their ancestors now reside or ever have resided in the Cherokee Nation, Ind. T., as citizens thereof; and for the further reason in the cases of those claimants above enumerated and their descendants whose application had heretofore been rejected by the Cherokee citizenship commission, that their said case was tried upon its merits, and that upon final hearing judgment was duly given against the applicants and in favor of the Cherokee Nation; that for these reasons these claimants are now barred from being admitted to Cherokee citizenship.

VIII.

The premises considered, I find that the claimants reside in the Cherokee Nation, Ind. T., and in a number of States in the Union, as shown in Section II of this report; that they are all lineal descendants of Ann Hubbard, the wife of Joseph Hubbard, whose maiden name was Ann Crews, and who was the daughter of Phœbe Crews, a full-blood Cherokee Indian woman who lived and died in the State of North Carolina, and who was known prior to her marriage as "Goo chee," "Doo chee," or "Dutch;" that Phœbe Crews died in the State in the year 1800, and that her daughter, Ann Crews, died in Stokes County, in that State, in the year 1812; that both of these women were always recognized to be Cherokee Indians by blood, and that the Cherokee blood of this family has never been disputed.

That these claimants are all Cherokee Indians by blood.

That the principals are principally Quakers, having retained this faith for the last hundred years; that those of them who reside in the Cherokee Nation made an effort to locate themselves in said nation in the year 1885 and purchased land near Afton, Ind. T.; that the majority of the claimants now residing near that place, as shown by this report, made their home there in 1886 and 1887, and that they have accumulated a large amount of property.

That a number of these claimants made application to the Cherokee citizenship commission for admission to that nation in the year 1887, and that their applications were rejected by said commission, they having failed to show that their common ancestor from whom they traced their Cherokee blood had been enrolled upon authenticated rolls of the Cherokee Nation; that these cases were decided in 1889, but that the claimants state, upon oath and affirmation, that they received no notice of said decision until the transcripts thereof were filed in this cause in support of the answers of the Cherokee Nation; that the brief of the claimants applicable to this case and to the David Meredith case, No. 295, is hereto annexed, for the reason that it states the legal position assumed by the claimants more fully than has been given by me in this report.

The COURT:

At the instance of the claimants in this case the court referred this case, together with case 183, Catherine V. Smith et al. against The Cherokee Nation, and case No. 295, David Meredith et al. against The Cherokee Nation, to the special master, who submits the following report to be used in each of said cases:

SUPPLEMENTAL REPORT OF SPECIAL MASTER.

I, N. A. Gibson, special master herein, respectfully show to the court that, in accordance with the order of reference herein made by the court, I have examined the affidavits of H. H. Hubbard and L. B. Bell, taken in the Hubbard and Meredith cases in the form of depositions upon notice, and have also heard the argument of the attorneys for the claimants, and that I find as follows:

I.

That the parties made application to the Adair citizenship commission in the Cherokee Nation for citizenship in said nation under the act of the Cherokee council approved December 8, 1886, which act conferred authority upon the said commission to try and determine the application of all such persons as could show their own names or the names of their ancestors upon any of the Cherokee rolls of the years 1835, 1848, 1851, or 1852. That this act was amended on the 21st day of May, 1887, and the commission directed to try and determine all claims to Cherokee citizenship wherein the claimant claims by virtue of Cherokee descent, who left or emigrated from the Cherokee Nation prior to the year 1835.

The second section of said amendment authorizes the chief to procure copies of the rolls of 1851 and 1852, and this amendment seems to have been interpreted as limiting the additional power conferred upon the commission to the examination of such claims as traced to these two rolls.

That the claimants in these cases did not try to connect with any of the Cherokee rolls, but simply based their application upon the fact that they were Cherokee Indians by blood.

III.

That in this hearing L. B. Bell was the attorney for the claimants, and states that the commission ruled that it had no jurisdiction of the cases, as the claimants did not connect with any of the rolls specified in the act or the amendment, and that he attempted to withdraw the cases, but was not allowed by the commission to do so.

That in the year 1889 the applications were rejected in the absence of the claimants, without notice to them of any further action or intention to proceed further with the cases, and in the Smith case it appears that the claimants did not know of the rejection until the year 1896.

That the decision of the commission of these cases shows that the commission decided that it had no jurisdiction to admit the claimants to Cherokee citizenship, as their names and those of their ancestors did not appear upon any of the rolls of the Cherokee Nation, to which the commission was limited in the consideration of applications.

IV.

That in November or December, 1889, the claimants in the Hubbard and Meredith cases, after the decision of the commission that it had no jurisdiction of their cases, made application to the Cherokee council, asking for admission to Cherokee citizenship, their application being introduced by Senator Samuel H. Mayes, and that when the matter was called up, Will P. Ross, who had been a member of the Adair commission, rose and stated that the matter was *res adjudicata*, as the cases had been passed upon by the Adair commission, and that upon his motion the applications were either rejected or indefinitely postponed.

By the COURT:

The Hubbard case and the kindred cases mentioned above are the most important that have been brought to this court on appeal from the United States commission. There are thirty-six separate families who make application for citizenship in the Cherokee Nation in this case, and the whole number of claimants aggregate nearly 200.

The claimants base their right to be enrolled as citizens of the Cherokee Nation upon the ground that they are descended from Phoebe Crews, who was a full-blood Cherokee Indian, who lived in the State of North Carolina and who died in that State about the year 1800. That those of the claimants who are now residents of the Cherokee Nation came to said nation about the year 1886 and made an effort to be admitted to citizenship in said nation. The other applicants are nonresidents of the Cherokee Nation, residing in many of the States of the Union. That the claimants who reside in the Cherokee Nation have accumulated a large amount of property near the town of Afton, Cherokee Nation.

The special master reports that in the year 1887 L. B. Bell, applicants' attorney, made application to the Cherokee citizenship commission for the admission of these claimants to citizenship in the nation. It appears that said application was rejected by said commission in the year 1889, but the applicants state that they never heard until recently that their application for citizenship in the Cherokee Nation had been rejected.

Owing to the large number of persons interested in this case, among whom are Oliver and William Penn Nixon, of Chicago, who are gentlemen of national reputation, and to the further fact that the venerable Henry H. Hubbard, one of the claimants, has given his personal attention to this case for twelve years past, and who has become widely known on account of his connection therewith, the court has given this case very careful and exhaustive consideration. Colonel Hubbard himself appeared before the court and submitted an exhaustive argument in behalf of himself and his coclaimants, in which he reviewed the history of the Cherokee Nation from the earliest times down to the present and discussed all the legal propositions involved.

There was much contention by counsel in the case as to what action was taken by the Cherokee citizenship commission, to which the claimants in this case applied for admission to citizenship. The commission to which application was made was organized under the act of Cherokee council, approved December 8, 1886. This act conferred authority upon the commission to consider and determine the application of all such persons as could show their own names or the names of their ancestors appeared upon any of the Cherokee rolls of the years 1835, 1848, 1851, or 1852. There was an amendment passed to this act on the 21st day of May, 1887, and the commission was directed to try and determine all claims to Cherokee citizenship wherein the applicants claimed by virtue of Cherokee descent who left or emigrated from the old Cherokee Nation prior to the year 1835. The master finds that the second section of said amendment authorized chief of the Cherokee Nation to procure copies of the rolls of 1851 and 1852, and that this amendment seems to have been interpreted as limiting the additional power conferred upon the commission to the examination of such claims as were traceable to these rolls.

The master finds in his supplemental report that the decision of the commission in these cases shows that the commission decided that it had no jurisdiction to admit the claimants to Cherokee citizenship, as the names of their ancestors do not appear upon any of the rolls of the Cherokee Nation. Counsel for claimants insist that their rights are not prejudiced by this adverse decision of the Cherokee commission. It is immaterial whether they regard the decision of the commission as adverse to the claimants' rights to citizenship or not. The decision at least goes to this extent, that the names of the applicants and those of their ancestors do not appear upon any of the rolls of the Cherokee Nation to which the commission was limited in the consideration of applications. In one sense this was a decision upon the merits of the case, in another a decision as to the jurisdiction of the commission. The commission was authorized to ascertain whether the names of the claimants or the names of their ancestors were upon any of these rolls. They either found that they were not or the claimants admitted that they were not. In either view of the case the claimants are still left in the condition which requires affirmative action on the part of the Cherokee council to admit them to citizenship in the Cherokee Nation.

The ancestor through whom all the claimants in this case base their right to admission separated herself from any organized band or tribe of Indians more than a hundred years ago. She and her ancestors during the last century resided in the States separate and apart from any tribal organization. A large majority of the applicants still reside in the States, many of them never having placed their feet upon the soil of the Cherokee Nation. About forty of the applicants came to the Cherokee Nation about the year 1885 or 1886 and settled near the town of Afton, where they have been residing ever since. Previous to that time they were citizens of the States of the Union in which they resided. They came within that class of Cherokees by blood who were referred to in the constitution of the old Cherokee Nation and also in the constitution of the new Cherokee Nation, established in 1839. That constitutional provision is as follows:

Whenever any citizen shall remove with his effects out of the limits of this nation and become a citizen of any other government, all his rights and privileges as a citizen of this nation shall cease; provided, nevertheless, that the national council shall have power to readmit by law to all the rights of citizenship any such person or persons who may at any time desire to return to the nation on memorializing the national council for such readmission.

The claimants in this case and their ancestors, having separated themselves for a hundred years from the tribe, had forfeited all their privileges as citizens of the Cherokee Nation, and they could only be admitted to citizenship by the affirmative action of the Cherokee council. The opinion of the Supreme Court of the

United States in the case of the Eastern Band of the Cherokees against the Cherokee Nation and The United States (117 U. S. Reports, 298-312) is directly in point in this case:

If the Indians of that State (North Carolina) or in any other State east of the Mississippi wish to enjoy the benefits of the common property of the Cherokee Nation, in whatever form it may exist, they must, as held by the Court of Claims, comply with the constitution and laws of the Cherokee Nation and be readmitted to citizenship as therein provided. They can not live out of its territory, evade the obligations and burdens of citizenship, and at the same time enjoy the benefits of the funds and common property of the nation. Those funds and that property were dedicated by the constitution of the Cherokees and were intended by the treaties with the United States for the benefit of the united nation and not in any respect for those who have separated from it and become aliens to their nation.

Counsel for claimants in this case have stated that the opinion of the Supreme Court in the case of the Eastern Band of Cherokees was not binding upon this court; that the language quoted was the mere opinion of the court, while the decision of the court related only to the claim of the Eastern Band of Cherokees to certain annuities of the nation. While the decision of the Supreme Court in that case related to the claim of the Eastern Band, yet the opinion of the court broadly and clearly covers the case at bar. This court would disregard all precedents and defy the opinion of the highest judicial body in the world if it should disregard its opinion in this case. That opinion is not only persuasive but conclusively binding upon this court in all cases where the facts are substantially the same. The claimants in this case did apply to the national council. It appears that when the petition was read, a senator stated that the case had been considered by the Adair commission and rejected and that it was therefore *res adjudicata*, whereupon the council refused to take any further steps. Counsel for claimants insist that this act was a fraud upon the right of claimants; that the case had not been adjudicated, and that the council in failing to act favorably upon their application had been misled by false and fraudulent representations. This court can not inquire into the motives or into the reasons which may have induced the council to withhold favorable action on the application of the claimants in this case. It is enough for this court to know that the council failed to act. The admission of claimants rested solely in the discretion of the council. The council could have admitted them by name or could have passed a law providing for their admission and by observing which they could have been admitted. It has done neither. The discretion which the council had, to admit to citizenship those persons who had removed their effects out of the limits of the nation and who had become citizens of other governments to the rights of citizenship, was not committed to this court. The constitution of the nation declared that their rights and privileges as citizens of the nation had ceased and that they could only be reconferred by the acts of the national council. The council not having acted favorably on the case, this court has no power to admit them to citizenship in the Cherokee Nation.

Colonel Hubbard, in behalf of himself and other claimants, in his argument in this case, called attention to the treaty between the Cherokee Nation and the United States which was concluded in 1866. This treaty grew out of the conditions produced by the late war of the rebellion, and its whole context shows that it had reference to that conflict. Colonel Hubbard, however, insists that section 4 of that treaty authorized all Cherokees to return to the Cherokee Nation and take 160 acres of land therein. To support this contention he cited article 4, which is as follows:

ARTICLE 4. All the Cherokees and freed persons who were formerly slaves to any Cherokees, and all free negroes not having been such slaves, who resided in the Cherokee Nation prior to June 1, 1861, who may within two years elect not to reside northeast of the Arkansas River and southeast of the Grand River shall have the right to settle and occupy the Canadian district southwest of the Arkansas River, and also all that tract of country lying northwest of Grand River and west by the Creek Reservation to the northeast corner thereof; from thence west on the north line of the Creek Reservation to the ninety-sixth degree of west longitude; and thence north on said line of longitude so far that a line due east to Grand River will include a quantity of land equal to 160 acres for each person who may so elect to reside in the territory above described in this article; provided that that part of said district north of Arkansas River shall not be set apart until it shall be found that the Canadian district is not sufficiently large to allow 160 acres to each person desiring to obtain settlement under the provisions of this article.

Colonel Hubbard called attention to the fact that at the close of the late war of the rebellion the Cherokee Nation was divided into various factions, some of which undertook to drive out of the nation and to deprive of all rights of citizenship therein those Cherokees who had participated in the war of the rebellion. The treaty of 1866 was made for the purpose of harmonizing those difficulties and adjusting the contention of the several factions of the nation. The words "all the Cherokees" referred to in this article above quoted can only refer to all the Cherokees who resided in the nation prior to June 1, 1861, and who might, within two years thereafter, elect to not reside northeast of the Arkansas River and southeast of Grand River should have the right to settle and occupy the Canadian

district, etc. There was nothing in the treaty of 1866 which had reference to those Cherokees who had theretofore moved out of the nation and who had taken their effects with them and had taken up their residence in the several States of the Union and become citizens thereof. Reference was only had to the Cherokees who were citizens and who resided in the nation prior to June 1, 1861, and it was for the purpose of permitting those Cherokees and the free persons or free negroes to make this selection. The treaty of 1866 had nothing whatever to do with that class of Cherokee Indians by blood to which the claimants in this case belong—that class which had moved out of the old Cherokee Nation or out of the new Cherokee Nation and had taken their effects with them and who had on that account ceased to be citizens of the nation. But even if the treaty of 1866 did apply to all Cherokees or all persons who had Cherokee blood, still the subsequent acts of the Cherokee council establishing commissions to pass upon citizenship in the nation, and the various acts of the Cherokee council requiring all persons who claimed to be Cherokees to make application to the proper tribunal or commission which were passed after the year 1866 applied to the claimants in this case. They were required by these provisions to establish their right to citizenship. They did not come to the nation until the year 1885 or 1886, twenty years after the treaty of 1866 was promulgated. At the time the Cherokee Nation treated with the United States the claimants in this case were citizens of the States of the Union in which they then resided. They were not parties to the treaty, directly or indirectly; they were not bound by it and were not embraced within its provisions. When they came to the Cherokee Nation (those of them who did come) they were required to comply with the laws of the nation which existed at the time they arrived in the nation, and at that time they could only be admitted by applying to the citizenship commission, which was authorized to hear and determine the application of those whose names were upon certain rolls of the nation. Failing to come within the provisions of that commission and failing to secure admission by it, they were required to obtain the affirmative action of the Cherokee council to admit them to citizenship in the nation, the citizenship which they had not theretofore enjoyed.

The judgment of the United States commission rejecting this case is affirmed, and the application of the claimants to be enrolled as citizens of the Cherokee Nation is denied.

CREEK NATION.

OPINION OF WILLIAM M. SPRINGER, JUDGE.

In the northern district of the Indian Territory.

In the matter of the application of certain persons to be enrolled as citizens of the Muskogee or Creek Nation.

JURISDICTION OF THE COURT.

On the 3d day of December, instant, this court rendered an opinion upon the law applicable to citizenship in the Cherokee Nation. The court will now submit its opinion as to the law governing the applications for citizenship in the Muskogee or Creek Nation.

All of the opinion heretofore rendered in reference to Cherokee citizenship which relates to the powers and duties of the United States Commission to the Five Civilized Tribes, and to the jurisdiction of this court in reference to citizenship cases, is reiterated and adopted as the views of the court in the cases now on appeal to this court from the Creek Nation. It will not be necessary, therefore, to review in this opinion the acts of Congress of June 10, 1896 (29 Stat. L., 321), or the act amendatory thereof, passed June 7, 1897, defining what is meant by the words "rolls of citizenship." The acts referred to relate to the subject of citizenship and the jurisdiction of this court over citizenship cases as well in the Creek Nation as in the Cherokee Nation. This court will also adopt its former opinion in reference to adjudication of citizenship cases. In all cases wherein it appears that the applicants for citizenship in the Creek Nation filed their claims before the proper tribunal or commission, and in all cases where the tribunal or commission acted within the scope of its jurisdiction as prescribed by the laws of the Creek Nation and admitted or rejected such persons, such cases will be regarded as adjudicated. The court reiterates its opinion on this subject as laid down in the opinion in the Cherokee cases.

POWER OF THE CREEK NATION TO DETERMINE WHO MAY BE CITIZENS THEREOF.

The Government of the United States conceded to the Creek Indians, by the treaty proclaimed April 4, 1832, the right "to govern themselves, so far as may be compatible with the general jurisdiction which Congress may think proper to exercise over them."

By the third article of the treaty of April 12, 1834, it is provided as follows:

The United States will grant a patent in fee simple to the Creek Nation of Indians for the land assigned said nation by this treaty or convention whenever the same shall have been ratified by the President and Senate of the United States; and the right thus guaranteed by the United States shall be continued to said tribe of Indians so long as they shall exist as a nation and continue to occupy the country hereby assigned to them.

The article just quoted from the treaty of 1834 sets forth in substance the provisions of the patent to the Creek Nation given by the United States to the lands which they now hold in the Indian Territory. In commenting upon the patent to the Cherokee Nation, in the opinion heretofore rendered, this court held that the patent was to the nation, and not to the individual Indian, and the opinions set forth at that time in reference to the Cherokee Nation's patent will be carried out so far as the Creek patent is concerned. While these patents differ slightly in phraseology, this court is of the opinion that they are in substance the same and to the same effect.

By the treaty with the Creek Nation proclaimed August 28, 1856, the Creeks and Seminoles were to be "secured in the unrestricted right of self-government and full jurisdiction over persons and property within their respective limits."

Certain persons were excepted from the provisions of this section and allowed to remain in the Creek and Seminole nations, but as to all other persons, not being members of either tribe, found within their limits, it was provided:

"Shall be considered intruders and be removed from and kept out of the same by the United States agents for said tribes respectively, assisted, if necessary, by the military."

By the twelfth article of the treaty proclaimed August 11, 1866, the United States reaffirmed and reassumed the obligations of the treaty stipulations with the Creek Nation entered into prior to 1861, except such as were not inconsistent with any of the articles or provisions of that treaty. From these treaty stipulations entered into between the United States and the Creek Nation it appears that the Creek

Nation was secured in the unrestricted right of self-government and full jurisdiction over persons and property within the limits of the nation, with certain exceptions which were mentioned, and which it is not now necessary to set forth. This right of self-government was to be exercised, of course, in accordance with the treaties and laws of the United States. The right, however, of the nation to determine who should be members of the tribe was one of the rights of self-government which Congress conceded to the nation by solemn treaty obligations.

CREEK LAWS ON CITIZENSHIP.

The Creek Nation has passed very few laws on the subject of citizenship. Quite a number of special acts of the council have been passed admitting certain persons named to full citizenship in the nation. The principal act of the nation in reference to citizenship was passed October 26, 1889, and is as follows:

SEC. 295. All persons who were born, or who may be hereafter born, beyond the limits of the Indian Territory, and may have heretofore been entitled to make application for citizenship, on account of Indian blood or tribal adoption, and who have continuously resided beyond or outside of the jurisdictional limits of the Muscogee Nation for a period of twenty-one years, are hereby declared aliens, and not entitled to citizenship in the Muskogee Nation, or to any of the privileges thereof.

SEC. 296. The minor children and descendants of persons so debarred from citizenship and declared aliens are hereby also excluded from citizenship in the Muskogee Nation and from all the privileges thereof.

SEC. 297. All persons who have heretofore applied for citizenship in the Cherokee, Choctaw, Chickasaw, or Seminole nations, and accompanied their application with a declaration of right to citizenship in such nation, by blood or adoption, are hereby declared aliens, and shall not be entitled to citizenship in the Muskogee Nation, or to the privileges thereof.

SEC. 298. This act shall not apply to persons who have heretofore filed application for citizenship and where the cases are now pending. Adopted October 26, 1889.

The briefs submitted by counsel for claimants to citizenship in the Creek Nation and some of the oral arguments submitted to the court assail the constitutionality of this law of October 26, 1889, which is generally referred to as the "Alien act of the Creek Nation." It provides, in short, that all persons born out of the limits of the Indian Territory, and who have resided continuously out of the limits of the Muskogee Nation for twenty-one years, are aliens, and not entitled to citizenship in the Muskogee Nation or to any of the privileges thereof. It is contended by some of the counsel for claimants that this act is in conflict with section 2 of article 8 of the Creek constitution, which is as follows:

No laws taking effect upon things that occurred before the enactment of the law shall be passed.

It seems that the supreme court of the Creek Nation was called upon by the citizenship commission of the nation to render an opinion upon the constitutionality of this act. The opinion of the court is as follows:

HON. JAMES COLBERT, *President Citizenship Court.*

SUPREME COURT, *August 5, 1896.*

SIR: Your communication of July 22, 1896, asking the opinion of the court in the following question received, to wit: "We would respectfully request you to render an opinion upon the constitutionality of an act of the national council approved October 26, 1889, found on page 105, Compiled Laws of the Muskogee Nation, edition 1893, at as early date as possible." In answer thereto the court is of the opinion that this act is not inconsistent with the legislative functions of our council. It is only remedial in character and not retroactive. There can not be any question as to the constitutional authority of the council to enact any law of a remedial nature. It only closes the doors of our nation after a lapse of nearly seventy years. All persons having citizenship rights in our nation have certainly been afforded ample time and opportunity to ask for them. No Indian who loves his race would remain out of his country for twenty-one years unless debarred from exercising his freedom, and it is equally true that if he has thus remained away he has selected a home of his own choice with no intention of leaving it.

It is certainly in the province of the tribal council to close its doors after waiting the pleasure of these absentees for fifty years. The evident purpose of this law is simply to exclude from our nation all persons who have never placed their foot on our soil, even though they should be full-blood Creeks, and the court so construes this law.

It seems that the supreme court held that the alien act was not retroactive. It was held by the supreme court that it was certainly in the province of the tribal council to close its doors after waiting the pleasure of these absentees for fifty years. The court states in the concluding of the opinion as follows:

The evident purpose of this law is simply to exclude from our nation all persons who have never placed their foot on our soil, even though they should be full-blood Creeks, and the court so construes the meaning of this law.

The opinion of the supreme court of the Creek Nation, construing the laws of the nation, is binding upon this court. The language of the opinion in reference "to persons who have never placed their foot on our soil" evidently means all persons who have never taken up their residence in the Creek Nation. In view of this opinion of the supreme court, this court will hold that all persons who have continuously resided beyond the limits or outside of the jurisdiction of the Muskogee Nation for a period of twenty-one years as having forfeited their rights to

citizenship in the nation. Such persons can only be admitted or readmitted to citizenship in the nation by an act of the Creek council, or in pursuance of laws enacted by the council. The admission of persons to citizenship is a matter within the discretion of the lawmaking power of the nation, a discretion which has not been committed to this court by any act of Congress or by any treaty between the United States and the Creek Nation.

The Creek council, by act approved May 17, 1885, provided as follows:

That the fact that any person at any time participated in the per capita distribution of public moneys of the nation does not make such person a citizen of the Muskogee Nation, entitled to the rights and privileges of recognized citizens thereof, and shall not by any authority of the nation be accepted or considered as evidence sufficient to establish such claim.

In some of the briefs of counsel for claimants to citizenship in the nation the fact that such persons had been receiving per capita payments is urged as conclusive evidence of recognized citizenship. This court will hold, in pursuance of this act of the Creek council, that such per capita payments will not be sufficient to establish the right of such persons to citizenship in the nation.

CREEK CITIZENSHIP COMMISSION.

The national council of the Creek Nation passed an act May 30, 1895, creating and defining the duties of a citizenship commission, which was composed of five of the most competent citizens of the nation, whose duty it was to sit as a high court and try and determine and settle all and only such cases as shall involve the question of the right of citizenship of any person in the Muskogee Nation that shall be presented to it. The members of the commission were elected by the national council, and its sessions were to be held in the council house at Okmulgee, beginning in July, 1895. They were given full authority to summon witnesses and call for persons and papers. The act recognized the right of all persons who claimed citizenship in the Muskogee Nation and of all persons whose names now appeared as citizens on any census rolls taken at any time, the validity of whose citizenship shall be questioned by any responsible citizen, to appear before the commission and have their rights to citizenship determined. It is declared that the claims of negroes to citizenship in the Muskogee Nation shall be determined under the provisions of the treaty of 1866, and in cases of citizenship by reason of Indian blood the act of the national council, known as the "alien act," shall govern. It is further provided as follows:

And in any enumeration hereafter to be made of the citizens of the nation, any persons applying for registration, against whose citizenship any question may arise, shall be required to trace his or her origin to the rolls of the names of citizens to be prepared under this act.

The commission created by this act was organized in July, 1895, and continued to act as such commission until the 30th day of September, 1896. It also appears that said Creek commission on citizenship was authorized by an act approved August 10, 1896, to examine the census rolls and satisfy themselves of the correctness of the same, and to correct all the rolls by erasure of noncitizens and deceased persons and by the addition of newborn persons, and submit the rolls so amended to the October session of the council for its approval. It is stated in the brief of Colonel Du Val, counsel for the Creek Nation, that the rolls prepared by the citizenship commission were laid before the council and approved by it, and that thus for the first time there was an authenticated roll of citizenship of the Muskogee Nation approved by the council. The act of council affirming the rolls, stated by counsel, is not cited, but the confirmation of the rolls, it appears, was prior to the passage of the amendatory act of Congress passed June 7, 1897, which defined the meaning of rolls of citizenship and confirmed those as citizens whose names appeared thereon and their descendants.

SUMMARY.

This court will now proceed to consider the cases now before it on appeal from the United States commission in reference to citizenship in the Creek or Muskogee Nation. In determining who are citizens of the Muskogee Nation the following propositions will govern this court:

First. Those Indians who have separated themselves from the Creek Nation and have taken up their residence in the States and have remained out of the jurisdiction of the Muskogee Nation for a period of twenty-one years have forfeited all their rights and privileges as citizens of the nation, and such persons can not regain their citizenship unless they comply with the laws of the Creek or Muskogee Nation and be admitted to citizenship as therein provided.

Second. This court will recognize the legislation of the Creek or Muskogee Nation in reference to citizenship therein, and also the legislation creating a commission on citizenship with prescribed powers to pass upon applications for citizenship in said nation, as passed in accordance with the general legislative power of

the Creek or Muskogee Nation; and this court will respect such legislation to the extent that it may be in accordance with the Constitution and laws of the United States and the treaties made between the United States and the Creek or Muskogee Nation.

Third. That blood alone is not the test of citizenship in the Creek or Muskogee Nation. That Creek Indians, although they may be full blood, who have remained out of the jurisdiction of the Muskogee Nation for twenty-one years will be regarded as having forfeited their right to citizenship therein; and further, that bona fide residence in the nation is essential to citizenship.

Fourth. Full faith and credit will be given to the judgments of the citizenship commission, and effect will be given to the acts of the Muskogee council, unless it be made to appear that the commission acted without jurisdiction or that the judgment was procured by fraud and that acts of the council were in violation of the laws of the United States or the treaties made with the nation. The acts of the Muskogee council in the determination of applications for citizenship in the nation will be regarded as judgments of a court and will be subject to the same tests as to their validity.

Since writing this opinion, as stated heretofore, the attention of the court has been called to the fact that a large number of the cases will depend upon the fact as to whether this law was passed by the Creek council under and in pursuance of the authority given to it by its constitution and subject to the Constitution and laws of the United States. The contention has been as to the meaning of *ex post facto* laws. The Creek constitution does not use the Latin phrase, but uses such English words as express the same meaning. If this law was *ex post facto* in the sense used by the Constitution of the United States and in the sense used by the Creek Nation, it is sufficient, and this court would hold that it would not take effect upon any person until twenty-one years after the act was past, therefore it is important to determine whether this is an *ex post facto* law. In the work of Mr. Sutherland on Statutory Construction, section 465, is an exposition of the meaning of the phrase "*ex post facto*." In that section it is stated:

An authoritative exposition of *ex post facto* laws was given in an early case by the Supreme Court of the United States. (This is a case of *Calder v. Bull*, 3 Dall., 336. Chase, Justice; not Chief Justice Chase, but Justice Chase of an early day.) The prohibition in the letter is not to pass any law concerning and after the fact, but the plain and obvious meaning and intention of the prohibition is this: That the legislatures of the several States shall not pass laws after a fact done by a subject or citizen which shall have relation to such fact and shall punish him for having done it. * * * I do not think it was inserted to secure the citizen in his private rights of either property or contracts. * * * I will state what laws I consider *ex post facto* laws within the words and intent of the prohibition: First, every law that makes an action done before the passing of the law, and which was innocent when done, criminal, and punishes such action; second, every law that aggravates a crime, or makes it greater than it was when committed; third, every law that changes the punishment and inflicts a greater punishment than the law annexed to the crime when committed; fourth, every law that alters the legal rules of evidence and receives less or different testimony than the law required at the time of the commission of the offense, in order to convict the offender. All these and similar laws are manifestly unjust and oppressive. In my opinion the true distinction is between *ex post facto* laws and retrospective laws. Every *ex post facto* law must necessarily be retrospective, but every retrospective law is not an *ex post facto* law; the former only are prohibited. Every law that takes away or impairs rights vested, agreeably to existing laws, is retrospective, and is generally unjust and may be oppressive; and it is a good general rule that a law should have no retrospect; but there are cases in which laws may justly, and for the benefit of the community and also of individuals, relate to a time antecedent to their commencement, as statutes of oblivion or of pardon. They are certainly retrospective and literally, both concerning and after the facts committed. But I do not consider any law *ex post facto* within the prohibition that mollifies the rigor of the criminal law; but only those that create or aggravate the crime or increase the punishment, or change the rules of evidence for the purpose of conviction. Every law that is to have an operation before the making thereof, as to commence at an antecedent time, or to save time from the statute of limitations, or to execute acts which were unlawful, and before committed, and the like is retrospective. But such laws may be proper or necessary, as the case may be. There is a great apparent difference between making an unlawful act lawful and the making an innocent act criminal and punishing it as a crime.

This construction of the constitutional prohibition has been repeatedly affirmed in the later cases. It is settled that the term applies only to criminal and penal cases, and was not intended to prevent retrospective legislation affecting civil rights of persons or property. This last sentence that I have quoted, "It is settled that the term applies only to criminal and penal cases and was not intended to prevent retrospective legislation affecting civil rights of persons or property," is supported in the note of the citation of the following authorities: *Watson v. Mercer*, *Fletcher v. Peck*, *Ogden v. Saunders*, *Satterlee v. Matthewson*, *McCowan v. Davidson*, *Ex parte Garland*, *Kring v. Missouri*.

All of these citations are from the opinions of the Supreme Court of the United States except two. These authorities fully sustain the position which the court had reached that the passage of the act known as the "alien law," by the Creek council, was not in violation of the Creek constitution or the Constitution of the United States, and was such legislation as the council had a right to pass, and that this court will give it due force and effect.

DECISION OF COURT IN CASE OF MINING IN THE INDIAN TERRITORY.

LETTER OF ATTORNEY INCLOSING DECISION AND EXPLAINING ITS EFFECT.

ARDMORE, IND. T., *September 6, 1898.*

ROCK CREEK NATIONAL ASPHALT COMPANY,
Topeka, Kans.

GENTLEMEN: Answering your inquiry as to the status and effect of the litigation heretofore pending in the United States court at this place between the Chickasaw Prospecting and Mining Company and the Davis Mining Company, I beg to say:

First. That on the 20th day of October, 1890, the Chickasaw Nation granted unto D. O. Fisher, Alexander Rennie, M. V. Cheadle, and B. W. Carter, under the name of Gold Mining Company, a charter to prospect for, mine, develop, etc., gold, coal, oil, asphalt, etc., within the following boundaries, to wit:

Commencing at the mouth of Mill Creek where it empties into the Washita River; thence run up the Washita River to the old Arbuckle crossing, where the old military road crosses; thence easterly to the headwaters of Sandy Creek, east of A. Rennie's place; thence south to where the Fort Sill and Caddo Road crosses said Sandy Creek; thence west to Mill Creek post-office; thence down Mill Creek to the mouth or place of beginning.

This charter confines the operations of the company to the individual claims of its charter members, viz, D. O. Fisher, Alexander Rennie, M. V. Cheadle, and B. W. Carter.

This charter is recorded on page 31 of Book D of Mining Charters of the Chickasaw Nation, kept by the secretary of state of the Chickasaw Nation, who resides and has his office at Tishomingo, Ind T., and is what is commonly known as a "blanket charter."

Second. On March 4, 1895, the Chickasaw Nation granted to Nelson Chigley, Mose Chigley, Wyatt Chigley, F. T. Waite, Chilly Alexander, John Pettigrew, Dixon Nail, Minnie Thomas, C. D. Carter, and the McKinney Cobb heirs a charter under the name of the Davis Mining Company for the period of twenty years from date, authorizing said company to prospect for, mine, develop, bargain, and sell all minerals, gases, oils, coal, asphaltum, or all minerals known to the law, within the territory described as follows:

In Tishomingo County, commencing at a point on the Washita River, about 3 miles south of Davis; thence on a line due east on the Old Whisky trail; thence along said trail in a northerly direction to the old Fort Arbuckle and Fort Smith road; thence west along said road to the Washita River; thence down said river to the place of beginning.

This charter confines the operations of the Davis Mining Company to claims of the individual members thereof, a copy of which I hereto annex and mark it "Exhibit A," and this charter is also recorded in Book D, page 65, of Mining Charters of the Chickasaw Nation.

Third. The territory described in the first-named charter, viz, the gold-mining charter, covers the territory embraced and described in the Davis mining charter, and covers many square miles of territory besides, but none of the charter members of the Gold Mining Company owned claims within the boundary of the Davis mining charter, but members of the Davis mining charter (all Chickasaw Indians) did, and for many years have owned claims within such territory.

Fourth. Some time during the month of April, 1895, the Chickasaw Prospecting and Mining Company, as lessees of the Gold Mining Company, filed a suit in the United States court for the southern district of the Indian Territory, at Ardmore, on the equity side of the docket, against Nelson Chigley and others, alleging—

that the plaintiffs are a joint stock company, composed of S. Zuckerman, Harry J. Brenham, W. A. Dennis, J. M. Steers, James Carby, S. Munzesheimer, and S. E. Ford, and that said company was engaged in prospecting and mining minerals, such as asphaltum, coal, oil, and other minerals in the territory embraced within the limits of the gold-mining charter, particularly described on exhibit attached; that plaintiffs are all white men and citizens of the United States and the defendants are Chickasaw Indians by blood, and reside in the southern district of the Indian Territory.

That the plaintiffs are the owners of, and for the past four years have been in the exclusive possession and enjoyment of, the mineral resources and all the rights and privileges and immunities belonging thereto of all that section of country covered by the charter of the Gold Mining Company, holding the same under regular transfers duly executed from and under the chartered members of the said Gold Mining Company. That said Gold and Mining Company is a corporation

duly and legally chartered, ratified and confirmed by the legislature of the Chickasaw and Choctaw nations of Indians; that in the exercise of the rights, privileges, and immunities as derived from said gold and mining company, and the acts of the legislature of the Chickasaw and Choctaw nations of Indians, the plaintiffs herein, the Chickasaw Prospecting and Mining Company, have made valuable discoveries of coal, oil, and asphaltum, within the section of the country covered by said gold-mining charter, and have made valuable improvements thereon and expended considerable amounts of money, fully \$8,000. That for the purpose of developing the asphaltum and other minerals, the plaintiffs have purchased large amounts of machinery and the same is now on the road to where said improvements have been made; that during the past four years the plaintiffs have been in the peaceable and undisturbed possession of the property herein described, but that, to wit, on the 10th day of April, 1895, the defendants began to erect a fence across the section covered by said charter, so as to cut off plaintiffs from access to said improvements, and so as to interfere with plaintiffs in the use and enjoyment of their property, as aforesaid, and that defendants have erected a fence across part of the section of country covered by said charter and are threatening to fence off a large part of said country and to deprive plaintiffs from the benefit of the same, and that, unless defendants are restrained, they will fence said section of country so as to materially lessen the value of plaintiffs' said property and will deprive plaintiffs of the use and benefit thereof.

Praying that defendants be restrained from in any manner interfering with the country covered by the Gold Mining Company charter and be commanded and compelled to take therefrom the fence placed thereon by defendants and that plaintiffs have such other relief to which they are entitled.

This complaint can not now be found among papers on file in record, but I attach an office copy furnished me by plaintiffs' counsel and identify it as "Exhibit B."

Fifth. To this complaint the defendants Nelson Chigley and Dixon Nail, for themselves and the Davis Mining Company and the individual members thereof, on May 1, 1895, filed an answer (a certified copy I hereto attach and mark "Exhibit C"), wherein the defendants deny that plaintiffs are the owners of and for the past four years have been in the exclusive possession and enjoyment of the mineral resources and all the rights and privileges and immunities belonging thereto of all that section of country covered by the charter of the Gold Mining Company, holding the same under a regular line of transfers duly executed by the charter members of said company, as alleged in said complaint. Defendants deny that plaintiff has made valuable improvements on the premises herein involved to the value of five thousand (5,000) dollars or any other sum, and defendants deny that during the past four years the plaintiff has been in the peaceable, undisturbed possession of all the property described and embraced in the limits of the gold mining charter.

The defendants admit that on or about the 18th day of April, 1895, the defendant Dixon Nail began to erect a fence across a certain portion of land situated within the limits of the said Gold Mining Company charter, but defendants say that said land so attempted to be inclosed was situated upon the private claim of the defendant Nail and that he had the right to the exclusive possession of said premises to the exclusion of the plaintiff and all other persons, because the defendants say that about thirty years ago the said defendant Nail, a Chickasaw Indian by blood, made an improvement and since said time has held such improvement and claim, which they allege covers and embraces the said premises around which the defendant Nail attempted to build a fence, and they say that the said plaintiff has wrongfully and tortuously gone upon said premises contrary to law and in violation of the private rights of the said defendant Nail.

Second. Further answering herein, the defendants say that on the 20th day of October, 1890, the Chickasaw government granted unto D. O. Fisher, Alexander Rennie, M. V. Cheadle, and B. W. Carter, under the name of Gold Mining Company, a charter to mine coal, asphaltum, petroleum, etc., in the territory situated in Tishomingo County, Chickasaw Nation, Ind. T., and described as follows:

Beginning at the mouth of Mill Creek, where it empties into the Washita River; thence up the Washita River to the old Arbuckle crossing, where the old military road crosses; thence east to the head waters of Sandy Creek, east of Alexander Rennie's place; thence south to where the Fort Sill and Caddo road crosses said Sandy Creek; thence west to Mill Creek post-office; thence down Mill Creek to its mouth, or place of beginning.

But these defendants allege and charge the truth to be, that under the laws of the Chickasaw Nation, and under the language in said charter contained, that said Gold Mining Company, their associates, lessees, agents, and employees, had and have no power, right, or authority to prospect for, mine, transport, sell, or in any way handle or dispose of coal, asphaltum, petroleum, gold, or other minerals discovered or situated upon the private and individual claims of citizens of the Chickasaw Nation and of members of the tribe of Chickasaw or Choctaw Indians; but they allege that the language of such charter expressly excepts from its limits the private claims of citizens of the Chickasaw Nation, and expressly inhibits it from working or interfering with said private claims.

Defendants say that for a long time anterior to the granting of said charter, as aforesaid, that defendants, Nelson Chigley and Dixon Nail and said Chilly Alexander and John Pettigrew, each owned, possessed, and do yet own and possess and

hold, improvements and claimssituated within the limits of the territory described and embraced in the charter of the Gold Mining Company; that under the Constitution and laws of the United States, the treaties of the Chickasaw and Choctaw Indians heretofore made with the United States, the constitution and laws of the Chickasaw and Choctaw nations and governments, and in accordance with the immemorial usages and customs of said Chickasaw and Choctaw Indians, these defendants had, and still have, the right to all mineral, coal, asphaltum, and petroleum found or situated upon their respective claims and improvements, or within one-half a mile thereof.

Defendants say that on the 4th day of March, 1895, that they and the said Mose Chigley, Wyatt Chigley, F. D. Waite, Chilly Alexander, John Pettigrew, Minnie Thomas, and C. D. Carter applied to the Chickasaw government for and obtained from it a charter authorizing and empowering them, and their associates and lessees, to prospect for, mine, transport, and sell coal, petroleum, asphaltum, gold and other minerals situated upon the respective private claims of defendants Chigley and Nail and of the said Pettigrew and Alexander, under the name of the Davis Mining Company.

That said charter is now in full force and effect, and the same will not expire until twenty years from the date thereof.

Defendants say that they and all the other members of the Davis Mining Company are Chickasaw Indians by blood, and under and by virtue of said last-named charter and under and by virtue of said improvements and claims as aforesaid they have the exclusive right to prospect for, mine, transport, and sell all minerals, coal, petroleum, or asphaltum found or situated upon the territory described and embraced in the charter of the Davis Mining Company, that is to say, the said charter members have the exclusive right to such mineral, coal, asphaltum, and petroleum situated upon the private and individual claims aforesaid, or within one-half mile of the improvements upon said claims; and defendants say that the said Gold Mining Company and the plaintiffs have not, and no other persons other than the charter members of the Davis Mining Company have, the right to prospect for, mine, transport, or sell, or in any way handle or dispose of coal, asphaltum, petroleum, gold, or other minerals situated upon the said private claims or within one-half mile thereof.

Defendants further say that they have in no way, nor have their associates under said charter, trespassed upon or infringed upon the corporate rights or powers or upon the territory lawfully embraced and intended to be embraced in the limits of said Gold Mining Company; but they allege and charge the truth to be that the plaintiff, its agents and employees, have trespassed upon, interfered with, and unlawfully threaten to take possession of the territory embraced and covered by said private and individual claims, and situated within the limits of the Davis mining charter, and have actually and forcibly, tortiously, wrongfully, and unlawfully gone upon said premises and have attempted and do yet attempt to mine, transport, and sell asphaltum and petroleum situated upon said claims and within the boundary limits of the Davis Mining Company, to the great and irreparable injury and damage to the said Davis Mining Company and these defendants and their associate charter members in the sum of twenty-five hundred dollars.

Defendants say that they and their associates aforesaid and the Davis Mining Company have no adequate remedy at law by which they can stop and enjoin plaintiffs, its agents and employees, from further trespassing upon their individual and corporate rights as aforesaid; that the asphaltum, petroleum, and mineral by them owned and situated upon the premises aforesaid is very valuable, and but for the wrongful and tortious acts of the plaintiff they could lease or sell the same to great advantage, and that the said plaintiff is asserting some kind of spurious right to the possession or title to said property which these defendants allege is a cloud upon their right and title to the same, and which, they allege, interferes with their right to handle, sell, or lease said property.

Wherefore, the premises considered, the defendants pray that the injunction prayed for by the plaintiff be denied, and that the defendants for themselves, and for the use and benefit of the Davis Mining Company and their said associate charter members, do have and recover of and from the plaintiff judgment forever restraining and enjoining the plaintiff, its agents, employees, or attorneys, from further going upon, trespassing upon, or in any manner interfering with the private claims of the defendants, or of said Alexander and Nail, or the corporate rights or premises of the Davis Mining Company, and that they be forever restrained and enjoined from prospecting for, mining, transporting, or selling asphaltum, coal, petroleum, gold, or other mineral found or situated upon the aforesaid private claims, or within one-half mile of the improvements thereof, for their said damages, costs of suit, and all proper relief.

By reading the complaint and answer it is readily seen that the issues are:

First. That the Gold Mining Company, under the terms of its charter, and under the Chickasaw statute, had no power or right to mine except upon the individual claims of its charter members.

Second. That the territory described in the Davis Mining Company charter covered the private claims of its charter members and no private claims of any member of the Gold Mining Company. The language used in the Gold Mining charter settles this question beyond a reasonable doubt.

Third.* The issues involved in this case were, by agreement of parties, submitted to the master in chancery of said court, who, after hearing the evidence and argument of counsel, made and, on June 5, 1895, filed in said court his written report, wherein he rehearses the issues involved and holds that plaintiffs were not entitled to relief prayed for, but that the defendants were entitled to an injunction against the plaintiffs. A certified copy of the master's report I hereto attach, marked "Exhibit D."

Seventh.* On the 8th day of June, 1895, the exceptions of plaintiffs to said master's report were presented to, passed upon, and in all things were overruled and denied by the trial court, who confirmed said report in the following language:

And the court, after hearing said exceptions and being fully advised in the premises, is of the opinion that said exceptions to the master's report be, and the same are hereby, overruled and denied.

And it is further considered, adjudged, and decreed by the court that the report of Edwin Hobby, esq., master in chancery herein, be, and the same is, in all respects confirmed and adopted.

It appearing to the court that the plaintiffs seek injunctive relief against defendants and the defendants, by answer and cross-bill, seek injunctive relief against the plaintiffs, and that the master in his report recommends that the relief prayed for by plaintiffs be denied, and that the relief prayed for by defendants be granted, it is, therefore, considered, adjudged, and decreed by the court that the plaintiffs, S. Zuckerman, Harry J. Brenham, W. A. Dennis, J. M. Steers, James Kirby, S. Munzeshimer, and S. E. Ford, composing the partnership of the Chickasaw Prospecting and Mining Company, have and recover nothing of the defendants, Nelson Chigley, Dixon Nail, Mose Chigley, Wyatt Chigley, F. T. Waite, Chilly Alexander, John Pettigrew, C. D. Carter, or of the Davis Mining Company, by reason of this action, and that the plaintiffs pay all costs in this behalf expended and incurred, for which let execution issue.

It is further considered, adjudged, and decreed by the court that the injunctive relief prayed for by the defendants herein be, and the same is hereby, granted. And that the plaintiffs, their agents, employees, and attorneys be, and they are hereby, forever restrained and enjoined from going upon, trespassing upon, or in any manner interfering with the private claims and improvements of defendants, Nelson Chigley, Dixon Nail, John Pettigrew, Moses Chigley, Wyatt Chigley, Chilly Alexander, F. T. Waite, and C. D. Carter, situated in the territory of the Davis Mining Company, in the Chickasaw Nation, Ind. T., or within one-half mile of the improvements now situated and existing upon said claims, without the consent of the owner or owners of said claims, for the purpose of prospecting for, mining, transporting, or selling asphaltum, petroleum, natural gas, gold, silver, or other minerals found or situated upon said claims, or within one-half mile of the improvements thereof. It is further ordered, adjudged, and decreed that Edwin Hobby, esq., as master in chancery, be, and he is hereby, allowed twenty-five dollars for services as such master, rendered herein, and that the same be taxed as part of the costs herein, and that execution issue against the plaintiffs for all costs herein incurred or expended.

A certified copy of this judgment is hereto attached and marked "Exhibit E."

This judgment of the court has never been appealed from, set aside, superseded, or modified in any way, and is now in full force and effect; and since its rendition the Davis Mining Company and its lessees have been in the exclusive possession of the mining property situated within the limits of the Davis mining charter.

Why anyone should now attempt to go behind this judgment and raise a doubt as to the rights of the Davis Mining Company as against the claims of the Gold Mining Company, or its lessees, the Chickasaw Prospecting and Mining Company, is more than I can understand.

There can be no question but that the judgment of the court in the cause referred to has forever put at rest the claim of the Chickasaw Prospecting and Mining Company, and has left nothing to conjecture.

In addition to the foregoing statement I beg to say the possession and right of possession of the Davis Mining Company and its lessees to this mining property was raised by one J. H. Ralston and Dick Le Grand and Jerome Brown (the last a Chickasaw Indian by blood). They attempted to invade and appropriate a portion of the Davis mining charter; but, by the Davis Mining Company, joined by its lessees, the Rock Creek Natural Asphalt Company, were perpetually enjoined by judgment duly rendered and entered in the United States court for the southern district of the Indian Territory, at Ardmore. The style of this last-named cause was The Davis Mining Company et al. v. J. H. Ralston et al., and this cause, too, was referred to a master in chancery, before whom evidence was introduced pro and con, and the master, after hearing all the evidence and argument of counsel, filed a report recommending an injunction against said Ralston, Le Grand, and Brown, restraining them from interfering with any of the property of the Davis

* Paragraphs fourth, fifth, and sixth were evidently omitted by clerk transcribing record originally.

Mining Company, but dissolving the injunction as to the working of the individual claim of Fulsom James, a Chickasaw by blood. This report was, by the trial court, approved and confirmed, after the same was bitterly contested by the defendants in said cause.

If the charter of the Davis Mining Company is not valid I do not think that there is an Indian charter, granted either by the Chickasaw or Choctaw governments, that is worth the paper upon which it is written.

Trusting that this statement will give to you a full understanding of the character and effect of the litigation between the Chickasaw Prospecting and Mining Company and the Davis Mining Company, I beg to remain,

Yours, very truly,

C. S. HERBERT,
For FURMAN, HERBERT & HILL.

EXHIBIT A.

OFFICE OF THE NATIONAL SECRETARY,
Tishomingo, Ind. T., March 4, 1895.

Know all men by these presents, that application in writing has been made to me in accordance with law asking for a charter on the private claims of Nelson Chigley, Mose Chigley, Wyatt Chigley, F. T. Waite, Chilly Alexander, John Pettigrew, Dixon Nail, Minnie Thomas, C. D. Carter, and one share to be divided equally between the three McKinney-Cobb heirs, James, Jennie, and Calvin, for the period of twenty years from date thereof, to prospect, mine, develop, bargain, and sell all minerals, gases, oils, coal, and asphaltum, or all minerals known to the law, under the name of the Davis Mining Company.

Now, therefore, I, F. T. Waite, national secretary of Chickasaw Nation, by authority in me vested by law, do by these presents grant and issue a charter to Nelson Chigley, Mose Chigley, Wyatt Chigley, F. T. Waite, Chilly Alexander, John Pettigrew, Dixon Nail, Minnie Thomas, C. D. Carter, and one share to the three Cobb heirs, James, Jennie, and Calvin, for the period of twenty years over the following described district of Tishomingo County: Commencing at a point on Washita River about 3 miles south of Davis; thence on a line due east to the Old Whiskey trail; thence along said trail in a northerly direction to the old Fort Arbuckle and Fort Smith road; thence west along said road to the Washita River; thence down said river to the point of beginning.

In testimony whereof I have set my hand and caused the great seal to be affixed the day and date first above written.

F. T. WAITE,
National Secretary Chickasaw Nation, Indian Territory.

EXHIBIT B.

In the United States court for the southern district in the Indian Territory, at Ardmore.

The Chickasaw Prospecting and Mining Company, plaintiffs, v. Nelson Chigley et al., defendants.

The plaintiffs, the Chickasaw Prospecting Mining Company, complaining of the defendants, Nelson Chigley, — Dickerson, et al., respectfully allege that the plaintiffs composing this joint stock company are the following parties, to wit: S. Zuckerman, Harry J. Branan, W. A. Dennis, J. M. Skeere, James Curby, S. Munzesheimer, and S. E. Ford, and that said company, at the dates and time hereinafter mentioned, was engaged in prospecting and mining minerals, such as asphaltum, coal oil, and other minerals in the territory embraced in the chartered limits of the gold-mining charter, particularly described on the abstract herein attached, marked "Exhibit A," and made a part of this complaint. That the plaintiffs are all white men and citizens of the United States, and that the defendants are Chickasaw Indians by blood and reside in the southern district of the Indian Territory.

That the plaintiffs are the owners of, and for the past four years have been in the exclusive possession and enjoyment of, the mineral resources, and all the rights and privileges and immunities belonging thereto, of all that section of country covered by the charter of the Gold Mining Company, holding the same under a regular line of transfer duly executed from and under the charter members of the said Gold and Mining Company. That said Gold and Mining Company is a corporation duly and legally chartered, ratified, and confirmed by the legislature of the Chickasaw and Choctaw nations of Indians. That in the exercise of the rights and privileges and immunities derived from said Gold Mining Company, and the acts of the legislature of said Chickasaw and Choctaw nations of Indians, the plaintiffs herein, the Chickasaw Prospecting and Mining Company, have made valuable discoveries of coal oil and asphaltum within this section of country covered by said Gold Mining Company charter, and have made valuable improvements thereon, and expended considerable amount of money, fully \$5,000; that for the purpose of developing the asphaltum and other minerals, the said chartered company, the plaintiffs, have purchased a large amount of machinery, and the same is now on the road to where said improvements have been made during the past four years. The plaintiffs have been in the peaceable and undisturbed possession of the property herein described, but that, to wit, on the 18th day of April, 1895, the defendant began to erect a fence across the section covered by said charter, so as to cut off plaintiffs from access to said improvements, and so as to interfere with plaintiffs in the use and enjoyment of their property as aforesaid, and that defendants have erected a fence across the part of the section of the country covered by said charter, and are threatening to fence off a large part of said section, and to deprive plaintiffs from the benefit of the same, and that unless defendants are restrained they will fence up said section of country

as to materially lessen the value of plaintiffs' said property, and will deprive plaintiffs of the use and benefit thereof.

Wherefore, plaintiffs pray that defendants be restrained from in any manner interfering with the country covered by said Gold Mining Company charter, and be commanded and compelled to take therefrom the fence placed thereon by defendants, and that plaintiffs have such other relief to which they may be entitled.

I, S. E. Ford, one of the members of the Chickasaw Prospecting and Mining Company, after being duly sworn on oath, do say that I believe the allegations in the foregoing complaint are true.

Subscribed and sworn to before me this 27th day of April, 1895.

Notary Public, Third Division, Indian Territory.

EXHIBIT C.

In the United States court in the Indian Territory, southern district, at Ardmore.

Chickasaw Prospecting and Mining Company, plaintiffs, v. Nelson Chigley et al., defendants.

ORIGINAL ANSWER.

Now comes the defendants, Nelson Chigley and Dixon Nail, leave of the court being first had and obtained for themselves and for the Davis Mining Company and for Mose Chigley, Wyatt Chigley, F. T. Waite, Chilly Alexander, John Pettigrew, and C. D. Carter, and file this their original answer, to the plaintiffs' complaint therein, and answering said complaint, the defendants deny that the plaintiffs are the owners of, and for the past four years have been, in the exclusive possession and enjoyment of the mineral resources and all the rights and privileges and immunities belonging thereto of all that section of the country covered by the charter of the Gold Mining Company, holding the same under a regular line of transfer, duly executed, from the charter members of said company, as alleged in said complaint; defendants deny that the plaintiffs have made valuable improvements on the premises therein involved to the value of \$5,000 or any other sum, and defendants deny that for the past four years that the plaintiffs have been in the peaceable and undisturbed possession of all the property described and embraced in the limits of the Gold Mining Company charter. The defendants admit that on or about the 18th day of April, 1895, the defendant Dixon Nail began to erect a fence across a certain portion of land situated within the limits of the said Gold Mining Company charter, but the defendants say that said land so attempted to be inclosed was situated upon the private claim of the defendant Nelson (?) Nail, and that he had the right to the exclusive possession of said premises to the exclusion of the plaintiffs and all other persons, because the defendants say that about thirty years ago the said defendant Nail, a Chickasaw Indian by blood, made an improvement and since that time has held such improvement and claim which they allege covers and embraces the said premises around which the defendant Nail attempted to build a fence, and they say that the said plaintiffs have wrongfully and tortiously gone upon said premises contrary to law and in violation of the private rights of the said defendant Nail.

Second. Further answering therein, the defendants say that on the 20th day of October, 1890, the Chickasaws granted unto D. O. Fisher, Alexander Rennie, M. V. Cheadle, and B. W. Carter a charter to mine coal, asphaltum, petroleum, etc., in the territory situated in Tishomingo County, Chickasaw Nation, Indian Territory, and described as follows: Beginning at the mouth of Mill Creek where it empties into Washita River; thence up the Washita River to the old Arbuckle crossing where the old military road crosses; thence east to the head waters of Sandy Creek east of Alexander Rennie's place; thence south to where the Fort Sill and Caddo road crosses said Sandy Creek; thence west to the Mill Creek post-office; thence down Mill Creek to its mouth or place of beginning; but these defendants allege and charge the truth to be that under the laws of the Chickasaw Nation and under the language in said charter contained that said Gold Mining Company, their associates, lessees, agents, and employees had and have no power, right, or authority to prospect for, mine, transport, sell, or in any way handle or dispose of coal, asphaltum, gold, or other minerals discovered or situated upon the private and individual claims of citizens of the Chickasaw Nation and of members of the tribe of Choctaw Indians, but they allege that the language of such charter expressly excepts from its limits the private claims of citizens of Chickasaw Nation and expressly inhibits it from working or interfering with said private claims.

Defendants say that for a long time anterior to the granting of said charter as aforesaid that defendants Nelson Chigley and Dixon Nail and said Chilly Alexander and John Pettigrew each owned, possessed, and do yet own and possess and hold, improvements and claims situated within the limits of the territory described and embraced in the charter of the said Gold Mining Company. That under the Constitution and laws of the United States, the treaties of the Chickasaw and Choctaw Indians heretofore made with the United States, the constitution and laws of the Chickasaw and Choctaw nations and governments, and in accordance with the immemorial usages and customs of said Chickasaw and Choctaw Indians, these defendants had and still have the right to all mineral, coal, asphaltum, and petroleum found or situated upon their respective claims and improvements or within one-half mile thereof.

Defendants say that on the 4th day of March, 1895, that they and the said Mose Chigley, Wyatt Chigley, F. D. Waite, Chilly Alexander, John Pettigrew, Minnie Thomas, and C. D. Carter applied to the Chickasaw government for and obtained from it a charter authorizing and empowering them and their associates and lessees to prospect for, mine, transport, and sell coal, petroleum, asphaltum, gold, and other minerals situated upon the respective private claims of the defendants Chigley and Nail, and of the said Pettigrew and Alexander, under the name of the Davis Mining Company. Said charter is now in full force and effect, and the same will not expire until twenty years from the date thereof. Defendants say that they and all other members of the Davis Mining Company of Chickasaw Indians by blood, and under and by virtue of said last-named charter, and under and by virtue of said improvements and claims as aforesaid, they have exclusive right to prospect for, mine, transport, and sell all mineral, coal, petroleum, or asphaltum found or situated upon the territory described and embraced in the charter of the Davis Mining Company; that is to say, that said charter members have the exclusive right to such mineral, coal, and asphaltum and petroleum situated upon the private and individual claims aforesaid, or within one-half mile of the improvements upon said claims, and defendants say that the said Gold Mining Company and the plaintiff have not, and no other persons than

the charter members of the Davis Mining Company have the right to prospect for, mine, transport, or sell, or in any way handle or dispose of coal, asphaltum, petroleum, gold, or other minerals situated upon said private claims, or within one-half mile thereof. Defendants further say that they have in no way, nor have their associates under said charters, trespassed upon or infringed upon the corporate rights or powers or upon the territory lawfully embraced and intended to be embraced in the limits of the Gold Mining Company, but they allege and charge to be that the plaintiff, its agents, and employees, have trespassed upon, interfered with, and unlawfully threatened to take possession of the territory embraced and covered by said private and individual claims, and situated within the limits of the Davis Mining Company, and have actually and forcibly, tortiously, wrongfully, and unlawfully gone upon said premises, and have attempted and do yet attempt to mine, transport, and sell asphaltum and petroleum situated upon said claims and within the boundary limits of the Davis Mining Company, to the great and irreparable injury and damage to the Davis Mining Company and these defendants and their associates, charter members, in the sum of twenty-five hundred dollars. Defendants say that they and their associates aforesaid and the Davis Mining Company have no adequate remedy at law by which they can stop and enjoin plaintiffs, its agents, and employees, from further trespassing upon their individual and corporate rights as aforesaid; that the asphaltum, petroleum, and mineral by them owned, and situated upon the premises aforesaid, is very valuable, and but for the wrongful and tortious acts of the plaintiff they could lease or sell the same to great advantage, and that the said plaintiff is asserting some kind of spurious rights to the possession of title to said property, which these defendants allege is a cloud upon their right and title to the same, and which they allege interferes with their right to handle, sell, or lease said property.

Wherefore the premises considered that defendants pray that the injunction prayed for by the plaintiff be denied and that the defendants, for themselves and for the use and benefit of the Davis Mining Company and their said associate charter members, do have and recover of and from the plaintiff judgment forever restraining and enjoining plaintiff, its agents, employees, or attorneys from further going upon, trespassing upon, or in any manner interfering with the private claims of defendants or of said Alexander & Nail, or the corporate rights or premises of the Davis Mining Company, and that they be forever restrained and enjoined from prospecting for, mining, or transporting or selling asphaltum, coal, petroleum, gold, or other mineral found or situated upon the aforesaid private claims or within one-half mile of the improvements thereof, for their said damages, costs of suit, and all proper relief.

HERBERT & LEWIS,
Attorneys for Defendants.

The defendant, Nelson Chigley, upon oath, states that the statements in the foregoing answer are true, as he verily believes.

NELSON (his x mark) CHIGLEY.

Subscribed and sworn to before me this the 27th day of April, 1895.

[L. S.]

H. M. CANNON,
Notary Public, Southern District, Indian Territory.

The foregoing is indorsed:

No. 2587. Chickasaw Prospecting and Mining Co. v. Nelson Chigley et al. Original answer. Filed May 1, 1895. Joseph W. Phillips, clerk. Herbert & Lewis, attys. for defendants.

I, Charles M. Campbell, clerk of the United States court in and for the southern district of the Indian Territory, do hereby certify that the foregoing is a true and correct copy of the original answer now on file among the papers in case No. 2587, entitled and styled Chickasaw Prospecting and Mining Company v. Nelson Chigley et al., heretofore pending on the equity docket of said court.

In testimony whereof, witness my hand, this the 6th day of September, 1898.

C. M. CAMPBELL,
Clerk of the United States Court, Southern District, Indian Territory,

EXHIBIT D.

Chickasaw Prospecting and Mining Company v. Nelson Chigley et al.

This is an application or a petition for an injunction, brought by the plaintiffs, the Chickasaw Mining and Prospecting Company, composed of S. Zuckerman, Henry I. Brannan, W. A. Dennis, I. M. Bleve, James Conley, S. Munzseheimer, and S. E. Ford, to restrain the defendants, Nelson Chigley, Dixon Nail, and others, from erecting and maintaining a fence upon and across a portion of the land alleged to be embraced in the charter of the plaintiffs, and which deprives them of the use and benefit thereof under said charter. The petition alleges that the plaintiffs are the owners of and for the past four years have been in the exclusive possession and enjoyment of the minerals, resources, rights, privileges belonging thereto, of all that section of the country covered by the charter of the Gold Mining Company, holding the same under a regular line of transfers duly executed from said company. The Gold Mining Company is a private corporation, duly chartered, ratified, and confirmed by the legislature of the Chickasaw and Choctaw Nation. It is alleged that plaintiffs have made valuable discoveries of coal oil and asphaltum in the section of the country embraced in the charter and have erected improvements thereon valued at \$5,000. That on the 18th day of April, 1895, defendants began to erect a fence across a part of the land covered by said charter, so as to cut off plaintiffs from access to said improvements and interfere with the use and enjoyment of said property, and that they have erected such fence, and are threatening to fence a large portion of said country and deprive plaintiffs of its use and enjoyment.

There is a prayer for injunction:

The defendants Nelson Chigley and Dixon Nail, for themselves and the Davis Mining Company, and for Mose Chigley, Wyatt Chigley, Alexander, John Pettigrew, and ———, answer and deny that the plaintiffs are the owners of and for the past four years have been in the exclusive possession and enjoyment of the mining resources, rights, etc., belonging thereto of that section of the country covered by the charter of the Gold Mining Company, and holding the same under a regular line of transfers, duly executed, from the charter members thereof. They deny that the improvements, as alleged, were erected, and that the plaintiffs have been in the undisturbed possession of all of the section of country described in the charter.

Defendants admit that defendant Nail, on April 18, 1895, began to build a fence across a section of the land within the limits of the Gold Mining Company charter, but that they say the land so attempted to be fenced was situated upon the private claim of said Nail. That he had the right and exclusive possession of said land as against plaintiffs and all others, because he says that thirteen years since said Nail, who was a Chickasaw Indian by blood, made improvements and claim covering said premises, around which said Nail attempted to build a fence, and that plaintiffs have wrongfully gone upon said land in violation of the private rights of said Nail.

Defendants further say that the charter granted to the Gold Mining Company October 20, 1890, under which plaintiffs claim, and which authorizes the charter members, D. C. Fisher, Alexander Rennie, M. V. Cheadle, and B. W. Carter, to mine coal, asphaltum, etc., within the limits of the territory described therein, does not empower said company to mine, transport, and sell, or in any manner dispose of minerals found or situated upon the private and individual claim of citizens of the Chickasaw Nation, but it is alleged that the charter expressly excepts from the limits such private claims.

The defendant further avers that for a long time anterior to the granting of said charter, Nelson Chigley, Dixon Nail, Chilly Alexander, and John Pettigrew each owned and possessed and still own and possess and hold improvements and situated within the limits of the territory described and embraced in the charter of said Gold Mining Company, that under the constitution and laws of the United States, the treaties of the Chickasaw Nation, and the constitution and laws of the said Indian Territory, and in accordance with the immemorial usage and customs, the defendants have a right to their respective claims and improvements, and in one-half mile thereof.

The defendants further allege that the charter obtained by them on March 4, 1895, from the Chickasaw government authorizes them and their associates to prospect for and mine coal oil, asphaltum, etc., situated upon their respective private claims of defendants Chigley, Nail, Pettigrew, and Alexander, under the name of the Davis Mining Company.

They say that said members of said company are Indians by blood, and that by virtue of their charter and improvements and claim that they have the exclusive right to mine coal oil, etc., situated upon the territory described in their charter within half a mile of their respective claims. They say that plaintiffs have trespassed upon and interfered with and unlawfully gone thereupon to take possession of the territory covered by said private claims and are attempting to mine the same, and pray for an injunction.

There is no controversy to the facts in this case, and whether plaintiffs are entitled to the writ of injunction as prayed for depends upon the rights conferred upon the Gold Mining Company under its charter issued by the national secretary of the Chickasaw Nation, ratified and confirmed by the Choctaw Nation and the United States Congress.

This charter was issued under the authority of and in accordance with an act of the Chickasaw legislature to incorporate mining companies in the Chickasaw Nation approved December 21, 1886.

This act provides that not less than three resident citizens of the nation may form or incorporate a company to engage in developing coal mines and to transport, ship, or sell it beyond the limits of the nation. Section 2 provides that they shall file a written application for a charter with the national secretary, designating the county and place, the name of the company, and what it wishes to develop, and file a bond with the governor in the sum of \$10,000. The secretary upon the filing of the bond is required to issue a charter designating the location of the place and county it is proposed to operate in. Section 3 authorizes the company to contract with capitalist to prospect for and develop the work of the mines and to maintain and operate the same and to employ such help as they deem necessary to carry on the work, and they are required to pay the permit collector for all hands they may have in operating said mine. By the fourth section of the act a tax of one-half of a cent per bushel on coal is assessed, which is to be paid to the proper authorities of the Chickasaw Nation. Section 5 provides that the powers and privileges conferred by the act shall not operate to interfere with any individual claim or the right of any citizen, and further provides that in case of a dispute as to the right of any claim, or in a suit for damages or royalty on any claim, it shall not delay or stop the operating of the company, but in such event the district court shall appoint a receiver to hold the claim until the matter is adjusted under the authority of the statute. The national secretary of the Chickasaw Nation issued the charter on which the plaintiff rely to the Gold Prospecting and Mining Company on October 20, 1896, composed of D. C. Fisher, Alexander Rennie, M. V. Cheadle, and B. B. Carter. The charter is as follows:

"OFFICE OF THE NATIONAL SECRETARY, CHICKASAW NATION,

"*Tishomingo, Ind. T., October 20, 1890.*"

"Application having been made, in accordance with the mining laws of the Chickasaw Nation, for a charter to prospect for and mine stone, coal, petroleum, asphaltum, natural gas, iron ore, or any other minerals by the said Gold Mining Company for the period of twenty years from date hereof within a certain portion of the Chickasaw Nation hereinafter described: Now, therefore, be it known that the aforesaid Gold Mining Company, its associates, successors, and assigns, be, and the same is hereby, chartered and vested with all the powers, rights, privileges, and authority contemplated by the existing mining laws of the Chickasaw Nation for the period of twenty years from date hereof. Said company is composed of the following-named persons, citizens of the Chickasaw Nation, to wit: D. C. Fisher, Alexander Rennie, M. V. Cheadle, B. W. Carter, their associates, successors, and assigns. Said property and mining operation is hereby confined within the following metes and bounds, described portions of the Chickasaw Nation, to wit: Commencing at the mouth of Mill Creek where it empties into the Washita River, then running up Washita River to the old Arbuckle Crossing, where the old military road crosses; thence easterly to the head waters of Sandy Creek east of A. Rennie's place; thence south to where the Fort Sill and Caddo road crosses said Sandy Creek; thence west to Mill Creek post-office; thence down Mill Creek to the mouth and place of beginning; all of which lies within the county of Tishomingo, in the Chickasaw Nation, and is confined to the individual claims of said company as members thereof.

"Dated October 20, 1890."

The location of the lands above described, as well as the claims or settlements of Chigley, Nail, Pettigrew, and Alexander, is shown by the following map or sketch:

It is proper in this connection in determining the respective rights of the parties to refer to the following laws of the Chickasaw Nation: By an act of the legislature, page 199, Laws of Chickasaw Nation, a legal claim (to land) is defined to be "a house out of either logs, boards, or planks, not less than 12 feet square, fit for habitation," and it is further provided that it shall hold good for twelve months, "then every six months thereafter add 1 acre of ground prepared for cultivation under a good and lawful fence until 20 acres have been taken, then it shall

be a lawful claim." By another statute the actual possession of the claimant is extended half a mile from its improvements or settlements.

In support of plaintiffs' title it is conceded in this case that all of the minerals or mining rights in and to the land is vested in the owner in fee of the soil—that is to say, in the Chickasaw and Choctaw nations under the United States, in the proportion of one-fourth to the former nation and three-fourths to the latter—and that the claim or settlement of individual Indians by virtue of possession of parcels or tracts of land extends only to the use and enjoyment of the surface of the soil for agricultural or surface purposes; that as mining rights exist by virtue of a claim or settlement of the land, and as this is vested in the owner of the fee—the Chickasaw and Choctaw nations in the proportions above mentioned—it can only be obtained from this authority by grant, and that as the charter of the defendants issued subsequent to the plaintiffs' the former can not prevail against the latter—that of the Gold Mining Company. If the mining rights and privileges are lodged in the owner of the soil in fee—the Chickasaw and Choctaw nations—and of the individual claims of Defendants Chigley, Nail, Pettigrew, Alexander, based upon the settlement and possession of their respective tracts of land, is exclusively agricultural or relates only to the surface of the parcels of land possessed by them under the laws of the nation, the question in this case arises, Whether, under a proper construction of the charter granted to the Gold Prospecting and Mining Company by the Chickasaw Nation, it is authorized thereby to engage in or develop a coal mine or conduct mining operations upon the land in possession of Chigley, Nail, Pettigrew, Alexander under their respective claims thereto. The defendants contend that they have possession of the respective claims anterior to the issuance of the charter to the Gold Mining Company, including the constructive possession recognized by law. Their rights under said claims can not in any manner be destroyed and impaired by a charter granted to others to enter upon and develop and maintain a mine on their premises or within the legally recognized limits thereof. The rights granted by charter to engage in mining operations must necessarily by implication, if not express terms, convey with it the right to use all the means requisite to accomplish the purpose for which the grant was made. In other words, in this case, if it confers the power to mine upon private or individual claims it includes the right to unrestrained entrance upon the possession and use of the land, its surface as well as beneath the surface. Without this power the grant would be inoperative. It is obvious that if the charter granted such authority and power it can completely destroy the surface or agricultural rights of the individual claimant in possession, and it follows necessarily that no protection would be afforded by section 5 of the mining act before cited, and that section would be rendered nugatory. The language of the charter of the Gold Mining Company limits its mining operations to the territory in the nation defined therein by metes and boundaries, and its language further confines the company operating to the individual claims of said company or members thereof.

It is believed that this language authorizes the company to prospect and mine within the territory limits defined, but confines the mining operations to the individual claims of the company or its members however such claims may be acquired; it grants to the persons named the rights to establish or otherwise lawfully acquire any claim at any point within the boundaries defined not previously appropriated in some manner as lawful or in the possession of an individual claimant under the provisions of law; it confers upon the charter party the mining rights vested in and belonging to the authority issuing this charter, but it does not empower the company to mine or engage in mining operations upon the individual claims in the possession of the defendants, Chigley, Nail, Pettigrew, and Alexander.

If said power was granted by the charter, the company would be entitled practically to the actual possession of the premises occupied by said defendants, the effect of which would be to dispossess them of their individual claims, through the instrumentality of a charter, whether such claims were agricultural or surface, because the use and enjoyment of the possession would be destroyed, and section 5 of the act above referred to would be of no effect.

Under the laws and facts I am of the opinion that the injunction prayed for in the complaint ought not to issue, and that the injunction prayed for in the answer should be granted.

EDWIN HOBBY, *Master in Chancery.*

The foregoing is indorsed as follows:

2587. Master report. Chickasaw Prospecting & Mining Co. v. Nelson Chigley. Filed in open court June 5, 1895. J. W. Phillips, clerk.

I, Charles M. Campbell, clerk of the United States court in and for the southern district of the Indian Territory, do hereby certify that the foregoing is a true and correct copy of the master in chancery's report now on file among the papers in case No. 2587, entitled and styled Chickasaw Prospecting and Mining Company v. Nelson Chigley et al., heretofore pending on the equity docket of said court.

In testimony whereof witness my hand this 6th day of September, 1898.

C. M. CAMPBELL,
Clerk of the United States Court, Southern District Indian Territory.

EXHIBIT E.

No. 2587.

The Chickasaw Prospecting and Mining Company, plaintiffs, v. Nelson Chigley et al., defendants.

Judgment June 6, 1895.

Now, at this time came the plaintiffs and defendants, by their respective attorneys, and at the same time came on to be held the plaintiffs' exceptions to the report of the master in chancery herein. to whom this cause, by agreement of counsel, was referred, and the court after hearing said exceptions, and being fully advised in the premises, is of the opinion that said exceptions to the master's report be, and the same are hereby, overruled and denied.

And it is further considered, adjudged, and decreed by the court that the report of Edwin Hobby, esq., master in chancery, herein be, and the same is, in all respects confirmed and adopted.

It appearing to the court that plaintiffs seek injunctive relief against defendants, and the defendants by answer and cross bill seek injunctive relief against the plaintiffs, and that the master in his report recommends that the relief prayed for by plaintiffs be denied, and that the

relief prayed for by the defendants be granted, it is therefore considered, adjudged, and decreed by the court that the plaintiffs, S. Zuckerman, Harry J. Brennam, W. A. Dennies, J. H. Steere, James Kirby, S. Munzesheimer, and S. E. Ford, composing the partnership of the Chickasaw Prospecting and Mining Company, have and recover nothing of the defendants, Nelson Chigley, Dixon Nail, Mose Chigley, Wyatt Chigley, F. T. Waite, Chilly Alexander, John Pettigrew, C. D. Carter, or of the Davis Mining Company, by reason of this action, and that the plaintiffs pay all costs in this behalf expended and incurred, for which let execution issue.

It is further considered, adjudged, and decreed by the court that the injunction relief prayed for by the defendants herein be, and the same is hereby, granted, and that the plaintiffs, their agents, employees, and attorneys be, and they are hereby, forever restrained and enjoined from going upon, trespassing upon, or in any manner interfering with the private claims and improvements of defendants Nelson Chigley, Moses Chigley, Wyatt Chigley, Dixon Nail, John Pettigrew, Chilly Alexander, F. T. Waite, and C. D. Carter, situated in the territory of the Davis Mining Company, in the Chickasaw Nation, Ind. T., or within one-half mile of the improvements now situated and existing upon said claims, without the consent of the owner or owners of said claims, for the purpose of prospecting for, mining, transporting, or selling asphaltum, coal, petroleum, natural gas, gold, silver, or other minerals found or situated upon said claims or within one-half mile of the improvements thereof.

It is further ordered, adjudged, and decreed that Edwin Hobby, esq., as master in chancery be, and he is hereby, allowed twenty-five dollars for services as such master, rendered herein, and that the same be taxed as part of the costs herein, and that execution issue against the plaintiffs for all costs herein incurred or expended.

The above and foregoing is indorsed as follows:

No. 2587. Chickasaw Prospecting & Mining Co. v. Nelson Chigley et al. Judgment, June 8th, 1895, C. K. & C. Cruse, Atty. for Plff.

I, Charles M. Campbell, clerk of the United States court in and for the southern district of the Indian Territory, do hereby certify that the foregoing is a true and correct and literal copy of the judgment entered on June 8, 1895, in case No. 2587, pending on the equity docket of said court, entitled and styled Chickasaw Prospecting and Mining Company v. Nelson Chigley et al., as now recorded on page 63, journal 7, of the records of said court.

In testimony whereof witness my hand this the 6th day of September, 1898.

C. M. CAMPBELL,
Clerk of the United States Court, Southern District, Indian Territory.

REGULATIONS RELATING TO INDIAN TERRITORY PRESCRIBED BY THE SECRETARY OF THE INTERIOR.

REGULATIONS TO GOVERN MINERAL LEASES, COLLECTION AND DIS- BURSEMENT OF REVENUES, AND SUPERVISION OF SCHOOLS IN THE INDIAN TERRITORY.

Under the general provisions of the act of June 28, 1898 (30 Stats., 495), the Secretary of the Interior is required to prescribe rules and regulations to govern the leasing of lands for mineral purposes, the collection of royalties, rents, and other revenues of the nations within said Territory, and the disbursement of moneys belonging to such nations; therefore the following rules and regulations shall apply in all cases not provided for by specific agreements heretofore ratified by Congress and the nations interested, or that may be hereafter ratified by such nations, and regulations heretofore or hereafter prescribed under such agreements:

MINERAL LEASES.

1. That leases under section 13 of the said act shall be entered into with the Secretary of the Interior and on blank forms prescribed by him, and no lease otherwise made shall be valid or have any effect whatever to vest in the lessee any right or interest either at law or in equity.

2. All such leases shall be in quadruplicate, and shall contain a clear and full description by legal subdivisions of the tract or tracts of land covered thereby, not to exceed six hundred and forty acres, which legal subdivisions must be contiguous to each other.

3. Minimum royalties shall be required of all lessees as follows, the right being reserved, however, by the Secretary of the Interior in special cases to either reduce or advance the royalty on coal, asphalt, or other minerals, on the presentation of facts which, in his opinion, make it to the interest of the nation of Indians within which such coal, asphalt, or other minerals may be located, but such advancement or reduction of royalty in a particular case shall not operate in any way to modify the general provisions of these regulations fixing the minimum royalty as herein provided, viz:

(a) On coal, fifteen cents per ton for each and every ton of coal produced weighing two thousand pounds.

(b) On asphalt, sixty cents per ton for each and every ton produced weighing two thousand pounds.

(c) On gilsonite, elaterite, and other like mineral substances the royalty shall be fixed according to the comparative market value of the same to the value of asphalt.

(d) On oil, ten per centum of the value of all oil produced, the royalty to be ascertained on the value of the oil in its crude state.

(e) On all other minerals—such as gold, silver, iron, and the like—as follows, sampling charges to be first deducted: On all net smelter returns of ore of fifty dollars (\$50) per ton and under, a royalty of ten (10) per cent; on all net smelter returns of ore over fifty dollars (\$50) per ton and less than one hundred and fifty dollars (\$150) per ton, a royalty of fifteen (15) per cent; on all net smelter returns of ore over one hundred and fifty dollars (\$150) per ton and less than three hundred dollars (\$300) per ton, a royalty of twenty (20) per cent, and on all net smelter returns of ore over three hundred dollars (\$300) per ton, a royalty of twenty-five (25) per cent: *Provided*, That all lessees shall be required to pay advanced royalties, as provided in said section 13, on all mines or claims, whether developed or not, subject to all the conditions in said section imposed.

4. That all lessees of sand or gravel deposits shall be required to pay a royalty of not less than two cents per cubic yard for all such material removed, to be measured as the same may lie in the original deposit, and for this purpose the lessee shall before removal cause such levels or bench marks to be established or laid out as may be necessary to provide for the proper measurement of the quantity removed after the same has been excavated. And all lessees of stone quarries

shall be required to pay a royalty on granite of not less than ten cents per cubic yard for all stone quarried, measured by run of quarry, and on all stone other than granite the royalty shall be proportionate to the comparative value of such stone with the value of granite as may be agreed upon.

5. All lessees of oil, coal, asphalt, or other minerals on land allotted, sold, or reserved shall be required, before the commencement of operations, to pay to the individual owner the value of the use of the necessary surface for prospecting and mining, including right of way for necessary railways and the damage done to the lands and improvements; and in case of disagreement, for the purpose of ascertaining the fair value of the use of the land and the actual damage done, the owner of the land and the lessee shall each select an arbitrator, who, together with such person as shall be appointed or designated by the Secretary of the Interior, shall constitute a board to consider and determine the amount that shall be paid by the lessee on account of the use of the land and damage done, and the award of such board shall be final and conclusive, unless the award be impeached for fraud. All timber and other materials taken by the lessee from land allotted, sold, or reserved for use in the erection of buildings upon the leased tract, and in the mine or mines operated thereon, as for shoring levels in coal mines, and so forth, shall be paid for by the lessee according to the usual rates.

6. That the owners or holders of leases which have been assented to by act of Congress shall be required within six months from the date of these rules and regulations to enter into leases with the Secretary of the Interior, under the provisions of section 13 of said act of June 28, 1898, and said leases shall be subject to all the provisions of these rules and regulations, and any others that may hereafter be made by the Secretary of the Interior under the provisions of said section of said act.

7. Corporations, persons, or companies who, under the customs and laws existing and prevailing in the Indian Territory prior to the said act of June 28, 1898, have made leases of different groups or parcels of oil, coal, asphalt, or other mineral deposits, and have taken possession thereunder, and, by themselves or their assigns, have made improvements for the development of the same, which have resulted in the production of oil, coal, asphalt, or other minerals in commercial quantities, shall, if in possession, be given preference in the making of leases of said groups of oil, coal, asphalt, or other mineral deposits under said section 13 of the act of June 28, 1898. And all persons in possession of oil, coal, asphalt, or other mineral deposits who have made improvements thereon shall be given preference in the making of leases or the renewal of leases for such deposits: *Provided*, That the failure of the party or parties in possession of any group or parcel of oil, coal, asphalt, or other mineral deposits, for the period of six months after the date of these regulations, to apply for a lease of such deposits, and, in case of the renewal of a lease, their failure for the period of sixty days from the expiration of his or their lease to apply for such renewal, shall be held to be a relinquishment of his or their preference right to such lease and to such renewal of lease.

In the event of a controversy arising between two or more applicants for the lease of any tract or tracts of land for mining, and either of said applicants claims to be in possession of the land, which claim is denied, no lease will be given of such land until the question of possession shall have been investigated by such officer of the Interior Department as shall be designated by the Secretary of the Interior and the right of possession shall have been determined by the Secretary of the Interior.

8. All lessees will be required to keep a full and correct account of all their operations under leases entered into under these regulations and said section 13, and their books shall be open at all times to the examination of such officers of the Interior Department as shall be instructed in writing either by the Secretary of the Interior or the Commissioner of Indian Affairs to make such examination.

9. All lessees under said section 13 will be required to give bond with two good and sufficient sureties, or an approved surety company, for the faithful discharge of their obligations under their leases, in such penalty as shall be prescribed in each case by the Secretary of the Interior, and until such bond is approved by the Secretary of the Interior no right under the lease shall accrue to the lessee.

10. Applications for mining leases under the provisions of said section 13 should be duly verified by the applicants and addressed to the Secretary of the Interior, and they shall be filed with the United States Indian inspector located in the Indian Territory, who will forward the same to the Commissioner of Indian Affairs, with his report and recommendation as to whether the same should be allowed or rejected, and the Commissioner of Indian Affairs will, in like manner, transmit such applications to the Secretary of the Interior with his recommendation.

Every application should be accompanied by a duly certified check upon the United States depository at St. Louis, Missouri, or upon some solvent national bank in the United States, for one hundred dollars, payable to the order of the United States Indian agent at the Union Agency, Indian Territory, in payment of advanced royalty on lease for one year, and in addition, if the application be allowed, the applicant will be required to pay the cost of executing the lease, including the war-revenue stamps required by law.

11. An application for a mining lease under said section 13, filed by an association of individuals, must give the name of all of its members and be verified by the principal officer thereof, and any incorporated company applying for a mining lease under said section must also file with its application—

(a) A copy of its articles of incorporation duly certified by the proper officer of the company under its corporate seal, or by the secretary of the State or Territory where organized.

(b) A copy of the State or Territorial law under which the company was organized, with the certificate of the governor or secretary of the State or Territory that the same is the existing law.

(c) When said law directs that the articles of association or other papers connected with the organization be filed with any State or Territorial officer, the certificate of such officer that the same have been filed according to law, with the date of the filing thereof.

ROYALTIES, RENTS, ETC.

12. All royalties accruing under leases entered into for mining purposes under these regulations, including advanced royalties, provided for in section 3 above, in accordance with said section 13 of the act of June 28, 1898, shall be payable in lawful money of the United States or exchange issued by a national bank in the United States to the United States Indian agent at the Union Agency, in the Indian Territory, who shall be at all times under the direction and supervision of the United States Indian inspector for the Indian Territory. Said advanced royalties shall be payable \$100 on the making of the lease, \$100 in one year thereafter, \$200 in two years thereafter, \$200 in three years thereafter, and \$500 on the fourth and each succeeding year until the end of the term thereof. All other royalties in accordance with the schedule provided in these regulations (unless modified in any particular case by the Secretary of the Interior, as hereinafter provided) shall be payable to said United States Indian agent monthly, and shall be paid on or before the 25th day of the month succeeding the date when such monthly royalty shall have accrued. All such monthly royalties shall be accompanied by the sworn statement, in duplicate, by the person, corporation, or company paying the same, as to the output of the mine, oil well, or quarry of such person, corporation, or company for the month for which royalties may be tendered. One part of said sworn statement shall be filed with the United States Indian agent, to be transmitted to the Commissioner of Indian Affairs, and the other part thereof shall be filed with the United States Indian inspector located in the Indian Territory.

13. The said United States Indian agent shall receive and receipt for all royalties paid into his hands when accompanied by the sworn statement as provided in the preceding regulation, but not otherwise, and it shall also be his duty to collect, under the supervision and direction of the United States Indian inspector for the Indian Territory, all rents, permits, revenues, and taxes, of whatsoever kind or nature, that may be due and payable to any Indian tribe or tribes to which these regulations may apply, as provided for by the laws of such tribe or tribes.

14. The rents and permits, taxes and revenues provided for by the foregoing regulation, to be collected by the United States Indian agent, shall be due and payable to him in lawful money of the United States at the time when such rents, permits, taxes, and revenues would, under the laws of the particular nation, have been due and payable to the authorities of such nation had not the act of June 28, 1898, and especially section 16 thereof, been passed.

15. All moneys collected by the United States Indian agent, as provided in these regulations, shall be, as soon as practicable, deposited by said agent with the assistant treasurer of the United States at St. Louis, Mo., in the like manner as moneys known in the regulations of the Indian Office as "Miscellaneous receipts, Class III," are deposited, with a statement of the tribe or tribes to which said moneys belong, the proportionate share of each tribe, and the particular source from which the same is derived—i. e., so much from mining leases, so much from rents, etc.

DISBURSEMENTS.

16. The salaries of all officers of any tribe or nation in the Indian Territory to which these regulations are applicable, provided for by the laws of such tribe or nation, shall be paid by the United States Indian agent, under the supervision and direction of the United States Indian inspector for the Indian Territory, and upon authority specifically given therefor by the Secretary of the Interior, out of moneys in the hands of the Government of the United States subject to disbursement therefor under the direction of the Secretary of the Interior, belonging to such tribe or nation. And for the purposes of this regulation all such officers shall be required to file with the said United States Indian agent, in duplicate, a claim for salary, setting forth the amount claimed to be due, the time within which the services for which compensation is claimed were rendered, that the services were actually performed by the claimant, the tribal law under which said services are alleged to have been rendered, and evidence that the party claiming compensation as an officer of any such tribe or tribes is in fact such officer (such as the original appointment or the election of such person to fill the position claimed to be occupied by him), and said claim shall be duly verified by the claimant.

17. All salaries of teachers employed in the public schools of any tribe or nation to which these regulations apply, payable out of the funds of such tribe or nation, shall be paid by the United States Indian agent under the supervision and direction of the United States Indian inspector for the Indian Territory, and by authority of the Secretary of the Interior, out of any moneys of the tribe or nation available for the purpose, and all such teachers shall be required to file with the United States Indian agent, in duplicate, a claim under oath for the amount of salary, furnishing the information and evidence required in the above regulation for the payment of salaries of officers of such tribe or nation.

18. Before any salaries of tribal officials or teachers, as above provided, shall be paid by the United States Indian agent, the claims of such officers and teachers shall first be transmitted by the agent through the United States Indian inspector for the Indian Territory, with a full and detailed report and all evidence filed therein, to the Commissioner of Indian Affairs, to be submitted to the Secretary of the Interior for his action thereon, and upon approval thereof the United States Indian agent shall make requisition for the money necessary to pay the salaries authorized to be paid, and shall pay the same, rendering account in the usual manner therefor.

SCHOOLS.

19. For the purpose of the proper supervision of the schools of any tribe or nation to which these regulations apply there shall be appointed by the Secretary of the Interior a capable, competent, and discreet person, who shall have had experience in educational work, to be designated as "supervisor of schools in the Indian Territory," whose duty it shall be, subject to the direction and supervision of the United States Indian inspector, to visit from time to time, examine into and supervise the conduct of schools of such tribe or nation, and to report fully and in detail, as often as may be desirable (at least once in every month) to the Commissioner of Indian Affairs, through the United States Indian inspector, the condition of each school in the Territory, the methods of instruction employed, the efficiency of the teachers engaged, and shall make such recommendations concerning the same as he shall deem best.

20. The compensation of such supervisor of Indian schools for the Indian Territory shall be \$1,500 per annum, with commutation of subsistence at the rate of \$3 per diem when absent from home in the discharge of his official duties, and all actual and necessary expenses for transportation, payable out of the general appropriation for Indian schools.

21. Should it appear from the report of the supervisor of Indian schools for the Indian Territory at any time that any teacher of any school is incompetent to properly instruct the pupils of such school, or is of immoral character, or that for any reason the continuance of such teacher in the service would be to the detriment thereof, then it shall be the duty of the Commissioner of Indian Affairs to bring the matter to the attention of the Secretary of the Interior for his consideration and action, the purpose of this regulation being to provide efficient, competent, and moral instructors for the youth of the Indian Territory, in order to fit them to become good, useful members of society.

22. The right to change, modify, or amend these regulations is reserved.

CORNELIUS N. BLISS, *Secretary*.

DEPARTMENT OF THE INTERIOR,

Washington, November 4, 1898.

FORMS OF MINING LEASE, BOND, AND AFFIDAVIT OF SURETY.

[Write all names and addresses in full.]

Indian Territory mining lease. (—— Nation.)

Indenture of lease, made and entered into, in quadruplicate, on this day of, A. D. 189.., by and between, as Secretary of the Interior, party of the first part, and

....., county of, State or Territory of, part..... of the second part, under and in pursuance of the provisions of section 13 of the act of Congress approved June 28, 1898 (30 Stat., 495).

Now, therefore, this indenture witnesseth, that the party of the first part for and in consideration of the royalties, covenants, stipulations, and conditions hereinafter contained and hereby agreed to be paid, observed, and performed by the part... of the second part, executors, administrators, or assigns, does hereby demise, grant, and let unto the part... of the second part, executors, administrators, or assigns, the following-described tract of land, lying and being within the Indian Nation and within the Indian Territory, to wit: The of section of township * of range † of the Indian meridian, and containing acres, more or less, for the full term of years from the date hereof for the sole purpose of prospecting for and mining ‡

In consideration of which the part of the second part hereby agree and bind executors, administrators, or assigns, to pay, or cause to be paid, to the United States Indian agent for the Union Agency as royalty the sums of money as follows, to wit:

On the production of all coal mines developed and operated under this lease, the sum of cents per ton for each and every ton of coal produced.

On asphaltum, the sum of cents per ton for each and every ton produced.

On oil, the sum of per cent of the value of all oil produced.

On all other minerals—such as gold, silver, iron, and the like—as follows (sampling charges to be first deducted): On all net smelter returns of ore of fifty (\$50) dollars per ton and under, a royalty of ten (10) per cent; on all net smelter returns of ore over fifty (\$50) dollars per ton and less than one hundred and fifty (\$150) dollars per ton, a royalty of fifteen (15) per cent; on all net smelter returns of ore over one hundred and fifty (\$150) dollars per ton and less than three hundred (\$300) dollars per ton, a royalty of twenty (20) per cent, and on all net smelter returns of ore over three hundred (\$300) dollars per ton, a royalty of twenty-five (25) per cent.

And all said royalties accruing for any month shall be due and payable on or before the twenty-fifth day of the month succeeding.

And the part of the second part further agree and bind executors, administrators, or assigns to pay or cause to be paid to the United States Indian agent for the Union Agency, Indian Territory, as advanced royalty on each and every mine or claim within the tract of land covered by this lease, the sums of money, as follows, to wit: One hundred dollars per annum in advance for the first and second years, two hundred dollars per annum in advance for the third and fourth years, and five hundred dollars per annum in advance for the fifth and each succeeding year thereafter of the term for which this lease is to run, it being understood and agreed that said sums of money to be paid as aforesaid shall be a credit on royalty, should the part.... of the second part develop and operate a mine or mines on the lands leased by this indenture, and the production of such mine or mines exceed such sums paid as advanced royalty as above set forth; and further, that should the part.... of the second part neglect or refuse to pay such advanced annual royalty for the period of sixty days after the same becomes due and payable under this lease, then this lease shall be null and void, and all royalties paid in advance shall become the money and property of the tribe of Indians subject to the regulations of the Secretary of the Interior aforesaid.

The part.... of the second part further covenant.... and agree.... to exercise diligence in the conduct of the prospecting and mining operations and to open mines or sink wells for oil, and operate the same in a workmanlike manner to the

*State whether north or south.

‡State what mineral is sought.

†State whether east or west.

fullest possible extent on the above-described tract of land; to commit no waste upon said land or upon the mines that may be thereon, and to suffer no waste to be committed thereon; to take good care of the same, and to surrender and return the premises at the expiration of this lease to the party of the first part in as good condition as when received, ordinary wear and tear in the proper use of the same, for the purposes hereinbefore indicated, and unavoidable accidents excepted, and not to remove therefrom any buildings or improvements erected thereon during said term by -----, the part.... of the second part, but said buildings and improvements shall remain a part of said land and become the property of the owner of the land as a part of the consideration for this lease, in addition to the other considerations herein specified, except engines, tools, and machinery, which shall remain the property of the said part.... of the second part; that ----- will not permit any nuisance to be maintained on the premises, nor allow any intoxicating liquors to be sold or given away to be used for any purposes on the premises, and that ----- will not use the premises for any other purpose than that authorized in this lease, nor allow them to be used for any other purpose; that ----- will not at any time during the term hereby granted assign or transfer ----- estate, interest, or term in said premises and land or the appurtenances thereto to any person or persons whomsoever without the written consent thereto of the party of the first part, or his successors in office.

And the said part.... of the second part further covenant.... and agree.... that ----- will keep an accurate account of all mining operations, showing the whole amount of mineral... mined or removed, and that there shall be a lien on all implements, tools, movable machinery, and other personal chattels used in said prospecting and mining operations, and upon all such minerals, metals, and substances obtained from the land herein leased, as security for the monthly payment of said royalties.

And the part.... of the second part agree.... that this indenture of lease shall be subject in all respects to the rules and regulations heretofore or that may be hereafter prescribed under said section 13 by the Secretary of the Interior; and, further, that should the part.... of the second part, ----- executors, administrators, or assigns, violate any of the covenants, stipulations, or provisions of this lease, or fail for the period of thirty days to pay the stipulated monthly royalties provided for herein, then the party of the first part shall be at liberty, in his discretion, to avoid this indenture of lease and cause the same to be annulled, when all the rights, franchises, and privileges of the part.... of the second part, ----- executors, administrators, or assigns, hereunder, shall cease and end, without further proceedings.

The part.... of the second part ----- firmly bound for the faithful compliance with the stipulations of this indenture by and under the bond made and executed by the part.... of the second part as principal.... and.....

assured...., entered into the ----- day of -----, 189-, and which is on file in the Office of Indian Affairs.

In witness whereof the said parties of the first and second parts have hereunto set their hands and affixed their seals the day and year first above mentioned.

REGULATIONS TO GOVERN MINERAL LEASES AND OTHER MATTERS IN THE CHOCTAW AND CHICKASAW NATIONS.

1. The agreement with the Choctaw and Chickasaw nations set out in section 29 of the act of Congress entitled "An act for the protection of the people of the Indian Territory, and for other purposes," approved June 28, 1898 (30 Stat., 495-510), which was duly ratified on August 24, 1898, provides that the leasing and operating of coal, asphalt, and other mineral lands in said nations shall be under the control of two trustees appointed by the President of the United States upon the recommendation of the executives of said nations, each of whom shall be an Indian by blood of the respective nation for which he may be appointed.

2. Each trustee to be appointed under the provisions of said agreement shall be required to file a bond, with two good and sufficient sureties or an approved trust or surety company, with the Secretary of the Interior in the penal sum of \$10,000, conditioned for the faithful performance of his duties under said agreement as prescribed therein, and in accordance with these regulations. Said bonds shall be approved by the Secretary of the Interior before said trustees shall be permitted to enter upon their duties.

3. It shall be the duty of the trustees to receive applications from parties desiring to make leases of lands within the Choctaw and Chickasaw nations for the purpose of engaging in the mining of coal, asphalt, or other minerals, to examine said applications and transmit the same, with report of facts, to the United States Indian inspector stationed in the Indian Territory, and, on receipt of authority from him for that purpose, to enter jointly into leases with all parties to whom the privilege of leasing lands in said nations for mining purposes shall be approved by him in such form as shall be prescribed by the Secretary of the Interior.

Said trustees shall also make an examination from time to time, as often as it shall be deemed expedient, and at least once in every month, into the operations of all persons, corporations, or companies operating mines within said nations, with a view to ascertaining the quantity of minerals produced by each, the amount of royalty, if any, due and unpaid by each, and all other information necessary for the protection of the interests of the Choctaw and Chickasaw nations in the premises; and for this purpose all persons, corporations, or companies operating mines within the Choctaw and Chickasaw nations shall give said trustees access to any and all of their books and records necessary or required by them to be examined, and at the end of each quarter said trustees shall make a report to the Secretary of the Interior, through said Indian inspector, of all their acts under said agreement and these regulations.

4. All indentures of lease made by the trustees, as above provided, shall be in quadruplicate and shall contain a clear and full description, by legal subdivisions, of the tract or tracts of land covered thereby, not to exceed 960 acres, which legal subdivisions must be contiguous to each other. Said indentures of lease so executed shall be transmitted through the United States Indian inspector stationed in the Indian Territory to the Commissioner of Indian Affairs, for submission to the Secretary of the Interior, for his approval, and no lease shall be valid until the same shall have been approved by the Secretary of the Interior.

5. Royalties shall be required of all lessees as follows, viz:

On coal, 15 cents per ton for each and every ton of coal produced weighing 2,000 pounds.

On asphalt, 60 cents per ton for each and every ton produced weighing 2,000 pounds.

The right is reserved, however, by the Secretary of the Interior in special cases to either reduce or advance the royalty on coal and asphalt on the presentation of facts which, in his opinion, make it to the interest of the Choctaw and Chickasaw nations, but the advancement or reduction of royalty on coal and asphalt in a particular case shall not operate in any way to modify the general provisions of this regulation fixing the minimum royalty as above set out.

On gilsonite, elaterite, and other like mineral substances the royalty shall be fixed according to the comparative market value of the same to the value of asphalt.

On oil 10 per cent of the value of all oil produced, the royalty to be ascertained on the value of the oil produced in its crude state; and on all other minerals, such

as gold, silver, iron, and the like, as follows, sampling charges to be first deducted: On all net smelter returns of ore of \$50 per ton and under, a royalty of 10 per cent; on all net smelter returns of ore over \$50 per ton and less than \$150 per ton, a royalty of 15 per cent; on all net smelter returns of ore over \$150 per ton and less than \$300 per ton, a royalty of 20 per cent; and on all net smelter returns of ore over \$300 per ton, a royalty of 25 per cent.

Provided, That all lessees shall be required to pay advanced royalties, as provided in said agreement, on all mines or claims, whether developed or not, to be "a credit on royalty when each said mine is developed and operated and its production is in excess of such guaranteed annual advanced payments," as follows, viz: One hundred dollars per annum in advance for the first and second years, \$200 per annum in advance for the third and fourth years, and \$500 in advance for each succeeding year thereafter; and that, should any lessee neglect or refuse to pay such advanced royalty for the period of sixty days after the same becomes due and payable on any lease, the lease on which default is made shall become null and void, and all royalties paid in advance shall be forfeited and become the money and property of the Choctaw and Chickasaw nations.

6. That all lessees of sand or gravel deposits shall be required to pay a royalty of not less than 2 cents per cubic yard for all such material removed, to be measured as the same may lie in the original deposit; and for this purpose the lessee shall, before removal, cause such levels or bench marks to be established or laid out as may be necessary to provide for the proper measurement of the quantity removed after the same has been excavated. And all lessees of stone quarries shall be required to pay a royalty on granite of not less than 10 cents per cubic yard for all stone quarried, measured by run of quarry, and on all stone other than granite the royalty shall be proportionate to the comparative value of such stone with the value of granite, as may be agreed upon.

7. All lessees of oil, coal, asphalt, or other minerals on land allotted, sold, or reserved shall be required, before the commencement of operations, to pay to the individual owner the value of the use of the necessary surface for prospecting and mining, including the right of way for necessary railways and the damage done to the lands and improvements; and in case of disagreement, for the purpose of the ascertainment of the fair value of the use of the land and the actual damage done, the owner of the land and the lessee shall each select an arbitrator, who, together with such person as shall be appointed or designated by the inspector located in the Indian Territory, shall constitute a board to consider and ascertain the amount that shall be paid by the lessee on account of use of the land and damage done, and the award of such board shall be final and conclusive, unless the award be impeached for fraud. All timber and other materials taken by the lessee from land allotted, sold, or reserved for use in the erection of buildings thereon, and in the mine or mines operated by him thereon, as for shoring levels in coal mines, and so forth, shall be paid for by the lessee at the usual rates.

8. The owners or holders of leases which have been assented to by any act of Congress shall be required within six months from August 24, 1898, to enter into new leases with the said trustees under the provisions of said agreement, said leases to be subject to all the provisions of said agreement and of these rules and regulations, and any others that may hereafter be made by the Secretary of the Interior under the provisions of said agreement.

9. Persons, corporations, and companies who, under the customs and laws of the Choctaw and Chickasaw nations, have made leases with the national agents of said nations of lands therein for the purpose of mining coal, asphalt, or other minerals and who prior to April 23, 1897, had taken possession of and were operating in good faith any mine of coal, asphalt, or other minerals in said nation, shall be protected in their right to continue the operation of such mines for the period and on the terms contained in the lease made to said persons, corporations, or companies by such national agents, and shall have the right, at the expiration of said term, to renew the lease of such mines, subject, however, to all the provisions of the said agreement and of these regulations: *Provided*, That such persons, corporations, or companies shall, within sixty days after the expiration of their leases with the national agents of the Choctaw and Chickasaw nations, apply to the said trustees for a renewal of their leases under said agreement. And all corporations which, under charters obtained in accordance with the laws of the Chickasaw Nation, had entered upon and improved and were occupying and operating any mine of coal, asphalt, or other mineral within said Chickasaw Nation shall have a preference right to lease the mines occupied and operated by such corporations, subject to all the general provisions of said agreement and of these regulations: *Provided*, That should there arise a controversy between two or more of such corporations, the respective rights of each

shall be determined after an investigation by the inspector located in the Indian Territory, subject to appeal to the Commissioner of Indian Affairs, and from him to the Secretary of the Interior.

10. All leases made prior to April 23, 1897, by any person or corporation, with any member or members of the Choctaw or Chickasaw nations, the object of which was to obtain the permission of such member or members to operate coal or asphalt mines within the said nations, are declared void by said agreement, and no person, corporation, or company occupying any lands within either of said nations, under such individual leases, or operating coal or other mines on such lands, under color of such leases, shall be deemed to have any right or preference in the making of any lease or leases for mining purposes embracing the lands covered by such personal leases, by reason thereof; but parties in possession of mineral land who have made improvements thereon for the purpose of mining shall have a preference right to lease the land upon which said improvements have been made, under the provisions of said agreement and these regulations.

11. Where two or more persons, corporations, or companies shall make application for the leasing of the same tract of land for mining purposes, and a controversy arises between such persons, corporations, or companies as to the right of each to obtain the lease of such land, it shall be the duty of the United States Indian inspector stationed in the Indian Territory to investigate into the rights of the parties and determine as to which shall be given the right to lease the lands in controversy, subject to appeal as above stated in paragraph 9.

12. All lessees will be required to keep a full and correct account of all their operations under leases entered into under said agreement and these regulations, and their books shall be open at all times to the examination of said trustees, of the United States Indian inspector stationed in the Indian Territory, and such other officer or officers of the Indian department as shall be instructed by the Secretary of the Interior or the Commissioner of Indian Affairs to make such examination; but, except as to the said trustees and the United States Indian inspector located in the Indian Territory, no lessee will be held to have violated this regulation for refusing to permit an examination of his books by any person unless such person shall produce written instructions from the Secretary of the Interior or from the Commissioner of Indian Affairs requiring him to make such an examination, and said lessees shall make all their reports to said United States Indian inspector, and they shall be subject to any instructions given by him.

13. All royalties, including advanced royalties, as provided for in said agreement and in these regulations, shall be payable in lawful money of the United States to the United States Indian agent at the Union Agency in the Indian Territory, who shall be at all times under the direction and supervision of the United States Indian inspector for the Indian Territory. The advanced royalties are payable \$100 on the making of the lease, \$100 in one year thereafter, \$200 two years thereafter, \$200 in three years thereafter, and \$500 on the fourth and each succeeding year until the end of the term thereof.

All other royalties, in accordance with the schedule provided in these regulations, unless modified in any particular case by the Secretary of the Interior, as herein provided, shall be payable to said United States Indian agent monthly, and shall be paid on or before the 25th day of the month succeeding the date when such monthly royalties shall have accrued. All monthly royalties shall be accompanied by a sworn statement, in duplicate, by the person, corporation, or company making the same as to the output of the mine of such person, corporation, or company for the month for which royalties may be tendered. One part of said sworn statement shall be filed with the United States Indian agent, to be transmitted to the Commissioner of Indian Affairs, and the other part thereof shall be filed with the United States Indian inspector located in the Indian Territory.

14. The said United States Indian agent shall receive and receipt for all royalties paid into his hands when accompanied by a sworn statement as above provided, but not otherwise; and all royalties received by him shall be, as soon as practicable, deposited with the United States subtreasurer at St. Louis, in like manner as are deposited moneys known in the regulations of the Indian Office as Miscellaneous receipts, Class III, with a statement showing the proportionate shares of each of the Choctaw and Chickasaw nations.

15. All royalties collected and deposited by the United States Indian agent, as above set forth, shall be held to the credit of the Choctaw and Chickasaw nations in their respective proportions, and shall be subject to disbursement by the Secretary of the Interior for the support of the schools of the Choctaw and Chickasaw nations in accordance with said agreement.

16. All lessees under said agreement and these regulations will be required to give bond, with two good and sufficient sureties or an approved surety company,

for the faithful discharge of their obligations under their leases in such penalty as shall be prescribed in each case by the Secretary of the Interior, and until such bond is filed by the lessee and approved and accepted by the Secretary of the Interior no rights or interests under any lease shall accrue to such lessee.

17. The right to alter or amend these regulations is reserved.

CORNELIUS N. BLISS,
Secretary of the Interior.

DEPARTMENT OF THE INTERIOR,
Washington, October 7, 1898.

FORM OF MINING LEASE.

Indian Territory—mining lease (Choctaw and Chickasaw nations).

Indenture of lease, made and entered into in quadruplicate on this day of, A. D. 189., by and between and as mining trustees of the Choctaw and Chickasaw nations, parties of the first part, and.....

....., county of, State of, part.. of the second part, under and in pursuance of the provisions of the act of Congress approved June 28, 1898 (30 Stats., 495), the agreement set out in section twenty-nine thereof duly ratified on August 24, 1898, and the rules and regulations prescribed by the Secretary of the Interior on October 7, 1898, relative to mining leases in the Choctaw and Chickasaw nations.

Now, therefore, this indenture witnesseth, that the parties of the first part, for and in consideration of the royalties, covenants, stipulations, and conditions hereinafter contained and hereby agreed to be paid, observed, and performed by the part.. of the second part, executors, administrators, or assigns, do hereby demise, grant, and let unto the part.. of the second part, executors, administrators, or assigns, the following described tract of land, lying and being within the nation, and within the Indian Territory, to wit: The..... of section.....

..... of township* of range† of the Indian meridian, and containing acres, more or less, for the full term of years from the date hereof for the sole purpose of prospecting for and mining‡

In consideration of the premises, the part.. of the second part hereby agree.. and bind, executors, administrators, or assigns, to pay or cause to be paid to the United States Indian agent for the Union Agency, Indian Territory, as royalty, the sums of money as follows, to wit:

On the production of all coal mines developed and operated under this lease the sum of cents per ton for each and every ton of coal produced.

On asphaltum the sum of cents per ton for each and every ton produced.

On oil the sum of per centum of the value of all oil produced.

On all other minerals, such as gold, silver, iron, and the like, as follows (sampling charges to be first deducted): On all net smelter returns of ore of fifty (\$50) dollars per ton and under, a royalty of ten (10) per cent; on all net smelter returns of ore over fifty (\$50) dollars per ton and less than one hundred and fifty (\$150) dollars per ton, a royalty of fifteen (15) per cent; on all net smelter returns of ore over one hundred and fifty (\$150) dollars per ton and less than three hundred (\$300) dollars per ton, a royalty of twenty (20) per cent, and on all net smelter returns of ore over three hundred (\$300) dollars per ton, a royalty of twenty-five (25) per cent.

And all said royalties accruing for any month shall be due and payable on or before the twenty-fifth day of the month succeeding.

And the part.. of the second part further agree.. and bind, executors, administrators, or assigns, to pay or cause to be paid to the United States Indian agent for the Union Agency, Indian Territory, as advanced royalty on each and

*State whether North or South. †State whether East or West. ‡State what mineral is sought.

every mine or claim within the tract of land covered by this lease the sums of money as follows, to wit: One hundred dollars per annum, in advance, for the first and second years; two hundred dollars per annum, in advance, for the third and fourth years; and five hundred dollars per annum, in advance, for the fifth and each succeeding year thereafter, of the term for which this lease is to run, it being understood and agreed that said sums of money to be paid as aforesaid shall be a credit on royalty should the part.. of the second part develop and operate a mine or mines on the lands leased by this indenture, and the production of such mine or mines exceed such sums paid as advanced royalty as above set forth, and further, that should the part.. of the second part neglect or refuse to pay such advanced annual royalty for the period of sixty days after the same becomes due and payable under this lease, then this lease shall be null and void, and all royalties paid in advance shall become the money and property of the Choctaw and Chickasaw tribes of Indians, subject to the regulations of the Secretary of the Interior aforesaid.

The part.. of the second part further covenant.. and agree.. to exercise diligence in the conduct of the prospecting and mining operations, and to open mines or sink wells for oil, and operate the same in a workmanlike manner to the fullest possible extent on the above-described tract of land; to commit no waste upon said land or upon the mines that may be thereon, and to suffer no waste to be committed thereon; to take good care of the same, and to surrender and return the premises at the expiration of this lease to the parties of the first part in as good condition as when received, ordinary wear and tear in the proper use of the same for the purposes hereinbefore indicated and unavoidable accidents excepted, and not to remove therefrom any buildings or improvements erected thereon during said term by the part.. of the second part, but said buildings and improvements shall remain a part of said land and become the property of the owner of the land as a part of the consideration for this lease, in addition to the other considerations herein specified—except engines, tools, and machinery, which shall remain the property of the said part.. of the second part; that.. will not permit any nuisance to be maintained on the premises, nor allow any intoxicating liquors to be sold or given away to be used for any purposes on the premises, and that will not use the premises for any other purpose than that authorized in this lease, nor allow them to be used for any other purpose; that will not at any time during the term hereby granted, assign or transfer estate, interest, or term in said premises and land or the appurtenances thereto to any person or persons whomsoever without the written consent thereto of the parties of the first part being first obtained, subject to the approval of the Secretary of the Interior.

And the said part.. of the second part further covenant.. and agree.. that will keep an accurate account of all mining operations, showing the whole amount of mineral.. mined or removed, and that there shall be a lien on all implements, tools, movable machinery, and other personal chattels used in said prospecting and mining operations, and upon all such minerals, metals, and substances obtained from the land herein leased, as security for the monthly payment of said royalties.

And the part.. of the second part agree.. that this indenture of lease shall be subject in all respects to the rules and regulations heretofore or that may be hereafter prescribed, under the said act of June 28, 1898, by the Secretary of the Interior relative to mineral leases in the Choctaw and Chickasaw nations; and further, that should the part.. of the second part, executors, administrators, or assigns, violate any of the covenants, stipulations, or provisions of this lease, or fail for the period of thirty days to pay the stipulated monthly royalties provided for herein, then the Secretary of the Interior shall be at liberty, in his discretion, to avoid this indenture of lease, and cause the same to be annulled, when all the rights, franchises, and privileges of the part.. of the second part, executors, administrators, or assigns, hereunder shall cease and end, without further proceedings.

The part.. of the second part.. firmly bound for the faithful compliance with the stipulations of this indenture by and under the bond made and executed by the part.. of the second part as principal.. and as suret.. entered into the day of .., 189., and which is on file in the Indian Office.

In witness whereof the said parties of the first and second parts have hereunto set their hands and affixed their seals the day and year first above mentioned.

DECISION OF COURT IN RELATION TO MILITARY ROAD THROUGH KLAMATH RESERVATION.

In the circuit court of the United States for the district of Oregon.

The California and Oregon Land Company, complainant, v. Charles E. Worden,
defendant.

(85 Fed. Rep. page 94.)

Messrs. Dolph, Mallory & Simon for the complainant; the United States attorney for the defendant.

BELLINGER, J.:

On the 2d day of July, 1864, Congress granted to the State of Oregon, to aid in the construction of a military road from Eugene City to the eastern portion of the State, alternate sections of public land, designated by odd numbers, for three sections in width on each side of said road. The road was required to be completed within five years, but this time was by a subsequent act extended to July 2, 1872. The act provided that the certificate of the governor of Oregon, filed with the Secretary of the Interior, certifying that the road had been completed should be evidence of such completion.

On October 26, 1864, the legislature of Oregon transferred the grant to the Oregon Central Military Road Company, which company completed the road in compliance with the grant of Congress, and such completion was certified to the Secretary of the Interior by the governor of Oregon on January 12, 1870. The complainant has succeeded to the interests of the Military Road Company under the grant.

Thereafter the proper officers of the Government selected the lands earned under the grant and made lists thereof, which were certified by the Commissioner of the General Land Office, as required by law. About 130,000 acres of the land so selected and certified lie within the limits of the Klamath Indian Reservation, and the controversy arising in this case is with reference to these lands.

At the time of the grant by Congress the lands east of the Cascade Mountains, through which the military road was located, were occupied by Indian tribes whose title thereto had not been extinguished and were "Indian country."

Prior to the road grant by Congress, and on March 25, 1864, Congress passed an act authorizing the President to conclude a treaty with the Klamath, Modoc, and Snake Indians for the purchase of the country occupied by them (13 Stat. L., 37) and appropriating \$20,000 for such purchase. The lands in controversy were included within the proposed purchase.

In pursuance of this act a treaty was concluded on October 14, 1864, which was subsequently and on July 2, 1866, ratified by the Senate. (16 Stat. L., 707.) The treaty ratified by the Senate contained two amendments consisting of mere verbal corrections in no wise affecting its sense, with the result that a second convention was held on December 10, 1869, at which the so-called amendments were assented to by the contracting tribes, and thereafter, on February 17, 1870, the President's proclamation of ratification was published. The treaty provides that—

The tribes of Indians aforesaid cede to the United States all their right, title, and claim to all the country claimed by them, the same being determined by the following boundaries, to wit: Beginning at the point where the forty-fourth parallel of north latitude crosses the summit of the Cascade Mountains; thence following the main dividing ridge of said mountains in a southerly direction to the ridge which separates the waters of Pitt and McCloud rivers from the waters on the north; thence along said dividing ridge in an easterly direction to the southern end of Goose Lake; thence northeasterly to the northern end of Harney Lake; thence due north to the forty-fourth parallel of north latitude; thence west to the place of beginning, provided that the following-described tract within the country ceded by this treaty shall, until otherwise directed by the President of the United States, be set apart as a residence for said Indians and held and regarded as an Indian reservation.

The lands in controversy are comprised within this reservation. By this treaty the tribes contracting agreed and bound themselves that immediately after the ratification of the treaty they would remove to said reservation and remain there unless temporary leave of absence was granted them by the superintendent or

agent having them in charge. It was stipulated on the part of the United States that there should be erected on this reservation, at suitable points, and kept in repair for twenty years, a sawmill and a flouring mill and suitable building for the use of a blacksmith, carpenter, and wagon and plow maker, and for a manual-labor school and such hospital buildings as should be necessary, and that the necessary tools and materials for these mills and ships, and books and stationery for the manual-labor schools, should be furnished during such period of twenty years.

The United States is proceeding by its agents, the defendants herein, to make allotments of the lands reserved among the Indians in pursuance of article 6 of the treaty, which makes provision therefor. Whereupon this suit is brought to enjoin such allotments, upon the ground that these lands belong to the complainant company under the road grant of July 2, 1864. The hearing which has been had is upon an order to show cause why a preliminary injunction should not issue.

When this grant was made, the right of occupancy of the Indian tribes in the territory, including the reservation, had not been extinguished. The fee was in the United States, subject to this right. This right is referred to by the Supreme Court of the United States as a "title," as a right "as sacred as that of the United States to the fee." (*United States v. Cook*, 19 Wall., 593.) "This right of use and occupancy by the Indians is unlimited. They may exercise it at their discretion. If the lands in a state of nature are not in a condition for profitable use, they may be made so. If desired for the purpose of agriculture, they may be cleared of their timber to such an extent as may be reasonable under the circumstances. The timber taken off by the Indians in such clearing may be sold by them." (Ib.) For all purposes, therefore, save only that of private sale, the Indians were in fact the owners of these lands. And this right, title, or interest has never been surrendered by them. The treaty cedes to the United States all the right, title, and claim of the Indian tribes to all the country claimed by them, the same being described by boundaries which included the reservation. This cession is followed by a proviso as follows:

Provided, That the following-described tract within the territory ceded by this treaty shall, until otherwise directed by the President of the United States, be set apart as a residence for said Indians and held and regarded as an Indian reservation.

Then follows a description of the reservation.

It is regarded that this cession extinguishes the Indian right to the entire Indian country, and the proviso establishes a new right, which, being new, is subordinate to the prior road grant. The Indian right under the treaty, as to particular lands, is precisely what it was before the treaty. By the terms of the treaty the fee remains in the Government and the right of occupancy in the Indians, as before. If the Indians' present right is a new one, it must have been preceded by a surrender of the right of occupancy originally held by them. But how can the cession of the treaty precede the reservation when both depend upon the same treaty stipulation? In this case the right of the Indians to the lands in dispute is reserved in a proviso contained in article of cession by them, and is a condition of the cession of the domain within which such lands are included. The cession in its term is of all the Indian country, and the residence set apart for the Indians is described as being within the tract ceded. The language employed in the article of cession can not alter the fact that there has been no instant of time when the Indians did not have this right of occupancy. Upon the theory of complainant it was vested as soon as divested, and by the same stipulation; it was surrendered and reacquired by the same act; and, overlooking the incongruity of such a statement, it results that the right has been without interruption and continuous. It is impossible that a party can be both the grantor and grantee of the same premises, in the same right, in the same stipulation. The proviso in the article of cession in the treaty in question operates as a reservation of the rights held by the Indians at the time the treaty was entered into in the tract described, and if the fee of the lands in controversy is vested in the road company, yet the proposed allotment in severalty and use is within the right or title possessed by the Indian tribes, with which the fee is burdened.

It is also contended that the issues involved in this suit were involved in the suit of the United States against the complainant company and that the matters in dispute are therefore *res adjudicata* between the parties. That suit was an attempt to cancel the title held under the road grant upon the ground that the lands taken thereunder were never earned and that the Government had been imposed upon by a false certificate of completion, procured through the fraudulent contrivance of interested parties. To that complaint the defense of bona fide purchase for value and without notice was made and sustained. The questions involved in that case are not involved in this. That case did not admit of an adjudication of the question at issue here, which is one of title to particular lands under the grant.

The doctrine of bona fide purchase is not a rule of property or of title. "Whenever the relations between the litigants are of such a nature, and the suit is of such kind that a court of equity is called upon to decide, and must decide, the merits of the controversy and determine the validity and sufficiency of the opposing titles or claims, then it does not admit the defense of bona fide purchase as effectual and conclusive." (2 Pom. Eq., sec. 739.) In the case referred to, the Government, having an equity growing out of the fraud alleged, sought to enforce it against those who held the title to the lands acquired under the grant. This equity the defendant company avoided by invoking in aid of its legal title an equity of its own arising from the payment of money and the taking of title without notice. The court in such case does not adjudicate the title. It merely refuses to grant relief against the purchaser having the title because of the bona fides of his purchase. In that case the only question was one of good faith on the part of the road company and the payment of money. In this case the right of the company to the lands granted is conceded, and the only question is whether the grant attached to the particular lands in dispute. The paramount Indian right of occupancy was not, and could not be, affected by the bona fide purchase of the road company. The doctrine of bona fide purchase cannot be invoked against a paramount outstanding title or right, and it has not been attempted in the case relied on. In that case the Government admitted that the road company had title to the lands described, and it sought to impeach that title for fraud. And for the purposes of this case it may be conceded that the legal title to the particular lands is in the road company; if so, as already stated, it has such title with the burden of the right of occupancy in the Indian tribes. That right was not involved in the case referred to.

The application for a preliminary injunction is denied.

TRUST FUNDS AND TRUST LANDS.

The following statements show the transactions in the Indian trust funds and trust lands during the year ending October 31, 1898.

Statement A shows in detail the funds in the Treasury to the credit of various tribes.

A statement also will be found showing the transactions arising on account of moneys derived from the sales of Indian lands.

A.—Statement of funds held in trust by the Government in lieu of investment.

Column 1 contains the interest on trust funds in the Treasury, which is paid semiannually by the Treasury without Congressional action, under the act of April 1, 1880 (21 Stats., 70). The principals of these funds represent actual cash belonging to Indian tribes and now to their credit in the Treasury.

Column 2 contains funds appropriated by Congress to fulfill treaty obligations. It also contains the interest on certain trust funds which have no principals in the Treasury, never having been appropriated. The interest is therefore not paid under the act of April 1, 1880, but is appropriated annually by Congress.

Column 3 contains funds appropriated gratuitously for the benefit of certain tribes.

Column 4 contains funds derived from grazing privileges, Indian labor, and all other miscellaneous sources.

Schedule showing the names of Indian reservations in the United States, agencies, tribes occupying or belonging to the reservation, area of each reservation (unallotted) in acres or square miles, and reference to treaty, law, or other authority by which the reservations were established.

| Name of reservation. | Agency. | Name of the tribe occupying reservation. | Area in acres. | Square miles. <i>a</i> | Date of treaty, law, or other authority establishing reserve. |

¹¹ July and February.¹² August and December.¹³ September, October, and November.¹⁴ January.¹⁵ March.¹⁶ April.¹⁷ May.¹⁸ June.¹⁹ As required by office, etc.²⁰ Monthly.²¹ As required July 1 to November 1, then sufficient to last to May 1.²² May and June as required.²³ July, August, and May.²⁴ September, October, and November.²⁵ January, February, and June.²⁶ March and April.²⁷ December.²⁸ July.²⁹ August.³⁰ September and October.³¹ November.³² December.³³ January.³⁴ February, March, April,

and May.

³⁵ June.³⁶ July, December, and June.³⁷ August, September, and October.³⁸ November.³⁹ January.⁴⁰ February, March, April, and May.

As required by office, etc.

All cattle have been 12 months in succession prior to July 1, 1898, north of the south line of Kansas.

Will furnish Lomer Brule, if not awarded either Pine Ridge, Rosebud, or Cheyenne River. Monthly deliveries, as required. Privilege of putting up hay on reservation if necessary. Any increase of quantity to be at 20 per cent over price stated for month in which it is furnished.

Monthly deliveries. Any increase to be at 10 per cent advance on price for month the increase is taken. Cattle for northern agencies to have been 12 months in succession prior to July 1, 1898, north of the south line of Kansas.

Delivered monthly. Monthly for entire consumption of agency during fiscal year outside what Indians furnish. Months allotted Indians to be consecutive, and deliveries to be consecutive. If any increase called for after delivery of 3,200,000 pounds it shall be at an increase of 20 per cent above average price. Use of reservation annex, Sheridan County, Nebr., only desired.

⁴¹ As required July 1 to November 1, then enough at one delivery to last to May 1. May and June as required. Northern-wintered cattle.

Abstract of proposals received and contracts awarded in Chicago, Ill., and Washington, D. C.,

| 20 | Bidders are requested to quote prices for wagons with California brakes; for wagons with clipped gear and California brakes, and also for wagons adapted to the Pacific coast climate, with California brakes, delivered at San Francisco. All wagons to be delivered in San Francisco for the Pacific coast must be provided with California brakes. Tires for Western wagons with steel skein and clipped gear must be as follows: 2½ by 8½, 1½ by ½; 3 by 9, 1½ by ½; 3½ by 10, 1½ by ½; 3½ by 11, 1½ by ½. | | | | |
| 21 | Bids will also be considered for wagons with steel tubular axles of the following sizes, with and without self-oiling attachment, with body or box brakes; also with California brake, viz:† | | | | |
| 22 | 2½ by 8 inches | (t) | { | | |
| 23 | 2½ by 9 inches | | | | |
| 24 | 2½ by 10 inches | | | | |
| 25 | 2½ by 11 inches | | | | |

*Sizes of bodies to be as follows: 2½-inch wagon, 10 feet 6 inches long, 12-inch lower box, 8-inch upper box; 3-inch wagon, 10 feet 6 inches long, 14-inch lower box, 8-inch upper box; 3½-inch wagon, 10 feet 6 inches long, 14-inch lower box, 10-inch upper box; 3½-inch wagon, 10 feet 6 inches long, 16-inch lower box, 10-inch upper box. All boxes to have bow staples. Wagons to have one priming coat and two heavy coats of paint before varnishing, and to be subject to two inspections: First, in the white, when ready for painting; second, when painted and ready for shipment. Sample of 3-inch wagon in the white must accompany bids.

†One hundred and sixty-one wagons 2½ by 8 inches wide and narrow track, awarded to Edward L. Kuhns; 434 wagons, wide and narrow track, awarded to Frank D. Suydam; 50 wagons awarded to Haskell Institute.

advertisement of March 30, 1898, for furnishing supplies, etc.—Continued.

* Furniture for 8-inch cook stove to consist of the following, viz: 1 iron or steel pot and cover; 1 iron or steel kettle and cover; 1 iron or steel spider; 1 tin steamer and cover; 1 wash boiler and cover, flat copper bottom, 21 by 11 by 13 inches, iron drop handles, riveted; 1 coffee boiler, 6-quart, flat copper bottom; 1 tin teakettle, copper bottom, 8-inch; 1 tin water dipper, 2-quart; 2 square tin pans, $8\frac{1}{2}$ by 12, 1 round pan, stamped each $1\frac{1}{2}$ and 3 quarts; 2 iron or steel dripping pans, 12 by 16 inches, seamless. Furniture for other sizes of cook stoves to be in proportion. All tin furniture to be made of IX tin. Each stove must be accompanied by a joint of pipe, one end of which must fit the pipe collar and the other a 6-inch pipe.

NOTE.—The Department reserves the right to waive specifications as to weight and size of all stoves. The weights and sizes above specified are only approximate, and are given to show bidders about what is desired.

† Will make a discount of 5 per cent from price of each article if Chicago delivery be accepted upon all awarded to me.

‡ If all goods are delivered in St. Louis, Mo., deduct $7\frac{1}{2}$ per cent from price bid.

g If crated, add 20 cents each.

h If crated, add 15 cents each.

Abstract of proposals received and contracts awarded in Chicago, Ill., under advertisement of March 30, 1898, for furnishing supplies, etc.—Continued.

ANNUAL REPORT

OF THE

COMMISSION TO THE FIVE CIVILIZED TRIBES IN THE INDIAN TERRITORY.

WASHINGTON, D. C., *October 3, 1898.*

SIR: The Commission to the Five Civilized Tribes submits the following report of the progress of the work under their charge since the report made October 11, 1897. At that time the commission had just completed the work required of them by statute of June 10, 1896, "to hear and determine the application of all persons who may apply to them for citizenship in any of the said nations, and after said hearing they shall determine the right of such applicant to be so admitted and enrolled." There had been presented to them some 7,500 different applications under this law, each application, in many cases, embracing others alleged to be of the same family and claiming under the same title, amounting in all to nearly if not quite 75,000 individual cases requiring a separate application of the evidence upon which they rested.

Of these applications there were admitted by the commission as follows, viz:

| | |
|------------------------------|--------|
| In the Choctaw Nation..... | 1, 212 |
| In the Chickasaw Nation..... | 334 |
| In the Cherokee Nation | 274 |
| In the Creek Nation..... | 255 |

Total 2, 075

The large number of failures to obtain admission to citizenship by the commission thus shown is attributable in a great measure to the fact that the commission was required by the statute "in determining such applications to respect all laws of the several nations or tribes not inconsistent with the laws of the United States and all treaties with said nations or tribes, and give full force and effect to the rolls, usages, and customs of said nations and tribes." This was right and proper for the reason that for half a century or more the tribal governments had been permitted to control the matter of citizenship and had, therefore, legislated upon it, and to disregard their laws, usages, and customs at this late hour would be revolutionary and impracticable. The erroneous idea had, however, become prevalent that blood alone constituted a valid claim to citizenship in the several nations, regardless of other qualifications required by treaties and the constitution, laws and usages of the several nations by which the commission was to be governed. A large number of those rejected have appealed, as provided in the law, to the United States court in the Territory. But in a recent statute, the Curtis law, it is enacted that "no person shall be enrolled who has not heretofore removed to and in good faith settled in the nation in which he claims citizenship." An appeal has been allowed by the Indian appropriation bill, approved July 1, 1898, in all these

citizenship cases, which were appealed from the decisions of the Dawes Commission to the United States courts in the Indian Territory, directly to the United States Supreme Court. It will be, therefore, impossible for some time to ascertain the precise number which will be ultimately added to the rolls of citizenship of these nations under these provisions. But as the Curtis bill, section 21, has enacted that "No person shall be enrolled who has not heretofore removed to and in good faith settled in the nation in which he claims citizenship," there need be little apprehension that the roll of citizenship ultimately entitled to allotment will be unduly swelled by these appeals.

Under this law the commissioners had no power to interfere with the existing citizenship rolls in the several tribes beyond the addition thereto of such persons as brought themselves, on the evidence, within the requirements of the laws and usages of the nation in which they claimed citizenship. Indeed, the same law expressly confirmed the existing rolls and continued the tribal authority to add new names thereto. There had grown up, however, grave suspicions as to the integrity of these rolls. Many scandals respecting their manipulation under tribal authority had become very generally to be believed by the conservative citizenship of the several nations. The commission had, therefore (in their report of November 18, 1895), felt compelled to call attention to the condition of these rolls. It is not necessary to repeat here the statements then made, which are not believed to have been exaggerated. The work of the commission in adding new names to citizenship had proved so satisfactory to that class of citizens before named that a desire became general among them that the commission be clothed with authority to also review and reform the existing rolls. This resulted subsequently in that power being conferred on them by Congress. Their workings under this provision will be reported in another connection.

There were pending and awaiting ratification at the last report two agreements with this commission, one with the Choctaws and Chickasaws acting together of date April 23, 1897, and one with the Creeks of date September 27, 1897. There was afterwards one made with the Seminoles of date September 16, 1897. These agreements were duly reported to and are on file in the Department. The one with the Seminoles has been since duly ratified and is now the law which will hereafter control in that nation both its government and property holdings. It appears to be giving general satisfaction, and the future of this people is very encouraging. As soon as the duties of the commission elsewhere will permit, they will, in conjunction with the acknowledged authorities of the Seminoles, proceed to carry out its provisions.

The agreement with the Choctaws and Chickasaws was ratified by the council of both nations as required by law, but the Chickasaw nation had also required it to be submitted to a popular vote of that nation, which resulted in a small majority against it, believed to be only 112 votes. This agreement thus failed.

The agreement with the Creeks was rejected by the council, the chief, Ispahcher, some of his friends and other persons interested in leases obtained from the nation, opposing the changes contemplated in it.

Pending the ratification of the agreement with the Choctaws and Chickasaws the Senate passed, July 17, 1897, a joint resolution, suspending as to said tribes that provision of law which transferred their judicial jurisdiction to United States courts after January 1, 1898. After the failure of ratification of that agreement this resolution was in December withdrawn from the House by the Senate and indefinitely postponed.

The commission was required by act of June 7, 1897, to "examine and report to Congress whether the Mississippi Choctaws under their treaties are not entitled to all the rights of Choctaw citizenship except an interest in the Choctaw annuities." This is a small and feeble band of Choctaws who declined to remove to the present territory under the treaty of September 27, 1830, and has remained in Mississippi ever since, under certain concessions made to them in that treaty. They claim not only to enjoy these concessions, including a continuance of their residence in Mississippi, but at the same time to share in all the rights of property of the Choctaws in the Territory except their annuities. The commission has attended to that duty and, after a careful examination of the provisions of that treaty and its history and listening to the arguments in support of the claim, they arrived at the conclusion and reported to Congress "that these Mississippi Indians have a right at any time to remove to the Indian Territory and, joining their brethren there, claim participation in all the privileges of a Choctaw citizen save participation in their annuities, but that they could not maintain this claim otherwise than after such removal." They recommended, however, in view of the importance of this claim that provision be made for a judicial determination of the question. A bill containing this provision has passed the Senate and now awaits the action of the House. A copy of our report leading to this conclusion accompanies this report.

In the meanwhile, in contemplation of the condition in which the Territory would be left by the possible failure to ratify pending agreements, Mr. Curtis, of the Indian committee of the House, addressed himself to the preparation of a bill, the general design of which would be to transfer the control of the property rights in these nations from tribal authority to that of the United States, much the same as their political government had been transferred by the act which was to take effect January 1, 1898. The result of this undertaking of Mr. Curtis, on which he bestowed much time and exhaustive labor, availing himself of all the assistance of others which he could command, has been the act entitled "An act for the protection of the people of the Indian Territory, and for other purposes," known as the "Curtis bill." The knowledge of the preparation of this bill aroused great opposition of those in the Territory opposed to any change in the exclusive use of tribal property by the few controlling the government of the Territory. Accordingly large delegations were sent to Washington, at great expense to their national treasuries, for the purpose of preventing such legislation and procuring, if possible, the repeal of the law taking away so much of their political power, which was to take effect January 1, 1898. It was deemed necessary, therefore, to require the presence of the commission in Washington during the pendency of such legislation to give information to the committees having it in charge as to the real condition of the Territory and the needs and character of the legislation proposed. At the request of these committees, and with the approval of the Department, the commission remained in Washington until final action upon this bill, rendering such assistance as was in its power to the several committees, based upon accurate and reliable information in relation to the many questions involved in the comprehensive scope of the proposed measure, as well as upon their experience and observation while in the Territory. After many changes and modifications, it is believed to have taken the best final shape possible under the circumstances.

Immediately upon the final passage of this bill the commission returned to the Territory to the discharge of the new duties required

of it, in connection with those that had heretofore been imposed. In this work the commission is still engaged.

The Curtis bill is designed, in place of the present exclusive holding and use by a few under existing tribal governments prostituted to the perpetuation of such uses, to substitute a new code of United States law for the Territory. It changes these communal holdings from this exclusive use into individual holdings under United States control. It necessarily involved in its preparation very many provisions, some of them of an exceedingly complicated character. It is too much to expect that on its application the modification of some features of so comprehensive a measure may not be found necessary, but its purpose is wise, and so far as can be foreseen its provisions are adequate. The Curtis bill provided, in addition to its general enactments, for the resubmission, with certain specified modifications of the two agreements—that with the Choctaws and Chickasaws and that with the Creeks—for ratification, to a popular vote in their respective nations, and provided further that if ratified the provisions of these agreements, so far as they differed from that bill, should supersede it. The Choctaw and Chickasaw agreement was accordingly so submitted for ratification on the 24th of August, 1898, and was ratified by a large majority.

Chief Isparhecher has so far failed to call an election, as he was authorized and directed to do by provision of the Curtis bill, but it is believed that if such an election were held it would result in the ratification of the agreement with the Creeks. Therefore, in many of the more difficult details of allotment and other features of that law it will hereafter be enforced only in the Cherokee and Creek nations.

Both this law and the recently ratified treaties have imposed many new, arduous, and responsible duties upon this commission, likely to consume much time before such duties can be completely and finally discharged. In addition to what was heretofore required of them, this act and these agreements, among other things, require them to take a census of all the citizenship of each nation before perfecting a final roll for allotment, and in doing so they are "authorized and required to make correct rolls of the citizens by blood of all the tribes, eliminating from the tribal rolls such names as may have been placed thereon by fraud or without authority of law, enrolling only such as may have lawful right thereto and their descendants born since such rolls were made," etc. This compels the commission to pass judicial judgment upon the right to citizenship of every name upon the citizenship roll of each of the Five Tribes. No clerk or other substitute can do this work. It must be done personally by the commission and upon a hearing of evidence in each case where there is any question.

This law requires also of the commission that it shall make a correct roll of all the freedmen entitled to or claiming any rights under the treaties of 1866 with the respective tribes and of all their descendants born since the date of these treaties. In respect to the freedmen in the Choctaw and Chickasaw tribes this will prove a very difficult task, the latter having never made a roll or registry of those made freedmen by that nation, nor kept any trace of them or their descendants since emancipation. Nor are these tribes able to furnish any considerable assistance in determining what portion, if any, of the present colored population has come into the Territory since that date. In the Chickasaw tribe there is the additional difficulty growing out of the fact that for many years the tribal authorities have disowned and ignored in all their relations these freedmen, and have endeavored to effect their removal from the Territory. It becomes also the duty of this commission

to determine and report to the Secretary of the Interior of the identity of the Mississippi Choctaws claiming rights in Choctaw property under the treaty of September 27, 1830. The commission is further required, "before any allotment of land is made in the Cherokee Nation," to "segregate therefrom, in separate allotment or otherwise, the 157,600 acres purchased by the Delaware Indians from the Cherokee Nation under the agreement of April 8, 1867, subject to the judicial determination" of the Delaware rights therein. The Delawares have commenced a suit for the determination of those rights, which is now pending in the Court of Claims.

It is apparent that the proper discharge of these new duties will require of the commission much labor and great care. They are of such a character as will not permit of the calling in of much assistance of other persons. Personal attention and the exercise of their personal judgment are required at almost every step in it. Much time will necessarily be consumed in the proper discharge of these duties. Yet they must all be completed in each of the nations before any steps toward allotment can be taken in that nation. And upon the care and accuracy with which this preliminary work is done will depend the justice and value of all final allotments.

The commission has been engaged since its return to the Territory in the work of taking a census of the Seminole, Creek, and Chickasaw tribes in conformity with the present law. The commission has very nearly completed a census of the Creek and Chickasaw Indians and freedmen and has fully completed that of the Seminoles, and rolls of the latter are about completed, so that the commission may at any time, when provided with means, begin the work of allotment according to the provisions of the agreement; but in order to do this work an appropriation of at least \$50,000 is believed to be necessary for employment of adequate assistance therefor.

In the prosecution of this larger work of taking the census and perfecting the citizenship roll the commission has found it necessary, in order to insure accuracy and dispatch as well as to relieve as much as possible claimants of unnecessary expense, to go themselves into the country and to meet those claiming such enrollment in person, and to determine from their own story under oath and such other evidence deemed necessary the justice of each claim, thereby relieving the applicant as much as possible from the expense and delay attendant upon the employment of counsel to present their claim at particular points and on stated days for hearings. This has made it necessary for the commission to procure tents and camp equipage required in passing from place to place and in maintaining themselves and clerks in the open country much of the time while conducting the work. The result has fully justified this method. In addition, it has enabled the applicants, more clearly than any other method could, to understand the purpose of the Government in these proceedings, thereby creating a better feeling in this class of Indian citizens toward the Government and its officials. Hitherto they have been kept as far as possible in ignorance of the purposes of the Government in seeking the changes proposed by this commission. It has been for the interest of many influential persons among them, to keep them in the belief that the United States in these negotiations is seeking to wrest from them their heritage. This method of working among them is doing much to dispel this delusion and open their eyes to the real purpose.

They have pursued the same method in the Chickasaw country, keeping a separate roll of the freedmen.

They have been gratified by the manifestation on the part of the Chickasaw officials to render all the assistance in their power. The freedmen have also, through leading representatives, been of great aid. This has lessened the work of the commission, and is believed to have resulted largely from the closer contact and the better understanding of the real purpose of the Government.

A brief summary of what has been accomplished during the past year in the work under charge of the commission will show the most gratifying results and a greater advance toward the attainment of the objects aimed at by the Government than in any previous year. Since the last report the Indian laws in force in the Territory and the Indian courts in which they were administered have given place (with a few unimportant exceptions) to laws corresponding to the laws of the State of Arkansas affecting the same subject-matter, and have been made applicable to all persons in the Territory, without distinction of race. These laws are to be administered in United States courts and enforced through United States officers. Every Indian resident claiming to be a citizen can try his title in these courts, and obtain a final decision, if he desire it, in the United States Supreme Court, like any other citizen of the Republic. These courts are now open to every Indian citizen to secure, as against the tribe or anyone claiming under it, the equal use with all other such citizens of the common property of the tribe, or, if he choose, he can have his equal part set off to him by partition for his own exclusive enjoyment. All laws hereafter enacted in the legislative councils of these tribes are to be, before taking effect, submitted to the President of the United States for his approval or disapproval, and all the moneys of these tribes are to be paid to and disbursed by United States officers. The royalties from their coal mines and rentals from their grazing lands are no longer to be paid to individuals, but into the Treasury of the United States, for the equal benefit of every member of the tribe. Provision has also been made during the year for the allotment of all the tribal lands of the Territory equally among all its citizens. And this has been attained as to nearly all of them upon terms to which the tribes themselves have by popular vote agreed. If the agreement with the Creeks be ratified, as is expected, this will be true of all except the Cherokees, and as to them it has been provided by statute. It has been also provided by these agreements and this statute that the white residents in the towns in the Territory, now numbering many thousands, unable heretofore to obtain title to the land upon which they have built their homes and expensive business houses in flourishing towns, can now purchase, at a fair appraisal, the land upon which they have built and on which they have expended large sums in expensive business outlays.

In short, whatever rights, civil or political, are enjoyed by the citizen resident in any of the Territories of the United States, the same rights are now secured to the citizen Indian, and largely to the white resident also, in the Indian Territory.

While much work is still before the commission in the important duty of allotting these lands, as well as in carrying to completion the minor details made necessary by these larger comprehensive measures, yet what has been done is fundamental, embracing the elementary conditions essential to the healthy growth of a prosperous people. By them the government of the Indian Territory and its land system may, at an early day, be brought into harmony with those of the United States and of the States by which it is surrounded, assuring it a most encouraging and hopeful future.

As the Territory, in view of fundamental changes already accomplished and others soon to be effected, seems about to enter upon an entirely new period in its history and development, it becomes of the highest importance that the United States Government should lend all possible aid in giving the right direction and needed support to that development. The relation of this Territory to the General Government is peculiar and unlike that of any other of the Territories. Hardly any analogy will be found in its treatment with that hitherto governing legislation for the Territories. The commission in familiarizing itself, while engaged in its work in almost every part of the country, with its needs, has been so impressed with one great call for Government aid, standing in front of all others and fraught with disastrous consequences if delayed, that it feels compelled to call urgent attention to it. That is the need of some provision by the National Government for the purposes of education in the Territory. While the funds and resources of the several tribes, properly managed, can probably supply sufficient support for the schools of the citizen Indians, yet the white residents can not share in them and must look elsewhere for the means of educating their children. The means resorted to in all the other Territories, and out of which ample school funds have been provided, do not exist in the Indian Territory, in which the United States has not an acre of public land or other property beyond that in public uses. If the white residents are to receive any aid from the United States, it must be from the outside and by direct appropriation. If they are left without any such aid, it will be a harsher treatment than has been meted out to the residents of any other Territory and will be attended with the most disastrous consequences. There are believed to be between 250,000 and 300,000 white residents in the Territory to-day, and well-nigh 30,000 of them children of school age. They are there to stay, making homes for themselves and destined to be a part of the body politic of a State. While some of them, living in the towns, are anxious to educate their children, and may be able to some extent to do so from their private means, yet it is quite different with the poor pioneers in the country, who constitute by far the larger part of this white population. They, however anxious, cannot of themselves command the means or the opportunity to educate their children. Consequently a very large proportion of this 30,000 children of school ages, increasing in number every year, are in danger of growing up in ignorance, to take upon themselves the responsibilities of citizenship. This is not the fault, but the misfortune, of these residents of the Territory. The evils that will come of indifference to this situation can not be measured. They will not admit of delay. The commission has had occasion heretofore to call attention to this pressing need, and greater familiarity with the conditions of the people in the Territory only deepens the conviction that justifies this renewal of it.

Respectfully submitted for the Commission to the Five Civilized Tribes, by

HENRY L. DAWES,
Chairman.

The honorable SECRETARY OF THE INTERIOR.

**REPORT OF THE COMMISSION TO THE FIVE CIVILIZED TRIBES
UPON THE QUESTION "WHETHER THE MISSISSIPPI CHOCTAWS
UNDER THEIR TREATIES ARE NOT ENTITLED TO ALL THE
RIGHTS OF CHOCTAW CITIZENSHIP, EXCEPT AN INTEREST IN
THE CHOCTAW ANNUITIES," REQUIRED BY ACT OF CONGRESS,
APPROVED JUNE 7, 1897.**

To the Congress of the United States :

The Commission to the Five Civilized Tribes were required by act approved June 7, 1897, to—

Examine and report to Congress whether the Mississippi Choctaws under their treaties are not entitled to all the rights of Choctaw citizenship, except an interest in the Choctaw annuities.

The commission has attended to that duty, and make the following

REPORT.

The Mississippi Choctaws are the descendants of those Choctaw Indians who declined to remove to the Indian Territory with the tribe under the provisions of the treaty made with the United States September 27, 1830, under which the Choctaws obtained their present reservation in the Indian Territory. There has never been a census taken of them, but they are estimated to number at the present time about 1,200. These are represented to be a poor and feeble band, somewhat scattered in different parts of the State of Mississippi, but located mostly in the counties of Neshoba, Newton, Leake, Scott, and Winston. They claim the right to continue their residence and political status in Mississippi, as they and those from whom they descended have done for sixty-five years, and still are entitled to enjoy all the rights of Choctaw citizenship except to share in the Choctaw annuities. This claim is based on the fourteenth article of said treaty, which is in these words:

ARTICLE XIV. Each Choctaw head of a family being desirous to remain and become a citizen of the States shall be permitted to do so by signifying his intention to the agent within six months from the ratification of this treaty, and he or she shall thereupon be entitled to a reservation of one section of 640 acres of land, to be bounded by sectional lines of survey; in like manner shall be entitled to one-half that quantity for each unmarried child which is living with him over 10 years of age; and a quarter section to such child as may be under 10 years of age, to adjoin the location of the parent. If they reside upon said lands intending to become citizens of the States for five years after the ratification of this treaty, in that case a grant in fee simple shall issue. Said reservation shall include the present improvement of the head of the family, or a portion of it. Persons who claim under this article shall not lose the privilege of a Choctaw citizen, but if they ever remove are not entitled to any portion of the Choctaw annuity.

What their political status is in the State of Mississippi is defined in this fourteenth article of the treaty. Their ancestors, each, was to signify, within six months after the ratification of the treaty, his desire to remain and become a citizen of the States, which would entitle them to 640 acres of land and a less amount to each member of his family, and after a residence on the same of five years with intent to become a citizen, are then entitled to a patent in fee, and are thereby made citizens of the States. Their ancestors having done this, they claim under

the concluding clause of said article that their ancestors could and they now can continue such citizenship and residence in Mississippi and be still entitled to all the rights of a Choctaw citizen in the tribal property of said nation in the Indian Territory, except their annuities. This clause upon which the claim rests is in these words:

Persons who claim under this article shall not lose the privilege of a Choctaw citizen, but if they ever remove are not to be entitled to any portion of the Choctaw annuity.

But this construction is in direct conflict with the very purpose for which the treaty was made, and with the nature of the title to the lands in the territory secured to the Choctaws by it, and to the whole structure and administration of their government ever since under it.

No fact is better established than this, that the leading motive, if not the only one, on the part of the United States, was to get the Choctaws out of Mississippi and into what is now the Indian Territory. They accordingly provided in the second article of the treaty, among other things, that the Choctaws should live on the land ceded to them by it in the Indian Territory. That article is in these words:

ARTICLE 2. The United States, under a grant specially to be made by the President of the United States, shall cause to be conveyed to the Choctaw Nation a tract of country west of the Mississippi River, in fee simple, to them and their descendants, to inure to them while they shall exist as a nation and live on it [here follows a description of the land], the grant to be executed as soon as the present treaty shall be ratified.

And the Choctaws agree in the third article to remove all their people to this territory during the years 1831, 1832, and 1833.

Now, to construe the concluding clause of the fourteenth article to mean an offer to those who refuse to go with their brethren to the new territory an equal share in the new lands with those who go and the additional fee simple of 640 acres of land in Mississippi and citizenship if they do not go, is to offer a bounty to those who refuse to go, and would defeat the very purpose of the treaty. Not one would have gone when offered so much better terms for staying. It is well known that the Choctaws were very reluctant to enter into this treaty at all, because a portion of them—the ancestors of these claimants—refused to leave with the main body, and the treaty was not executed till the provisions of the fourteenth article were made for those unwilling to leave with their brethren. But the United States did not cease its original purpose to secure the removal of them all to the new country, even those provided for in the fourteenth article. They therefore inserted the concluding clause to that article to the effect of a continuing offer and pledge, that if they did ever “remove”—that is, if they ever changed their minds and concluded to remove—the fact that they had been freeholders and citizens of Mississippi should not bar them out of Choctaw citizenship, but that they should share like all the rest in everything but the annuities. Thus construed the clause is a standing inducement to those Indians to remove in accordance with the purpose of the treaty instead of a standing bounty to remain and thus thwart that purpose.

In addition to the condition which entered into the title that the grantees must “live on it” or lose it, the nature of the title was such that these claimants could derive no benefit from it without living on it, and by remaining in Mississippi it would be worthless to them. It is a territory in common, and has been held as such from that day, 1830, till now. Now no tenant in common who voluntarily leaves the common property to the occupancy of his cotenants can ever claim of them any of the fruits of its use. So that these Mississippi Choctaws, if they

are cotenants with the resident Choctaws in these lands in the Indian Territory, must first go there and occupy them with their cotenants or forego any use of them.

Another condition of this title is that the grantees shall not only "live upon it," but if the Choctaw Nation ceases to exist the title is lost. If all the Choctaws should follow the example of these Mississippi Choctaws and remain residents and citizens of Mississippi, it would ipso facto cease to exist as a nation and the title be lost. It is impossible to conceive that the Choctaw Nation itself, as well as the United States, entered into this fourteenth article with any intention of enabling them so to do.

As further evidence that both parties to this treaty understood that they had created a title to be held in common by the members of the tribe alone, in which no one not a member could have any interest, the United States and the Choctaws entered into a treaty in 1855 in respect to the title to those lands (U. S. Stats., 11, p. 612), the first article of which is in these words:

ARTICLE I. And pursuant to an act of Congress, approved May 28, 1830, the United States do hereby forever secure and guarantee the lands embraced within the said limits to the members of the Choctaw and Chickasaw tribes, their heirs and successors, to be held in common, so that each and every member of either tribe shall have an equal, undivided interest in the whole: *Provided, however,* No part thereof shall ever be sold without the consent of both tribes, and that said land shall revert to the United States if said Indians and their heirs become extinct or abandon the same.

Although it is true that any vested right of the Mississippi Choctaws in this land could not be affected by any treaty to which they were not a party, attention is called to this article for the double purpose of showing that both the United States and the Choctaw Nation have from the beginning held that the title has always been in the members of the tribe alone, and is now so fixed that no one else but members can share in it. The treaty uses the same language in the outset as is used in the treaty of 1830 containing the fourteenth article, on which the present claim rests. It says, like that treaty, that it is entered into—

pursuant to an act of Congress approved May 28, 1830,

and then declares that—

the United States do hereby forever secure and guarantee the lands embraced within the said limits to the members of the Choctaw and Chickasaw tribes, their heirs and successors, to be held in common, so that each and every member of either tribe shall have an equal, undivided interest in the whole: *Provided, however,* No part thereof shall ever be sold without the consent of both tribes, and that said land shall revert to the United States if said Indians and their heirs become extinct or abandon the same.

There can be no longer doubt that the present title is in the members of the tribes alone, and that the United States has pledged itself to so maintain it, and that it so does in the belief of both parties to the treaty that such was the title from the beginning. No man can, therefore, as the title now stands, have any interest in these lands unless he is a member of one of these tribes.

Now, it has been a law of the Choctaw Nation from the beginning of its existence, recognized by the Supreme Court and by Congress, that no man can be a citizen of that nation who does not reside in it and assume the obligations of such citizenship before he can enjoy its privileges. To "enjoy the privileges of a Choctaw citizen" one must be a Choctaw citizen.

If this land should be ultimately allotted, any allotment to other than a citizen would come in direct conflict not only with the terms of

the treaty but also with the whole system of the Choctaw government from the beginning. By the treaty, the allottee must be a member of either the Choctaw or Chickasaw tribes. He can, being a stranger, neither occupy nor sell his allotment, for by the treaty all strangers are to be kept out of the territory, and the land is to be sold to no one except with the consent of both tribes.

This historical review of the acquisition of this territory by the Choctaw Nation, and its subsequent legal relations to it, makes it clear in the opinion of this commission that the Mississippi Choctaws are not, under their treaties, entitled to—

all the rights of Choctaw citizenship except an interest in the Choctaw annuities, and still continue their residence and citizenship in the State of Mississippi.

What, then, are—

the privileges of a Choctaw citizen,

secured to them by the fourteenth article of the treaty of 1830? That article, after having secured to those unwilling to remove with their brethren to the Indian Territory, 640 acres of land and enrollment and citizenship in the State of Mississippi, added this further clause:

Persons who claim under this article shall not lose the privileges of a Choctaw citizen, but if they ever remove are not to be entitled to any portion of the Choctaw annuity.

The commission are of the opinion that this clause was intended to offer a further inducement to those Indians to follow at some future time their brethren and join them in their new home, and that the true construction of it is that the door of admission shall be kept open to them, and if they ever remove this stay and citizenship in Mississippi shall not bar them out, but that, notwithstanding it, they shall be admitted to all the privileges of Choctaw citizenship equally with all others, save only a share in their annuity. This construction finds further corroboration in the treaty of 1866 (14 Stat. L.), between the United States and the Choctaws and Chickasaws concerning the title to this same territory. In this treaty, for the first time, the possibility of an allotment of these lands in severalty to the members of the tribes at some time in the future was recognized. It was, therefore, provided in this treaty that whenever the tribes desired it, such allotment among their members should take place, and at great detail the manner in which it was to be done was set forth. The treaty then provided that before it did take place notice should be given—

not only in the Choctaw and Chickasaw nations, but by publication in newspapers printed in the States of Mississippi and Tennessee, Louisiana, Texas, Arkansas, and Alabama, to the end that such Choctaws and Chickasaws as yet remain outside of the Choctaw and Chickasaw nations may be informed and have opportunity to exercise the rights hereby given to resident Choctaws and Chickasaws: *Provided*, That before any such absent Choctaw or Chickasaw shall be permitted to select for him or herself, or others, as hereinafter provided, he or she shall satisfy the register of the land office of his or her intention, or the intention of the party for whom the selection is to be made, to become bona fide resident in the said nation within five years from the time of selection; and should the said absentee fail to remove into said nation and occupy and commence an improvement on the land selected within the time aforesaid, the said selection shall be canceled, and the land shall thereafter be discharged from all claim on account thereof.

There can be no doubt that this provision was inserted for the special benefit of those claiming to enjoy the rights of a Choctaw citizen under this fourteenth article of the treaty of 1830, many of those Choctaws having wandered away from Mississippi into the other States mentioned.

It was a notice to them that these lands were about to be allotted to members of the tribes, and if they desired to avail themselves of a share in the allotment they must make themselves such members by coming from "outside" and join their brethren in the common citizenship of the nation.

The terms upon which each applicant can avail himself of this opportunity are clear and unequivocal. He must satisfy the register of his intention to become a bona fide resident in the Territory within five years of the date of his application before he can select his allotment. And a failure to remove into said nation and to occupy and commence improvement on the land so occupied within the time specified forfeits altogether the selection.

This proviso needs no explanation. The United States and the Choctaws have affixed it to the title, and those claiming the benefit of the 14th article must conform to it or lose their rights.

It follows, therefore, from this reasoning, as well as from the historical review already recited, and the nature of the title itself, as well as all stipulations concerning it in the treaties between the United States and the Choctaw Nation, that to avail himself of the "privileges of a Choctaw citizen" any person claiming to be a descendant of those Choctaws who were provided for in the fourteenth article of the treaty of 1830, must first show the fact that he is such descendant, and has in good faith joined his brethren in the territory with the intent to become one of the citizens of the nation. Having done so, such person has a right to be enrolled as a Choctaw citizen and to claim all the privileges of such a citizen except to a share in the annuities. And that otherwise he can not claim as a right the "privilege of a Choctaw citizen."

To the claim, as thus defined, the Choctaw Nation has always acceded, and has manifested in many ways its willingness to take into its citizenship any one or all of the Mississippi Choctaws who would leave their residence and citizenship in that State and join in good faith their brethren in the Territory, with participation in all the privileges of such citizenship, save only a share in their annuities, for which an equivalent has been given in the grant of land and citizenship in Mississippi.

The national council, in view of the poverty and inability of these Choctaws to remove at their own expense to the Territory, memorialized Congress on December 9, 1889, to make provision for their removal by the adoption of the following resolution:

Whereas there are large numbers of Choctaws yet in the States of Mississippi and Louisiana who are entitled to all the rights and privileges of citizenship in the Choctaw Nation; and

Whereas they are denied all rights of citizenship in said States; and

Whereas they are too poor to immigrate themselves into the Choctaw Nation: Therefore,

Be it resolved by the general council of the Choctaw Nation assembled, That the United States Government is hereby requested to make provisions for the emigration of said Choctaws from said States to the Choctaw Nation, etc.

It is a significant fact that this claim on the part of the Mississippi Choctaws to all the privileges of a citizen in the Choctaw Nation, and still retain their residence and citizenship in the State of Mississippi, is a very recent one. There is no evidence known to the commission that the early Mississippi Choctaws ever made such a claim. In later years the Choctaws and Chickasaws have sold at different times large portions of their territory to the United States, and the proceeds, amounting in the aggregate to several millions of dollars, have been distributed per capita among the Choctaw and Chickasaw citizens. If

this claim as now presented is the correct one, these Mississippi Choctaws were entitled to their per capita share in all the money equally with all other citizens of the nation, yet not a dollar of it was ever paid to them or claimed by them.

This claim to participate in the privileges of a Choctaw citizen and still retain a residence and citizenship in Mississippi has recently come before the United States court in the third district in the Indian Territory, in the case of Jack Amos et al. *v.* The Choctaw Nation, No. 158 on the docket of that court. The case was an appeal of Mississippi Choctaws from a refusal of this commission to place them on the rolls of Choctaw citizenship. The court, Judge William H. H. Clayton, overruled the appeal and confirmed the judgment of this commission, denying such enrollment, in a very elaborate and exhaustive opinion.

If, in accordance with this conclusion of the commission, these Mississippi Choctaws have the right at any time to remove to the Indian Territory, and, joining their brethren there, claim participation in all the privileges of a Choctaw citizen save participation in their annuities, still, if any person presents himself claiming this right, he must be required by some tribunal to prove the fact that he is a descendant of some one of those Indians who originally availed themselves of and conformed to the requirements of the fourteenth article of the treaty of 1830. The time for making application to this commission to be enrolled as a Choctaw citizen has expired. It would be necessary, therefore, to extend by law the time for persons claiming this right to make application and be heard by this commission, or to create a new tribunal for that purpose.

In conclusion, it seems to the commission that the importance of a correct decision of this question, both to the Mississippi Choctaws and the Choctaw Nation, justifies a provision for a judicial decision in a case provided for that purpose. They therefore suggest that, in proper form, jurisdiction may be given the Court of Claims to pass judicially upon this question in a suit brought for that purpose by either of the interested parties.

Respectfully submitted.

HENRY L. DAWES,
TAMS BIXBY,
FRANK C. ARMSTRONG,
A. S. MCKENNON,
Commissioners.

WASHINGTON, D. C., *January 28, 1898.*

[PUBLIC—No. 162.]

An Act For the protection of the people of the Indian Territory, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That in all criminal prosecutions in the Indian Territory against officials for embezzlement, bribery, and embracery the word "officer," when the same appears in the criminal laws heretofore extended over and put in force in said Territory, shall include all officers of the several tribes or nations of Indians in said Territory.

SEC. 2. That when in the progress of any civil suit, either in law or equity, pending in the United States court in any district in said Territory, it shall appear to the court that the property of any tribe is in any way affected by the issues being heard, said court is hereby authorized and required to make said tribe a party to said suit by service upon the chief or governor of the tribe, and the suit shall thereafter be conducted and determined as if said tribe had been an original party to said action.

SEC. 3. That said courts are hereby given jurisdiction in their respective districts to try cases against those who may claim to hold as members of a tribe and whose membership is denied by the tribe, but who continue to hold said lands and tenements notwithstanding the objection of the tribe; and if it be found upon trial that the same are held unlawfully against the tribe by those claiming to be members thereof, and the membership and right are disallowed by the commission to the Five Tribes, or the United States court, and the judgment has become final, then said court shall cause the parties charged with unlawfully holding said possessions to be removed from the same and cause the lands and tenements to be restored to the person or persons or nation or tribe of Indians entitled to the possession of the same: *Provided always,* That any person being a noncitizen in possession of lands, holding the possession thereof under an agreement, lease, or improvement contract with either of said nations or tribes, or any citizen thereof, executed prior to January first, eighteen hundred and ninety-eight, may, as to lands not exceeding in amount one hundred and sixty acres, in defense of any action for the possession of said lands show that he is and has been in peaceable possession of such lands, and that he has while in such possession made lasting and valuable improvements thereon, and that he has not enjoyed the possession thereof a sufficient length of time to compensate him for such improvements. Thereupon the court or jury trying said cause shall determine the fair and reasonable value of such improvements and the fair and reasonable rental value of such lands for the time the same shall have been occupied by such person, and if the improvements exceed in value the amount of rents with which such persons should be charged the court, in its judgment, shall specify such time as will, in the opinion of the court, compensate such person for the balance due, and award him possession for such time unless the amount be paid by claimant within such reasonable time as the court shall specify. If the finding be that the amount of rents exceed the value of the improvements, judgment shall be rendered against the defendant for such sum, for which execution may issue.

SEC. 4. That all persons who have heretofore made improvements on lands belonging to any one of the said tribes of Indians, claiming rights of citizenship, whose claims have been decided adversely under the Act of Congress approved June tenth, eighteen hundred and ninety-six, shall have possession thereof until and including December thirty-first, eighteen hundred and ninety-eight; and may, prior to that time, sell or dispose of the same to any member of the tribe owning the land who desires to take the same in his allotment: *Provided*, That this section shall not apply to improvements which have been appraised and paid for, or payment tendered by the Cherokee Nation under the agreement with the United States approved by Congress March third, eighteen hundred and ninety-three.

SEC. 5. That before any action by any tribe or person shall be commenced under section three of this Act it shall be the duty of the party bringing the same to notify the adverse party to leave the premises for the possession of which the action is about to be brought, which notice shall be served at least thirty days before commencing the action by leaving a written copy with the defendant, or, if he can not be found, by leaving the same at his last known place of residence or business with any person occupying the premises over the age of twelve years, or, if his residence or business address can not be ascertained, by leaving the same with any person over the age of twelve years upon the premises sought to be recovered and described in said notice; and if there be no person with whom said notice can be left, then by posting same on the premises.

SEC. 6. That the summons shall not issue in such action until the chief or governor of the tribe, or person or persons bringing suit in his own behalf, shall have filed a sworn complaint, on behalf of the tribe or himself, with the court, which shall, as near as practicable, describe the premises so detained, and shall set forth a detention without the consent of the person bringing said suit or the tribe, by one whose membership is denied by it: *Provided*, That if the chief or governor refuse or fail to bring suit in behalf of the tribe then any member of the tribe may make complaint and bring said suit.

SEC. 7. That the court in granting a continuance of any case, particularly under section three, may, in its discretion, require the party applying therefor to give an undertaking to the adverse party, with good and sufficient securities, to be approved by the judge of the court, conditioned for the payment of all damages and costs and defraying the rent which may accrue if judgment be rendered against him.

SEC. 8. That when a judgment for restitution shall be entered by the court the clerk shall, at the request of the plaintiff or his attorney, issue a writ of execution thereon, which shall command the proper officer of the court to cause the defendant or defendants to be forthwith removed and ejected from the premises and the plaintiff given complete and undisturbed possession of the same. The writ shall also command the said officer to levy upon the property of the defendant or defendants subject to execution, and also collect therefrom the costs of the action and all accruing costs in the service of the writ. Said writ shall be executed within thirty days.

SEC. 9. That the jurisdiction of the court and municipal authority of the city of Fort Smith for police purposes in the State of Arkansas is hereby extended over all that strip of land in the Indian Territory lying and being situate between the corporate limits of the said city of Fort Smith and the Arkansas and Poteau rivers, and extending up the said Poteau River to the mouth of Mill Creek; and all the laws and ordi-

nances for the preservation of the peace and health of said city, as far as the same are applicable, are hereby put in force therein: *Provided*, That no charge or tax shall ever be made or levied by said city against said land or the tribe or nation to whom it belongs.

SEC. 10. That all actions for restitution of possession of real property under this Act must be commenced by the service of a summons within two years after the passage of this Act, where the wrongful detention or possession began prior to the date of its passage; and all actions which shall be commenced hereafter, based upon wrongful detention or possession committed since the passage of this Act must be commenced within two years after the cause of action accrued. And nothing in this Act shall take away the right to maintain an action for unlawful and forcible entry and detainer given by the Act of Congress passed May second, eighteen hundred and ninety (Twenty-sixth United States Statutes, page ninety-five).

SEC. 11. That when the roll of citizenship of any one of said nations or tribes is fully completed as provided by law, and the survey of the lands of said nation or tribe is also completed, the commission heretofore appointed under Acts of Congress, and known as the "Dawes Commission," shall proceed to allot the exclusive use and occupancy of the surface of all the lands of said nation or tribe susceptible of allotment among the citizens thereof, as shown by said roll, giving to each, so far as possible, his fair and equal share thereof, considering the nature and fertility of the soil, location, and value of same; but all oil, coal, asphalt, and mineral deposits in the lands of any tribe are reserved to such tribe, and no allotment of such lands shall carry the title to such oil, coal, asphalt, or mineral deposits; and all town sites shall also be reserved to the several tribes, and shall be set apart by the commission heretofore mentioned as incapable of allotment. There shall also be reserved from allotment a sufficient amount of lands now occupied by churches, schools, parsonages, charitable institutions, and other public buildings for their present actual and necessary use, and no more, not to exceed five acres for each school and one acre for each church and each parsonage, and for such new schools as may be needed; also sufficient land for burial grounds where necessary. When such allotment of the lands of any tribe has been by them completed, said commission shall make full report thereof to the Secretary of the Interior for his approval: *Provided*, That nothing herein contained shall in any way affect any vested legal rights which may have been heretofore granted by Act of Congress, nor be so construed as to confer any additional rights upon any parties claiming under any such Act of Congress: *Provided further*, That whenever it shall appear that any member of a tribe is in possession of lands, his allotment may be made out of the lands in his possession, including his home if the holder so desires: *Provided further*, That if the person to whom an allotment shall have been made shall be declared, upon appeal as herein provided for, by any of the courts of the United States in or for the aforesaid Territory, to have been illegally accorded rights of citizenship, and for that or any other reason declared to be not entitled to any allotment, he shall be ousted and ejected from said lands; that all persons known as intruders who have been paid for their improvements under existing laws and have not surrendered possession thereof who may be found under the provisions of this Act to be entitled to citizenship shall, within ninety days thereafter, refund the amount so paid them, with six per centum interest, to the tribe entitled thereto; and upon their failure so to do said amount shall become a lien upon all improvements owned by

such person in such Territory, and may be enforced by such tribe; and unless such person makes such restitution no allotments shall be made to him: *Provided further*, That the lands allotted shall be nontransferable until after full title is acquired and shall be liable for no obligations contracted prior thereto by the allottee, and shall be nontaxable while so held: *Provided further*, That all towns and cities heretofore incorporated or incorporated under the provisions of this Act are hereby authorized to secure, by condemnation or otherwise, all the lands actually necessary for public improvements, regardless of tribal lines; and when the same can not be secured otherwise than by condemnation, then the same may be acquired as provided in sections nine hundred and seven and nine hundred and twelve, inclusive, of Mansfield's Digest of the Statutes of Arkansas.

SEC. 12. That when report of allotments of lands of any tribe shall be made to the Secretary of the Interior, as hereinbefore provided, he shall make a record thereof, and when he shall confirm such allotments the allottees shall remain in peaceable and undisturbed possession thereof, subject to the provisions of this Act.

SEC. 13. That the Secretary of the Interior is hereby authorized and directed from time to time to provide rules and regulations in regard to the leasing of oil, coal, asphalt, and other minerals in said Territory, and all such leases shall be made by the Secretary of the Interior; and any lease for any such minerals otherwise made shall be absolutely void. No lease shall be made or renewed for a longer period than fifteen years, nor cover the mineral in more than six hundred and forty acres of land, which shall conform as nearly as possible to the surveys. Lessees shall pay on each oil, coal, asphalt, or other mineral claim at the rate of one hundred dollars per annum, in advance, for the first and second years; two hundred dollars per annum, in advance, for the third and fourth years, and five hundred dollars, in advance, for each succeeding year thereafter, as advanced royalty on the mine or claim on which they are made. All such payments shall be a credit on royalty when each said mine is developed and operated and its production is in excess of such guaranteed annual advanced payments; and all lessees must pay said annual advanced payments on each claim, whether developed or undeveloped; and should any lessee neglect or refuse to pay such advanced annual royalty for the period of sixty days after the same becomes due and payable on any lease, the lease on which default is made shall become null and void, and the royalties paid in advance shall then become and be the money and property of the tribe. Where any oil, coal, asphalt, or other mineral is hereafter opened on land allotted, sold, or reserved, the value of the use of the necessary surface for prospecting or mining, and the damage done to the other land and improvements, shall be ascertained under the direction of the Secretary of the Interior and paid to the allottee or owner of the land, by the lessee or party operating the same, before operations begin: *Provided*, That nothing herein contained shall impair the rights of any holder or owner of a leasehold interest in any oil, coal rights, asphalt, or mineral which have been assented to by act of Congress, but all such interest shall continue unimpaired hereby, and shall be assured to such holders or owners by leases from the Secretary of the Interior for the term not exceeding fifteen years, but subject to payment of advance royalties as herein provided, when such leases are not operated, to the rate of royalty on coal mined, and the rules and regulations to be prescribed by the Secretary of the Interior, and preference shall be given to such parties in renewals of such leases: *And provided further*, That when, under the

customs and laws heretofore existing and prevailing in the Indian Territory, leases have been made of different groups or parcels of oil, coal, asphalt, or other mineral deposits, and possession has been taken thereunder and improvements made for the development of such oil, coal, asphalt, or other mineral deposits, by lessees or their assigns, which have resulted in the production of oil, coal, asphalt, or other mineral in commercial quantities by such lessees or their assigns, then such parties in possession shall be given preference in the making of new leases, in compliance with the directions of the Secretary of the Interior; and in making new leases due consideration shall be made for the improvements of such lessees, and in all cases of the leasing or renewal of leases of oil, coal, asphalt, and other mineral deposits preference shall be given to parties in possession who have made improvements. The rate of royalty to be paid by all lessees shall be fixed by the Secretary of the Interior.

SEC. 14. That the inhabitants of any city or town in said Territory having two hundred or more residents therein may proceed, by petition to the United States court in the district in which such city or town is located, to have the same incorporated as provided in chapter twenty-nine of Mansfield's Digest of the Statutes of Arkansas, if not already incorporated thereunder; and the clerk of said court shall record all papers and perform all the acts required of the recorder of the county, or the clerk of the county court, or the secretary of state, necessary for the incorporation of any city or town, as provided in Mansfield's Digest, and such city or town government, when so authorized and organized, shall possess all the powers and exercise all the rights of similar municipalities in said State of Arkansas. All male inhabitants of such cities and towns over the age of twenty-one years, who are citizens of the United States or of either of said tribes, who have resided therein more than six months next before any election held under this Act, shall be qualified voters at such election. That mayors of such cities and towns, in addition to their other powers, shall have the same jurisdiction in all civil and criminal cases arising within the corporate limits of such cities and towns as, and coextensive with, United States commissioners in the Indian Territory, and may charge, collect, and retain the same fees as such commissioners now collect and account for to the United States; and the marshal or other executive officer of such city or town may execute all processes issued in the exercise of the jurisdiction hereby conferred, and charge and collect the same fees for similar services, as are allowed to constables under the laws now in force in said Territory.

All elections shall be conducted under the provisions of chapter fifty-six of said digest, entitled "Elections," so far as the same may be applicable; and all inhabitants of such cities and towns, without regard to race, shall be subject to all laws and ordinances of such city or town governments, and shall have equal rights, privileges, and protection therein. Such city or town governments shall in no case have any authority to impose upon or levy any tax against any lands in said cities or towns until after title is secured from the tribe; but all other property, including all improvements on town lots, which for the purposes of this Act shall be deemed and considered personal property, together with all occupations and privileges, shall be subject to taxation. And the councils of such cities and towns, for the support of the same and for school and other public purposes, may provide by ordinance for the assessment, levy, and collection annually of a tax upon such property, not to exceed in the aggregate two per centum of

the assessed value thereof, in manner provided in chapter one hundred and twenty-nine of said digest, entitled "Revenue," and for such purposes may also impose a tax upon occupations and privileges.

Such councils may also establish and maintain free schools in such cities and towns, under the provisions of sections sixty-two hundred and fifty-eight to sixty-two hundred and seventy-six, inclusive, of said digest, and may exercise all the powers conferred upon special school districts in cities and towns in the State of Arkansas by the laws of said State when the same are not in conflict with the provisions of this Act.

For the purposes of this section all the laws of said State of Arkansas herein referred to, so far as applicable, are hereby put in force in said Territory; and the United States court therein shall have jurisdiction to enforce the same, and to punish any violation thereof, and the city or town councils shall pass such ordinances as may be necessary for the purpose of making the laws extended over them applicable to them and for carrying the same into effect: *Provided*, That nothing in this Act, or in the laws of the State of Arkansas, shall authorize or permit the sale, or exposure for sale, of any intoxicating liquor in said Territory, or the introduction thereof into said Territory; and it shall be the duty of the district attorneys in said Territory and the officers of such municipalities to prosecute all violators of the laws of the United States relating to the introduction of intoxicating liquors into said Territory, or to their sale, or exposure for sale, therein: *Provided further*, That owners and holders of leases or improvements in any city or town shall be privileged to transfer the same.

SEC. 15. That there shall be a commission in each town for each one of the Chickasaw, Choctaw, Creek, and Cherokee tribes, to consist of one member to be appointed by the executive of the tribe, who shall not be interested in town property, other than his home; one person to be appointed by the Secretary of the Interior, and one member to be selected by the town. And if the executive of the tribe or the town fail to select members as aforesaid, they may be selected and appointed by the Secretary of the Interior.

Said commissions shall cause to be surveyed and laid out town sites where towns with a present population of two hundred or more are located, conforming to the existing survey so far as may be, with proper and necessary streets, alleys, and public grounds, including parks and cemeteries, giving to each town such territory as may be required for its present needs and reasonable prospective growth; and shall prepare correct plats thereof, and file one with the Secretary of the Interior, one with the clerk of the United States court, one with the authorities of the tribe, and one with the town authorities. And all town lots shall be appraised by said commission at their true value, excluding improvements; and separate appraisements shall be made of all improvements thereon; and no such appraisalment shall be effective until approved by the Secretary of the Interior, and in case of disagreement by the members of such commission as to the value of any lot, said Secretary may fix the value thereof.

The owner of the improvements upon any town lot, other than fencing, tillage, or temporary buildings, may deposit in the United States Treasury, Saint Louis, Missouri, one-half of such appraised value; ten per centum within two months and fifteen per centum more within six months after notice of appraisalment, and the remainder in three equal annual installments thereafter, depositing with the Secretary of the Interior one receipt for each payment, and one with the authorities of

the tribe, and such deposit shall be deemed a tender to the tribe of the purchase money for such lot.

If the owner of such improvements on any lot fails to make deposit of the purchase money as aforesaid, then such lot may be sold in the manner herein provided for the sale of unimproved lots; and when the purchaser thereof has complied with the requirements herein for the purchase of improved lots he may, by petition, apply to the United States court within whose jurisdiction the town is located for condemnation and appraisalment of such improvements, and petitioner shall, after judgment, deposit the value so fixed with the clerk of the court; and thereupon the defendant shall be required to accept same in full payment for his improvements or remove same from the lot within such time as may be fixed by the court.

All town lots not improved as aforesaid shall belong to the tribe, and shall be in like manner appraised, and, after approval by the Secretary of the Interior, and due notice, sold to the highest bidder at public auction by said commission, but not for less than their appraised value, unless ordered by the Secretary of the Interior; and purchasers may in like manner make deposits of the purchase money with like effect, as in case of improved lots.

The inhabitants of any town may, within one year after the completion of the survey thereof, make such deposit of ten dollars per acre for parks, cemeteries, and other public grounds laid out by said commission with like effect as for improved lots; and such parks and public grounds shall not be used for any purpose until such deposits are made.

The person authorized by the tribe or tribes may execute or deliver to any such purchaser, without expense to him, a deed conveying to him the title to such lands or town lots; and thereafter the purchase money shall become the property of the tribe; and all such moneys shall, when titles to all the lots in the towns belonging to any tribe have been thus perfected, be paid per capita to the members of the tribe: *Provided, however,* That in those town sites designated and laid out under the provisions of this Act where coal leases are now being operated and coal is being mined there shall be reserved from appraisalment and sale all lots occupied by houses of miners actually engaged in mining, and only while they are so engaged, and in addition thereto a sufficient amount of land, to be determined by the appraisers, to furnish homes for the men actually engaged in working for the lessees operating said mines and a sufficient amount for all buildings and machinery for mining purposes: *And provided further,* That when the lessees shall cease to operate said mines, then, and in that event, the lots of land so reserved shall be disposed of as provided for in this Act.

SEC. 16. That it shall be unlawful for any person, after the passage of this Act, except as hereinafter provided, to claim, demand, or receive, for his own use or for the use of anyone else, any royalty on oil, coal, asphalt, or other mineral, or on any timber or lumber, or any other kind of property whatsoever, or any rents on any lands or property belonging to any one of said tribes or nations in said Territory, or for anyone to pay to any individual any such royalty or rents or any consideration therefor whatsoever; and all royalties and rents hereafter payable to the tribe shall be paid, under such rules and regulations as may be prescribed by the Secretary of the Interior, into the Treasury of the United States to the credit of the tribe to which they belong: *Provided,* That where any citizen shall be in possession of only such amount of agricultural or grazing lands as would be his just and reasonable share of the lands of his nation or tribe and that to which his wife and minor

children are entitled, he may continue to use the same or receive the rents thereon until allotment has been made to him: *Provided further*, That nothing herein contained shall impair the rights of any member of a tribe to dispose of any timber contained on his, her, or their allotment.

SEC. 17. That it shall be unlawful for any citizen of any one of said tribes to inclose or in any manner, by himself or through another, directly or indirectly, to hold possession of any greater amount of lands or other property belonging to any such nation or tribe than that which would be his approximate share of the lands belonging to such nation or tribe and that of his wife and his minor children as per allotment herein provided; and any person found in such possession of lands or other property in excess of his share and that of his family, as aforesaid, or having the same in any manner inclosed, at the expiration of nine months after the passage of this Act, shall be deemed guilty of a misdemeanor.

SEC. 18. That any person convicted of violating any of the provisions of sections sixteen and seventeen of this Act shall be deemed guilty of a misdemeanor and punished by a fine of not less than one hundred dollars, and shall stand committed until such fine and costs are paid (such commitment not to exceed one day for every two dollars of said fine and costs), and shall forfeit possession of any property in question, and each day on which such offense is committed or continues to exist shall be deemed a separate offense. And the United States district attorneys in said Territory are required to see that the provisions of said sections are strictly enforced and they shall at once proceed to dispossess all persons of such excessive holding of lands and to prosecute them for so unlawfully holding the same.

SEC. 19. That no payment of any moneys on any account whatever shall hereafter be made by the United States to any of the tribal governments or to any officer thereof for disbursement, but payments of all sums to members of said tribes shall be made under direction of the Secretary of the Interior by an officer appointed by him; and per capita payments shall be made direct to each individual in lawful money of the United States, and the same shall not be liable to the payment of any previously contracted obligation.

SEC. 20. That the commission hereinbefore named shall have authority to employ, with approval of the Secretary of the Interior, all assistance necessary for the prompt and efficient performance of all duties herein imposed, including competent surveyors to make allotments, and to do any other needed work, and the Secretary of the Interior may detail competent clerks to aid them in the performance of their duties.

SEC. 21. That in making rolls of citizenship of the several tribes, as required by law, the Commission to the Five Civilized Tribes is authorized and directed to take the roll of Cherokee citizens of eighteen hundred and eighty (not including freedmen) as the only roll intended to be confirmed by this and preceding Acts of Congress, and to enroll all persons now living whose names are found on said roll, and all descendants born since the date of said roll to persons whose names are found thereon; and all persons who have been enrolled by the tribal authorities who have heretofore made permanent settlement in the Cherokee Nation whose parents, by reason of their Cherokee blood, have been lawfully admitted to citizenship by the tribal authorities, and who were minors when their parents were so admitted; and they shall investigate the right of all other persons whose names are found on any other rolls and omit all such as may have been placed thereon by fraud or without

authority of law, enrolling only such as may have lawful right thereto, and their descendants born since such rolls were made, with such intermarried white persons as may be entitled to citizenship under Cherokee laws.

It shall make a roll of Cherokee freedmen in strict compliance with the decree of the Court of Claims rendered the third day of February, eighteen hundred and ninety-six.

Said commission is authorized and directed to make correct rolls of the citizens by blood of all the other tribes, eliminating from the tribal rolls such names as may have been placed thereon by fraud or without authority of law, enrolling such only as may have lawful right thereto, and their descendants born since such rolls were made, with such intermarried white persons as may be entitled to Choctaw and Chickasaw citizenship under the treaties and the laws of said tribes.

Said commission shall have authority to determine the identity of Choctaw Indians claiming rights in the Choctaw lands under article fourteen of the treaty between the United States and the Choctaw Nation concluded September twenty-seventh, eighteen hundred and thirty, and to that end they may administer oaths, examine witnesses, and perform all other acts necessary thereto and make report to the Secretary of the Interior.

The roll of Creek freedmen made by J. W. Dunn, under authority of the United States, prior to March fourteenth, eighteen hundred and sixty-seven, is hereby confirmed, and said commission is directed to enroll all persons now living whose names are found on said rolls, and all descendants born since the date of said roll to persons whose names are found thereon, with such other persons of African descent as may have been rightfully admitted by the lawful authorities of the Creek Nation.

It shall make a correct roll of all Choctaw freedmen entitled to citizenship under the treaties and laws of the Choctaw Nation, and all their descendants born to them since the date of the treaty.

It shall make a correct roll of Chickasaw freedmen entitled to any rights or benefits under the treaty made in eighteen hundred and sixty-six between the United States and the Choctaw and Chickasaw tribes and their descendants born to them since the date of said treaty and forty acres of land, including their present residences and improvements, shall be allotted to each, to be selected, held, and used by them until their rights under said treaty shall be determined in such manner as shall be hereafter provided by Congress.

The several tribes may, by agreement, determine the right of persons who for any reason may claim citizenship in two or more tribes, and to allotment of lands and distribution of moneys belonging to each tribe; but if no such agreement be made, then such claimant shall be entitled to such rights in one tribe only, and may elect in which tribe he will take such right; but if he fail or refuse to make such selection in due time, he shall be enrolled in the tribe with whom he has resided, and there be given such allotment and distributions, and not elsewhere.

No person shall be enrolled who has not heretofore removed to and in good faith settled in the nation in which he claims citizenship: *Provided, however,* That nothing contained in this Act shall be so construed as to militate against any rights or privileges which the Mississippi Choctaws may have under the laws of or the treaties with the United States.

Said commission shall make such rolls descriptive of the persons thereon, so that they may be thereby identified, and it is authorized to

take a census of each of said tribes, or to adopt any other means by them deemed necessary to enable them to make such rolls. They shall have access to all rolls and records of the several tribes, and the United States court in Indian Territory shall have jurisdiction to compel the officers of the tribal governments and custodians of such rolls and records to deliver same to said commission, and on their refusal or failure to do so to punish them as for contempt; as also to require all citizens of said tribes, and persons who should be so enrolled, to appear before said commission for enrollment, at such times and places as may be fixed by said commission, and to enforce obedience of all others concerned, so far as the same may be necessary, to enable said commission to make rolls as herein required, and to punish anyone who may in any manner or by any means obstruct said work.

The rolls so made, when approved by the Secretary of the Interior, shall be final, and the persons whose names are found thereon, with their descendants thereafter born to them, with such persons as may intermarry according to tribal laws, shall alone constitute the several tribes which they represent.

The members of said commission shall, in performing all duties required of them by law, have authority to administer oaths, examine witnesses, and send for persons and papers; and any person who shall willfully and knowingly make any false affidavit or oath to any material fact or matter before any member of said commission, or before any other officer authorized to administer oaths, to any affidavit or other paper to be filed or oath taken before said commission, shall be deemed guilty of perjury, and on conviction thereof shall be punished as for such offense.

SEC. 22. That where members of one tribe, under intercourse laws, usages, or customs, have made homes within the limits and on the lands of another tribe they may retain and take allotment, embracing same under such agreement as may be made between such tribes respecting such settlers; but if no such agreement be made the improvements so made shall be appraised, and the value thereof, including all damages incurred by such settler incident to enforced removal, shall be paid to him immediately upon removal, out of any funds belonging to the tribe, or such settler, if he so desire, may make private sale of his improvements to any citizen of the tribe owning the lands: *Provided*, That he shall not be paid for improvements made on lands in excess of that to which he, his wife, and minor children are entitled to under this Act.

SEC. 23. That all leases of agricultural or grazing land belonging to any tribe made after the first day of January, eighteen hundred and ninety-eight, by the tribe or any member thereof shall be absolutely void, and all such grazing leases made prior to said date shall terminate on the first day of April, eighteen hundred and ninety-nine, and all such agricultural leases shall terminate on January first, nineteen hundred; but this shall not prevent individuals from leasing their allotments when made to them as provided in this Act, nor from occupying or renting their proportionate shares of the tribal lands until the allotments herein provided for are made.

SEC. 24. That all moneys paid into the United States Treasury at Saint Louis, Missouri, under provisions of this Act shall be placed to the credit of the tribe to which they belong; and the assistant United States treasurer shall give triplicate receipts therefor to the depositor.

SEC. 25. That before any allotment shall be made of lands in the Cherokee Nation, there shall be segregated therefrom by the commis-

sion heretofore mentioned, in separate allotments or otherwise, the one hundred and fifty-seven thousand six hundred acres purchased by the Delaware tribe of Indians from the Cherokee Nation under agreement of April eighth, eighteen hundred and sixty-seven, subject to the judicial determination of the rights of said descendants and the Cherokee Nation under said agreement. That the Delaware Indians residing in the Cherokee Nation are hereby authorized and empowered to bring suit in the Court of Claims of the United States, within sixty days after the passage of this Act, against the Cherokee Nation, for the purpose of determining the rights of said Delaware Indians in and to the lands and funds of said nation under their contract and agreement with the Cherokee Nation dated April eighth, eighteen hundred and sixty-seven; or the Cherokee Nation may bring a like suit against said Delaware Indians; and jurisdiction is conferred on said court to adjudicate and fully determine the same, with right of appeal to either party to the Supreme Court of the United States.

SEC. 26. That on and after the passage of this Act the laws of the various tribes or nations of Indians shall not be enforced at law or in equity by the courts of the United States in the Indian Territory.

SEC. 27. That the Secretary of the Interior is authorized to locate one Indian inspector in Indian Territory, who may, under his authority and direction, perform any duties required of the Secretary of the Interior by law, relating to affairs therein.

SEC. 28. That on the first day of July, eighteen hundred and ninety-eight, all tribal courts in Indian Territory shall be abolished, and no officer of said courts shall thereafter have any authority whatever to do or perform any act theretofore authorized by any law in connection with said courts, or to receive any pay for same; and all civil and criminal causes then pending in any such court shall be transferred to the United States court in said Territory by filing with the clerk of the court the original papers in the suit: *Provided*, That this section shall not be in force as to the Chickasaw, Choctaw, and Creek tribes or nations until the first day of October, eighteen hundred and ninety-eight.

SEC. 29. That the agreement made by the Commission to the Five Civilized Tribes with commissions representing the Choctaw and Chickasaw tribes of Indians on the twenty-third day of April, eighteen hundred and ninety-seven, as herein amended, is hereby ratified and confirmed, and the same shall be of full force and effect if ratified before the first day of December, eighteen hundred and ninety-eight, by a majority of the whole number of votes cast by the members of said tribes at an election held for that purpose; and the executives of said tribes are hereby authorized and directed to make public proclamation that said agreement shall be voted on at the next general election, or at any special election to be called by such executives for the purpose of voting on said agreement; and at the election held for such purpose all male members of each of said tribes qualified to vote under his tribal laws shall have the right to vote at the election precinct most convenient to his residence, whether the same be within the bounds of his tribe or not: *Provided*, That no person whose right to citizenship in either of said tribes or nations is now contested in original or appellate proceedings before any United States court shall be permitted to vote at said election: *Provided further*, That the votes cast in both said tribes or nations shall be forthwith returned duly certified by the precinct officers to the national secretaries of said tribes or nations, and shall be presented by said national secretaries to a board of commissioners consisting of the principal chief and national secretary of the

Choctaw Nation, the governor and national secretary of the Chickasaw Nation, and a member of the Commission to the Five Civilized Tribes, to be designated by the chairman of said commission; and said board shall meet without delay at Atoka, in the Indian Territory, and canvass and count said votes and make proclamation of the result; and if said agreement as amended be so ratified, the provisions of this Act shall then only apply to said tribes where the same do not conflict with the provisions of said agreement; but the provisions of said agreement, if so ratified, shall not in any manner affect the provisions of section fourteen of this Act, which said amended agreement is as follows:

This agreement, by and between the Government of the United States, of the first part, entered into in its behalf by the Commission to the Five Civilized Tribes, Henry L. Dawes, Frank C. Armstrong, Archibald S. McKennon, Thomas B. Cabaniss, and Alexander B. Montgomery, duly appointed and authorized thereunto, and the governments of the Choctaw and Chickasaw tribes or nations of Indians in the Indian Territory, respectively, of the second part, entered into in behalf of such Choctaw and Chickasaw governments, duly appointed and authorized thereunto, viz: Green McCurtain, J. S. Standley, N. B. Ainsworth, Ben Hampton, Wesley Anderson, Amos Henry, D. C. Garland, and A. S. Williams, in behalf of the Choctaw Tribe or Nation, and R. M. Harris, I. O. Lewis, Holmes Colbert, P. S. Mosely, M. V. Cheadle, R. L. Murray, William Perry, A. H. Colbert, and R. L. Boyd, in behalf of the Chickasaw Tribe or Nation.

ALLOTMENT OF LANDS.

Witnesseth, That in consideration of the mutual undertakings, herein contained, it is agreed as follows:

That all the lands within the Indian Territory belonging to the Choctaw and Chickasaw Indians shall be allotted to the members of said tribes so as to give to each member of these tribes so far as possible a fair and equal share thereof, considering the character and fertility of the soil and the location and value of the lands.

That all the lands set apart for town sites, and the strip of land lying between the city of Fort Smith, Arkansas, and the Arkansas and Poteau rivers, extending up said river to the mouth of Mill Creek; and six hundred and forty acres each, to include the buildings now occupied by the Jones Academy, Tushkahoma Female Seminary, Wheelock Orphan Seminary, and Armstrong Orphan Academy, and ten acres for the capitol building of the Choctaw Nation; one hundred and sixty acres each, immediately contiguous to and including the buildings known as Bloomfield Academy, Lebanon Orphan Home, Harley Institute, Rock Academy, and Collins Institute, and five acres for the capitol building in the Chickasaw Nation, and the use of one acre of land for each church house now erected outside of the towns, and eighty acres of land each for J. S. Murrow, H. R. Schermerhorn, and the widow of R. S. Bell, who have been laboring as missionaries in the Choctaw and Chickasaw nations since the year eighteen hundred and sixty-six, with the same conditions and limitations as apply to lands allotted to the members of the Choctaw and Chickasaw nations, and to be located on lands not occupied by a Choctaw or a Chickasaw, and a reasonable amount of land, to be determined by the town-site commission, to include all court-houses and jails and other public buildings not hereinbefore provided for, shall be exempted from division. And all coal and asphalt in or under the lands allotted and reserved from allotment shall be reserved for the sole use of

the members of the Choctaw and Chickasaw tribes, exclusive of freedmen: *Provided*, That where any coal or asphalt is hereafter opened on land allotted, sold, or reserved, the value of the use of the necessary surface for prospecting or mining, and the damage done to the other land and improvements, shall be ascertained under the direction of the Secretary of the Interior and paid to the allottee or owner of the land by the lessee or party operating the same, before operations begin. That in order to such equal division, the lands of the Choctaws and Chickasaws shall be graded and appraised so as to give to each member, so far as possible, an equal value of the land: *Provided further*, That the Commission to the Five Civilized Tribes shall make a correct roll of Chickasaw freedmen entitled to any rights or benefits under the treaty made in eighteen hundred and sixty-six between the United States and the Choctaw and Chickasaw tribes and their descendants born to them since the date of said treaty, and forty acres of land, including their present residences and improvements, shall be allotted to each, to be selected, held, and used by them until their rights under said treaty shall be determined, in such manner as shall hereafter be provided by act of Congress.

That the lands allotted to the Choctaw and Chickasaw freedmen are to be deducted from the portion to be allotted under this agreement to the members of the Choctaw and Chickasaw tribe so as to reduce the allotment to the Choctaws and Chickasaws by the value of the same.

That the said Choctaw and Chickasaw freedmen who may be entitled to allotments of forty acres each shall be entitled each to land equal in value to forty acres of the average land of the two nations.

That in the appraisement of the lands to be allotted the Choctaw and Chickasaw tribes shall each have a representative, to be appointed by their respective executives, to cooperate with the commission to the Five Civilized Tribes, or any one making appraisements under the direction of the Secretary of the Interior in grading and appraising the lands preparatory to allotment. And the land shall be valued in the appraisement as if in its original condition, excluding the improvements thereon.

That the appraisement and allotment shall be made under the direction of the Secretary of the Interior, and shall begin as soon as the progress of the surveys, now being made by the United States Government, will admit.

That each member of the Choctaw and Chickasaw tribes, including Choctaw and Chickasaw freedmen, shall, where it is possible, have the right to take his allotment on land, the improvements on which belong to him, and such improvements shall not be estimated in the value of his allotment. In the case of minor children, allotments shall be selected for them by their father, mother, guardian, or the administrator having charge of their estate, preference being given in the order named, and shall not be sold during his minority. Allotments shall be selected for prisoners, convicts, and incompetents by some suitable person akin to them, and due care taken that all persons entitled thereto have allotments made to them.

All the lands allotted shall be nontaxable while the title remains in the original allottee, but not to exceed twenty-one years from date of patent, and each allottee shall select from his allotment a homestead of one hundred and sixty acres, for which he shall have a separate patent, and which shall be inalienable for twenty-one years from date of patent. This provision shall also apply to the Choctaw and Chickasaw freedman to the extent of his allotment. Selections for home-

steads for minors to be made as provided herein in case of allotment, and the remainder of the lands allotted to said members shall be alienable for a price to be actually paid, and to include no former indebtedness or obligation—one-fourth of said remainder in one year, one-fourth in three years, and the balance of said alienable lands in five years from the date of the patent.

That all contracts looking to the sale or incumbrance in any way of the land of an allottee, except the sale hereinbefore provided, shall be null and void. No allottee shall lease his allotment, or any portion thereof, for a longer period than five years, and then without the privilege of renewal. Every lease which is not evidenced by writing, setting out specifically the terms thereof, or which is not recorded in the clerk's office of the United States court for the district in which the land is located, within three months after the date of its execution, shall be void, and the purchaser or lessee shall acquire no rights whatever by an entry or holding thereunder. And no such lease or any sale shall be valid as against the allottee unless providing to him a reasonable compensation for the lands sold or leased.

That all controversies arising between the members of said tribes as to their right to have certain lands allotted to them shall be settled by the commission making the allotments.

That the United States shall put each allottee in possession of his allotment and remove all persons therefrom objectionable to the allottee.

That the United States shall survey and definitely mark and locate the ninety-eighth (98th) meridian of west longitude between Red and Canadian rivers before allotment of the lands herein provided for shall begin.

MEMBERS' TITLES TO LANDS.

That as soon as practicable, after the completion of said allotments, the principal chief of the Choctaw Nation and the governor of the Chickasaw Nation shall jointly execute, under their hands and the seals of the respective nations, and deliver to each of the said allottees patents conveying to him all the right, title, and interest of the Choctaws and Chickasaws in and to the land which shall have been allotted to him in conformity with the requirements of this agreement, excepting all coal and asphalt in or under said land. Said patents shall be framed in accordance with the provisions of this agreement, and shall embrace the land allotted to such patentee and no other land, and the acceptance of his patents by such allottee shall be operative as an assent on his part to the allotment and conveyance of all the lands of the Choctaws and Chickasaws in accordance with the provisions of this agreement, and as a relinquishment of all his right, title, and interest in and to any and all parts thereof, except the land embraced in said patents, except also his interest in the proceeds of all lands, coal, and asphalt herein excepted from allotment.

That the United States shall provide by law for proper records of land titles in the territory occupied by the Choctaw and Chickasaw tribes.

RAILROADS.

The rights of way for railroads through the Choctaw and Chickasaw nations to be surveyed and set apart and platted to conform to the respective acts of Congress granting the same in cases where said rights of way are defined by such acts of Congress, but in cases where the acts of Congress do not define the same then Congress is memorialized

to definitely fix the width of said rights of way for station grounds and between stations, so that railroads now constructed through said nations shall have, as near as possible, uniform rights of way; and Congress is also requested to fix uniform rates of fare and freight for all railroads through the Choctaw and Chickasaw nations; branch railroads now constructed and not built according to acts of Congress to pay the same rates for rights of way and station grounds as main lines.

TOWN SITES.

It is further agreed that there shall be appointed a commission for each of the two nations. Each commission shall consist of one member, to be appointed by the executive of the tribe for which said commission is to act, who shall not be interested in town property other than his home, and one to be appointed by the President of the United States. Each of said commissions shall lay out town sites, to be restricted as far as possible to their present limits, where towns are now located in the nation for which said commission is appointed. Said commission shall have prepared correct and proper plats of each town, and file one in the clerk's office of the United States district court for the district in which the town is located, and one with the principal chief or governor of the nation in which the town is located, and one with the Secretary of the Interior, be approved by him before the same shall take effect. When said towns are so laid out, each lot on which permanent, substantial, and valuable improvements, other than fences, tillage, and temporary houses, have been made, shall be valued by the commission provided for the nation in which the town is located at the price a fee-simple title to the same would bring in the market at the time the valuation is made, but not to include in such value the improvements thereon. The owner of the improvements on each lot shall have the right to buy one residence and one business lot at fifty per centum of the appraised value of such improved property, and the remainder of such improved property at sixty-two and one-half per centum of the said market value within sixty days from date of notice served on him that such lot is for sale, and if he purchases the same he shall, within ten days from his purchase, pay into the Treasury of the United States one-fourth of the purchase price, and the balance in three equal annual installments, and when the entire sum is paid shall be entitled to a patent for the same. In case the two members of the commission fail to agree as to the market value of any lot, or the limit or extent of said town, either of said commissioners may report any such disagreement to the judge of the district in which such town is located, who shall appoint a third member to act with said commission, who is not interested in town lots, who shall act with them to determine said value.

If such owner of the improvements on any lot fails within sixty days to purchase and make the first payment on same, such lot, with the improvements thereon, shall be sold at public auction to the highest bidder, under the direction of the aforesaid commission, and the purchaser at such sale shall pay to the owner of the improvements the price for which said lot shall be sold, less sixty-two and one-half per cent of said appraised value of the lot, and shall pay the sixty-two and one-half per cent of said appraised value into United States Treasury, under regulations to be established by the Secretary of the Interior, in four installments, as hereinbefore provided. The commission shall have the right to reject any bid on such lot which they consider below its value.

All lots not so appraised shall be sold from time to time at public auction (after proper advertisement) by the commission for the nation in which the town is located, as may seem for the best interest of the nations and the proper development of each town, the purchase price to be paid in four installments as hereinbefore provided for improved lots. The commission shall have the right to reject any bid for such lots which they consider below its value.

All the payments herein provided for shall be made under the direction of the Secretary of the Interior into the United States Treasury, a failure of sixty days to make any one payment to be a forfeiture of all payments made and all rights under the contract: *Provided*, That the purchaser of any lot shall have the option of paying the entire price of the lot before the same is due.

No tax shall be assessed by any town government against any town lot unsold by the commission, and no tax levied against a lot sold, as herein provided, shall constitute a lien on same till the purchase price thereof has been fully paid to the nation.

The money paid into the United States Treasury for the sale of all town lots shall be for the benefit of the members of the Choctaw and Chickasaw tribes (freedmen excepted), and at the end of one year from the ratification of this agreement, and at the end of each year thereafter, the funds so accumulated shall be divided and paid to the Choctaws and Chickasaws (freedmen excepted), each member of the two tribes to receive an equal portion thereof.

That no law or ordinance shall be passed by any town which interferes with the enforcement of or is in conflict with the laws of the United States in force in said Territory, and all persons in such towns shall be subject to said laws, and the United States agrees to maintain strict laws in the territory of the Choctaw and Chickasaw tribes against the introduction, sale, barter, or giving away of liquors and intoxicants of any kind or quality.

That said commission shall be authorized to locate, within a suitable distance from each town site, not to exceed five acres to be used as a cemetery, and when any town has paid into the United States Treasury, to be part of the fund arising from the sale of town lots, ten dollars per acre therefor, such town shall be entitled to a patent for the same as herein provided for titles to allottees, and shall dispose of same at reasonable prices in suitable lots for burial purposes, the proceeds derived from such sales to be applied by the town government to the proper improvement and care of said cemetery.

That no charge or claim shall be made against the Choctaw or Chickasaw tribes by the United States for the expenses of surveying and platting the lands and town sites, or for grading, appraising, and allotting the lands, or for appraising and disposing of the town lots as herein provided.

That the land adjacent to Fort Smith and lands for court-houses, jails, and other public purposes, excepted from allotment shall be disposed of in the same manner and for the same purposes as provided for town lots herein, but not till the Choctaw and Chickasaw councils shall direct such disposition to be made thereof, and said land adjacent thereto shall be placed under the jurisdiction of the city of Fort Smith, Arkansas, for police purposes.

There shall be set apart and exempted from appraisement and sale in the towns, lots upon which churches and parsonages are now built and occupied, not to exceed fifty feet front and one hundred feet deep for each church or parsonage: *Provided*, That such lots shall only be used

for churches and parsonages, and when they ceased to be used shall revert to the members of the tribes to be disposed of as other town lots: *Provided further*, That these lots may be sold by the churches for which they are set apart if the purchase money therefor is invested in other lot or lots in the same town, to be used for the same purpose and with the same conditions and limitations.

It is agreed that all the coal and asphalt within the limits of the Choctaw and Chickasaw nations shall remain and be the common property of the members of the Choctaw and Chickasaw tribes (freedmen excepted), so that each and every member shall have an equal and undivided interest in the whole; and no patent provided for in this agreement shall convey any title thereto. The revenues from coal and asphalt, or so much as shall be necessary, shall be used for the education of the children of Indian blood of the members of said tribes. Such coal and asphalt mines as are now in operation, and all others which may hereafter be leased and operated, shall be under the supervision and control of two trustees, who shall be appointed by the President of the United States, one on the recommendation of the Principal Chief of the Choctaw Nation, who shall be a Choctaw by blood, whose term shall be for four years, and one on the recommendation of the Governor of the Chickasaw Nation, who shall be a Chickasaw by blood, whose term shall be for two years; after which the term of appointees shall be four years. Said trustees, or either of them, may, at any time, be removed by the President of the United States for good cause shown. They shall each give bond for the faithful performance of their duties, under such rules as may be prescribed by the Secretary of the Interior. Their salaries shall be fixed and paid by their respective nations, each of whom shall make full report of all his acts to the Secretary of the Interior quarterly. All such acts shall be subject to the approval of said Secretary.

All coal and asphalt mines in the two nations, whether now developed, or to be hereafter developed, shall be operated, and the royalties therefrom paid into the Treasury of the United States, and shall be drawn therefrom under such rules and regulations as shall be prescribed by the Secretary of the Interior.

All contracts made by the National Agents of the Choctaw and Chickasaw Nations for operating coal and asphalt, with any person or corporation, which were, on April twenty-third, eighteen hundred and ninety-seven, being operated in good faith are hereby ratified and confirmed, and the lessee shall have the right to renew the same when they expire, subject to all the provisions of this Act.

All agreements heretofore made by any person or corporation with any member or members of the Choctaw or Chickasaw nations, the object of which was to obtain such member or members' permission to operate coal or asphalt, are hereby declared void: *Provided*, That nothing herein contained shall impair the rights of any holder or owner of a leasehold interest in any oil, coal rights, asphalt, or mineral which have been assented to by act of Congress, but all such interests shall continue unimpaired hereby and shall be assured by new leases from such trustees of coal or asphalt claims described therein, by application to the trustees within six months after the ratification of this agreement, subject, however, to payment of advance royalties herein provided for.

All leases under this agreement shall include the coal or asphaltum, or other mineral, as the case may be, in or under nine hundred and sixty acres, which shall be in a square as nearly as possible, and shall be for thirty years. The royalty on coal shall be fifteen cents per ton

of two thousand pounds on all coal mined, payable on the 25th day of the month next succeeding that in which it is mined. Royalty on asphalt shall be sixty cents per ton, payable same as coal: *Provided*, That the Secretary of the Interior may reduce or advance royalties on coal and asphalt when he deems it for the best interests of the Choctaws and Chickasaws to do so. No royalties shall be paid except into the United States Treasury as herein provided.

All lessees shall pay on each coal or asphalt claim at the rate of one hundred dollars per annum, in advance, for the first and second years; two hundred dollars per annum, in advance, for the third and fourth years; and five hundred dollars for each succeeding year thereafter. All such payments shall be treated as advanced royalty on the mine or claim on which they are made, and shall be a credit as royalty when each said mine is developed and operated, and its production is in excess of such guaranteed annual advance payments, and all persons having coal leases must pay said annual advanced payments on each claim whether developed or undeveloped: *Provided, however*, That should any lessee neglect or refuse to pay such advanced annual royalty for the period of sixty days after the same becomes due and payable on any lease, the lease on which default is made shall become null and void, and the royalties paid in advance thereon shall then become and be the money and property of the Choctaw and Chickasaw nations.

In surface, the use of which is reserved to present coal operators, shall be included such lots in towns as are occupied by lessees' houses—either occupied by said lessees' employees, or as offices or warehouses: *Provided, however*, That in those town sites designated and laid out under the provision of this agreement where coal leases are now being operated and coal is being mined, there shall be reserved from appraisal and sale all lots occupied by houses of miners actually engaged in mining, and only while they are so engaged, and in addition thereto a sufficient amount of land, to be determined by the town-site board of appraisers, to furnish homes for the men actually engaged in working for the lessees operating said mines, and a sufficient amount for all buildings and machinery for mining purposes: *And provided further*, That when the lessees shall cease to operate said mines, then and in that event the lots of land so reserved shall be disposed of by the coal trustees for the benefit of the Choctaw and Chickasaw tribes.

That whenever the members of the Choctaw and Chickasaw tribes shall be required to pay taxes for the support of schools, then the fund arising from such royalties shall be disposed of for the equal benefit of their members (freedmen excepted) in such manner as the tribes may direct.

It is further agreed that the United States courts now existing, or that may hereafter be created, in the Indian Territory shall have exclusive jurisdiction of all controversies growing out of the titles, ownership, occupation, possession, or use of real estate, coal, and asphalt in the territory occupied by the Choctaw and Chickasaw tribes; and of all persons charged with homicide, embezzlement, bribery, and embracery, breaches, or disturbances of the peace, and carrying weapons, hereafter committed in the territory of said tribes, without reference to race or citizenship of the person or persons charged with such crime; and any citizen or officer of the Choctaw or Chickasaw nations charged with such crime shall be tried, and, if convicted, punished as though he were a citizen or officer of the United States.

And sections sixteen hundred and thirty-six to sixteen hundred and forty-four, inclusive, entitled "Embezzlement," and sections seventeen

hundred and eleven to seventeen hundred and eighteen, inclusive, entitled "Bribery and Embracery," of Mansfield's Digest of the laws of Arkansas, are hereby extended over and put in force in the Choctaw and Chickasaw nations; and the word "officer," where the same appears in said laws, shall include all officers of the Choctaw and Chickasaw governments; and the fifteenth section of the Act of Congress, entitled "An Act to establish United States courts in the Indian Territory, and for other purposes," approved March first, eighteen hundred and eighty-nine, limiting jurors to citizens of the United States, shall be held not to apply to United States courts in the Indian Territory held within the limits of the Choctaw and Chickasaw nations; and all members of the Choctaw and Chickasaw tribes, otherwise qualified, shall be competent jurors in said courts: *Provided*, That whenever a member of the Choctaw and Chickasaw nations is indicted for homicide, he may, within thirty days after such indictment and his arrest thereon, and before the same is reached for trial, file with the clerk of the court in which he is indicted, his affidavit that he can not get a fair trial in said court; and it thereupon shall be the duty of the judge of said court to order a change of venue in such case to the United States district court for the western district of Arkansas, at Fort Smith, Arkansas, or to the United States district court for the eastern district of Texas, at Paris, Texas, always selecting the court that in his judgment is nearest or most convenient to the place where the crime charged in the indictment is supposed to have been committed, which courts shall have jurisdiction to try the case; and in all said civil suits said courts shall have full equity powers; and whenever it shall appear to said court, at any stage in the hearing of any case, that the tribe is in any way interested in the subject-matter in controversy, it shall have power to summon in said tribe and make the same a party to the suit and proceed therein in all respects as if such tribe were an original party thereto; but in no case shall suit be instituted against the tribal government without its consent.

It is further agreed that no act, ordinance, or resolution of the council of either the Choctaw or Chickasaw tribes, in any manner affecting the land of the tribe, or of the individuals, after allotment, or the moneys or other property of the tribe or citizens thereof (except appropriations for the regular and necessary expenses of the government of the respective tribes), or the rights of any persons to employ any kind of labor, or the rights of any persons who have taken or may take the oath of allegiance to the United States, shall be of any validity until approved by the President of the United States. When such acts, ordinances, or resolutions passed by the council of either of said tribes shall be approved by the governor thereof, then it shall be the duty of the national secretary of said tribe to forward them to the President of the United States, duly certified and sealed, who shall, within thirty days after their reception, approve or disapprove the same. Said acts, ordinances, or resolutions, when so approved, shall be published in at least two newspapers having a bona fide circulation in the tribe to be affected thereby, and when disapproved shall be returned to the tribe enacting the same.

It is further agreed, in view of the modification of legislative authority and judicial jurisdiction herein provided, and the necessity of the continuance of the tribal governments so modified, in order to carry out the requirements of this agreement, that the same shall continue for the period of eight years from the fourth day of March, eighteen hundred and ninety-eight. This stipulation is made in the belief that the

tribal governments so modified will prove so satisfactory that there will be no need or desire for further change till the lands now occupied by the Five Civilized Tribes shall, in the opinion of Congress, be prepared for admission as a State to the Union. But this provision shall not be construed to be in any respect an abdication by Congress of power at any time to make needful rules and regulations respecting said tribes.

That all per capita payments hereafter made to the members of the Choctaw or Chickasaw nations shall be paid directly to each individual member by a bonded officer of the United States, under the direction of the Secretary of the Interior, which officer shall be required to give strict account for such disbursements to said Secretary.

That the following sum be, and is hereby, appropriated, out of any money in the Treasury not otherwise appropriated, for fulfilling treaty stipulations with the Chickasaw Nation of Indians, namely:

For arrears of interest, at five per centum per annum, from December thirty-first, eighteen hundred and forty, to June thirtieth, eighteen hundred and eighty-nine, on one hundred and eighty-four thousand one hundred and forty-three dollars and nine cents of the trust fund of the Chickasaw Nation erroneously dropped from the books of the United States prior to December thirty-first, eighteen hundred and forty, and restored December twenty-seventh, eighteen hundred and eighty-seven, by the award of the Secretary of the Interior, under the fourth article of the treaty of June twenty-second, eighteen hundred and fifty-two, and for arrears of interest at five per centum per annum, from March eleventh, eighteen hundred and fifty, to March third, eighteen hundred and ninety, on fifty-six thousand and twenty-one dollars and forty-nine cents of the trust fund of the Chickasaw Nation erroneously dropped from the books of the United States March eleventh, eighteen hundred and fifty, and restored December twenty-seventh, eighteen hundred and eighty-seven, by the award of the Secretary of the Interior, under the fourth article of the treaty of June twenty-second, eighteen hundred and fifty-two, five hundred and fifty-eight thousand five hundred and twenty dollars and fifty-four cents, to be placed to the credit of the Chickasaw Nation with the fund to which it properly belongs: *Provided*, That if there be any attorneys' fees to be paid out of same, on contract heretofore made and duly approved by the Secretary of the Interior, the same is authorized to be paid by him.

It is further agreed that the final decision of the courts of the United States in the case of the Choctaw Nation and the Chickasaw Nation against the United States and the Wichita and affiliated bands of Indians, now pending, when made, shall be conclusive as the basis of settlement as between the United States and said Choctaw and Chickasaw nations for the remaining lands in what is known as the "Leased District," namely, the land lying between the ninety-eighth and one hundredth degrees of west longitude and between the Red and Canadian rivers, leased to the United States by the treaty of eighteen hundred and fifty-five, except that portion called the Cheyenne and Arapahoe country, heretofore acquired by the United States, and all final judgments rendered against said nations in any of the courts of the United States in favor of the United States or any citizen thereof shall first be paid out of any sum hereafter found due said Indians for any interest they may have in the so-called leased district.

It is further agreed that all of the funds invested, in lieu of investment, treaty funds, or otherwise, now held by the United States in trust for the Choctaw and Chickasaw tribes, shall be capitalized within

one year after the tribal governments shall cease, so far as the same may legally be done, and be appropriated and paid, by some officer of the United States appointed for the purpose, to the Choctaws and Chickasaws (freedmen excepted) per capita, to aid and assist them in improving their homes and lands.

It is further agreed that the Choctaws and Chickasaws, when their tribal governments cease, shall become possessed of all the rights and privileges of citizens of the United States.

ORPHAN LANDS.

It is further agreed that the Choctaw orphan lands in the State of Mississippi, yet unsold, shall be taken by the United States at one dollar and twenty-five cents (\$1.25) per acre, and the proceeds placed to the credit of the Choctaw orphan fund in the Treasury of the United States, the number of acres to be determined by the General Land Office.

In witness whereof the said commissioners do hereunto affix their names at Atoka, Indian Territory, this the twenty-third day of April, eighteen hundred and ninety-seven.

H. M. JACOWAY, Jr.,
Secretary, Five Tribes Commission.

SEC. 30. That the agreement made by the Commission to the Five Civilized Tribes with the commission representing the Muscogee (or Creek) tribe of Indians on the twenty-seventh day of September, eighteen hundred and ninety-seven, as herein amended, is hereby ratified and confirmed, and the same shall be of full force and effect if ratified before the first day of December, eighteen hundred and ninety-eight, by a majority of the votes cast by the members of said tribe at an election to be held for that purpose; and the executive of said tribe is authorized and directed to make public proclamation that said agreement shall be voted on at the next general election, to be called by such executive for the purpose of voting on said agreement; and if said agreement as amended be so ratified, the provisions of this Act shall then only apply to said tribe where the same do not conflict with the provisions of said agreement; but the provisions of said agreement, if so ratified, shall not in any manner affect the provisions of section fourteen of this Act, which said amended agreement is as follows:

This agreement, by and between the Government of the United States of the first part, entered into in its behalf by the Commission to the Five Civilized Tribes, Henry L. Dawes, Frank C. Armstrong, Archibald S. McKennon, Alexander B. Montgomery, and Tams Bixby, duly

appointed and authorized thereunto, and the government of the Muscogee or Creek Nation in the Indian Territory of the second part, entered into in behalf of such Muscogee or Creek government, by its commission, duly appointed and authorized thereunto, viz, Pleasant Porter, Joseph Mingo, David N. Hodge, George A. Alexander, Roland Brown, William A. Sapulpa, and Conchartie Micco,

Witnesseth, That in consideration of the mutual undertakings herein contained, it is agreed as follows:

GENERAL ALLOTMENT OF LAND.

1. There shall be allotted out of the lands owned by the Muscogee or Creek Indians in the Indian Territory to each citizen of said nation one hundred and sixty acres of land. Each citizen shall have the right, so far as possible, to take his one hundred and sixty acres so as to include the improvements which belong to him, but such improvements shall not be estimated in the value fixed on his allotment, provided any citizen may take any land not already selected by another; but if such land, under actual cultivation, has on it any lawful improvements, he shall pay the owner of said improvements for same, the value to be fixed by the commission appraising the land. In the case of a minor child, allotment shall be selected for him by his father, mother, guardian, or the administrator having charge of his estate, preference being given in the order named, and shall not be sold during his minority. Allotments shall be selected for prisoners, convicts, and incompetents by some suitable person akin to them, and due care shall be taken that all persons entitled thereto shall have allotments made to them.

2. Each allotment shall be appraised at what would be its present value, if unimproved, considering the fertility of the soil and its location, but excluding the improvements, and each allottee shall be charged with the value of his allotment in the future distribution of any funds of the nation arising from any source whatever, so that each member of the nation shall be made equal in the distribution of the lands and moneys belonging to the nation, provided that the minimum valuation to be placed upon any land in the said nation shall be one dollar and twenty-five cents (\$1.25) per acre.

3. In the appraisement of the said allotment, said nation may have a representative to cooperate with a commission, or a United States officer, designated by the President of the United States, to make the appraisement. Appraisements and allotments shall be made under the direction of the Secretary of the Interior, and begin as soon as an authenticated roll of the citizens of the said nation has been made. All citizens of said nation, from and after the passage of this Act, shall be entitled to select from the lands of said nation an amount equal to one hundred and sixty acres, and use and occupy the same until the allotments therein provided are made.

4. All controversies arising between the members of said nation as to their rights to have certain lands allotted to them shall be settled by the commission making allotments.

5. The United States shall put each allottee in unrestricted possession of his allotment and remove therefrom all persons objectionable to the allottee.

6. The excess of lands after allotment is completed, all funds derived from town sites, and all other funds accruing under the provisions of this agreement shall be used for the purpose of equalizing allotments, valued as herein provided, and if the same be found insufficient for such

purpose, the deficiency shall be supplied from other funds of the nation upon dissolution of its tribal relations with the United States, in accordance with the purposes and intent of this agreement.

7. The residue of the lands, with the improvements thereon, if any there be, shall be appraised separately, under the direction of the Secretary of the Interior, and said lands and improvements sold in tracts of not to exceed one hundred and sixty acres to one person, to the highest bidder, at public auction, for not less than the appraised value per acre of land; and after deducting the appraised value of the lands, the remainder of the purchase money shall be paid to the owners of the improvement.

8. Patents to all lands sold shall be issued in the same manner as to allottees.

SPECIAL ALLOTMENTS.

9. There shall be allotted and patented one hundred and sixty acres each to Mrs. A. E. W. Robertson and Mrs. H. F. Buckner (nee Grayson) as special recognition of their services as missionaries among the people of the Creek Nation.

10. Harrell Institute, Henry Kendall College, and Nazareth Institute, in Muscogee, and Baptist University, near Muscogee, shall have free of charge, to be allotted and patented to said institutions or to the churches to which they belong, the grounds they now occupy, to be used for school purposes only and not to exceed ten acres each.

RESERVATIONS.

11. The following lands shall be reserved from the general allotment hereinbefore provided:

All lands hereinafter set apart for town sites; all lands which shall be selected for town cemeteries by the town-site commission as herein-after provided; all lands that may be occupied at the time allotment begins by railroad companies duly authorized by Congress as railroad rights of way; one hundred sixty acres at Okmulgee, to be laid off as a town, one acre of which, now occupied by the capitol building, being especially reserved for said public building; one acre for each church now located and used for purposes of worship outside of the towns, and sufficient land for burial purposes, where neighborhood burial grounds are now located; one hundred sixty acres each, to include the building sites now occupied, for the following educational institutions: Eufaula High School, Wealaka Mission, New Yaka Mission, Wetumpka Mission, Euchee Institute, Coweta Mission, Creek Orphan Home, Tallahassee Mission (colored), Pecan Creek Mission (colored), and Colored Orphan Home. Also four acres each for the six court-houses now established.

TITLES.

12. As soon as practicable after the completion of said allotments the principal chief of the Muscogee or Creek Nation shall execute under his hand and the seal of said nation, and deliver to each of said allottees, a patent, conveying to him all the right, title, and interest of the said nation in and to the land which shall have been allotted to him in conformity with the requirements of this agreement. Said patents shall be framed in accordance with the provisions of this agreement and shall embrace the land allotted to such patentee and no other land. The acceptance of his patent by such allottee shall be operative as an assent on his part to the allotment and conveyance of all the land of

the said nation in accordance with the provisions of this agreement, and as a relinquishment of all his rights, title, and interest in and to any and all parts thereof, except the land embraced in said patent; except, also, his interest in the proceeds of all lands herein excepted from allotment.

13. The United States shall provide by law for proper record of land titles in the territory occupied by the said nation.

TOWN SITES.

14. There shall be appointed a commission, which shall consist of one member appointed by the executive of the Muscogee or Creek Nation, who shall not be interested in town property other than his home, and one member who shall be appointed by the President of the United States. Said commission shall lay out town sites, to be restricted as far as possible to their present limits, where towns are now located. No town laid out and platted by said commission shall cover more than four square miles of territory.

15. When said towns are laid out, each lot on which substantial and valuable improvements have been made shall be valued by the commission at the price a fee-simple title to the same would bring in the market at the time the valuation is made, but not to include in such value the improvements thereon.

16. In appraising the value of town lots, the number of inhabitants, the location and surrounding advantages of the town shall be considered.

17. The owner of the improvements on any lot shall have the right to buy the same at fifty per centum of the value within sixty days from the date of notice served on him that such lot is for sale, and if he purchase the same he shall, within ten days from his purchase, pay into the Treasury of the United States one-fourth of the purchase price and the balance in three equal annual payments, and when the entire sum is paid he shall be entitled to a patent for the same, to be made as herein provided for patents to allottees.

18. In any case where the two members of the commission fail to agree as to the value of any lot they shall select a third person, who shall be a citizen of said nation and who is not interested in town lots, who shall act with them to determine said value.

19. If the owner of the improvements on any lot fail within sixty days to purchase and make the first payment on the same, such lot, with the improvements thereon (said lot and the improvements thereon having been theretofore properly appraised), shall be sold at public auction to the highest bidder, under the direction of said commission, at a price not less than the value of the lot and improvements, and the purchaser at such sale shall pay to the owner of the improvements the price for which said lot and the improvements thereon shall be sold, less fifty per centum of the said appraised value of the lot, and shall pay fifty per centum of said appraised value of the lot into the United States Treasury, under regulations to be established by the Secretary of the Interior, in four installments, as hereinbefore provided. Said commission shall have the right to reject a bid on any lot and the improvements thereon which it may consider below the real value.

20. All lots not having improvements thereon and not so appraised shall be sold by the commission from time to time at public auction, after proper advertisement, as may seem for the best interest of the said nation and the proper development of each town, the purchase price to be paid in four installments, as hereinbefore provided for improved lots.

21. All citizens or persons who have purchased the right of occupancy from parties in legal possession prior to the date of signing this agreement, holding lots or tracts of ground in towns, shall have the first right to purchase said lots or tracts upon the same terms and conditions as is provided for improved lots, provided said lots or tracts shall have been theretofore properly appraised, as hereinbefore provided for improved lots.

22. Said commission shall have the right to reject any bid for such lots or tracts which is considered by said commission below the fair value of the same.

23. Failure to make any one of the payments as heretofore provided for a period of sixty days shall work a forfeiture of all payments made and all rights under the contract; provided that the purchaser of any lot may pay full price before the same is due.

24. No tax shall be assessed by any town government against any town lot unsold by the commission, and no tax levied against a lot sold as herein provided shall constitute a lien on the same until the purchase price thereof has been fully paid.

25. No law or ordinance shall be passed by any town which interferes with the enforcement of or is in conflict with the constitution or laws of the United States, or in conflict with this agreement, and all persons in such towns shall be subject to such laws.

26. Said commission shall be authorized to locate a cemetery within a suitable distance from each town site, not to exceed twenty acres; and when any town shall have paid into the United States Treasury for the benefit of the said nation ten dollars per acre therefor, such town shall be entitled to a patent for the same, as herein provided for titles to allottees, and shall dispose of same at reasonable prices in suitable lots for burial purposes; the proceeds derived therefrom to be applied by the town government to the proper improvement and care of said cemetery.

27. No charge or claim shall be made against the Muscogee or Creek Nation by the United States for the expenses of surveying and platting the lands and town site, or for grading, appraising and allotting the land, or for appraising and disposing of the town lots as herein provided.

28. There shall be set apart and exempted from appraisement and sale, in the towns, lots upon which churches and parsonages are now built and occupied, not to exceed fifty feet front and one hundred and fifty feet deep for each church and parsonage. Such lots shall be used only for churches and parsonages, and when they cease to be so used, shall revert to the members of the nation, to be disposed of as other town lots.

29. Said commission shall have prepared correct and proper plats of each town, and file one in the clerk's office of the United States district court for the district in which the town is located, one with the executive of the nation, and one with the Secretary of the Interior, to be approved by him before the same shall take effect.

30. A settlement numbering at least three hundred inhabitants, living within a radius of one-half mile at the time of the signing of this agreement, shall constitute a town within the meaning of this agreement. Congress may by law provide for the government of the said towns.

CLAIMS.

31. All claims, of whatever nature, including the "Loyal Creek Claim" made under article 4 of the treaty of 1866, and the "Self Emi-

gration Claim," under article 12 of the treaty of 1832, which the Muscogee or Creek Nation, or individuals thereof, may have against the United States, or any claim which the United States may have against the said nation, shall be submitted to the Senate of the United States as a board of arbitration; and all such claims against the United States shall be presented within one year from the date hereof, and within two years from the date hereof the Senate of the United States shall make final determination of said claim; and in the event that any moneys are awarded to the Muscogee or Creek Nation, or individuals thereof, by the United States, provision shall be made for the immediate payment of the same by the United States.

JURISDICTION OF COURTS.

32. The United States courts now existing, or that may hereafter be created in the Indian Territory, shall have exclusive jurisdiction of all controversies growing out of the title, ownership, occupation, or use of real estate in the territory occupied by the Muscogee or Creek Nation, and to try all persons charged with homicide, embezzlement, bribery and embracery hereafter committed in the territory of said Nation, without reference to race or citizenship of the person or persons charged with any such crime; and any citizen or officer of said nation charged with any such crime shall be tried and, if convicted, punished as though he were a citizen or officer of the United States; and the courts of said nation shall retain all the jurisdiction which they now have, except as herein transferred to the courts of the United States.

ENACTMENTS OF NATIONAL COUNCIL.

33. No act, ordinance, or resolution of the council of the Muscogee or Creek Nation in any manner affecting the land of the nation, or of individuals, after allotment, or the moneys or other property of the nation, or citizens thereof (except appropriations for the regular and necessary expenses of the government of the said nation), or the rights of any person to employ any kind of labor, or the rights of any persons who have taken or may take the oath of allegiance to the United States, shall be of any validity until approved by the President of the United States. When such act, ordinance, or resolution passed by the council of said nation shall be approved by the executive thereof, it shall then be the duty of the national secretary of said nation to forward same to the President of the United States, duly certified and sealed, who shall, within thirty days after receipt thereof, approve or disapprove the same, and said act, ordinance, or resolution, when so approved, shall be published in at least two newspapers having a bona fide circulation throughout the territory occupied by said nation, and when disapproved shall be returned to the executive of said nation.

MISCELLANEOUS.

34. Neither the town lots nor the allotment of land of any citizen of the Muscogee or Creek Nation shall be subjected to any debt contracted by him prior to the date of his patent.

35. All payments herein provided for shall be made, under the direction of the Secretary of the Interior, into the United States Treasury, and shall be for the benefit of the citizens of the Muscogee or Creek Nation. All payments hereafter to be made to the members of the said

nation shall be paid directly to each individual member by a bonded officer of the United States, under the direction of the Secretary of the Interior, which officer shall be required to give strict account for such disbursements to the Secretary.

36. The United States agrees to maintain strict laws in the territory of said nation against the introduction, sale, barter, or giving away of liquors and intoxicants of any kind or quality.

37. All citizens of said nation, when the tribal government shall cease, shall become possessed of all the rights and privileges of citizens of the United States.

38. This agreement shall in no wise affect the provisions of existing treaties between the Muscogee or Creek Nation and the United States, except in so far as it is inconsistent therewith.

In witness whereof, the said Commissioners do hereunto affix their names at Muscogee, Indian Territory, this the twenty-seventh day of September, eighteen hundred and ninety-seven.

THIRTIETH ANNUAL REPORT

OF THE

BOARD OF INDIAN COMMISSIONERS.

WASHINGTON, D. C., *January 10, 1899.*

SIR: We have the honor to submit the Thirtieth Annual Report of the Board of Indian Commissioners.

No change in the membership of the board has occurred during the last year, and no serious trouble among the Indians has been reported except the conflict with the Pillager band of Chippewas on Bear Island in Leech Lake, Minnesota—a conflict which resulted in the death of Maj. M. C. Wilkinson and six soldiers. The number of Indians slain is not known. The death of Major Wilkinson is deeply deplored. He was a gallant officer, having served in the civil war, in the Nez Perce campaign with General Howard, and in the recent Spanish war. He had been a lifelong friend of the Indians, and when detailed for the Indian school service organized the Forest Grove Industrial School, removed since to Chemawa, Oreg. He had almost reached the age for retirement, and was hoping to engage again in benevolent work for Indians.

The causes of the sudden and deplorable Chippewa outbreak are found in a long series of abuses and frauds in the management, or mismanagement, of their timber lands, and in harsh, if not unjust, treatment in connection with prosecutions for whisky sales to Indians.

The beginning of the trouble relating to lands and timber dates back to the act of Congress approved January 14, 1889, entitled "An act for the relief and civilization of the Chippewa Indians in the State of Minnesota." The purpose and intent of the act appears to be just and fair, but in its execution it has proved to be not an act for the relief, but for impoverishing and robbing the Indians.

We are aware that the Secretary of the Interior is doing all in his power to correct the abuses long in vogue, and he affirms that "no complaints have been made of the undervaluation of timber by the present corps of examiners." Still, we greatly fear that interested parties will combine to thwart the good intentions and efforts of the Department under the existing law.

In our judgment, that act should be at once repealed, or at least so amended as to put a stop to the current method of appraising and selling the pine lands of the Indians, which has hitherto been characterized by scandalous unfairness and waste of the Indians' moneys. A much better system was inaugurated by Lieutenant Mercer and continued by his successor, Captain Scott, of the La Pointe Agency, Wis., by which the Indians receive a fair price for their timber, earn good wages in the lumber camps and in the mills, and, what is more important, are learning daily lessons in practical industry and civilized home life. We see no reason why the same common-sense system can not be put in practice in Minnesota.

THE NEW YORK INDIANS.

We have given much attention to the affairs of the Seneca Indians of the Allegany and Cattaraugus reservations in the State of New York. A very unsettled and unsatisfactory condition of things exists there. Large tracts of land have been leased to railroad companies and many town lots to private parties in the villages that have grown up about several railroad stations, and the Indian people complain that the rents collected are appropriated by a few leading men to their own private use, and that the people receive no benefit whatever.

Mr. G. B. Pray, special United States Indian agent, after a careful investigation, reports that "the affairs of this nation are very loosely and irregularly managed; that the officers use the power of the place for the purpose of perpetuating themselves, and it is openly charged that the money of the nation is used for the same purpose." He further says: "It is a fact that I do not think they will dispute that the body of the people have not received from its officers a single dollar of income from leases during the last four or five years." (Senate Ex. Doc. No. 190, Fifty-fifth Congress, second session.) The Indians have petitioned Congress for redress of those wrongs, and early last winter a bill (S. 2888) was introduced "to regulate the collection and disbursement of moneys arising from leases made by the Seneca Nation of New York Indians." Though approved, we are assured by the Secretary of the Interior and the Commissioner of Indian Affairs, this bill, which passed the Senate, has not passed and is still pending in the House. We earnestly urge its speedy passage. At our meeting at Mohonk Lake, October 11, 1898, the matter was considered and the following resolutions were adopted:

Resolved, That this board is convinced that the system of administration of their affairs at present in vogue with the Senecas of the Allegany and Cattaraugus reservations encourages corrupt practices and is fraught with injustice and great disadvantages to the Indians.

Resolved, That we believe the time is ripe for breaking up the New York reservations and allotting the land to the individual Indians.

Resolved, That until this is done we respectfully urge on the Government the importance of placing the collection of their rentals and other income with some agency that will secure a proper accounting and distribution of the money.

METLAKAHTLA.

The romantic story of the heroic life and work of Mr. William Duncan in British Columbia and Alaska is so generally known that we need not repeat it. After raising the Tshimshean tribe of Indians from the lowest grade of barbarism to a high state of Christian civilization, Mr. Duncan, to escape oppressive acts of the white people of British Columbia, determined to remove his Indians from that province and to seek protection under the flag of the United States. Annette Island, on the coast of Alaska, was selected for their future home. To this lonely, rocky, and densely wooded island they came in the year 1887, abandoning their comfortable houses, their mills, their church, and all their improvements for conscience sake.

In 1891 the island was, by act of Congress, "set apart as a reservation for the use of the Metlakahtla Indians, and those people known as Metlakahtlans who have recently emigrated from British Columbia to Alaska, and to such other Alaskan natives as may join them." There they have lived eleven years in peace. By hard work, equal to that of early pioneers in our Western States, they have cleared away the forest, built a village of about 200 frame houses, erected a salmon can-

nery capable of packing 20,000 cases of salmon per annum and a sawmill which can cut 10,000 feet of lumber per day. They have built a town hall which will seat 400 people, a schoolhouse large enough for 200 children, and a church capable of accommodating 800 people, the largest church in Alaska. They have constructed a pipe line, 2 miles in length, from a lake over 800 feet in elevation, which supplies good drinking water for the village and abundance of power for the cannery and the sawmill. They have organized a local government, with rules strict enough to satisfy the most rigid of our Puritan fathers. In short, the Metlakahtlans are a sober, industrious, self-supporting Christian community. They are no burden on the United States Government. All they ask is a secure tenure of their island home, and citizenship. Every sentiment of justice and humanity demands that their reasonable and modest request should be granted. But, alas! traces of gold, it is rumored, have been discovered in the cliffs along the eastern side of the island, and what can withstand the "auri sacra fames?"

Instigated by greedy gold seekers, a bill was introduced in both Houses of Congress last winter, and is still pending, to take away from the Metlakahtlans and restore to the public domain about five-sixths of Annette Island, leaving to them a small peninsula on the west side, containing about 21 square miles. So much alarm was excited by this proposed legislation that Mr. Duncan was sent to Washington to protest against it. He remained here several weeks. He fully explained the condition of his people, their substantial gains and rapid progress in the arts of civilization, and the good influence they are exerting upon the surrounding native tribes. He earnestly pleaded for "protection and isolation from vicious whites." The moral and material injury which would result from the passage of the bill now before Congress can not well be overstated. The Commissioner of Public Lands disapproves it. In a letter to the Secretary of the Interior, dated January 6, 1898, he says:

In my judgment the rights and interests of the Metlakahtla Indians are worthy of respect and should be carefully guarded. It is my opinion that their interests can not be successfully maintained or their welfare secured if, as contemplated by this bill, they should be limited to so small an area as the western peninsula portion of said island, and furthermore subjected to temptations which, it is to be feared, they have not as yet attained sufficient strength of character to successfully resist.

The Secretary of the Interior also says:

I am convinced that these Indians should be permitted to remain in undisputed possession of their reservation, and that no part thereof should be opened to settlement. The bill has, therefore, my unqualified disapproval, and I trust it will not become a law.

We heartily indorse these emphatic words, and recommend a substitute for the pending bill granting a full title in fee of Annette Island to the Metlakahtlans, with provision for the allotment of the lands in severalty to the Indians and their recognition as American citizens.

THE INDIAN TERRITORY.

The most important measure of legislation relating to Indian affairs during the year was the passage of the Curtis bill, entitled "An act for the protection of the people of the Indian Territory." The provisions of the act are fully explained by the Commissioner of Indian Affairs in his late report. We need name only its most important features. It provides for the allotment of lands to individual Indians in equal portions, or rather in portions of equal value, and thus makes all the people of the Five Tribes citizens of the United States. The mineral lands are reserved from allotment, and are to be leased by the

Secretary of the Interior and operated for the benefit of the tribes. The town sites are also reserved, and the lots are to be appraised, the occupants who have improved them having the prior right of purchase.

This is the first attempt to secure for white residents a title to the lands upon which they have built costly buildings and flourishing towns. The act makes the exclusive use of large tracts of land by single individuals, which has been practiced to a large extent, a misdemeanor punishable by the courts. In short this act, together with that which took effect January 1, 1898, must work a complete revolution in the affairs of the Territory and place it practically under the Government of the United States. For its execution a vast amount of work remains to be done by the Dawes commission, and the education of the 64,000 Indian citizens to make a right use of their new privileges throws a new responsibility upon the churches that are doing missionary work in the Indian Territory.

EDUCATION.

All who are concerned for the civilization and welfare of the Indians watch with special interest their progress in education. From a small beginning, twenty-one years ago, when the sum of \$20,000 was appropriated for the support of Indian schools, the work has steadily grown into such dimensions that its management requires a large part of the time and thought of those who have control of Indian affairs. The Commissioner devotes twenty-four pages of his annual report to this subject, and whoever reads those pages can not doubt that we have now a system of education well organized and under intelligent supervision. The attendance has steadily increased from year to year. The following table shows the enrollment and average attendance for the fiscal years 1897-98, exclusive of the schools among the Five Civilized Tribes and the Indians of New York.

Enrollment and average attendance at Indian schools, 1897 and 1898, showing increase in 1898; also number of schools in 1898.

| Kind of school. | Enrollment. | | | Average attendance. | | | Number of schools. |
|--|-------------|--------|--------------|---------------------|--------|--------------|--------------------|
| | 1897. | 1898. | Increase. | 1897. | 1898. | Increase. | |
| Government schools: | | | | | | | |

| Mission day | 87 | 54 | <i>a</i> 33 | 80 | 22 | <i>a</i> 58 | 2 |
| Aggregate | 22,964 | 24,004 | 1,040 | 18,676 | 19,671 | 995 | 295 |

a Decrease.

b Three schools transferred to the Government and contracts made for two schools which were paid by vouchers in previous years.

c Thirty-one public schools in which pupils are taught not enumerated here.

d These schools are conducted by religious societies, some of which receive from the Government for the Indian children therein such rations and clothing as the children are entitled to as reservation Indians.

From this exhibit it appears that there were in the year 1898 295 schools, with an enrollment of 24,004 and an average attendance of 19,671, an increase over the previous year of 1,040 in enrollment and 995 in average attendance. For the support of the 242 Government schools and 34 contract schools Congress appropriated \$2,631,771.35 for the fiscal year 1898, and for the current fiscal year, which ends June 30, 1899, the appropriation is \$2,638,390. Adding the amount provided by treaty stipulations—about \$600,000—the total sum available for education is \$3,238,390. With such means at his disposal, the Commissioner hopes not simply to maintain the existing school system but to make material advance during the current year. Improvement and enlargement of school buildings will furnish accommodations for many additional pupils, and new schools will be opened among the tribes of Arizona and New Mexico, where there are thousands of children without any school facilities. We trust these wise and wide plans may be fully carried out.

The possibility of civilizing and educating our Indians is no longer a matter of question or doubt. Indians are men, and with the same mental, industrial, and moral training that all other races receive they will take their place among us as useful citizens. Results already achieved are full of encouragement. Thousands have gone out from the schools and are exerting an influence for good upon the people among whom they live. Many through the "outing system," in practice at Carlisle, Hampton, and other schools, have learned the value of civilized home life and the dignity and worth of labor. These new ideas they carry to their people. Some fail to put them in practice, but a large majority have stood firm and have proved the value of the education they have received. From data obtained and collated by the Indian Office it is found that 76 per cent of returned pupils have a good report. As Commissioner Jones says—

The ratio of the good to the bad is remarkable from any standpoint, but it is emphasized particularly as showing the value of an educational system which can in a generation develop from savages 76 per cent of good average men and women, capable of dealing with the ordinary problems of life and taking their places in the great body politic of our country.

The contract and mission schools are continued by the various church missionary societies, though with a slight reduction of attendance, since the most of them no longer receive Government aid. We trust that this work may go on and increase. For, as we have often said, our deep and abiding conviction is that what the Indian needs above all things is moral and Christian training. Our Christian civilization is by no means perfect, but it is for our age and country the only civilization worth having; and it is by making Christ his pattern, and accepting His teachings, that the Indian can reach the best standard of manhood.

ALLOTMENTS AND PATENTS.

During the year 1,943 patents have been issued and delivered, 873 allotments have been approved for which patents are being prepared, and schedules of 979 received but not finally acted upon. In addition to the above, 272 allotments have been made and approved to nonreservation Indians. Adding these to the number heretofore reported, we find that more than 60,000 individual Indians have received allotments. As women and children are included it appears that about 12,000 families have now the opportunity to make for themselves homes inalienable for at least one generation. How far they are occupying and making use of their lands is a question often asked, and we have endeavored to

ascertain the results of the allotment policy under the act of February 8, 1887, called the general allotment bill. Last spring the following letter was addressed to the Indian agents on reservations where allotments have been made:

DEPARTMENT OF THE INTERIOR,
BOARD OF INDIAN COMMISSIONERS,
Washington, D. C., April 5, 1898.

United States Indian Agent:

We have been requested to report the results of the policy of allotting lands in severalty to Indians. To do this intelligently and accurately we need information from agents who are on the ground and familiar with the facts. Please, therefore, favor us with replies to the following questions:

1. How many allotments have been made to Indians of your agency?
2. How many patents have been issued?
3. How many Indians are living on their allotted lands?
4. To what extent are they cultivating their lands?
5. To what extent are their lands leased and with what results?
6. What in your opinion are the benefits or the evils of the allotment policy?

By replying, when convenient, and making such suggestions as you may deem fit, you will greatly oblige.

Yours, respectfully,

E. WHITTLESEY, *Secretary.*

Replies have been received from twenty agents, covering about 25,000 allotments and patents. These letters we publish with this report, and they will be read with interest, as they give the opinions and conclusions of intelligent and competent men on the ground.

A careful collation of the figures given shows that at least 80 per cent of the allottees are occupying their lands and cultivating them to some extent. These results are agreeably surprising, and they warrant the hope that with the oversight and instruction of farmers and assistant farmers a large number of Indians will gain a comfortable support by their own labor from the products of the soil, and with the valuable help of field matrons the Indian women will learn domestic arts and acquire for themselves and their families the comforts of civilized homes.

It is conceded by all that the industry upon which the Indians must mainly depend for their future support is agriculture. A few may push their way into professional life, but the great majority must win their living by manual labor. To succeed in this they must have instruction and help by farmers competent to teach them the use and care of farming implements and the best methods of planting and saving their crops. The Government agricultural colleges are now graduating every year men who are capable of filling these positions, and we suggest that it would be good policy to give them appointments.

IRRIGATION.

If the allotment policy is to be successful in the arid regions where many Indians dwell, an abundant supply of water must be furnished by irrigation, and on several reservations work for this purpose has been done as fast as funds appropriated were available. As we recommended last year, a competent engineer has been appointed to superintend the construction and maintenance of irrigation works, and thus greater economy and efficiency will be secured. Mr. W. H. Graves, appointed to the position, has proved his fitness for it by the great work he has done on the Crow Reservation, Mont. Many miles of irrigating ditches have been constructed, which will supply a large body of fertile land with abundant water for cultivation. Unfortunately, the funds set apart for this work are not sufficient for its completion. The Indians have sent an earnest petition to the Indian Office that enough

money be taken from their annuity fund in the United States Treasury to complete these ditches, and the Indian Commissioner requested authority from Congress to do this last spring, but no action was taken. We can conceive no good reason why such a request should not be granted. We heartily join with the Commissioner in renewing the recommendation. A work so costly and important ought not to be left unfinished.

We greatly regret that so little progress has been made toward supplying the Pima and Papago Indians on the Gila Bend Reservation, Ariz., with water for farming purposes, which they so much need. We explained in our last report how their supply has been cut off, and their irrigating-ditches constructed by themselves have been left dry. A plan for their relief has been proposed, and we urged Congress to appropriate a sufficient fund to carry it out, but all we could get was a grant of \$20,000 for a preliminary survey, and an estimate of the cost of the work, the same to be expended by the Director of the United States Geological Survey. That officer has taken some steps toward making the survey, but we fear his report can not be ready for consideration by Congress this winter.

PURCHASE OF SUPPLIES.

The board was represented at the opening of bids and awarding of contracts for Indian supplies and goods at Chicago, Ill., from April 27 to May 15, and in New York from May 17 to June 8. The total number of bids at the two lettings was 649, and the prices, though higher than the previous year for a few classes of supplies, were, on the whole, considered reasonable. We assisted the Commissioner in the inspection of samples offered, and in the award of contracts, remaining about three weeks in each city. An account more in detail will be found in the report of Commissioner Lyon, the chairman of our purchasing committee, which is as follows:

REPORT OF THE PURCHASING COMMITTEE OF THE BOARD OF INDIAN COMMISSIONERS.

SIR: The purchasing committee have the following to report from January 1 to December 31, 1898:

Bids for Indian supplies and transportation, as per advertisement, were opened April 27, 1898, at the Indian warehouse, No. 1602 State street, Chicago, Ill., in the presence of Hon. W. A. Jones, Commissioner of Indian Affairs, the secretary of the board of Indian commissioners, and a large number of bidders.

Three hundred and eighty-eight bids were received and opened, for beef, flour, corn, oats, barley, feed, hardware, school desks, furniture, harness, leather, agricultural implements, medical supplies, paints, oils, and transportation.

Mr. Roger C. Spooner was in charge of the warehouse as superintendent, and the following named persons were appointed as inspectors of the samples of goods offered: Gilbert Montague, for flour and feed; Mark Goode, for agricultural implements; Edward Devlin, for hardware; F. C. Hale, for harness; W. Bodeman, for medical supplies; E. Watson, for paints and oils; L. C. Bartley, for wagons; L. F. Crosby, for furniture.

On May 17 bids for dry goods, clothing, hats and caps, boots and shoes, groceries, crockery, lamps, etc., as per advertisement, were opened at the Government Indian warehouse, No. 77 Wooster street, New York City, in the presence of Hon. W. A. Jones, Commissioner of Indian Affairs, several members of the board of Indian commissioners, and a large number of bidders.

Two hundred and sixty-one bids were opened. Mr. Louis L. Robbins had charge of the warehouse as superintendent, and the following-named persons were appointed as inspectors of the samples of goods offered and to inspect the goods when received: Samuel S. Steward, for dry goods; P. F. Griffin, for clothing; Henry Lilly, for boots and shoes; David Towle, for hats and caps; Silas S. Carpenter, for hosiery

and notions; John N. Chapman, for groceries; Albert F. Cowen, for crockery and lamps; George A. Ferguson, for medical supplies; K. Joseph, for shirts and overalls.

Mr. Robbins, superintendent of the warehouse, reports that all the goods awarded to contractors, from bids opened May 17, have been delivered and shipped, with the exception of some table linen; that nearly all the goods delivered were equal to the samples from which the awards were made. In two instances goods were received at an allowance in price, recommended by the inspectors, and that 22,237 packages, weighing 3,201,726 pounds, were shipped from June to December 1. He also reports that the expenses of the warehouse, cost of inspection of goods, salaries, and labor were \$1,702.25 less than last year.

WM. H. LYON,
Chairman Purchasing Committee.

Gen. E. WHITTLESEY,
Secretary Board of Indian Commissioners.

MEETINGS.

We have held our usual meetings, one in this city, when, besides transacting the business of the annual meeting, we had very satisfactory interviews and consultations with the President, the Secretary of the Interior, and the Commissioner of Indian Affairs; another in New York at the time of opening bids and awarding contracts for Indian supplies; and a third at Mohonk Lake, where, by invitation of Commissioner Smiley, a large number of people interested in Indian matters met with us for the discussion of questions relating thereto. This meeting, now well known as "The Mohonk Conference," continued three days and evinced unabated interest in the welfare of Indians. Reports were made by several religious societies of their school and missionary work, and the subject of education, its scope and purpose, received a large share of attention. A somewhat pessimistic tone seemed to prevail on account of the slow progress in the solution of the Indian problem, and some criticism was made of the Government administration of the Indian service. Some basis for such criticism may be found in the history of our dealings with Indians in former times, but during the last twenty-five years we have seen a steady improvement in the service, and its business affairs are now conducted as honestly as those of any department of the Government. Its educational work has been greatly extended and improved, and certainly much progress has been made in teaching Indians the habits and industries of civilized life.

It is by no means true that "the administration of Indian affairs is still largely intrusted to men without knowledge or experience, and in many cases without character." Nor is it true, as a rule, that "drunken men have been appointed to keep the Indians from drinking, lazy men to teach them industry, and corrupt men to teach them morals." Such language may be a fine specimen of antithesis, worthy of a Macauley, but, like many highly wrought figures of speech, it contains more error than truth. It exalts into a rule a rare exception. We have had able and upright men in charge of Indian affairs. We have had many faithful and efficient Indian agents, and the superintendents and teachers of Indian schools have been, with very rare exceptions, earnest, self-sacrificing men and women. We all agree that it is desirable to push forward as fast as possible the work of education and of allotment, and as early as possible to close up the Indian Bureau itself, but a vast amount of work remains to be done. Two-thirds of the Indians are yet to be settled upon individual homesteads and to be supplied with facilities for making a living; and Indian funds, amounting to many millions, must be properly cared for and distributed. So that, even if the schools were transferred to State control or to the Bureau of Education, the Government can not at present, and we fear not for many years, be freed from the expense of an Indian Bureau.

The one thing needed, as we have long felt and have often said, for the improvement of the Indian Service, is a permanent tenure of office by those officials who have proved their honesty and efficiency. No branch of the public service is more harmed than this by frequent changes, and in no branch is experience of greater value. The employees in the school service, and others holding subordinate positions, are now appointed under the merit system of the civil-service rules. But the Commissioner, the superintendent of education, Indian agents and inspectors are still subjected to change with every change of Administration. The agent can be of little use until he has gained the confidence of the Indians, and they are slow in giving such faith. When they find the officer in charge to be honest and efficient, they readily accept his advice and obey his commands. But toward new and untried men their attitude is that of suspicion if not hostility. In the Army and Navy we should have a very inefficient service if the officers were discharged every four years and men without training or experience appointed to command. The absurdity and injury of such frequent changes are equally great in the Indian Service. Dishonest and incapable agents must, of course, be removed. But we wish it might be understood as a rule of executive action that all who fill well their positions shall be retained as long as they are willing to serve, and shall be reappointed when their term of office expires, without regard to their political partisanship. Party politics should have nothing to do with their appointment any more than appointments and promotions in the Army. The Secretary of the Interior informs us that the Indian Bureau is now well manned. Our earnest desire is that no hazardous changes may be made.

Our recommendations then are:

1. Permanent tenure of office in the Indian service.
2. The repeal or amendment of the act of Congress approved January 14, 1889, and a better system of managing the Chippewa timber interests adopted.
3. The early passage of the bill (S. 2888) to protect the Seneca Indians of New York from fraud and injustice.
4. The allotment of the New York reservation to individual Indians.
5. The rejection of the bill to restore Annette Island to the public domain, and the passage of an act granting a title in fee of that island to the Metlakatlans.
6. That authority be granted by Congress to take from the annuity fund of the Crow Indians in Montana a sufficient amount to complete their irrigating canals.

RESULTS OF ALLOTMENT POLICY.

REPLIES FROM INDIAN AGENTS ON RESERVATIONS WHERE ALLOTMENTS HAVE BEEN MADE.

CROW CREEK INDIAN AGENCY,
Crow Creek, S. Dak., May 2, 1898.

Mr. E. WHITTLESEY,
Secretary Board of Indian Commissioners, Washington, D. C.

SIR: Replying to your letter of April 5, 1898, in which you ask for information as to the results of the policy of allotting land in severalty to Indians, would say—

1. That there have been 879 allotments made to the Indians of this agency.
2. That there have been 199 patents issued.
3. That all the Indians that have been allotted are living upon their allotments.
4. That they are cultivating their lands to a small extent for the reason that crops are almost a sure failure by reason of the repeated droughts.
5. That there are none of the lands leased.

6. That, in my opinion, the allotment plan is disadvantageous in many respects, more especially in a country like this where agriculture is almost a failure. I would not like to discourage this plan here now for the reason that the Indians have all taken their allotments and are living upon them. But if these people could have been given a sufficient number of cattle to start a common herd among them, and the reservation fenced, I think they would have been in much better condition now than they are by trying to till the soil and graze whatever of stock they have upon their own lands. This is preeminently a stock country, and I think this industry will be the one that will eventually make these Indians self-supporting. They have been averse to taking their patents for the reason that they think they will become citizens then and will have to pay taxes and be amenable to all the laws of the white man.

Another serious drawback to the allotment system is that when they take their allotments in severalty they are regarded as citizens and the Indians of this agency, and other agencies that I am acquainted with are far from being ready to assume the responsibilities of citizenship. When the power of the agent to discipline the Indians of his agency is taken away, and such power is taken away when the Indian becomes a citizen, it instills a spirit of insubordination in him and makes him a more lawless and worthless character than he otherwise would be.

I think also that the leasing of certain allotments near the border of the reservation to substantial farmers would be a good thing for allottee and the Indians as well.

Very respectfully,

JAMES H. STEPHENS,
United States Indian Agent.

DEVILS LAKE AGENCY,
Fort Totten, N. Dak., May 6, 1898.

Hon. E. WHITTLESEY,
Secretary Board of Indian Commissioners, Washington, D. C.

SIR: I have the honor to make the following report in pursuance of your request of the 15th ultimo:

1. Our records show that 1,158 allotments have been made.
2. That 865 patents have been issued.
3. The majority of the adults are living on their allotments.
4. There are 4,000 acres in crop this spring, and they would have put 2,000 acres more if we could have obtained the seed for them and rations sufficient to have kept them alive, some actually being reduced to the necessity of living on gophers.
5. The leases are few and confined to themselves in all but one instance, where a white man has rented for the present year; result not arrived at.

6. The benefits of the allotment system are, first, a wider knowledge of individual property rights, consequently some degree of personal responsibility (though the latter is not a marked feature of the present generation on this reservation); second, a tendency to fixed habitation and home building; the evils seem to arise from ignorance on their part and the selection, in many instances, of lands totally unfitted to agriculture; third, dividing the allotment into 40-acre lots, in some instances many miles apart, necessitating great inconvenience in the cultivation; fourth, allotting to children should be discontinued, the land being saved and allotted when the child becomes of age and has saved enough to cultivate it.

Yours, respectfully,

F. O. GETCHELL,
United States Indian Agent.

SAC AND FOX AGENCY,
Okla., May 7, 1898.

The BOARD OF INDIAN COMMISSIONERS,
Washington, D. C.

GENTLEMEN: In reply to your inquiries dated April 5, 1898, I have the honor to submit the following answers:

1. There were 2,363 allotments made to Indians under this agency.
2. A patent was issued by the Department to each allottee and delivered to allottee by Indian agent, who would receipt for same in duplicate.
3. About three-fourths of the Indians under this agency are either living upon their lands or controlling them through lessees.
4. Not more than one-fifth of the Indians are cultivating their lands in person.
5. About one-half of their lands are leased and with the best of results, as a source of revenue to the allottee, and his contact with the white lessees is encouraging more of them to work themselves.
6. The benefits to the Indian in taking his allotment are numerous. It brings him more directly in contact with civilization. He observes more closely the advantages of industry and frugality as seen in his white neighbors. He is brought face to face with the advantages of education, sobriety, and religious habits of life.

When the Indians' lands are not allotted, they keep up their old tribal relations, live huddled together in villages, and seldom come in contact with the influences of civilization and enlightenment.

Very respectfully,

LEE PATRICK,
United States Indian Agent.

MISSION TULE RIVER "CON" AGENCY, CAL.,
San Jacinto, May 12, 1898.

Hon. E. WHITTLESEY,
Secretary Board of Indian Commissioners, Washington, D. C.

SIR: I have the honor to acknowledge the receipt of your communication bearing date April 25, 1898, and respectfully reply to your inquiries as follows:

1. The records of this office show that 361 allotments have been made to Indians of this agency. The location, number of allotments, and by whom made are detailed as follows:

| Location. | Number of allotments. | By whom made. |
|---------------------------|-----------------------|-----------------|
| Rincon | 51 | Miss Kate Foot. |
| Potrero | 156 | Carare. |
| Pala | 15 | Do. |
| Pechanga (Temacula) | 85 | Do. |
| Sycuan | 17 | Patton. |
| Capiton Grande | 37 | Do. |

2. Patents have been issued for Pala, Pechanga, and Sycuan. These patents, amounting to 117 for the three reservations named, have been delivered so far as possible.

3. Practically all the Indians are occupying the lands allotted to them.

4. Generally speaking, the Indians are cultivating their lands fairly well. They are proud of their lands and homes and by observing are improving each year. I regret to say in this connection that the present year is most discouraging to farmers

in California. We are experiencing a severe drought in southern California; crops are almost a failure; natural feed is scarce; hay is high. This will cause much hardship and suffering for the Indians and their stock and will tax their ingenuity to the utmost to obtain subsistence until the rains come again."

5. I am not aware of any leases having been made by individuals.

6. In my opinion there are some benefits from the allotment policy, provided, however, that the Government has undoubted title to the lands allotted. The land difficulties at this agency are numerous, covering, as it does, so much territory and embracing so many reservations, and there is such a stubborn resistance on the part of many white people to the Indians occupying the lands set apart for them that the friction between Indian and white neighbors is constant.

I would suggest that a better system of surveys should be made, giving good conspicuous stakes or monuments, thus plainly defining the lines of the reservations. Indians seem ignorant of the lines of their reservations and often come to my office for information. Being poorly equipped with good and accurate maps and good descriptions of the reservation lines, I am frequently unable to give the Indians the information they desire.

In conclusion I trust I have been sufficiently explicit in complying with your request. I assure you that the Indians will work. They are becoming better farmers, more self-reliant and self-supporting, year by year. Their landed interests give them the greatest concern, and to the end that their lands and homes may be secured to them and be made permanent I will gladly give any information and assistance in my power.

Respectfully,

L. A. WRIGHT,
United States Indian Agent.

CHEYENNE AND ARAPAHOE INDIAN AGENCY,
Darlington, Okla., May 18, 1898.

Hon. E. WHITTLESEY,
Secretary Board Indian Commissioners, Washington, D. C.

SIR: Replying to your letter of April 5 last, I submit the following data, as requested:

1. Three thousand three hundred and twenty-eight.
2. Three thousand three hundred and twenty-eight trust patents.
3. Eighty per cent.
4. All able-bodied Indians are cultivating their lands, with a fair degree of success.
5. Twenty per cent of their lands are leased, with fair results. Owing to the fact that some Indians have more land than they can cultivate, and others being incapacitated by reason of age, etc., the leasing of land is thought to be the means of improving their allotments, affords them a revenue, and in such instances is encouraged.

6. The benefits derived from the allotment policy are indeed many; the evils few. Allotment of land in severalty serves to break down the nomadic habits of the Indian. It gives him land which he can call his own and in which he acquires a personal pride. He is encouraged to make for himself a permanent home with pleasant surroundings, and while living side by side with his white neighbors he has the benefit of practical object lessons in his efforts to adopt civilized habits. While objects aimed at may not in all instances be acquired in the present generation, the civilizing wedge will be driven, and those following will take up the work of their fathers and push it with vigor, for we must remember that where once stood the log cabin of the hardy pioneer is to-day covered by structures towering to the sky as silent witnesses of the onward march of civilization, which were little thought of during the early days. So let us trust that the same lot and portion awaits the Indian.

I wish to say that your letter was received while I was at Washington on a visit, was filed away in the office here until now, and hence the delay in giving you the desired data.

Respectfully, yours,

A. E. WOODSON,
Major, U. S. A., Acting Indian Agent.

QUAPAW AGENCY, IND. T., June 3, 1898.

BOARD OF INDIAN COMMISSIONERS,
Washington, D. C.

SIRS: In reply to your communication of April 5, 1898, asking for certain information in regard to allotments, etc., to Indians of this agency, I have the honor to submit the following:

1, 2. All of the Indians of the reservations of this agency have received allotments, except those born since the allotments were made, and patents have been issued to such allottees. (See Report of Commissioner of Indian Affairs, 1897, pp. 432, 433.)

3. About seven-eighths of the allottees live on their allotments and cultivate portions of the same.

4, 5. About three-fourths of the allottees lease the greater portion of their lands and live on and cultivate the balance themselves. The other fourth cultivate all of their allotment, with good results. The leasing of their lands is a benefit to the allottees, as it brings them good neighbors, and lands which in most cases would lie idle are greatly improved by the lessee. Very few of the lessees are a detriment to the Indians.

6. Where the Indians are prepared to receive allotments, as is the case at this agency, the allotment policy is a benefit to them. When allottees have progressed sufficiently in the ways of civilization, they should be permitted to alienate portions of their lands, not to exceed one-half, with the understanding, however, that the proceeds of such alienation shall be devoted to the improvement of their remaining lands.

In my opinion the education of Indian youth in reservation schools is the solution of the Indian question.

Very respectfully,

EDWARD GOLDBERG,
United States Indian Agent.

COVELO, CAL., June 16, 1898.

BOARD OF INDIAN COMMISSIONERS,
Washington, D. C.

SIRS: In answer to your questions of the 1st of April, 1898, I have the honor to submit the following:

Six hundred and twenty-two allotments have been made. Six hundred and four patents have been issued. About 75 per cent of the Indians are living on their allotments. About 50 per cent of their lands are being cultivated.

Their lands are not leased, owing to the small allotments and the requirements of cash rent for the consideration of the conditions necessary to lease. The community is so remote from a market and the roads thereto are so steep and difficult of travel and the expense of transportation so great that it is impossible to transport farm products to market, the cost of transportation being from \$20 to \$40 per ton, according to the season. Therefore farm products, as a rule, are fed to stock and the stock driven to Ukiah, the nearest market, a distance of 75 miles. If I were allowed to lease the allotments for grain rent, or lease others for a term of years to have them cleared, fenced, ditched, and small houses built, I am of the opinion great good could be accomplished for the allottees.

I could with little difficulty lease a number of allotments on the latter conditions, and in a few years the whole reservation (the valley portion) would be under cultivation and yielding a sustenance for the Indians, where, as is now, I am convinced that these allotments spoken of will long remain in their native brush and be of little benefit to their owners. Another evil which, in my opinion, should be remedied is: When the news of the contemplated issue of lands, etc., was spread abroad a number of very undesirable half-breeds and squaw men flocked to the reservation and procured lands. A great many left immediately and have not since done labor or other improvement. Some of these allotments are situated on the margin of the fenced portion of the reservation, and the fence which was on it at the time of the issue, which was placed there by the Government, has decayed, and the aforesaid parties will not improve the fence, and as a result stock break into the fields and destroy the crops of the Indians. This is a nuisance which should be abated by the cancellation of their allotments and the issue to others who have no homes and who would improve them.

In my opinion the allotting policy should be amended to overcome these evils, and the improvement of the Indians would be more rapid.

Very respectfully,

GEO. W. PATRICK, *Superintendent.*

PIMA INDIAN AGENCY,
Sacaton, Ariz., June 7, 1898.

Mr. E. WHITTLESEY,
Secretary Board of Indian Commissioners, Washington, D. C.

SIR: Under date of April 5, 1898, you addressed a communication to the agent of Pima Agency, who was then Mr. H. J. Cleveland, who died May 17. I find your letter on the files of this office unanswered. Although a little late with reply, I, as special agent in temporary charge, will endeavor now to give you the information

asked for. This agency has in its charge the Pima, Papago, and Maricopa Indians. The only allotted lands so far are to the Papagoes, at San Xavier and Gila Bend reservations.

At San Xavier, 291 allotments, 291 patents issued; 40 living on their allotments.

At Gila Bend, 679 allotments; no patents yet; but few if any living on allotments, by reason of no water for irrigation.

In further answers to queries 4, 5, and 6, I respectfully refer you to report of Mr. J. M. Berger, farmer, in charge of the Papagoes at San Xavier, under date of April 21, which gives all the information on the subject this agency can at present supply.

Could the Government or some private corporation see its way clear to make an investment of a couple of million dollars in what is known as the Butler Reservoir, a permanent and abundant water supply could be obtained that would make serviceable, and with astonishing results, many thousands of acres of these Indian lands now practically worthless? Perhaps the day may soon come. There would then be a great incentive to taking allotments and making improvements. With water, this great valley would be rich; without it, but little better than a desert.

Respectfully,

S. L. TAGGART,
United States Special Indian Agent, in charge.

PIMA AGENCY, ARIZ.,
San Xavier Reservation, April 21, 1898.

Hon. H. J. CLEVELAND,
United States Indian Agent, Sacaton.

SIR: In compliance with your request, I have the honor to give you below the information asked for in "Circular letter" of the honorable board of supervisors in regard to allotting land in severalty to Indians at the San Xavier Reservation under my charge.

1. In 1890 291 allotments were made, each head of family receiving 20 acres of farming land, and 140 acres of timber and so-called mesa land.

2. In 1891 patents (291) therefor were issued.

3. About forty families are living on their farming land. In view of the fact that about one-half of the cultivated land is overflowed every year in the rainy season, it would be dangerous to live permanently on land so exposed, and therefore, many of the allottees reside there only temporarily.

4. About three-fourths of the allotted farming land is under cultivation.

5. As yet no land has been leased.

6. In my opinion no steps could have been taken which would benefit more these Indians than allotting land in severalty to them. With the exception of a very few malcontents, found everywhere, each allottee appreciates now fully the privilege of being the exclusive owner of a piece of land which he positively knows belongs to him and his family. It gives them a greater inclination toward farming, and especially toward a more careful clearing and cultivating of their land, than they ever had before.

I am very often called upon to settle questions in regard to boundary lines of individual parcels of land, which goes to show that they begin to appreciate the value of every foot of land allotted to them.

Notwithstanding the fact that the clearing of land here is a very laborious task, on account of the frequent occurrence of mesquite trees and stumps and the exceedingly pertinacious sacaton or bunch grass, there is continuously more allotted land cleared and cultivated, and that too, by Indians who in 1890, when the allotment was made, thought, and in my presence said, that the land allotted to them was not worth fencing and clearing.

I have known personally these allottees and their situation since 1893. In 1890, when the allotment was made, I acted as official interpreter, and since then, for eight years, I have been the farmer in charge of this reservation, and I am, therefore, certainly in a position to know the condition of these allottees.

Very respectfully,

J. M. BERGER, *Farmer in charge.*

GRANDE RONDE SCHOOL, OREG., *May 1, 1898.*

E. WHITTLESEY,

Secretary Board of Indian Commissioners, Washington, D. C.

SIR: Yours of the 5th of April relative to the results of the policy of allotting lands in severalty to Indians to hand. In reply:

1. Two hundred and sixty-nine allotments have been made to Indians of this agency.

2. Two hundred and sixty-nine patents have been issued.

3. Ninety-seven.

4. Nearly all tillable land is being cultivated this year.

5. Only three leases executed, results good.

6. In my opinion the benefits of the allotment policy, so far as the Grande Ronde Indians are concerned, has been very great. Each Indian knows just what he owns; he also knows that it is his for all time and that no one can take it from him. All are satisfied, with the exception of some of the younger Indians, who would like to have more tillable land.

Very respectfully,

ANDREW KERSHAW, *Superintendent.*

PONCA, ETC., AGENCY,
Whiteagle, Okla., April 27, 1898.

E. WHITTLESEY,

Secretary Board of Indian Commissioners, Washington, D. C.

SIR: I have to acknowledge the receipt of your circular letter, dated April 5, 1898, asking for certain information from me regarding the Indians of this agency.

In reply to question No. 1, as to how many allotments have been made to the Indians of this agency, I have to say that to the Poncas, 628; Pawnees, 823; Otoes, 190, and Tonkawas, 73.

In answer to question No. 2, as to how many patents have been issued, I have to say that to the Poncas, 627; to the Pawnees, 823, and Tonkawas, 73. In this connection I will state that one allotment made on the Ponca Reservation was not approved by the Secretary of the Interior; hence a patent was not issued for same. While the foregoing patents have been issued by the Department, only about half of those issued to the Ponca Indians have been delivered, as about one-half of this tribe were assigned allotments, and have not acknowledged same to this date; consequently they are in the agency office awaiting a time when the Indians will become pacified to the situation and accept same. The Otoes were allotted in 1893 and the schedule submitted for approval, but for some reasons never received the same. Helen P. Clarke, special allotting agent, is now at work among these Indians readjusting the allotments, and informs me that up to the present date 190 members of the tribe have accepted lands in severalty, which I am glad to say far exceeds the number who accepted their allotments as scheduled in 1893.

3. There are 98 Indians or heads of families living upon their allotted lands on the Pawnee Reservation and about 90 on the Ponca, which is nearly an entire tribe; and 8 or 10 on the Tonkawa, the balance of the tribe living in houses built near the agency reservation.

4. The Indians on the Ponca Reservation are cultivating about 1,500 acres themselves; on the Pawnee Reservation 1,443 acres; Tonkawa about 75 acres; on the Otoe about 2,171, the majority of this being done by contract labor, white farmers being employed.

5. About 30,000 acres are under lease on the Ponca Reservation, at an annual rental of \$12,255.59; Pawnee Reservation 36,784 acres, at an annual rental of \$13,776.11; Tonkawa 11,200 acres, at an annual rental of about \$8,500.

In reply to inquiry No. 6, as to what in my opinion are the benefits or evils of the allotment policy, I have to say that the benefits are numerous and the evils few, providing reservation lines are preserved until the Indians shall become accustomed and are thoroughly ready to be made citizens in every respect of the United States. Allotting their lands in severalty gives them homes of their own and something to look after individually, while the privilege of leasing same gives them a permanent income and one upon which they can depend for the support of themselves and families.

Very respectfully,

ASA C. SHARP,
United States Indian Agent.

SISSETON AGENCY, S. DAK., April 25, 1898.

E. WHITTLESEY,

Secretary Board of Indian Commissioners, Washington, D. C.

SIR: In reply to circular letter of the 5th instant I have the honor to submit the following:

| | |
|---|---------|
| 1,971 persons were allotted 160 acres each..... | 315,360 |
| 9 persons were allotted 40 acres each | 360 |
| 5 churches received 40 acres each | 200 |
| 1 church received 160 acres..... | 160 |
| 1 church received 17 acres..... | 17 |

1106 REPORT OF THE BOARD OF INDIAN COMMISSIONERS.

| | |
|---|----------|
| 1 Government school received 480 acres..... | 480 |
| 1 mission school received 160 acres | 160 |
| 1 agency school received 170 acres | 170 |
| Total | 316, 907 |
| Thrown open to settlement..... | 601, 873 |
| Grand total..... | 918, 780 |

I am informed that about 1,980 patents have been issued. There are about 400 families living on their allotted lands. The Indians are cultivating about 98,000 acres of their lands. The Indians leased not less than 30,000 acres of land, most of which is used for grazing purposes.

In my opinion, the Indians are benefited by the allotment policy. They endeavor to farm and raise stock, and on this reservation they would succeed if they could be furnished with sufficient means to start right; the soil is very rich.

I am, sir, very respectfully, yours,

NATHAN P. JOHNSON,
United States Indian Agent.

LOWER BRULE AGENCY, S. DAK., *April 23, 1898.*

E. WHITTLESEY,
Washington, D. C.

SIR: In reply to your communication of the 5th instant would say—

1 That I am unable to inform you how many allotments have been made upon this reservation, as there is no schedule of allotments on file in this office. I would refer you to the honorable Commissioner of Indian Affairs for this information.

2. No patents have been issued up to the present time.

3. About 150 families are living on their allotments.

4. To a very limited extent, as this country is a very poor farming country.

5. No Indian lands are leased at this agency.

6. In my opinion it is a great benefit to the Indians to allot them land in severalty, as it has a tendency to scatter them out from their camps and make them individually responsible for their own property.

Very respectfully,

B. C. ASH,
United States Indian Agent.

SILETZ INDIAN AGENCY,
Siletz, Oreg., April 22, 1898.

Hon. E. W. WHITTLESEY,
Secretary Board of Indian Commissioners, Washington, D. C.

SIR: I will now attempt to answer your favor of April 5 to the best of my ability:

1. Five hundred and fifty-one.

2. Five hundred and forty-one.

3. About 100 families.

4. All raise fairly good gardens; most of them raise a little hay, about forty raise oats, and at least thirty have a surplus to sell each year; this year it will reach 10,000 bushels.

5. Only seven of them have leased their lands, and as a rule they get more out of the land than if they worked it themselves, besides the land is kept in better condition, fences in better repair; in fact, the leasing so far has been a benefit to the Indian, for the parties that lease generally have more than one place and would attain little or no benefit if it was not rented.

6. I believe the allotment of sufficient land to each Indian for a home was the proper thing to do and was about the first step in the right direction, yet the classifying of all Indians as Indians, and the withholding of the patent in fee simple from all alike, irrespective of their ability to manage their own affairs, is a serious mistake and a wrong; it leaves no hope or encouragement to those that are progressive and trying to advance; it is not so much the fact that they are not to come into possession of their land as the humiliating knowledge that the Government still holds a string to them. To distrust a child causes it to lose confidence in itself. How much more with these people that know something of the practical side of life. Many of the Indians on this reservation are far advanced in civilization; some indeed are much more capable to manage their own affairs than many of their white neighbors, and yet the raw Polander or Scandinavian is able to say to them, "You are an Indian and the Government won't trust you with your land, and I have only been in the country three years, can't talk English half as well as you do, yet the Government has given me 160 acres of good land."

We now have some sixteen families of Polanders settled here since this reservation was thrown open, and excepting about three they are far inferior in civilization and Americanism to the average Indian. Under such conditions is there any wonder that the Indian is dissatisfied? Has he not a right to complain of injustice? While I believe in the full honesty of purpose in the present allotment law, and have no doubt of its wisdom as applied to many of the Indians, yet it is altogether too rigid, and in my judgment would conserve the best interest of the Indians if made more pliable, leaving a discretionary power with the honorable Commissioner to at least grant patents in fee simple to such Indians as had shown a proper advancement. Still another evil of the system is the large amount of land coming into the hands of the few by the death of relatives, yet I am not prepared to say how this might be remedied to best advantage.

Very respectfully,

T. JAY BUFORD,
United States Indian Agent.

LA POINTE INDIAN AGENCY,
Ashland, Wis., April 22, 1898.

MR. E. WHITTLESEY,
Secretary Board of Indian Commissioners, Washington, D. C.

SIR: I am in receipt of your communication of the 5th instant, asking to be informed as to the results of the policy of allotting lands in severalty to the Indians of this agency.

The following are my replies to the questions asked in your letter:

1. Two thousand seven hundred and thirty-two.
2. Two thousand four hundred and twenty-six.
3. About 500 families.

The lands on the reservations belonging to this agency are selected by the Indians for the pine upon it, and not taken by them for agricultural purposes. Some, however, have cleared up a part of their allotments and farm them to a very limited extent. After the pine is all cut and the proceeds used up, I think many of them will do better.

5. There is practically no leasing of their lands, owing to the fact that the timber is what they derive their revenue from, and the land is unfit for grazing purposes and not cleared for farming.

6. The system of allotting lands in severalty meets my approval. It is the only way the Indians can be taken from under tribal government, which is the greatest drawback to civilization the Government has to contend with. It is only through ignorance and superstition that the chiefs are able to hold their people together and exact obedience to their mandates as supreme rulers. Such influence can not be otherwise than pernicious, and anything tending to change this condition is a step in the right direction. The allotment of land in severalty, I believe, will in time wholly eradicate this influence. Pagan rites and ceremonies will gradually die out and the "medicine men" will only exist in memory.

Very respectfully,

G. L. SCOTT,
Captain, Sixth Cavalry, Acting Indian Agent.

WARM SPRING AGENCY,
Warmspring, Oreg., April 22, 1898.

HON. E. WHITTLESEY,
Secretary Board of Indian Commissioners, Washington, D. C.

SIR: In reply to your letter of April 5, 1898, I have to report as follows:

1. Nine hundred and seventy-nine allotments.
2. Nine hundred and forty-eight patents issued.
3. The greater part of the Indians are residing on their allotments.
4. They are cultivating almost all lands susceptible to cultivation.
5. No leases upon this reservation.

6. It is my opinion that the allotting system will prove of the greatest advantage to all Indians, from the fact that the individual holding prompts them to greater industry, and to constructing and maintaining better improvements. In fact, I think it adds energy and self-reliance, and also prevents active leading men from dictating the possessions of individual Indians.

I find great objection among the Indians to accepting and receipting for their allotment patents. They seem to entertain the false impression that when they receive their patents the reservation will be opened to white settlement, and they will then be subjected to taxes, and all laws governing the whites.

Respectfully,

JAMES L. CORRAN,
United States Indian Agent.

YAKIMA AGENCY,
Fort Simcoe, Wash., April 19, 1898.

Hon. E. WHITTLESEY,
Secretary Board of Indian Commissioners, Washington, D. C.

SIR: As requested in your letter of April 5, asking me to report the results of the policy of allotting lands in severalty to Indians, and to answer questions from No. 1 to 6—

1. There has been 1,851 allotments made on this reservation, and there will be about 250 more made during this summer.

2. This office has received 1,812 what are termed patents. They are being delivered as fast as called for.

3, 4, 5, and 6 I will answer in a general way, as to answer direct without some explanation would be misleading. The number of Indians living on allotted lands, I will say practically all, but not on the land that has been allotted to them each individually, as it should be borne in mind, of the 1,851 allotments there are only about 500 men or heads of families, and a family of five or six may be living on one allotment where they have a house and some improved land.

This home for the family may be allotted to either mother or father of a family of five or six, but is used as a farm to support the family, while the mother and five children may have wild unimproved sagebrush land allotted to them in another part of the reservation or it may be adjoining the home place. So I will state there are about 500 families on the reservation, practically all living on lands allotted to some one of their family. They are farming and improving the home place, while the balance of the land allotted to them is not being improved or cultivated.

There are, of course, some exceptions, but as a rule this is the case. Nearly all of the heads of families have fenced and have some kind of a house on their farms, and are cultivating from 10 to 80 acres of land. Wheat and hay are the principal products. Nearly all raise a fairly good garden, where water for irrigation can be obtained. But little leasing has been done here, in fact none to speak of until this spring the Indians have leased some wild sagebrush land.

A great deal might be said in favor of the allotment policy; many good results follow, and also much trouble and difficult problems. No one can realize it so much as the agent on whose shoulders the load and responsibility rests, who is brought face to face with the difficult problems every day, as the Indians have no one to go to for advice, protection, or assistance of any kind, except the agent, and only a strong constitution can long stand the work of an agent that tries to do his duty. Especially here he has to look after the wants of the school, but I am wandering from the subject, and will refer to some of the difficulties facing us here.

Of the 1,851 allotments made on this reservation, of those there has at least 350 died since land was allotted to them. No correct record has been kept of deaths or births. Not a single estate has been settled according to the laws of the State or any other law. As the land can not be sold I do not see how the local courts can have any jurisdiction under the State law settling estates of deceased Indians.

It is a great expense to probate estates of white people, and even the most intelligent business men employ lawyers to see that their estates are properly probated, and after all costs are paid what is remaining after all to be divided up among the legal heirs. Indians can not do this even if they were educated to it. I do not believe the State courts have jurisdiction or can settle these matters unless they have power to order sale.

Under the allotment laws land can not be sold for twenty-five years. If the death rate continues at the rate of 125 per year, think what will be the condition of things at the end of ten years.

By what means will one be able to tell who is the rightful owners of the lands that have been allotted? I am now giving out the patents to the Indians; at least one-half of them do not know or have forgotten their names they gave to the allotting agent.

When they ask for their patents they give an entirely different name from that designated in their papers or in the schedule of allotments.

They may want the patents for some deceased relative but do not know the name of the person, and the agent has to hunt it up. It often takes not only hours but days to ascertain for certainty by what name they were allotted.

I find the giving out of these patents and placing them in the hands of parties entitled to them is the hardest work I ever undertook to do. I am continually asking myself what will it be in twenty-five years when the final patents are issued?

I am of the opinion that unimproved land belonging to minors and Indians that are not financially or physically able to improve their lands should be leased. I quote from my report to the Commissioner of Indian Affairs, July 28, 1893. I have not materially changed my views on the subject:

"The Indians have exercised in the most part great discretion in the selection of their land, the major portion being very desirable, arable lands, easily watered and

prepared for cultivation, and now the question arises, how best and most speedily to make these lands contribute to their support? To clear, fence, plow, and get water on the land will require some money, to say nothing about houses, barns, farming implements, fruit and shade trees. The larger portion of the Indians are very poor, having neither money or other requisites for improving or developing a farm.

"It would seem that some plan could be adopted, which, if properly executed, would enable them to have their lands self-supporting and profitable; that is, a portion of their land should be made as capital for the immediate development and improvement of the remainder. It seems there are only two ways to accomplish this—that is, either to sell a portion or lease.

"Under the existing circumstances upon this reservation, I should favor leasing upon a plan that would enable them to lease a portion of their allotted lands for a term of from eight to ten years, for the improvement and development of the whole, or, in other words, the leasing for a term of years of 40 acres for the clearing, fencing, plowing, and irrigating of the 80 acres, and the 80 to revert and belong to the Indian exclusively at the expiration of the lease.

"I am satisfied leases could be made to responsible white men upon these terms, provided the leases could be made for a term of from seven to ten years. A three-years' lease upon this reservation is practically a prohibition upon leasing unimproved lands upon any terms that would be of any benefit to the Indians. It is certain that in leasing unimproved land, covered as it is with sagebrush, and without water for irrigation or for house use, that the longer time for which the lease is granted the greater the compensation for the use of the land, and a more enterprising and desirable class of people could be induced to avail themselves of the opportunity of leasing lands upon a lease of from seven to ten years than upon a term of three years, as under the present laws.

"I am so thoroughly imbued with the importance of this matter that if, under the existing laws, leases can be made for a longer period than three years, I would most earnestly recommend that the necessary legislation be obtained permitting Indians to lease their allotted lands, or at least a portion of them, for a term of not less than seven years, under such rules and restrictions as may be prescribed by the honorable Secretary of the Interior.

"*Records.*—Some provision should be made whereby the estate of a deceased Indian could be probated, without going through the forms prescribed by the State law, as it will be a long time before the Indians can be educated to the importance of having clear titles to their lands; and if some steps are not taken in this direction at once, within a few years there will be an endless amount of trouble in the adjustment of estates of deceased Indians, as the Indians themselves will pay no attention to this matter until a dispute arises among the heirs as to the rightful ownership of the land.

"There is already too much devolving upon the agent to perform the duties now required of him to be burdened with this additional and important work. In fact, with the present limited force of employees allowed at this agency, it is utterly impossible for the agent to give this matter the attention its great importance demands. It seems there should be some person appointed and laws enacted regulating the administration of Indian estates, without expense to the heirs. Without some such provision is made and executed it is my opinion that the expected benefits which these people are to derive from the allotting of lands in severalty will, to a great extent, prove a failure."

It should be borne in mind that I do not consider the conditions on all reservations the same as here. The lands on this reservation, with the exceptions of timber land in the mountains, can be classed as desert land, and must be irrigated to produce crops.

To build ditches and place the land in condition, clearing, leveling, etc., entails an expense and an outlay of money and labor that is not required upon some other reservations.

Respectfully submitted.

JAY LYNCH,
United States Indian Agent.

PUEBLO AND JICARILLA AGENCY,
Santa Fe, N. Mex., April 18, 1898.

E. WHITTLESEY,
Secretary Board of Indian Commissioners, Washington, D. C.

SIR: In compliance with your letter of the 5th instant, I have the honor to inclose report of result of policy of allotting lands in severalty to Indians, so far as the Jicarilla Apache Indians at Dulce, N. Mex., are concerned, which evidently covers the grounds of your inquiry.

The Pueblo Indians under my charge have not been allotted lands in severalty, as they yet live in communities, as has been their custom for the past three hundred years, and it is probable such will be their system for some time to come.

Very respectfully,

CHARLES L. COOPER,
Captain, Tenth Cavalry, Acting Indian Agent.

JICARILLA SUBAGENCY,
Dulce, N. Mex., April 13, 1898.

Capt. CHARLES L. COOPER,
*Tenth Cavalry, Acting United States Indian Agent,
Pueblo and Jicarilla Agency, Santa Fe, N. Mex.*

SIR: In compliance with instructions in your communication of April 9, inclosing letter from honorable secretary of Board of Indian Commissioners, I have the honor to submit the following report:

1. Number of allotments made to Indians of this reservation, 847.
2. Number of patents issued, 845.
3. Number of Indians living on allotted lands, 350.
4. Approximately the number of acres cultivated by each Indian living on their respective allotment is 4 acres.

5. No land on this reservation is formally leased, but as the greater portion is principally grazing land, many of the Indians rent their unfenced ground in the spring, during lambing season, to sheep raisers, for a period of twenty to sixty days, deriving quite an income therefrom.

6. The allotting of lands on this reservation has been beneficial to some of the Indians and detrimental to others, and for the reason that the water supply as well as agricultural land is very limited. In many cases one spring of water on a certain allotment has to furnish water for from five to twenty neighboring allottees. During the summer season the water supply at all springs is usually very limited, and in many cases to such an extent that the Indian who owns the spring cuts off the water supply from his neighbors; therefore the latter are compelled to take their families and stock and go to the mountains. It is also a fact that in many cases an Indian has on his allotment not more than 3 or 4 acres of land suitable for cultivation, while his neighbor may have from 20 to 50 acres of good tillable land. Therefore the allotment of land under the existing circumstances has caused a jealous and envious feeling among these Indians, which is hard to overcome.

Very respectfully, your obedient servant,

JOHN L. GAYLORD,
Clerk in Charge.

NEZ PERCES AGENCY,
Spaulding, Idaho, April 15, 1898.

Gen. E. WHITTLESY,
Secretary Board of Indian Commissioners, Washington, D. C.

SIR: Replying to your communication of 5th instant, I have the honor to submit the following:

1. There have been 1,997 trust patents issued to these people; 109 of this number have been canceled, disallowed, or relinquished, 17 of which were duplicates (two allotments made to the same person under different names).

2. The patents have all been issued and are now in the hands of the allottees.

3. About four-fifths are living on their allotments or some portion of the same. Many of the allotments embrace separate parcels of land, usually the smaller portion lying along or bordering the streams, the balance being situated on the high benches or table-lands.

4. The Indians do not cultivate to exceed one-tenth of their land, and even in this they hire white men to do most of the work. But few full-blood Indians confine themselves to steady hard work. This order of things may be changed to some extent after the expiration of the semiannual payments, which now amount to about \$200 per annum to every man, woman, and child.

5. There is at present about 100 farming leases in force, aggregating some 15,000 acres, at an average rental of about \$1.50 per acre; adding to this the dozen business leases gives a revenue from this source of about \$23,000 per annum, which amount would be materially increased were the able-bodied members of the tribe allowed to lease their allotments.

6. I would enumerate the benefits as follows: It gives the Indian a chance to become a man among men; it gives the Government and the white race in general an opportunity to ascertain whether or not the Indian can become an American citi-

zon in the full sense of the word. It is true that some of them will "go to the wall," but it is too early yet to say what the proportion will be. Owing to former environments, the proportion may exceed that of the white race for a generation or two, but it will give those who are composed of the right material a chance to get out of bondage, and show to the world that the color of a man's skin or former conditions does not necessarily make him a loafer and mendicant.

It is doubtless true that quite a proportion—possibly one-fourth—of these people were not materially benefited by the change, but it would be an injustice to hold back three-fourths of a tribe for the real or imaginary benefit of the one-fourth.

Another very important fact is, that allotment helps to break up tribal relations; it curtails the power of the so-called chiefs, sorcerers, and conjurers; it throws the Indian in closer contact and relation with the whites. The latter, even in the "wild and woolly West"—many assertions to the contrary notwithstanding—are morally and intellectually far ahead of the average "noble red man" of to-day.

With allotment and the surplus lands thrown open to settlement, the Indian's next-door neighbor—the homesteader, is as a rule a hard-working farmer, whose circumstances demand care, thrift, and economy—has his house, barn, stable, sheds, corral, etc., which may be small and rude, but they are substantial and conveniently arranged; his team, cows, pigs, and chickens are housed and cared for; the inside of his house as a rule is neat and tidy; all of which his neighbor, Mr. Indian and his wife, notice closely and in many instances pattern after. A district school is soon established in the neighborhood in which, as is already the case in several instances here, the white and Indian children sit side by side, vying with each other for the mastery of their lessons; in this school the Indian youth is quickly taught to speak English; a church soon follows the schoolhouse, and it is only a matter of a short time when the worshippers will be composed of both races.

The only disadvantages that I can call to mind, in my desire to be impartial and unbiased, is that the range for stock is materially reduced thereby, causing inconvenience to a very few of the Indians who have large herds of cattle and horses. The allotment policy, if carried to a finish, will also work a hardship on my friend Cody, by soon depriving him of suitable material for his "Wild West" shows.

Very respectfully,

S. G. FISHER,
United States Indian Agent.

SAC AND FOX AGENCY,
Toledo, Iowa, April 9, 1898.

THE BOARD OF INDIAN COMMISSIONERS,
Washington, D. C.

GENTLEMEN: I am in receipt of your letter of April 5, relative to the results of the policy of allotting Indian lands. In reply, will say that the Indians at this agency own their land in common, having purchased it from white settlers, and that no allotments have been made and none are contemplated under the present legal status. Our Indians, however, are making considerable progress in agriculture, in the raising of wheat, oats, corn, and vegetables for their own use.

I do not believe it would be wise to institute a policy among the Sac and Fox Indians of Iowa for the allotment of their lands, but two years ago I recommended to the Department the creation of a commission for the purpose of apportioning the Indian lands for agricultural purposes for a period of ten years. I believe that would materially advance the interests of our people, give independence and encouragement to such as desire to enjoy the rewards of their own labor, and finally prepare them for the allotment of their lands in severalty, but this final problem I believe to be removed as much as twenty-five years from us. I would be glad to cooperate with the honorable Board of Indian Commissioners and the Indian Department in a plan for a more systematic and satisfactory apportionment of our lands for the reasons above stated.

Very respectfully,

HORACE M. REBOK,
United States Indian Agent.

POTTAWATOMIE AND GREAT NEMAHIA AGENCY,
Nadeau, Kans., April 9, 1898.

Hon. E. WHITTLESEY,
Secretary Board of Indian Commissioners, Washington, D. C.

SIR: Replying to your letter of the 5th instant, in reference to the results of allotting lands in severalty to Indians, and submitting certain queries pertaining to the subject for answer, I have the honor to submit the following, viz:

1. One thousand and sixty-six allotments have been made.
2. One thousand and sixty-six trust patents have been issued.

3. A majority of the Indians are living on their allotted lands, both from choice and necessity, as in three of the tribes there are no unallotted lands for them to occupy, and in the case of the Prairie Band of Pottawatomies, who have surplus lands, allotments were made in every case to cover their houses and fields.

4. They are cultivating their lands to a less extent than before allotments were made by personal labor.

5. Their lands are leased to a very large extent with discouraging and dangerous results. As at first proposed, the ill results might have been checked, but with the numerous modifications that have been adopted an agency is becoming a machine through which large sums of money are disbursed to immoral, dissipated, and utterly thoughtless persons, who have neither occasion nor disposition to resort to labor, and many of whom are without moral perception.

6. The benefits are that from 15 to 25 per cent of the Indians avail themselves of their rents for practical improvements, and place themselves within the sphere of actual civilization; 25 per cent will possibly not retrograde materially, and can, by persistent watchfulness and care, be brought to an appreciation of their responsibilities as men and women.

The evil results are, that the unrestrained use of more money than they need or should have will encourage their natural tendency to dissipation, gambling, and lewdness, and result in a slow but certain extermination of a large percentage of them. These views may be better understood, when I state that the average number of acres of land held by a Prairie Band Indian and his family is about 480 acres, worth, if in cultivation, from \$2 to \$2.50 per acre, while the lands of the Kickapoos, Iowas, and Sac and Fox Indians, bring \$3 per acre cash. The allotment of lands was necessary to the individualization of the Indian citizenship and indiscriminate leasing, in my opinion is wrong and ruinous.

I have lived and worked thirty-two years among Indians, and have engaged in many struggles to protect their funds and to obtain more for them, but in view of present conditions I sometimes think that my whole course has been wrong, and that I should better have subverted their interests by taking their money from them and forcing them to labor for all that they required.

I respectfully refer you to my annual report and statistics thereto for further information on this subject, as I endeavored therein to candidly state the conditions existing throughout the agency.

Very respectfully,

GEORGE W. JAMES, *United States Indian Agent.*

OMAHA AND WINNEBAGO AGENCY, NEBR.,

November 16, 1898.

Hon. E. WHITTLESEY,

Secretary Board of Indian Commissioners, Washington, D. C.

SIR: In reply to your letter dated April 5, 1898, which was mislaid and under the rush of business forgotten, and copy of which has just been received with your letter of November 9, I have to say:

1. Nine hundred and fifty allotments have been made to Winnebagoes; 960 allotments have been made to Omahas; total allotments at agency, 1,910.

2. One thousand nine hundred and ten patents have been issued.

3. About 1,200 Indians are living on their allotted lands. (This includes about 300 who live on the allotted lands of their relatives.)

4. Six hundred Indians are cultivating their lands or the lands of relatives. This cultivation runs from a partial acreage up to the full extent of the allotment, and includes raising of grain, corn, vegetables, and the harvesting of wild hay, and in quantities during the present year, about as follows:

| | | |
|------------------------|-----------|--------|
| Wheat | bushels.. | 5,500 |
| Corn | do | 10,000 |
| Potatoes | do | 1,600 |
| Other vegetables | do | 1,000 |
| Hay | tons.. | 3,000 |

Practically no stock is raised by the Indians.

5. The lands are leased to the full limit of possibilities under the law and regulations, and of 140,000 * acres allotted 112,000 ¹ acres are leased, with the result that the Indians have or should have an income from their allotted lands—Winnebagoes, \$55,000; * Omahas, \$40,000 *—and their tribal lands bring them—Omahas, \$15,800; Winnebagoes, \$4,000—divided yearly among members of the tribe, all of which is, in my opinion, a premium on laziness and a discouragement to industrious effort and self-support among the Indians.

Leasing of allotted agricultural lands should never be permitted. The Indians should be compelled to live upon their allotments and support themselves by cultivating the land. They can do it, but will not unless compelled to. Not one acre of allotted agricultural land should be leased to a white man, and it would be far better to burn the grass on the allotted lands than to lease them for pastures to the white man. The Indians could use them to advantage for stock raising if they would. The mixing of the Indians with the class of whites who live upon and hang around an Indian reservation means the production of a mongrel race, embodying all the vices and none of the virtues of the dominant race; it means death industrially, morally, and physically to the Indian. Not a white man should be allowed within the limits of the reservation until the Government has so far advanced the Indian, by compulsion if necessary, in the industries of his reservation that they are a self-supporting community and all business and trades conducted by them. If they are to be allowed to mix, let the Indians go among the whites—not the whites among the Indians—and he will then meet them as an independent, self-supporting individual, capable, through proper instruction, to transact his own business as between man and man and with the better class of whites; not as now, as an ignoramus in the hands of unprincipled sharpers.

6. The allotment of agricultural lands to Indians as at present made is a mistaken policy. If Indians have a reservation of agricultural lands it should be kept in its tribal form for purposes of control, government, and isolation from disreputable whites. It should be apportioned in uniformly suitable tracts in size, locality, etc., for future allotment. The Indians should be carefully selected, everything considered, and assigned certain lands which they should understand is to be theirs if they prove worthy of taking it, otherwise it will be taken away from them and given to some other Indian who is. Under present laws the Indian is given an allotment; it is his, and can not be taken from him except by voluntary relinquishment. All the mistakes of a general and hasty allotment are perpetuated, while the Indian feels he is independent of the Government and can do as he likes with his land, and if he don't want to work it, he won't. The advantages of the former system or temporary apportionment subject to constant necessary revision over definite allotment, are only to be considered in all its phases to be appreciated.

The allotment of timber and mineral lands should be allowed only where, in case of the former, the laws or treaties compel allotment in order to protect the timber from decay or destruction by fire or wind. Otherwise, mineral and timber lands should be held as tribal property and developed, and products prepared for market by the Indians. No better school in the industrial arts could be given them than one in which every pound of energy was expended in their own interests and where industrial advancement meant constantly increasing revenue.

If the Indian can not be developed into a higher state of civilization on these lines, it is useless to try it under the present policies.

What a revelation it would be to our Mr. Indian if he could travel in the plane of average honor and virtue of the white man, instead of being forever brought in touch with the level of maximum vice, fraud, and deceit of the white race.

Very respectfully,

W. A. MERCER,
Captain, Seventh Cavalry, Acting Indian Agent.

**LIST OF OFFICERS CONNECTED WITH THE UNITED STATES INDIAN SERVICE,
INCLUDING AGENTS, SUPERINTENDENTS, INSPECTORS, SPECIAL AGENTS, AND
SUPERVISORS OF INDIAN SCHOOLS.**

[Corrected to October 20, 1898.]

W. A. JONES, Commissioner.....1315 N street NW.
